DIGITAL FLOOR SCALE

Compact digital floor scale with a large backlit LCD display. Weighs accurately in both lb and kg, up to 400 lb (200 kg). Features antislip feet and a low profile for added safety. Automatically turns on. Includes 1-year warranty.

14” x 11½” x 1”

(112-7153) ........................................................... ea

Digital Scale

Nonslip mat with a 1½” thin platform. 1½” easy-to-read, red LED. Instant on/off feature for immediate weight readout and battery conversion.

• Capacity: 390 lb x ½ lb (136 kg x 0.2 kg)
• 5-year limited warranty

(110-7427) ........................................................... ea

Digital Floor Scale

A timeless beauty, with perfectly executed curves, clear LC display, and AUTO-HOLD function. It embodies grace, convenience, and precision.

• Capacity: 308 lb, (140 kg)
• Graduations: 0.2 lb (100 g)
• Weight: 4½ lb
• Power supply: 2–3-V batteries (included)
• 1-year warranty

#803

Scale-Tronix® Flush Mounted In-Floor Scale

• For wheelchair, chair, and stand-on weighing
• Level with floor to help reduce fall risk and improve ease of access
• Bright, easy-to-read display
• Weighing capacity: 825 lb/375 kg
• Platform: anodized aluminum, 32” x 36”
• Digital LED display in lb and kg, or kg only
• Surface or flush mounted
• 110 volts AC with rechargeable battery backup
• Allows for a uniform, finished-looking installation
• Printer: built-in, paper tape, uses standard thermal paper
• Resolution: 0.1 lb/100 gm
• Automatically returns to zero, ready for next patient
• Recalls last weight
• Recomputes patient’s weight while patient is on scale
• Computer capability: RS-232 output (optional)

#6102-XXF-B

(566-0578) ...........................................................ea

Digital Wheelchair Ramp Scale

• Capacity: 1000 lb/454 kg
• Resolution: 0.2 lb/0.1 kg
• Platform size: 2½”H x 36”W x 32¼”D
• Ramp size: 32½”W x 9½”D
• Display: ¾” LCD, 180° swivel
• Wheels: 4
• Connectivity: USB
• Power source: 110–240 volt adapter included; uses 6 AA batteries (not included)
• Functions: lb/kg conversion, lb/kg lockout, body mass index (BMI), zero out/tare, hold/release, re-weigh, auto zero, auto off

Non-Contact Infrared Thermometer
Specially designed to take a human body temperature while never touching the patient. Uses an infrared detection system and displays temperature on a backlit screen.
• For use on adult and pediatric patients
• Measures body temp, ambient temp and surface temp
• Audible alarm if temp is too high
• 32-reading memory
• Celsius or Fahrenheit reading
• Instantaneous reading
• 2 AA batteries (included)
MS-131000
(700-0646) ea

EXERGEN
TAT-2000 Temporal Thermometer
The temporal artery, easily visible in an infrared image, is scanned to find the peak temperature. The patented Arterial Heat Balance (AHB)™ method converts this peak to a core temperature by replacing the heat lost from natural cooling of the skin.
• Light-duty professional model
• Allows the choice of using disposable covers, full sheath, or cleaning between patients with a disinfectant wipe

STETHOSCOPES

**NURSE STETHOSCOPES**
- Offers dependable acoustics and flexible 22” Y-tubing
- Has an adjustable aluminum dual-head chest piece with an adjustable chrome-plated brass binaural
- Spare ear tips and diaphragm included
- Not made with natural rubber latex

**PRO SERIES SPRAGUE SCOPE**
Threaded chest-piece drum of chrome-plated zinc permits the use of 5 interchangeable chest-piece fittings—an adult and pediatric diaphragm as well as 3 bells (1-1/4”, 1”, and 3/4”)—for complete diagnostic capability in most patients.
- Double-tube configuration on traditional model; single tube on 1-tube design
- Proprietary valve mechanism eliminates acoustic leakage
- Adjustable chrome-plated brass binaurals
- Convenient 22” tubing length
- Inspected and packaged in the USA
- Not made with natural rubber latex
- 5-year warranty
- Weight: 8 oz
- Overall length: 30”

Pro 2-Tube Sprague

**PRO PLUS SERIES PROFESSIONAL STETHOSCOPE**
Combination adult-size chest piece is precisely machined to exacting tolerances from surgical stainless steel for outstanding performance and rugged durability.
- Extra-large bell (1-1/8” diameter) for unsurpassed low-frequency response
- Ultrasensitive diaphragm (1-1/2” diameter) for greater amplification and crisper high-frequency response
- Color-coordinated nonchill bell and diaphragm retaining rim for patient comfort
- Stainless steel binaurals with double-leaf internal spring fixed at 15° angle for greater comfort
- Reinforcing yoke molded into flexible 22” PVC Y-tubing
- Deluxe PVC ear tips (in small and large) for the ultimate in wearing comfort and acoustic seal
- Spare diaphragm included
- Available in 3 striking colors for departmental coding or personal identification
- Not made with natural rubber latex
- Scope ID tag included
- Lifetime warranty
- Weight: 6.5 oz
- Overall length: 31”

Stethoscope

**PROTECTIVE STETHOSCOPE BARRIERS AND DISPENSER**
- Disposable stethoscope barriers prevent the transmission of pathogens between stethoscope and patient
- Eliminate the need to clean stethoscope with alcohol pads between patients
- Reduce patient’s risk of getting an infection from a contaminated stethoscope
- Single-use, one size fits all
- The dispenser holds 1 roll of 500 barriers

Bars, 500/roll

**3M Littmann Lightweight II S.E. Stethoscopes**
- General-purpose, entry-level stethoscope
- Used for basic blood pressure and limited physical assessment
- Bell-diaphragm chest piece provides clear, reliable acoustic performance
- Chest-piece shape is designed for better orientation around blood-pressure cuffs and body contours
- Lightweight design
- Ear tips provide a comfortable fit and a better seal to reduce ambient noise and improve acoustics
- Anatomically angled headset

28” Tube
**VITAL SIGNS/BLOOD PRESSURE MONITORING**

**WelchAllyn**

**Spot Vital Signs™ Devices**
- Fast and accurate: completes noninvasive blood pressure (NIBP), pulse rate, temperature, and SPO2 in about 30 seconds
- Multiparameter and modular so user can select precisely the vital signs parameters they need
- Fully upgradeable to meet changing needs
- Big, bright, easy-to-read LCD screen

**ProBP 2400 Digital Blood Pressure Device**
- 3-Reading Average Mode can give a broader view of patient’s true blood pressure
- Irregular heartbeat detection provides data to assist in making testing decisions
- Manual Mode allows the device to serve as a digital gauge when auscultation is indicated
- Microprocessor-controlled deflation rate provides consistent technique
- Built-in folding handle allows the user to carry it safely and comfortably

**ADView 2 Diagnostic Station**
- Clinical-grade Advantage™ BP technology from SunTech Medical
- Contemporary, compact design with an integrated handle and easy-to-read display
- Manual blood pressure mode for real-time verification
- Customizable average mode options
- Next-generation EMR-ready with HL7 messaging for electronic data transfer
- Network-enabled with built-in Ethernet or optional Wi-Fi
- Lithium-ion power for longer-lasting battery life and a lighter weight
- Built-in memory with up to 99 charting sessions
- New Pediatric Mode to ensure accurate measurements for younger patients
- Firmware upgradable

**Blood Pressure Monitor, Digital**
- Easy to use for up to 4 users
- Stores 60 measurements per user in memory
- Displays average of all measurements
- Clock display with date-and-time stamp for logging and trending measurements
- Indicates an irregular heartbeat (IHB) during a measurement
- Pressure rating indicator classifies blood pressure in accordance with medically approved standards
- Body-movement sensor guides user to remain still during measurement
- Cuff fit error prevents inaccurate measurements by alerting user when the cuff is too loose
- Easy-to-use, wide-range cuff fits most arms (8.6”–16.5”)
- Gentle inflation enables a more comfortable measurement
- Includes carrying case and an AC adapter

**Blood Pressure Monitor, Digital**
- Stores 90 measurements in memory
- Displays average of all measurements
- Memory recall
- Clock display with date and time stamp for logging and trending measurements
- Indicates an irregular heartbeat (IHB) during a measurement
- Pressure rating indicator classifies each blood pressure in accordance with medically approved standards
- Easy-to-use small cuff
- Gentle inflation enables a more comfortable measurement
- Includes an AC adapter
- Manually enter measurements into the A&D Connect mobile app to track history

• Used for whole blood: arterial, venous, fingertip capillary, and neonates
• Simple 2-step testing
• 0.6-µL sample size, 20-second test time for glucose
• Top- or end-fill provides easy sample application with visual confirmation
• Fill trigger ensures reaction starts only when enough blood applied
• Individual foil-wrapped package
• Proven accuracy with GDH-NAD chemistry
• Minimizes potential interfering effects of common medications and substances

SUCTION UNITS

S-SCORT® III Portal
Suction Unit
The standard in many EMS agencies. It provides all of the power and versatility necessary to quickly and effectively clear an airway, weighs only 7 lb, and is economical to purchase and maintain. Despite its weight, it can stand up to the rigors of the most active EMS service. Components are encased in protective foam for exceptional protection and durability. Delivers >30 lpm clinical airflow. Vacuum is regulated by a 2-position regulator, allowing the operator to choose between full power, >525 mmHg, and reduced power, 120 mmHg (+/- 15%) for endotracheal and pediatric suction procedures. Device is powered by an internal sealed lead-acid battery, which is maintained by an AC/DC charger or a DC power cord. Shipped "ready to use," and the built-in pouch accommodates patient tubing, catheters, and other supplies.

- Lightweight, durable, and portable suction device
- Vinyl-coated nylon-over-foam construction
- Inexpensive to purchase and maintain
- Powered by rechargeable, sealed lead-acid batteries
- Clinical airflow: >30 lpm
- 2-position regulator provides a vacuum selection of >525 mmHg or 120 mmHg (+/- 15%)
- 1-year warranty

#74000
(700-2488)........................................................................................................ea
Contains: 1 of each: canister with 2-meter patient tube, dual-mode charger, DC power cord, Hi-D® suction tip & quick-start guide.

Schuco-Vac®
310 Aspirator
Regular assembly has been replaced with a bacteria filter, eliminating the cap-and-float assembly. Filter prevents fluids and other contaminants from damaging pump. This durable unit continues to meet the need for controlled vacuum regulation from 0" up to 22" Hg with a flow rate of 28 lpm.Delivers >30 lpm clinical airflow. Vacuum is regulated by a 2-position regulator, allowing the operator to choose between full power, >525 mmHg, and reduced power, 120 mmHg (+/- 15%) for endotracheal and pediatric suction procedures. Device is powered by an internal sealed lead-acid battery, which is maintained by an AC/DC charger or a DC power cord. Shipped "ready to use," and the built-in pouch accommodates patient tubing, catheters, and other supplies.

ZOLL AED Plus®

- The only AED with CPR feedback and an ECG waveform.
- Provides a one-piece electrode for accurate placement.
- Uses consumer lithium batteries that are easy to replace, long-lasting, and inexpensive.

Semi-Automatic Unit
(866-7559)
Contains: AED, electrodes, batteries, carry case, ECG, wall-mount bracket & operator’s guide.

Powerheart® AED

G3 Automatic

- Simplifies the rescue process by eliminating the need to press a shock button.
- Attaches the device to a person in cardiac arrest.
- The device detects the person’s heart rhythm, analyzes the rhythm using the patented RHETHMx® software.
- If a life-threatening rhythm is detected, instructs the user to stand clear, and automatically delivers a defibrillation shock.
- Patented RescueReady technology includes daily, weekly, and monthly self-tests of Intellisense lithium battery, internal electronics, software, and defibrillation pads, ensuring first-time, every-time shock delivery.
- Incorporates the patented RHETHMx® analysis software and STAR® biphasic defibrillation energy waveform.

Reliant 450 Battery Power Lift

RPL450-1 features:
- Manual lowering safety feature for instant response in event of power loss
- Padded swivel bar with 360° rotation for added comfort and convenience
- Low-battery audible alarm signals when charge is needed
- Wall-mounted charger holds second battery (included) for easy, nearby replacement
- 150–300 lifts per charge
- 450-lb weight capacity

RPL450-2 features:
- Powered lift with power-opening low base
- Total pinch-point protection covers all moving parts for added safety
- Height range allows lifting from floor and high surfaces
- Wide base provides maximum stability and is battery-operated for ease of use
- Ergonomic hand pendant attaches to multiple points on lift for convenience
- Manual lowering allows emergency lowering of user in case of power loss
- 450-lb weight capacity

Carroll CS Series CS7 Bed

Floor-lock system secures the bed to the floor at all height ranges but allows for mobility on demand. Caregivers do not have to wait for the bed to be raised to its full height before transporting or maneuvering. Easy-to-read indicator alerts staff if the bed is off its castors and not locked properly. Exclusive arched-slat deck design allows for improved infection control and reduces wear and tear on mattresses. Features a rugged hand control, with bright, universal symbols, allowing residents and staff to easily operate the comfort controls of the bed. Optional 10-function attendant control panel allows staff to easily operate all functions of the bed from the footboard. In addition, staff can choose to restrict access to the resident by locking out any or all functions of the hand control directly from the panel.

- 7”–30” height range
- 500-lb weight capacity
- Ergonomically designed, rugged, water-resistant pendant
- Rapid, tool-free assembly minimizes delivery set-up time and makes maintenance easier
- Universal deck length (76” or 80”)
- Optional battery backup
- 190 lb
- Swivel wheels
- Back angle: 70°
- Overall width: 36”/39”/42”

Mattress sold separately.

C-Based Overbed Table with Adjustable Height

Features a convenient flat surface for those confined to a bed or chair. “C”-shaped base allows for closer access while in a chair. It is easy to assemble and height-adjustable. Can be adjusted for right- or left-handed use.

#329359
(672-0107).........................................................................ea

Composite Overbed Table, Non-Tilt

- Easy to assemble
- Molded composite top is a smart alternative to wood, which, over time, has the potential to crack or peel
- Easy to clean and impermeable to moisture
- Height adjusts infinitely between 28.3” and 41.7” 28”W x 15”D. Base: 24”W x 15”D
- Chrome-plated H base and column for aesthetics and durability
- Twin-wheel swivel casters provide smooth-rolling action
- 2 locking and 2 nonlocking casters
- Supports up to 50 lb of dispersed weight
- Gray

**Champion Recliners**

- Champion offers a variety of Recliner options in both manual and powered options for fulfilling a safe and comfortable experience during use. In addition these chairs offer Trendelenburg options and swing away arms for caregiver use. Champion sets themselves apart from their competitors by offering swing arm chairs that all swing 180 degrees as an option in addition to their “infinite position” option of their chairs that allows the patient to lean back to a spot and the chair will hold them in that spot until someone changes it.

- Champion offers a wide array of accessories for their recliners to allow for further patient comfort based on your needs which include but are not limited to: Black over-lap tray, Fold-away table with cup holder, Swing-away table (with or without cup holder), Cup holders, Head pillow/lumbar support, Cushion wedge/arm support, Blood draw arm support, Push handle cover, Head flap protector, Arm covers, Rear back flap, Monitor mount, Tablet table, Nocturnal sleep pad, Nocturnal sleep guards, Footrest extender, IV pole (2 or 4 hook), Oxygen tank holder, IV bracket, IV Rolling locking base, Bag hook, Personal items storage bag and Paper roll dispenser.

*For further information on Champion chairs and the options available, please call your representative today!* 

---

**Graham-Field Recliners**

- Graham Field offers a wide array of color options and chair styles aimed at ensuring that every patient who walks into the clinic will get a comfortable seating experience. Graham Field offers chairs with Trendelenburg and folding side table with drop arms for assisting in the ease of getting the patient into the chair.

- Graham Field offers a handful of accessories and add-ons for their chairs that are but not limited to: side table, cup holder, heat and/or massage options and headrest covers. They also offer an XL version of said recliners to allow for all varieties of patients who may walk into the clinic.

*For further information on Graham-Field chairs and the options available, please call your representative today!* 

---

**Winco Recliners**

- Winco sets themselves apart by providing both drop arm and swing arm chair options for the ease of moving a patient from their wheelchair to and from the dialysis chair along with ease for the caregiver in cleaning the chair after a patient has left the dialysis chair.

- Winco’s most popular chair is the Elite Care Cliner with 90° swing arm functionality. They come in both regular and XL sizes with Trendelenburg positioning and dual folding side tables. The second most popular recliner is their 6530 and 6540 recliners which also come standard with Trendelenburg and dual side tables. Options for these recliners for patient comfort include but are not limited to: Heat, Heat and massage, and side cushions.

*For further information on other styles of Winco recliners and the options available, please call your representative today!*

INFUSION PUMPS/IV POLES/PRIVACY SCREENS/STANDS

**ZYNO MEDICAL**

**Infusion Pump**
- Set-based free-flow protection
- Used in conjunction with B series IV sets, the IV set incorporates a modified Roberts clamp that when properly loaded into the pump provides an automatic backup safety system to the pump-based, free-flow protection device-only system
- The Roberts clamp easily loads into the pump in the designated holder
- A built-in sensor ensures that the pump cannot be used without the clamp being properly installed
- During operation if the pump door is opened the pump-based clamp and the set-based clamp will automatically close
