## Flu seasons are unpredictable, using a safety hypodermic needle shouldn't be.

With 3 ways to activate and a broader range of sizes than most other brands, SurGuard®3 is the industry's most adaptable safety needle. Add separate thumb and finger grips, unequalled sharpness,\* and competitive pricing, and you'll understand why we say SurGuard®3 is the one needle that fits *every* clinician's style.

Plus, SurGuard®3 has the sharpest needles among major brands tested.\*

- 10% sharper than similar needles from other leading brands.
- More comfortable injections for patients.

**Bottom line:** No matter what you're looking for in a needle, you're looking for SurGuard®3.

## 3M Health Care - Innovative solutions from a trusted supplier - for better health

### Your Complete Resource for Skin Solutions

#### 3M™ Kind Removal Silicone Tape

Provides reliable securement, kind removal, and gentle wear without compromise

- Security: Offers reliable and constant fixation, remains in place until you decide otherwise
- Comfort: Removes cleanly, without disrupting fragile skin layers or causing patients undue pain
- Ease of use: Can be repositioned and neatly torn by hand

#### 3M™ Coban™ LF Latex Free Self-Adherent Wrap with Hand Tear

Coban LF Wrap with hand tear has what it takes to be easy on patients and clinicians

- Scissors-free application reduces risk of infection for patients; can be easily and cleanly torn by hand
- Comfortable: soft, breathable, lightweight, conformable

#### 3M™ Steri-Strip™ Antimicrobial Skin Closures (Reinforced)

Offers wound closure and support with a special adhesive containing Iodophor

- Iodophor incorporated in the adhesive
- Less risk of infection vs sutures and skin staples

#### 3M™ Tegaderm™ +Pad Film Dressing with Non-adherent Pad

Dress for Success - Trusted Performance and Reliability

- A bacterial and viral\* barrier—helps prevent external bacteria and contaminants from entering the site
- A waterproof barrier—patient may bathe or shower without removing dressing

Please contact your Henry-Schein sales representative for details on these products from 3M.

\* In vitro testing shows that the transparent film dressing provides a viral barrier from viruses 27 mm in diameter or larger while the dressing remains intact without leakage.

## Patient-centered care. It's time.

Streamline your workflow and be more efficient so you can spend more time caring for your patients. The Midmark 625 Barrier-Free® Exam Table with IQscale™ and IQhub™ makes it all possible. Featuring an integrated digital scale, the 625 weighs patients quickly and discreetly while you run scale functions and send data to the EMR.

IQhub™ lets you connect other digital diagnostic devices at the point of care, including the IQecg® and IQspiro®. The diagnostic data is then ported directly through the IQhub™ to your computer with speed and accuracy.

**Purchase an eligible 625 September 3 – December 20, 2013 and get up to \$800 back!**

### Aaron 940™

Designed and engineered to be the most reliable and durable desiccator available today, the unit's life is prolonged by incorporating the latest in chip technology and reducing the number of internal parts, thereby generating less internal heat. Postprocedure and long-term cleanup are simplified by its nonabsorbing, nonstaining, high-impact plastic case. It continuously monitors every aspect of the unit's output. At the sign of any problem, the machine instantly disables the output and displays the appropriate error code on the display. The Bovie® 3-Button Handpiece is better designed inside and out. The basic function of a 3-button handpiece is to allow the user to control power up/down and to activate the high-frequency desiccator. The Aaron 940™ has a technology advantage right in the handpiece: a superbly engineered collet that's even gold-plated for superior conductivity. The collet is attached to the circuit board and the entire handpiece is encapsulated and formed in a high-tech polymer that combines comfort with a sure grip. The buttons on the handpiece have been designed for superior tactile feel and comfort.

- Dimensions: 15.9 cm (6.3") H x 22.2 cm (9") W x 11.4 cm (4.5") D
  - Weight: ≤1.4 kg (≤3 lb)

### AARON 950™ High-Frequency Electrosurgical Generator

First high-frequency desiccator with Cut. It features Cut, Blend, Coagulation (60 W each), Fulguration/Desiccation (35 W), and Bipolar (30 W) modes with 6 presets for the veterinarian's favorite settings. Easy-touch color-coded membrane pads, on front panels, allow for quick selection of each setting. Power output may be increased or decreased via the 3-button handpiece or the rotary power-control dial. For maximum flexibility, a complete line of disposable and reusable electrodes (blade, ball, needle, and loop) and bipolar forceps are available.

### Alere™ Triage® MeterPro™ Meter

High-performance, comprehensive cardiovascular and drugs-of-abuse testing in the laboratory or at the point of care (POC). Designed to provide diagnostic results quickly and easily. Quantitative diagnostic panel results are displayed and printed in easy-to-read numbers and highlighted when the result is above the cutoff. Qualitative diagnostic panel results are displayed as positive (POS) or negative (NEG), eliminating the need for interpretation of lines that often hamper qualitative diagnostics.

- 16 immunoassays available
- Results in about 15 minutes
- Whole blood, plasma, or urine
- Customizable test panels
- Onsite training and implementation support
- Results printed, displayed, and interfaceable
- Full connectivity support

## First, Best & Always

You prefer perfection,  
{ and we're happy to keep it that way. }

Podiatrists and Orthopedists across the U.S. and Canada keep choosing Gebauer's Ethyl Chloride® as a cost-effective, preferred anesthetic. You continue to make the world's first topical anesthetic skin refrigerant the most trusted.

We respect that trust, so we're staying true to the perfect original formula.

Thank you for your continued support.

**Xact® Extremity Ring Markers**

The 15-mm markers are perfect for marking areas of interest on hands, arms, and feet. They create a clear and easy-to-see circular indicator of known 15-mm diameter. The 10-mm markers are perfect for indicating areas of interest in the fingers and toes. Many facilities use them to mark problematic screws and other hardware prior to surgery, and to identify areas of digital pain.

- Designed for X-rays of bone such as in the hands and feet
- Are easy to use; just peel and stick the self-adhering backing to the patient and take multiple view radiographs.
- Used in podiatry, orthopedics, plastic surgery, and emergency departments
- Lead-free and latex-free
- Thin, flexible, and highly conforming
- Hypoallergenic adhesive—they won't fall off
- Convenient and environmentally friendly dispenser box

## MEDICAL BREAKTHROUGH FOR LOWER BACK PAIN

### DDS 500 LUMBAR TRACTION

Disc Disease Solutions, Inc. introduces a revolutionary approach in the treatment of lower back and radiating pain due to spinal disease and injuries.

The function of the **DDS 500** is scientific, precise and very simple. Spinal traction is created as the brace inflates. The vertical air cell expansion mechanism decreases the axial loading while increasing the intervertebral disc space by anchoring up underneath the rib cage pushing upwards, and down against the pelvic girdle pushing downwards. This action stretches the torso vertically, diverting the weight bearing forces away and reducing the pressure within the lumbar spine region, significantly reducing pain levels while assisting active-rehabilitation.

- *Thin and lightweight and offers a high degree of mobility.*
- *Assists with active-rehabilitation and can be discreetly worn under clothing.*
- *Provides pain relief for patients with Herniated and Bulging Discs, Muscle Spasms, Degenerative Disc Disease, Sciatica, Spondylolysis and Spinal Stenosis.*
- *Also available in cervical.*

*Add DDS to your line of products  
and earn extra income!*

### 3M™ Tegaderm™ Transparent Film Dressings, Frame Style

Transparent film dressings designed for protecting skin and wound sites while allowing easy monitoring of wounds without the need to remove the dressing. Unique sacral shape is designed for challenging and difficult-to-dress areas. Dressings conform to the body and flex with skin for greater patient comfort. Waterproof dressing provides a bacterial and viral barrier to outside contaminants and allows the patient to shower. Breathable film allows moisture vapor and oxygen exchange while providing a moist wound environment for enhanced healing. Dressings with label area have a built-in documentation label that is easy to write on.

## FLASH YOUR CONFIDENCE

**With SurFlash® safety catheters —  
clinically proven to increase first-stick success by up to 25%<sup>1</sup>**

### A better experience for clinicians and patients

As the only safety IV catheter with a double-flash feature that verifies both needle and catheter placement, SurFlash® improves first-stick success.

SurFlash® catheters reduce needlestick injuries, blood exposure, and cost (because of fewer wasted catheters). With its new pressure rating, proprietary safety valve and bevel-up indicator, SurFlash® has it all!

# INCREASE REVENUE \$20K PER MONTH THROUGH OBESITY CARE UNDER THE AFFORDABLE CARE ACT

## Typical Insurance Patient

## Typical CMWL Obese Patient: Preventive Services Under the Affordable Care Act

### NO DEDUCTIBLE NO CO-PAY

With preventive services being a cornerstone of the Affordable Care Act, a 15 minute obesity preventive visit will generate, on average, \$172 in net revenue with no deductible or co-payment. A practice looking to expand and increase revenue no longer needs to generate more new patients to their practice but can focus on the obese patients in their existing practice that they see daily for the 53 diseases related to obesity including hypertension, type II diabetes and cardiac disease.
