

At last a peel so gentle, all you will notice are the results.

Refinity Homecare Line

Purifying Cleanser: A mild, soap-free cleanser designed to cleanse the skin thoroughly but gently from impurities such as make-up, dirt and oil. This cleanser will leave your face looking and feeling hydrated and smooth. **#187-0042**

Protective Toner: This unique formula with Cosmederm-7™ not only helps to tighten pores, but also provides all day protection from the irritating chemicals in the environment. Our research on Cosmederm-7™ demonstrates its powerful effect of reducing irritation by almost 80% from any and all high strength acid products. **#187-0045**

Rejuvenating Lotion (normal skin): This light yet emollient lotion gently exfoliates and moisturizes normal skin. **#187-0044**

Rejuvenating Hydrogel (oily skin): This oil-free moisturizer is ideal for the oily T-zone and blemish-prone skin. **#187-0046**

Rejuvenating Cream (dry skin): This non-greasy moisturizing cream provides intense moisture and exfoliation. When used on dry skin, our formula helps to trap natural moisture in the skin to provide a dewy even complexion for day or night use. **#187-0043**

REFINITY™ Skin Solutions 70% Peel: The REFINITY™ Skin Refining System offers the only 70% (pH 0.6) glycolic acid peel with little to no irritation. Doctors have always known the benefits of Alpha Hydroxy Acids (AHAs); however, the problem has been getting the acid level high and the pH low without the irritation. REFINITY™ Skin Solutions with Cosmederm-7™ is our alternative to the harsh effects often caused by most other high strength chemical peels. Our patented Cosmederm-7™ is the only technology clinically proven as an anti-irritant to suppress burn, sting and itch in high levels of acid. **Cosmederm-7 = Strontium. Strontium is a natural occurring metal, chemically similar to calcium. It selectively suppresses sting, burn, itch and aids in eliminating Erythema.** Cosmederm-7™ works with AHAs to provide comfort while delivering medical strength results. The REFINITY™ Skin Solutions Peel can be left on for much longer than its competitors without irritation, allowing the glycolic acids to penetrate deeper and longer for maximum cell renewal. With the REFINITY™ Skin Refining System, you may achieve the skin enhancing benefits of a high-performance peel starting at your first treatment – even if you have sensitive skin. This advanced technology increases the production of collagen and elastin fibers, and reduces the appearance of fine lines and wrinkles, thus improving skin tone, texture, color and elasticity. Immediately after the treatment, you should be able to resume your normal activities. This peel can be successfully used on the face, neck, hands and chest.

REFINITY™ Skin Refining System (70% Glycolic Acid Peel, pH 0.6)
