Featuring the Rapid-Acting Topical Lidocaine in a Novel Delivery System.

- Significant anesthetic effect without occlusion in approximately 25 to 30 minutes
- Optimum effect observed beginning in just 35 minutes
- Upper lip area may become numb after only 10 to 15 minutes
- Exceptionally safe when used as recommended
- Our proprietary Small Molecule Solubilization System™ increases the solubility of lidocaine, thereby decreasing the time limit for it to work

SCRUBWEAR

FOR HEALTH CARE PROFESSIONALS

Look professional.
Express your own style.

See pages
40 and 41
to order.

Made with the healthcare professional in mind. Our roots as a prime textile manufacturer and supplier go back more than 90 years. We pride ourselves on pioneering ideas such as colored scrub wear, green surgical gowns, printed patient gowns, and most recently, antimicrobial fabrics that kill most bacteria and viruses on contact. We strive to improve patient care and simplify your job through better products. Virtually all of our products have been developed through working with clinicians who face real issues in the healthcare environment.

For more information on Medline scrub wear, please contact your Henry Schein Sales Representative.

Care with Confidence: It's easy with TIDI

Present a professional image, put patients at ease, and provide reliable infection control—all with disposable convenience. Specify single-use products from TIDI Products.

Leak-proof poly backing adds super strength for extra barrier protection and reduced cleanup time.

Convenient perforated tear-off feature keeps changes neat.

Exam Table Paper

The ultimate in strength *and* softness, these table paper options are ideal for any exam, including those that involve fluids.

- Leak-proof poly backing for super strength and fast, easy cleanup
- Crepe and embossed crepe options for extra softness and quiet comfort
- Optional perforations every 30 inches for neat, convenient changing

CODE	DESCRIPTION	COLOR	SIZE	CASE
8953911	Embossed crepe, perforated	White	18" x 100'	12
8956321	Embossed crepe, perforated	White	21" x 100'	12
8951155	Crepe, perforated	White	18" x 125'	9
8958433	Crepe, perforated	White	21" x 125'	9
1012506	Crepe, non-perforated	White	18" x 125'	12
1012219	Crepe, non-perforated	White	21" x 125'	12

Exam Gowns

Provide the ultimate in cloth-like strength and softness for comfort and coverage. Excellent for extended wear and longer procedures.

- Two-ply, scrim-reinforced tissue is strong, soft and warm
- Sewn shoulders and sewn or reinforced necklines add strength and ensure modesty
- Nonwoven ties at the waist and neck, and full-cut designs in a range of sizes, offer a perfect fit for ample coverage and modesty

CODE	DESCRIPTION	COLOR	SIZE	CASE
8595168	XL	Light blue	30" girth x 42" length	50
8597465	2XL	Light blue	72" girth x 44" length	25
4223893	3XL	Light blue	80" girth x 44" length	25

Scrim-reinforced tissue with sewn shoulders and neckline for the ultimate in strength, coverage and comfort.

INTRODUCING!

Allergan Announces U.S. Food and Drug Administration (FDA) Approval of Latisse™ (bimatoprost solution)—
 First and Only Treatment Approved by the FDA for Hypotrichosis of Eyelashes.

LATISSE™ fulfills a significant and previously unmet need in the medical aesthetic marketplace with a product approved by the FDA that increases the growth of eyelashes, making them longer, thicker, and darker.

Available only through a doctor, LATISSE™ is a once-daily prescription treatment applied to the base of the upper eyelashes with a sterile, single-use-per-eye disposable applicator. LATISSE™ users can expect to experience longer, fuller, and darker eyelashes in as little as eight weeks, with full results in 16 weeks. To maintain effect, continued treatment with LATISSE™ is required. If use of LATISSE™ is discontinued, eyelashes will gradually return to where they were prior to treatment over a period of weeks to months (average eyelash hair cycle).

Products designed with a purpose...
... to help you help them.

Our focus is your patient's comfort

SURFLO® Winged Infusion Sets

Take a look at our wings versus the competition and you'll see why SURFLO is a very well recognized brand. Terumo's soft, flexible interlocking wings readily conform to the body's contour. The wing is angled to facilitate downward positioning of the needle during venipuncture, for less risk of vessel damage or occlusion of the lumen.

The precisely honed needle ensures ease of penetration and continued access with a single insertion.

Ⓣ, TERUMO and SURFLO are trademarks owned by Terumo Corporation, Tokyo, Japan, and they are registered with the U.S. Patent & Trademark Office. © 2010 Terumo Medical Corporation 4/10.

OPHTHALMOLOGY

MICROSCOPES

The ideal microscope for Ophthalmology, the Seiler Revelation ZOOM. The Revelation ZOOM is designed especially with the precision-minded ophthalmologist in mind. Mounting configurations include either ceiling, wall, or mobile floor stand. This 5-step magnification scope has excellent optics, illumination, and balance. The Revelation Series microscope is one of the premier ophthalmology scopes, but costs much less than its competitors.

Providing High Quality Optics Since 1945

The Exciting New RPS Adeno Detector™

"I tell patients that (the RPS Adeno Detector™) works just like a pregnancy test. If there are two lines it is positive, and one line it is negative."

– William B. Trattler, MD

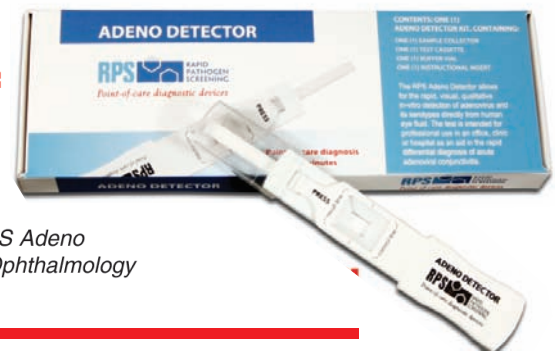

- Now available at a lower price
- Improve patient care
- Identify contagious persons in just 10 minutes
- Lower cross infections
- Apply antibiotics where they are really needed!
- Reduce treatment side effects (resistance, allergies and toxicity)
- Low unit test cost – attractive revenue potential

RPS-AD RPS Adeno Detector™

*CLINICAL PERFORMANCE:

Sensitivity	89%
Specificity	94%
Total Agreement	92%

**Sambursky RP, Tauber S, Schirra F, et al. The RPS Adeno Detector for diagnosing adenoviral conjunctivitis. Ophthalmology 2006; 113:1758-64.*

immunochromatographic test for visual, qualitative in-vitro detection of adenoviral antigens (hexon protein) directly from human eye fluid. The test is intended for use as an aid in the rapid differential diagnosis of acute adenoviral conjunctivitis.
