

Henry Schein, Inc. • 135 Duryea Road • Melville, NY 11747

Henry Schein Inc. is closely monitoring a U.S. Food and Drug Administration (FDA) Safety Communication regarding manufacturing sites of plastic syringe products produced by certain entities in China. The FDA has stated *“U.S. suppliers, consumers, and healthcare providers should immediately transition away from using plastic syringes made by those entities unless use of these syringes is absolutely necessary until you can complete the transition.”*

Henry Schein Inc. purchases plastic syringes from one of the entities identified by the FDA; however, the FDA has said that at this time, glass syringes, pre-filled syringes, or **syringes used for oral or topical purposes are not included**. As we sell through remaining inventory and scale-up alternative sources to minimize any disruptions, please monitor the FDA’s Safety Communication for any further updates. Please be advised that the enclosed syringe product is sourced in China and is subject to the FDA’s Safety Communication.
