# DERMABOND ADVANCED™

## Topical Skin Adhesive

### A protective barrier that adds strength and inhibits bacteria

- When used in addition to sutures, DERMABOND ADVANCED Adhesive was shown ex vivo to add 75% more strength to the wound closure than sutures alone<sup>1</sup>
- DERMABOND ADVANCED Adhesive demonstrated in vitro inhibition of gram-positive bacteria (MRSA and MRSE) and gram-negative bacteria (E Coli)<sup>2\*</sup>
- Provides a microbial barrier with 99% protection in vitro for at least 72 hours against organisms commonly responsible for SSIs<sup>2\*\*</sup>

### A patented, thicker formula with a unique blend of plasticizers and an initiator for precise control<sup>§</sup>

- Plasticizers increase flexibility and 3-dimensional strength for secure wound closure and patient comfort<sup>3,4</sup>
- Initiator enables consistent setting time across various conditions and skin types<sup>5,6</sup>

Only  
**1**  
Layer Required<sup>7</sup>

**2X**  
Faster Setting  
Time (95 seconds)<sup>6†</sup>

**4X**  
More Viscous<sup>8†</sup>
