

INTRODUCING...

# SCAR THERAPY THAT DELIVERS

**CLINICALLY  
PROVEN BETTER  
AT TREATING SCARS  
THAN MEDERMA®  
AND CICA-CARE™**

## CLINICALLY-PROVEN SCAR THERAPY

**Cost-Effective Gel-Care®  
Advanced Sheets and Wraps  
Can Improve the Appearance of  
Hypertrophic and Keloid Scars.**

Being occlusive is easy...  
but traditional silicone  
sheets are unable to deliver  
ingredients the way  
Gel-Care® Advanced does.  
ONLY Gel-Care® Advanced

patent-pending silicone-free technology incorporates  
an occlusive therapy with the vitamin, antioxidant,  
and hydration combined in a single effective and  
easy-to-use sheet that is  
washable and reusable.  
The clinically-proven  
ingredients continue to  
treat the skin even after  
the sheet is removed.

Gel-Care® Advanced  
treats scars caused by:

- ✓ injury
- ✓ burns
- ✓ surgery
- ✓ post-procedural
