For 30 years, Professional Disposables International, Inc. (PDI) has pioneered the development, testing, manufacturing and marketing of pre-moistened wipes as the Optimum Delivery System for infection prevention and control as well as patient care.

With trusted brands including Sani-Cloth®, Sani-Surface®, Sani-Dex® ALC, Sani-Hands® for Kids, Hygea®, PDI®, Nice’ N Clean®, and Chlorascrub™, PDI continues to be the leading single source supplier for hospitals and alternate care sites.

PDI is your Partner In Infection Prevention, Education and Patient Care, serving the healthcare market through hospitals, physician and dental offices, emergency medical services, long-term and home health care, blood banks, laboratories, schools, day care and occupational health clinics throughout the United States and Worldwide.

EVIDENCE-BASED SOLUTIONS FOR INFECTION PREVENTION AND CONTROL

Fighting deadly infections and reducing cross-contamination are worldwide problems. Working with prominent healthcare institutions and industry thought leaders, PDI has developed convenient and effective product solutions for hard surface disinfection, hand hygiene and topical skin antisepsis.

Our ability to provide evidence-based solutions for infection control is a direct result of:

- Conducting extensive product efficacy and safety studies
- Educating healthcare professionals on best practices
- Working with healthcare professionals to monitor outcomes
COMMITMENT TO EDUCATION
Clinical Specialists are part of the PDI team of experts. They conduct in-service and continuing education training sessions at customer sites and assist in educating healthcare professionals on ways to reduce the risk of infection transmission.

The PDI Customer Advisory Group, comprised of end-user customers from a variety of healthcare settings, helps keep PDI’s marketing and development teams current on Specialty Market requirements and market best practices.

THE OPTIMUM DELIVERY SYSTEM
Pre-moistened wipes offer the most versatile and efficient method for the delivery of liquids to surfaces whether for personal hygiene, cleansing, disinfection or treatment. By combining the optimum substrate material and dispensing package with the appropriate formulation and friction (from wiping action) a more effective result is obtained than by using sprays, liquids or dry wipes alone. For healthcare professionals on the go, the portable delivery system is critical and convenience encourages compliance.

For pre-injection and pre-operative skin preparation, PDI offers a variety of top quality skin antiseptics to meet the needs of the healthcare professional.

**CHLORASCRUB™ SWAB & SWABSTICKS**

**Long-Lasting, Broad Spectrum Protection for Effective Antisepsis**

Chlorascrub™, the first and only 3.15% Chlorhexidine Gluconate (w/v) and 70% Isopropyl Alcohol (v/v) solution, guards against pathogens like most bacteria, fungi/yeast and viruses, making it the ideal choice for pre-operative and pre-injection skin preparation.

**SWAB**
- Pre-injection skin preparation
- Achieves >2 log₁₀ in 30 seconds and maintains 2 log₁₀ bacterial reduction for at least 24 hrs.
- Easy-to-use prep pad design covers a 6.25 square inch treatment area

**SWABSTICK**
- Pre-operative and pre-injection skin preparation
- Achieves >3 log₁₀ in one minute and maintains a >3 log₁₀ bacterial reduction for at least 24 hours
- Square, flat-shaped applicator design allows for better skin contact particularly in moist skin areas
- Peel-apart packaging ideal for use in sterile environments

**MAXI SWABSTICK**
- Pre-operative and pre-injection skin preparation
- Achieves >3 log₁₀ in one minute and maintains a >3 log₁₀ bacterial reduction for at least 24 hours
- Round, flat applicator design for larger area pre-operative skin preparation
- Peel-apart packaging ideal for use in sterile environments

A. Chlorascrub™ Swab for pre-injection skin preparation

B. Chlorascrub™ Swabstick for pre-operative and pre-injection skin preparation
### DESCRIPTION (SIZE) | REORDER NO. | PACKAGING
--- | --- | ---
A. CHLORASCRUB™ SWAB 1.0 ML (3-1/8" x 1-1/8") | B10800 | 100/box, 10 boxes/cs
B. CHLORASCRUB™ SWABSTICK 1.6 ML 1’s (1-3/4" x 6-1/2") | S40750 | 50/box, 10 boxes/cs
C. CHLORASCRUB™ MAXI SWABSTICK 5.1 ML 1’s (3-1/4" x 8") | S41950 | 30/box, 10 boxes/cs

1 Mayhall G.C., Hospital Epidemiology and Infection Control, 3rd Ed. 2004 p.1494
2 A 15 second application plus 30 second dry time with the Chlorascrub Swab on the forearm resulted in a 2.7 log10 reduction of microbial count; thus, exceeding FDA requirements of 1(one) log10, reduction for pre-injection prepping. The Chlorascrub™ Swabstick contains the same antiseptic solution as the Swabs.
3 Chlorascrub™ Swabstick and Maxi Swabstick peel-apart in non-kit package. Tear open package if taken from kit.

Antimicrobials For Proven Antisepsis

PDI® Povidone-Iodine provides longer germicidal activity than ordinary iodine solution and is non-irritating and virtually non-stinging for better patient comfort. Perfect for venipuncture, I.V. starts, kidney dialysis, pre-op prep, and other minor invasive procedures.

PADS & SWABSTICKS

- Prep Pads (I and J) saturated with a 10% USP Povidone-Iodine prep solution (equivalent to 1% available Iodine) to provide proven antisepsis
- Scrub Swabsticks (N and O) saturated with a 7.5% Povidone-Iodine scrub solution with detergents (equivalent to 0.75% available Iodine)
- Scrubs away dead skin, dirt, and oil so prep pads and swabsticks can be more effective

SOLUTION & OINTMENT

- Solution and ointment (P and Q) kills gram positive and gram negative bacteria, fungi and yeasts
- Solution (P) contains Povidone-Iodine solution USP 10% (1% available Iodine) to apply as a paint or wet soak
- Ointment (Q) contains 0.05 oz (1.5 g) (1% available Iodine) in a water soluble topical ointment

C. Adult Washcloths

- Large washcloth (11.5" x 9.5") for quick large area cleaning
- One-handed dispensing permits continuous contact between caregiver and resident
- Pre-folded cloths for continuous feed
- Hypoallergenic; alcohol and latex free

D. Personal Cleansing Washcloth

- Single fold opens easily with one hand
- Extra-large disposable washcloth (115 sq. in.)
- Gentle, alcohol-free, hypoallergenic cleansing lotion formulated with aloe vera
- Pleasant fragrance

F. Hands ‘N Face Wipes

- Cleans and refreshes
- Easy, one-handed dispensing
- Latex and alcohol free
- Canister maintains cloth moisture

G. Hygienic Cleansing Towelettes

- Provides prompt relief from localized discomfort
- For use by both men and women
- Saturated with Glycerin, Hamamelis Water NF (Witch hazel 30%), Benzalkonium Chloride 0.34%, Methylparaben 0.1% as a preservative

H. Obstetrical Towelettes

- For personal hygiene at every napkin change and whenever cleansing/refreshing is needed
- Saturated with Benzalkonium Chloride 0.40%, Alcohol 5%, Chlorothymol
HYGEA® ADULT CARE (continued)

**J. Sterile Saline Wipes**

- Eliminates cross-contamination and waste of bottled saline solution
- For post-operative eye care and dressing change
- Saturated with 3cc’s of sterile saline

**K. Oral Hygiene Swabsticks - 3’s**

- Alleviates Xerostomia or dry mouth
- Aids salivary flow, oral lubrication
- Individual foil packets prevent contamination
- Pleasant black currant flavor

**L. Lemon-Glycerin Swabsticks - 3’s**

- Premoistened Swabsticks with gentle lemon-flavored glycerin
- For use post-operatively and for swabbing whenever special oral healthcare is needed

**M. Lemon-Glycerin Swabsticks - 1’s**

SPECIALTY PRODUCTS

Uniquely Designed for the Special Situations of Daily Patient Care

In the world of patient care, it is the little things that make patients more comfortable and the health care professionals’ job easier. PDI’s Specialty Products do just that.

G. Io-Gone™ Iodine Remover Pads
- Removes extraneous iodine stains from skin & clothing
- Quickly dissolves residual iodine color more completely than alcohol
- Contains Isopropyl Alcohol 50% & Sodium Thiosulfate 3%

H. Electrode Prep Pads
- Cleanses skin in preparation for electrode placement
- Pumice removes excess skin oil for better electrode-to-skin contact and longer interface-free contact
- Contains 70% Isopropyl Alcohol and pumice

I. Castille Soap Concentrate
- Ideal for colostomy care and soft soap enemas
- Excellent for shampooing
- Mild, gentle, detergent cleanser
- Contains 0.30 fl. oz. solution of potassium soaps, glycerin and sequestering agents

F. Adhesive Tape Remover Pads
- Effectively removes tape and residue from skin
- Reduces patient discomfort
- Contains C11-12 Isoparaffin, Isopropyl Alcohol, Petroleum Naphtha, Isopropyl Palmitate, Isopropyl Myristate, Isopropyl Stearate

J. Sterile Lubricating Jelly – 2.7 gm
- Each packet sterilized to prevent contamination
- Will not get tacky – maximizes patient comfort
- Water soluble – easily washes off
- FDA 510K
- Contains Glycerin, Methyl and Propylparabens

MORE SPECIALTY PRODUCTS, PAGE 18 >>
PATIENT CARE

SPECIALTY PRODUCTS (continued)

K. Sterile Lubricating Jelly – 5.0 gm

- Each packet sterilized
- Will not get tacky – maximizes patient comfort
- Water soluble – easily washes off
- FDA 510K
- Contains Glycerin, Methyl and Propylparabens

L. Nail Polish Remover Pads

- For the removal of nail polish
- One pad sufficient for up to ten nails
- Acetone-free

M. Eyeglass Cleaning Wipe

- Safely cleans eye protection gear and glasses
- For glass and polycarbonate lenses
- Anti-static/anti-fog formula
- Dries quickly
- Does not scratch lenses

N. Compound Benzoin Tincture Swabsticks

- Reduces skin irritation for patients with frequent dressing changes
- Excellent for use in post-op wound dressing
- Contains Compound Benzoin Tincture USP containing 77% alcohol

O. Wet Prep Green Soap Sponge

- The proven standard for minor shave prep procedures
- Perfect for emergency room patient clean-up
- Ideal for general wound cleansing prior to treatment
- Foam sponge saturated with green soap solution

P. Individual Body Washcloths

- Woven full-body wash cloth wet enough to thoroughly clean and refresh the entire body
- Dries quickly, leaving no sticky residue
- Moisturizer
