BIO PRODUCTS

Hygoformic® Bio

Eco-friendly Green PE!

Green PE is a fossil-free, bio-based polyethylene made from sugar canes. Unlike conventional PE where fossil raw materials such as oil and natural gas are used, sugar cane is a completely renewable resource. Hygoformic is the original, mouldable saliva ejector with adjustable tongue holder for patient's comfort. Used by dentists all over the world for more than 50 years.

- The original mouldable saliva ejector
- Adjustable tongue holder for patient's comfort
- Manufactured in an environmental friendly mixture of PE/PP
- Pack of 100 plus 5 soft adaptors (11144201)

Hygovac® Vent Bio

Hygovac Vent Bio is a double-ventilated disposable aspirator tube with one traditional 45° end and one S-shaped end. The Hygovac Vent is equipped with double holes on each end which strongly reduce the effect of getting stuck. The Hygovac Vent Bio still has the same diameter and provides the same suction as previous Hygovac products. White and natural green, length 140 mm.

Hygovac® Bio

Hygovac Bio is a range of aspirator tubes made of renewable resources, developed to save and reduce the use of fossil resources and the level of greenhouse gas emissions. Taking the necessary steps towards a more sustainable future it is important that future plastic materials are made from renewable raw materials as well as resource efficient, recyclable and safe from both a health and environmental aspect.

- Length 120mm and short 95mm
- Manufactured in bio-based polyethylene (PE)
- Pack of 100 tubes
