Psoriasis is the most common autoimmune disease in the U.S. - As many as 7.5 million Americans have psoriasis and at least half of all the people who have psoriasis have it on their scalp.  
Source – National Psoriasis Foundation

The total cost of psoriasis in the U.S. is estimated at $11.25 billion due to medical expenses and lost wages.  
Source: Journal of the American Academy of Dermatology, November 2008

Emollients are a basic, yet important part of the psoriasis treatment regimen. Moisturizers are capable of improving the appearance of the lesions by providing hydration and reducing the scaly presentation.  
Source: Steven R. Feldman, 1998

If Skin Care® Ultra Zinc Cream is an over-the-counter cream used to reduce the discomfort and symptoms associated with eczema and seborrheic dermatitis. Formulated with 0.25% Zinc Pyrithione, this product is one of the most effective antitching and anti-scaling agents available and provides relief to those who suffer from chronic skin conditions such as poison ivy, poison oak, rashes, contact dermatitis, and mild cases of psoriasis and eczema.

187-0104 4 oz. Jar

Theraplex® Emollient is ideal for those who have severe dry skin, suffering from eczema, seborrhea, and psoriasis. The quick absorbing formula penetrates in a matter of seconds to deliver instant hydration. Hydrosilicone allows the emollient to soak deep within the skin, for lasting moisture. This noncomedogenic, fragrance-free emollient can be used for immediate daily relief.
