How Can Henry Schein Medical Help Your Surgical Practice?

We can support your facility’s every need.

Serving your unique environment – Whether you perform minor surgical procedures in your office or operate a freestanding, multi-specialty surgery center, Henry Schein Medical provides the products and services you rely upon to improve your center’s efficiency and profitability.

Partnering for Success – Our team of knowledgeable professionals can work with your team to achieve all of your business goals. Through our SurgiTeam Solutions Program, we have partnered with some of the strongest surgical supply manufacturers in the industry, offering a full line of support resources to address your facility’s activities.

SurgiTeam Solutions – YOUR SINGLE SOURCE FOR EVERYDAY SURGICAL PRODUCTS, including:

• Wide range of branded and generic pharmaceuticals
• Broad selection of manufacturers to meet your every need
• Distribution network that is second to none, featuring:
  – Reliable and customizable delivery of critical surgical products, including custom surgical kits and packs
  – Dedicated account representatives to develop solutions designed specifically for your center
  – Inventory-management solutions to drive efficiency and profitability
  – Comprehensive online ordering tools
  – Over 6,000 high-quality, cost-saving Henry Schein Brand Products

**Henry Schein Brand Products for Your Surgical Practice**

**DISPOSABLE VAGINAL SPECULA**
Recommended for routine gynecological exams.
- Allows examination of vaginal mucosa at a 360° angle without rotation.
- Provides wide range of adjustability (angular and elevation adjustments).
- One-handed manipulation for ease of operation.
- Self-holding in various opening positions.
- Decreases risk of contamination.
- If needed, apply lubrication for better comfort during examination.
- Made of hard, clear, nontoxic, high-strength plastic resin.

- **Small**
  - (102-5396) ................................10/pkg
  - (102-5397) ................................10/pkg
  - (102-9422) ................................10/pkg

**DISPOSABLE SCALPELS**
Sterile.
Individually peel-backed for convenience.
Plastic handle with millimeter scale and durable stainless steel blade.
- European raw material; high-quality steel.
- Sharp: clean, true, consistent cut.
- Strong: reduced breakage.
- Packaging: superior protection and handling.
- Testing: consistent high quality; assured quality to international standards.

- Specify:
  - Scalpels .............................10/box
    - #10 ................................ (112-6196)
    - #11 ................................ (112-6189)
    - #12 ................................ (112-6194)
    - #15 ................................ (112-6187)
    - #20 ................................ (112-6193)

**SURGICAL SKIN MARKERS**
These surgical marking pens provide an accurate and reliable way to mark the incision site prior to surgery.
- Prep-resistant.
- Nonabrasive tip.
- Large ink reservoir.
- Non-Sterile, Fine Tip, Ruler, and Up to 9 Labels.
  - (900-7018) .................100/box
- Sterile, Fine Tip, Ruler, and Up to 6 Labels.
  - (900-7019) .................50/box

CONTOUR® Blood Glucose Meter
Cleared for multiple-site testing, which means more choice and flexibility about where you test: finger, forearm, palm, abdomen, or thigh—it’s up to you. However, be sure to talk with your health care professional first to ensure that alternate site testing is right for you.
• No coding required
• Automatic underfill detection
• Automatic control marking
• Automatic temperature control
• Small sample size (0.6 µL)
• Quick testing time—results in 15 seconds
• Saves information for up to 240 tests with time and date

#7111, Control–High, 2.5 mL (147-8283)…………………ea
#7110, Control–Low, 2.5 mL (147-5579)…………………ea

CPT® Code; 82962QW

Aldre™ INRatio2® Monitor
Allows you to obtain a prothrombin time (PT) and international normalized ratio (INR) result using 1 drop of blood from a fingerstick.
• CLIA waived
• Easy to use
• Single-button operation
• 1-step auto turn-on with strip insertion
• Larger LCD screen and easy-to-read digits
• Small, 1-drop (15 µL), sample size
• Wider test-strip area for easier sample application
• Test results in under 1 minute
• Test strips do not require refrigeration
• 2-channel, on-board quality control runs on every test
• No need for external liquid quality control or extra strips
• Test strips are individually wrapped and stored at room temperature

INRatio2 Professional Monitor Kit (111-3837)…………………ea

#INR2QS3 Quick Start #3 (111-3844)…………………ea
Contains: analyzer, 3 boxes of 48 INRatio test strips (144 total), 150 Unistik® single-use lancets, 200 alcohol pads & 250 gauze brick pads.

#INR2QS5 QuickStart #5 (111-6578)…………………ea
Contains: analyzer, 5 boxes of 48 INRatio test strips (240 total), 250 Unistik® single-use lancets, 300 alcohol pads, 5 boxes of capillary tubes & 500 gauze brick pads.

#INR2-6PK 6-Box Promo (112-3230)…………………ea
Contains: analyzer, 6 boxes of 48 INRatio test strips (288 total), 10 single-use lancets & 10 capillary tubes.
CPT® Code: #85610QW

### Why move to devices and IV administration sets produced with non-DEHP materials?

**A lower risk alternative**

Patient safety is an important consideration. The reduction of DEHP from healthcare products reduces the risk of adverse effects among neonates and other high-risk patients.

**A “green” standard**

Efforts to minimize the release of DEHP into the environment are becoming increasingly common among healthcare facilities. Choosing non-DEHP products helps to support that endeavor.

**An efficient solution**

Choosing non-DEHP products provides the opportunity to standardize. Product selection and efficiency may be enhanced with a smaller, more manageable inventory.

Reduced risk, less harm to the environment and greater efficiencies may not be the only benefits of non-DEHP materials for YOUR organization. Have you thought about what other benefits might be generated by moving to non-DEHP devices and sets?
gelfoam® Sponges
Sterile, absorbable, gelatin sponge indicated for use in oral and dental surgery as an aid in providing hemostasis. May be used either dry or moistened. Gelfoam should not be used in closure of incisions because of interference with healing.

3M™ Tegaderm™ Transparent Film Dressings, Frame Style
Transparent film dressings designed for protecting skin and wound sites while allowing easy monitoring of wounds without the need to remove the dressing. Unique sacral shape is designed for challenging and difficult-to-dress areas. Dressings conform to the body and flex with skin for greater patient comfort. Waterproof dressing provides a bacterial and viral barrier to outside contaminants and allows the patient to shower. Breathable film allows moisture vapor and oxygen exchange while providing a moist wound environment for enhanced healing. Dressings with label area have a built-in documentation label that is easy to write on.

Contact your Henry Schein Medical Consultant to explore our wide selection of Henry Schein brand sutures.
**HENRY SCHEIN**

**BRAND SURGICAL PRODUCTS**

---

**HENRY SCHEIN®**

**SUTURE REMOVAL KIT**

All items are sterile and latex-free.

(112-5822) ............................................. ea

Contains: 1 pair of small-loop, 41/2" straight metal iris scissors; 1 pair of serrated, 41/2" metal forceps; 1–3" x 3" gauze pad; & 1 large alcohol prep pad.

---

**HENRY SCHEIN®**

**NON-FENESTRATED DRAPES**

Sterile

Polylined, Nonfenestrated, Tissue/Poly/Tissue

- Heat sealed along 2 outer edges to ensure a pinhole-free plastic layer that guarantees maximum protection against bacterial strike-through from below
- Features polyethylene lining between 2 layers of absorbent-strength tissue, virtually eliminating risk of bacterial migration and strike-through
- Using blue-tissue side up prevents glare
- All sterile fields are available in convenient dispenser boxes of 50 each

Blue, 18" x 26"

(900-4686) .................50/box

---

**HENRY SCHEIN®**

**FENESTRATED DRAPES**

Sterile, with 3" Round Fenestration, Tissue/Poly/Tissue

- Allows access to the operative site while it protects surrounding area
- 3" round fenestration option is die cut and heat sealed, leaving a smooth, even edge that prevents linting
- Blue/white combination for antiglare
- Generously sized
- Individually packed, 300 per case (6 dispensers of 50 each)
- Latex-free

Blue, 18" x 26"

(900-4685) .................50/box

---

**HENRY SCHEIN®**

**DISPOSABLE SKIN STAPLER—35 WIDE**

Our disposable skin stapler is specially designed for surgical skin suturing. With novel structure and application security, it has the advantages of quick-speed when sewing up during operation, modest histological reaction, and good wound matching and healing. It enables you to work with higher efficiency and assists in avoiding cross infection effectively. There is no pain during removal, and scarring is minimal.

Skin Stapler

(900-7010) ......................... ea

Skin Staple Remover

(900-7011) ......................... ea

---

**HENRY SCHEIN®**

**DRAPE SHEET**

36" x 48" White

(979-3658) .................100/case

---

**HENRY SCHEIN®**

**TONGUE DEPRESSORS**

Highly polished and splinter-free. Designed for oral use or topical application.

- Sterilizable by autoclave, gamma radiation, or EtO: promotes sterility
- White birch has a high tensile strength: resists breakage
- Available in sterile and non-sterile packaging

Non-sterile, Junior 5½"

(100-0758) .................500/box

Non-sterile, Regular 6"

(100-2416) .................500/box

Sterile, Individually Wrapped, Regular 6"

(100-0238) .................100/box

PERSONAL PROTECTION

Surgical Tie-On Face Mask
Fluid resistant inner and outer layers. Extra large panel for surgical procedures.

ASTM LEVEL 2
Excellent protection against moderate amounts of fluids.

50/box | 107-3550

Surgical Molded Face Mask
Splash-resistant barrier. Flared edge prevents irritation. Soft, flexible nose piece.

50/box | 107-2953

Brawny Industrial® Surface System Wiper and Bucket
Because disinfecting is more than cleaning

The Brawny Industrial® Surface System Wiper and Bucket allows users to add their preferred disinfectant or sanitizer and create their own hard surface wet wipes. Replacing open buckets and spray bottles used with cloth will help create a more efficient and safe disinfecting alternative for end users.

TOPICAL SKIN ADHESIVE
Sterile, 0.5-mL Single-Patient-Use Plastic Ampules. FDA-approved liquid adhesive consists of n-butyl-2 cyanoacrylate. Available in both regular (translucent) and blue formulations. Both polymerize in seconds upon being exposed to water or water-containing substances such as human tissue.

• Forms a strong bond that seals wounds quickly
• Inhibits growth of bacteria
• Provides a precise, controlled application
• Won't clog or dry out when opened
