

WOUND CARE

First Aid Ointments & Creams

CURAD® Ointments and Creams

Whether in tubes or single-use packets, CURAD ointment and creams provide reliable performance.

CURAD® Silver Solution™ Gel

CURAD Silver Solution is an antimicrobial gel with silver as the active ingredient. It is formulated to offer broad spectrum protection against bacteria and provide a long 'activity life' that lasts up to three days. Silver Solution is a hydrogel that applies easily and absorbs thoroughly, leaving no greasy residue like petroleum-based ointments. Silver Solution is a nonstinging, non-staining barrier that helps hydrate the wound area for ideal wound management. Pair it with CURAD bandages to protect all of those cuts, scrapes and minor burns.

Item No.	Description	Pkg
CUR45951N	0.5 oz Antimicrobial Gel	1/bx, 12 bx/cs

CUR45951

CUR01496

CURAD® MediPlast Wart Pads

- CURAD MediPlast is an ideal product for corns, calluses and warts
- Our cut-to-fit pads are convenient and easy-to-use
- The active ingredient in MediPlast is Salicylic Acid (40%), the ingredient widely recommended by physicians and pharmacists for the removal of corns, calluses and warts

Item No.	Description	Pkg

Woven Gauze Sponges

The best for traditional wound care

These 100% cotton sponges are ideal for wound dressings, wound packing and general wound care. Our strictly controlled manufacturing process assures clean, debris-free packing with folded edges to prevent unraveling. Sterile 2's are packed in coated paper envelopes to reduce fiber debris. This easy-open envelope is also carefully sealed to prevent the intrusion of dust and contaminants. Sterile 10's feature strong rigid trays. Also available in non-sterile bulk packs.

Avant Gauze® Non-Woven Sponges

Rayon/Polyester Blend

Avant Gauze® is Medline's non-woven dressing. Compared to traditional cotton gauze, Avant Gauze® produces less lint and is less traumatic to fragile granulating wound tissue because it's virtually non-adherent. It also has significantly faster wicking ability which promotes a healthy healing environment. Discover the perfect balance between strength and absorbency in this rayon/polyester blend gauze.

Sponges

NON256000H

Avant Gauze® Drain Sponges

Special fenestration for easy application

This sponge features a unique fenestration which allows it to lay flat when wrapped around a drainage tube. Without it, the sponge will pucker, decreasing effectiveness by allowing fluids to pool around the drain tube. It's a simple feature that most other drain sponges do not offer. Includes all the benefits of non-woven Avant Gauze. Each 6-ply rayon/polyester sponge is highly absorbent, low-linting and fast wicking to wound beds.

Item No.	Description	Pkg

Abdominal (ABD) Pads

Features extra absorbency and wicking

Medline's super absorbent abdominal pads feature a soft non-woven outer layer that quickly wicks fluid to a cellulose center. This thick layer of cellulose quickly absorbs and disperses fluids laterally to prevent pooling. Hydrophobic back impedes strike-through and all edges are sealed to prevent linting.

CURAD® Sterile Non-Adherent Pad

Compare to Covidien Telfa®

This sterile, absorbent rayon/polyester pad will not interfere with granulating tissue by sticking to the wound. The soft perforated film allows air to circulate and the absorbent pad allows the fluid to collect. It can easily be cut to fit any shape without separating. Latex-Free.

Sof-Form® Conforming Bandages Compare to Covidien Conform®*

This premier quality bandage gently secures to any body contour without restriction of movement and accommodates an increase or decrease in swelling. The uniquely constructed weave and finished edges help eliminate unraveling and lint. The combination of rayon and polyester help the bandage to provide stretch memory when applied. It's a patient-safe dressing that renders a neat application each time. Ideal for secondary dressing applications.

Caring® Self-Adherent Wrap

- Self-adherent, (cohesive) wrap, sticks to itself but not to skin, hair or dressings
- No pins or clips required
- Secondary dressing that functions like a tape to retain dressings without tension around digits or limbs
- Can be applied to provide light compression if desired
- Promotes pain-free removal that will not damage fragile skin
- Comfortable, porous and lightweight construction encourages patient compliance

Medtoons® Cartoon Adhesive Bandages

Children will adore the smiling bumble bees, soccer playing dogs and snorkeling fish featured on the Medtoons Cartoon adhesive bandage. Each box includes 50 strips (25 strips each of yellow, and blue) constructed from PVC-free plastic perforated for increased moisture vapor transmission. An absorbent, non-adherent island pad seals around the wound site to keep out dirt and helps protect granulating tissue. The pressure sensitive, acrylic adhesive is skin friendly and provides long lasting protection.

Wound Closure Strips

CURAD® Medi-Strips® Reinforced Wound Closure Strips

Compare to
3M® Steri-Strip®*

Adhesive wound closures with an exceptionally porous spun-bond fiber backing, includes reinforced filaments for high tensile strength. The medical grade adhesive affords excellent adhesion while being gentle to the skin. Medi-Strips are used in addition to, or in place of, sutures. Each size is in a color-coded package for quick and easy size identification.
