California customers please use website when ordering for Prop 65 information.

Prevention is Power is a new, multi-year public health awareness campaign to drive patient adoption of a preventive, integrated health care model to improve overall health outcomes. We will increase health literacy; foster an understanding of the connection between oral health and overall health for providers and patients; and promote the importance of maintaining routine preventive care to reduce the burden of noncommunicable diseases (NCDs), including heart disease, diabetes, and other conditions.

The campaign will include the Prevention is Power Health Care Screening Program, a special partnership with the National Association of Community Health Centers (NACHC) to promote utilization of integrated preventive health care, maintenance, and early detection among patients with chronic conditions through patient education and support. Selected CHCs receive cash, in-kind grants, and educational materials to support community-based screening events, campaigns, and programs related to NCDs and oral health.

The campaign will also include pilots in select geographies in partnership with providers to bring new patients into regular primary care, including oral care, as well as provide tools for clinicians in private practice and larger health systems.

Research is clear:

Regular access to preventive health care = Improved health for individuals, communities, and society = Higher productivity and economic growth

Overcoming Challenges

64% of Americans only go to a physician or dentist when something feels "extremely wrong"

53% say it is difficult to access health care

35% say they would benefit from more information and education about the importance of screenings and routine care

CARING FOR WOMEN'S HEALTH INVOLVES ADDRESSING A RANGE OF MEDICAL NEEDS UNIQUE TO FEMALES, SUCH AS REPRODUCTIVE HEALTH, PREGNANCY, AND GYNECOLOGICAL CONDITIONS.

This requires specialized knowledge and fit-for-purpose medical and surgical supplies to deliver care with confidence. Henry Schein Medical understands these complexities and offers a comprehensive selection of products to empower your practice so you can empower women.

We provide OB/GYN practices with a wide array of medical and surgical supplies essential for delivering high-quality patient care. These include medical equipment, surgical instruments, pharmaceuticals, and office supplies, all designed to meet the unique needs of OB/GYN practices.

Partnering with Henry Schein is crucial for OB/GYN practices aiming to enhance their capabilities in women's health. With fast shipping and top-notch customer support, Henry Schein ensures that OB/GYNs have the tools they need, when they need them, to provide the best possible care to their patients. This partnership not only streamlines the process of acquiring supplies but also provides access to top-quality products and ongoing support, empowering OB/GYN practices to deliver excellent care and improve patient outcomes in women's health.

Improving Patient Health Better BP[®]

Heart disease is the leading cause of death for Americans today and hypertension is a contributing and modifiable risk factor for heart disease and stroke.¹ **Proper patient positioning** alone can lower resting blood pressure (BP) measurements by 7 mmHg systolic and 4.5 mmHg diastolic.² That's why, Midmark designed the first and only fully integrated point of care ecosystem that has been clinically validated to achieve improved accuracy for a resting BP.

- 01** Low-height exam chair helps patients keep their back supported and feet flat on the floor
Articulating arm rail supports the patient's arm and cuff at heart height
- 02** Automated vital signs promote consistency and data accuracy
- 03** EMR connectivity improves workflow efficiency and reduces errors

Learn more about 3 key considerations (and products) at: henryschein.com/midmark

Scan to explore the latest study reporting the cumulative effect of poor positioning that occurs when BP is taken with the patient sitting on a typical clinical exam room table.

Ritter 224 Barrier-Free® Examination Chair

The number of elderly and obese in the U.S. is steadily growing, and over one fifth of adults in America are disabled. Assisting patients with mobility limitations onto exam chairs has become a frequently performed task. Although caregivers working in health care facilities are in one of the most at-risk professions for musculoskeletal disorders, little has been done to evaluate and reduce risk. The Ritter 224 is designed to offer low and high positioning heights so you can provide the best care to all patients, whether treating the elderly, expectant mothers, or patients with disabilities.

#224-002, Without Clean Assist Roller System (133-0159).....ea	
#224-003, With Clean Assist Roller System (133-0268).....ea	

Ritter #230 Universal Power Procedures Table

Features eight-way power for effortless patient positioning. Whether it is power height, back, foot, or tilt, it does the lifting for the physician—minimizing back stress, reducing workplace injury, and keeping patients comfortable.

- Power height, back, foot, and tilt
- 450-lb patient weight capacity
- 22½" to 40" seat height adjustment
- "Knee-chest" position configurable
- Hand control standard
- Seamless upholstery top
- Articulating headrest
- Adjustable stirrups
- 18" paper roll holder
- Meets UL 60601-1 and CAN/CSA C22.2 No.60101-M90 safety standards
- Hospital grade electrical outlets and table rotation also available
- Optional foot control
- Available in 8 seamless upholstery colors

425 Air Lift Physician Stool

Designer Series

Designed for your comfort and support all day, every day. Choose the features you want. Start from the "bottom up" with the frame and seat, then add the back and armrests. Order everything you want at once, or add on later, as you prefer.

(151-4236).....ea	
-------------------	--

626 Barrier-Free® Examination Chair

Many health care providers are not aware of current standards for proper blood-pressure measurement. If this isn't addressed, it leaves health systems at serious risk. 9.8% of the population is affected by overestimation of high blood-pressure errors. Multiply the cost of treatment for hypertension by the typical patient panel size and the cost of overtreatment could be as much as \$135,000 per each practicing physician. The impact of overmedication can also result in complications such as dizziness, fainting, exhaustion, or even patient falls. The Midmark 626 is the first exam chair of its kind designed to promote proper patient positioning for a more accurate blood-pressure measurement.

- Easily position patients for a better BP measurement
- Powered movement of the back section ensures the patient's back is supported
- A Barrier-Free® low chair-height allows the majority of patients, even female patients with heights in the 3rd percentile, to place their feet flat on the floor

Fingertip Pulse Oximeter

- Adult and pediatric use: ideal for all specialties
- Range for SpO₂: 70%–100%
- Range for pulse: 30–235 bpm
- Dual-color LED with display modes and brightness control
- Includes pulse bar and plethysmogram
- Visual and audible low-battery alarm
- 2 AAA alkaline batteries with 30 hours of continuous use
- Electromagnetic compatibility

(900-6368).....ea

Pro Plus Series Professional Stethoscope

Combination adult-size chest piece is precisely machined to exacting tolerances from surgical stainless steel for outstanding performance and rugged durability. Available in 3 striking colors for departmental coding or personal identification.

Handheld Pulse Oximeter

Can replace the patient monitor and be used as bedside monitoring in hospitals and clinics. Oximeter comes with 1 adult reusable sensor.

- High-resolution TFT screen displays SpO₂ PR, perfusion index (PI), pulse bar, and waveform
- Adjustable audible and visual alarms; battery-low indicator
- Adjustable backlight and voice
- 127 ID setup; 72-hour data storage and review
- MedView software for data analysis
- 3 AA-size alkaline batteries or AC/D adapter (optional)
- Suitable for adult and pediatric use
- Multilanguage menu: English, French, German, Spanish, Italian, Japanese, Russian, and Chinese
- Certification: FDA, CE, CFDA
- Pediatric Sensor sold separately

- Pulse Oximeter (900-8275).....ea
- Pediatric SpO₂ Sensor
- Intended for spot checking or continuous monitoring of functional arterial oxygen saturation and pulse rate for pediatric patients. For noninvasive use with oximeter equipment in hospitals, hospital-type facilities, and home environments. (570-2091).....ea

- Extra-large bell (1½" diameter) for unsurpassed low-frequency response
- Ultrasensitive diaphragm (1½" diameter) for greater amplification and crisper high-frequency response
- Color-coordinated nonchill bell and diaphragm retaining rim for patient comfort
- Stainless steel binaurals with double-leaf internal spring fixed at 15° angle for greater comfort
- Reinforcing yoke molded into flexible 22" PVC "Y" tubing
- Deluxe PVC ear tips (in small and large) for the ultimate in wearing comfort and acoustic seal
- Spare diaphragm included
- Available in 3 striking colors for departmental coding or personal identification
- Not made with natural rubber latex
- Scope ID tag included
- Lifetime warranty
- Weight: 6.5 oz
- Overall length: 31"

Baxter

Welch Allyn Green Series™ 300 General Exam Lights

Utilizing a single white LED, the GS 300 provides a whiter, brighter light than halogen and consumes less energy. It's the perfect combination of intense light output and cool operation in a compact design. Features touchless on/off, multiple mounting options for floor space maximization, low cost of ownership due to elimination of bulb replacement and lower energy consumption, and 5-year limited warranty to include the LED light source and power supply.

Bovie

MI 750 LED Exam Light

The MI 750 provides physicians with an economical and energy-efficient LED light for exam and procedure rooms. The MI 750 produces bright, white light for clear and accurate visibility. Designed with unmatched lifetime spring-arm technology, 50,000-hour LEDs, and output rated at 75,000 lux with a Kelvin color temperature of 4300°K, the MI 750 offers a high-quality lighting system that easily aligns with any practice's budget. To maintain the sterile field when necessary, the on/off and dimming switches are located on the autoclavable handle. The MI 750 LED is backed by a 3-year manufacturer warranty.

Bovie

MI 1000 Ceiling Surgical Light, Dual

The MI 1000 LED light is the first in the cutting-edge MI LED Series offered by Bovie. The light emits very low heat with an output rating of 100,000 lux (10,000 foot candles) at 4300°K color temperature. Engineered with green technology, the MI 1000 uses significantly less electricity than standard halogen lights. The long-life LEDs are rated at 50,000 hours, virtually eliminating the need for inconvenient bulb changes. Five intensity outputs are available and are controlled using the 5-stage dimming and on/off switch located on the sterilizable handle. 100 volts.

seca 554 Medical Body Composition Analyzer
With Ultrasonic Height Measurement
An effective training program needs validated data to determine a baseline, set attainable goals, and motivate athletes with valuable insights. Provide athletes with real data and track progress to support their training and fitness goals.

- Medically validated body composition analysis
- Monitor patients' muscle mass to ensure healthy weight loss
- Monitor fat mass to keep patients engaged with treatments
- Provide insightful reports and touch points to ensure long-term success
- Cloud-based software for convenient access to patient data
- Capacity: 800 lb/360 kg
- Graduation: 50 g/0.1 lb
- Power supply: Power adapter
- Platform dimensions: 50.4"H x 33"W x 25.7"D
- 8-point Bioelectrical Impedance Analysis
- Measurement time: 24 seconds

Everyday Exam Gowns

3-Ply Tissue, 30" x 42"

- Soft tissue provides patient comfort
- Embossed pattern provides extra strength
- Plastic ties attached

White

(100-4471)..... 50/case

Blue

(100-4975)..... 50/case

Mauve

(100-7115)..... 50/case

Premium Exam Gowns

Tissue/Poly/Tissue, 30" x 42"

- Layer of poly provides strength; layers of tissue absorb moisture
- Opens front or back with attached elastic ties

White

(100-2392)..... 50/case

Blue

(100-5728)..... 50/case

Peach

(100-6999)..... 50/case

Mauve

(100-9652)..... 50/case

Pink Ribbon Exam Gown

Tissue/Poly/Tissue

- Provides patient modesty for upper-body exams and X-rays

30" x 42"

(900-4277)..... 50/case

Pillowcases

Tissue/Poly/Tissue

- Provide linen-like softness for patient comfort and an inner poly barrier for extra protection
- Strong and durable

White, 21" x 30"

(104-9206)..... 100/case

Premium FABRICEL®

Pillowcase

1-Ply Tissue/Poly

- Disposable pillowcase is super soft and strong because it is made from Fabricel® material
- By bonding supple tissue to polyethylene film with a heat-lamination process, a unique material that is soft, strong, and tear resistant is created
- Deluxe material prevents soak-through

(101-2526)..... 100/case

Disposable Headrest Covers

Plastic

Regular Size

- Act as a barrier to protect patient and equipment from cross contamination
- Economical and convenient dispenser box
- Disposable poly barrier protects patient and dental chair headrest
- Convenient space-saver dispenser box

Regular Size

11½" x 10" 250/box

Specify:

Clear (112-4871)

White (112-4873)

Jumbo Size

14½" x 10" 250/box

Specify:

Clear (112-4872)

White (112-4874)

Headrest Covers

Tissue/Poly

Soft tissue outside feels smooth and comfortable to the touch.

The poly backing helps prevent moisture soak-through to headrest.

- Tissue outer surface provides greater comfort for your patients
- Poly lined to help protect your equipment

Small Size

10" x 10" 500/case

Specify:

White (101-7104) Mauve (101-3198)

Blue (101-4595) Green (102-8451)

Lavender (102-5543)

Regular Size (13" Open Side)

10" x 13" 500/case

Specify:

White (101-8627) Mauve (101-1051)

Blue (101-8955) Green (102-5542)

Lavender (102-9374)

DTR Medical® Cervical Rotating Biopsy Punch Better Biopsy. Better Outcome.

**SUMMIT
MEDICAL**

innovia[®]
medical

The Single-Use DTR Medical® Cervical Rotating Biopsy Punch is revolutionizing the collection and quality of biopsies. Featuring a top jaw stronger than titanium, the DTR Medical® Cervical Rotating Biopsy Punch ensures the extraction of high-quality samples. Its low-profile jaw facilitates better access to the transformation zone, while the rotational controller enables 360° rotation for optimal positioning and interaction with the patient. This results in a sharp, clean cut, reducing cervical trauma and potentially minimizing discomfort for the patient. Additionally, the lightweight ergonomic handle maximizes comfort for medical providers. Being fully disposable, the DTR Medical® Cervical Rotating Biopsy Punch allows busy clinics with limited reprocessing capabilities to save time and costs while ensuring high-quality samples are obtained on the first attempt.

- ✓ High-Quality, First-Time Samples
- ✓ Leading Potentially Less Discomfort for the Patient
- ✓ Improved Access and Positioning
- ✓ No Cross-Contamination
- ✓ Single-Use; Saves on Reprocessing

Single Use!

Endometrial Biopsy Cannula

These cannulas are used to remove samples from the uterus and mucosal lining of the uterus by scraping or vacuum suction. They obtain tissue samples for the purpose of biopsy, precancer screening or menstrual extraction. Choose SoftFlex™ for routine sampling, or FirmFlex™ for sampling of stenosis, atrophic endometrium, or if a more rigid cannula is desired.

HENRY SCHEIN®
**Tartar and Stain
Remover—Bottle◆**

Used in a beaker in the ultrasonic unit to remove tartar and stains from dentures. Ready to use, so it is easy and convenient. Potent stain remover to eliminate stains on dentures, crowns, and bridges.
1-gal Bottle
(100-4263).....ea

◆ Hazardous material

Crosszyme Ultrasonic Solutions

Neutral pH formula will not damage or harm instruments. Contains no harsh alkaline components—non-corrosive. Safe for use on plastics, stainless steel, glass and aluminum. Contains rust inhibitors. Enhances the dissolving of organic materials. Balanced detergent system for effective cleaning and easy rinsing over a wide range of concentrations and temperatures. Powerfully chelated to improve performance in hard water conditions. May be used as an ultrasonic cleaning solution or an instrument presoak.

1-gal Bottle
(107-0064).....ea

**SANI ProZyme Enzymatic
Detergent**

- Used to clean reusable instruments prior to high-level disinfection and/or sterilization
- Compatible with flexible and rigid fiberoptic scopes and delicate surgical instruments
- Safer to use: Borax-free
- Proteolytic enzyme: Effective cleaning of protein-rich soils
- Bacteriostatic: Inhibits bacterial growth
- Neutral pH: Safe and compatible with broad range of instruments
- Rust inhibitors: Reduce likelihood of rust, tarnish, or corrosion
- Low foaming
- Environmentally friendly

 HENRY SCHEIN®
MaxiCide OPA 28 High-Level Disinfectant
• A safer, less toxic alternative to glutaraldehyde for high-level disinfection (HLD)
• Provides a superior way to reprocess heat-sensitive, semicritical medical devices that are unsuitable for sterilization
• 10-minute manual disinfection time
• Easy to use
• No activation required
• Less likely to irritate the eyes, nose, and throat

 HENRY SCHEIN®
MaxiCide® Activated
Preactivated 2.65% Glutaraldehyde Solution
• Preactivated
• 2.65% glutaraldehyde solution
• Can be used as a sterilant and high-level disinfectant for up to 30 days
• Tuberculocidal in 45 minutes
• Ready to use
• Fresh, pleasant scent
1-gal Bottle
(104-4681).....ea

 HENRY SCHEIN®
MaxiCide 3% Glutaraldehyde
This advanced 3% glutaraldehyde high-level disinfection solution is twice as fast as leading competitors, taking only 25 minutes to process. It provides effective sterilization in 10 hours and can be reused for up to 28 days. The moderate pH is compatible with heat-sensitive medical devices and contains a rust inhibitor to prevent corrosion. Once the powdered activator is added, the solution turns blue and has a mild lemon scent. Makes 1 gallon with powdered activator bottle.

Dri-Gard Bulk CSR Wrap

Made of SMS (spunbond, meltblown, spunbond), which combines strength and softness for greater dependability.

- All-purpose sterilization overwraps
- Single-ply sterilization wrap has uniform bonding pattern: softer on hands, is adhesive friendly, and promotes better air permeability
- Treated with an antistatic agent: reduces risk of static shock and operating room fires
- Single sheets: can be wrapped sequentially or nonsequentially

Self-Seal Autoclave Bag

Self-seal sterilizer bag with autoclave and chemical vapor sterilization indicator ink. Heavy-duty surgical-grade kraft paper. Dual indicators for steam or chemical vapor. Self-sealing feature ensures high-integrity seal.

- Indicator ink shows noticeable color change when exposed to sterilization conditions
- Wet-strength, sterilizable-grade, white paper permits sterilant penetration and acts as a poststerilization barrier
- Chemical indicator on each bag verifies exposure to sterilization process
- Convenient, user-friendly, self-seal closure: no heat sealer necessary, no release liner to peel off to get to the adhesive
- Safety-fold design to enhance effectiveness of sterile field
- Cost-effective alternative to paper/poly pouch; biodegradable

HENRY SCHEIN® MaxiTest® Mail-in Service

Mail-in service includes 3 bacterial spore test strips (2 test strips and 1 control strip) per test package. Postage is prepaid and culturing service is included. Monitors all sterilizers including steam, chemical vapor, dry heat, and EtO. Third-party documentation serves as tangible, legal document where proof of sterility testing must be provided. Immediate and confidential notification of test failures. Test results available electronically.

- Easy to use: place MaxiTest strips within an average load; process according to normal procedure; when cycle is complete, remove load from sterilizer and remove test strips; forward to bacteriological laboratory for culturing
- Suitable for use with all sterilizers: dual-organism spore strips contain both *Bacillus stearothermophilus* and *Bacillus subtilis* so they can be used to monitor all sterilizers, including unsaturated chemical vapor
- 2 test strips and 1 control strip: provide increased safety to patients and staff; 2 test strips placed in separate areas of the sterilizer provide greater accuracy of test results
- Biological Sterilization Monitoring Service: MaxiTest includes test sets, culturing service, laboratory reports, all postage and handling, and any device concerning sterilization procedures; the lab cultures are completed in 7 days; however, if any test strip cultures positive (spore growth indicating sterilization failure), the office will be telephoned immediately; if the test strips do not culture positive, the office will receive a laboratory report in approximately 2 weeks, indicating sterilization was achieved

12-Test Package
(101-5830).....ea

Contains: 12 packets, each containing 2 test strips & 1 control strip.
Not for export.

HENRY SCHEIN® Impulse Heat Sealers

This UL-certified and ultradurable heat sealer seals nylon sterilization tubing perfectly within 1 to 2 seconds, and then turns off automatically.

- Strong seal: positive seal for sterilization
- Automatic on/off: conserves energy
- Heavy-duty stainless steel heating elements: resist breakage; extended use
- Equipped with 2 replacement heat elements: minimizes downtime
- UL approved: safety tested

Replacement Kit
(101-5802)..... ea
Contains: 2 heating elements, 1 upper cloth & 1 lower cloth.

HENRY SCHEIN® Dry Heat Sterilizer Indicator Labels

- For dry heat sterilizers
- Indicator ink changes from green to black, indicating sterilization process has been completed

(102-7982).....1000/box

HENRY SCHEIN® Indicator Strips

- For steam and chemical sterilizers
- Indicator ink changes from white to black, indicating sterilization process has been completed

HENRY SCHEIN® MaxiTest® Bowie-Dick Test Pack

- Disposable pack used to evaluate the efficacy of air removal and steam penetration in prevacuum steam sterilizers
- Includes frequency of use, instructions for use, and storage/shelf-life information preprinted on the box for ease of use and staff training
- Lead-free and easy to interpret

(570-0309)..... 30/case

HENRY SCHEIN® MaxiTest® Sterilizer Test Pack

Designed to monitor sterilization conditions in both gravity displacement and prevacuum sterilizers. Immediate readout results require no incubation. Load record card provides permanent, physical proof of sterilization conditions.

- The MaxiTest Sterilizer Test Pack with MaxiTest Class 5 Integrator provides immediate readout results
- Equivalent in performance to an AAMI BI Test Pack
- No incubation required
- For use in all steam sterilizer cycles
- For the highest level of sterility assurance, use in every wrapped, nonimplant sterilizer load

(570-0313)..... 25/case

HENRY SCHEIN® MaxiTest® Biological Indicator Test Pack

- The MaxiTest Steam BI Test Pack with MaxiTest Class 5 Integrator is indicated for use in routine monitoring and sterilizer qualification testing, and allows users to immediately release processed loads
- Per ANSI/AAMI standards, steam sterilizers should be monitored at least weekly, preferably every day the sterilizer is run

(570-0312)..... 25/case

HENRY SCHEIN® Autoclave Cleaner

Compare to Omni® Cleaner XL and Midmark SpeedClean®

- Mild, slightly alkaline liquid that acts as a powerful, concentrated cleaner to remove grease, grime, and accumulation of scale deposits
- Prolongs the life of the autoclave with routine maintenance
- Mix 4 oz. of cleaner into 64 oz. of distilled water
- Excellent for use with steam

32 oz
(112-5839).....ea

Specify:

General Purpose Cleaner
(Makes 16 gal) Used for very fast cleaning of blood, mucus, and tissue. (101-4412)

Tartar and Stain Remover (Makes 96 oz) Its citric acid formula is noncorrosive and cleans quickly. (101-0827)

Enzymatic Cleaning Solution (Makes 16 gal) Effective against blood, tissue, and mucus found on instruments. (102-6472)

HENRY SCHEIN®

Maxitabs®

General Purpose Cleaner

- Provide safe and effective cleaning properties in multiple cleaning cycles throughout the day
- Do not leave a residue on instruments or inside tank
- 1 tablet makes 1 gallon of solution

(900-4088)..... 32/box

HENRY SCHEIN®

Ultra Clean-L

- General-purpose, nonammoniated, and super concentrated
- Extra cleaning power and pleasant scent
- Add water to fill container; dilute 1:10 for working-strength solution
- Easy to mix: fill gallon container with water, and it's ready to use
- Free rinsing: leaves no soapy residue on instruments to contaminate sterilization process
- Concentrated: economical

1-gal Bottle
(100-3185)..... ea

HENRY SCHEIN®

Ultra Clean®

- General-purpose, nonammoniated ultrasonic cleaner
- Removes dried blood, tissue, soil, plaster, stone, pumice, and other light contaminants
- Nonflammable and nonfoaming. Supplied as powder in container
- Concentrated solution: dilute 1 part to 9 parts of water

1-gal Bottle
(102-2255)..... ea

HENRY SCHEIN®

MaxiZyme® Tabs

- Enzyme cleaning tablets
- Contain protease enzymes that break down hard-to-clean deposits such as blood, bone, and food particles that chemical detergents leave behind
- A single cleaner with 2 uses: ultrasonic and evacuation systems
- Gentle on instruments: nontoxic, neutral pH, biodegradable, and noncorrosive formula that contains no chlorine or harsh alkalines to damage expensive stainless steel instruments
- Refreshing minty scent
- Easy to store

(900-0475)..... 64/box

HENRY SCHEIN®

Unit Dose Ultrasonic General Purpose Cleaner

- Single-dose, superconcentrated powder for use in ultrasonic cleaning units, auxiliary pans, and beakers
- Eliminates lifting and storing heavy gallon containers
- Cleans instruments directly in ultrasonic cleaning tank
- 1 packet of powder makes 1 gallon of solution

General Purpose Cleaner

For cleaning instruments directly in the ultrasonic cleaning tank. One packet of powder makes 1 gallon of solution.

(101-0377)..... 24/box
(101-6767)..... 24/box

HENRY SCHEIN®

Ultrasonic Cleaning Solutions

Safe for use on all surfaces. Offers superior cleaning power.

General Purpose Cleaner

- Nonammoniated concentrate
- Dilute 1:10 for use
- Effectively cleans items such as dried blood, bone, tissue, oxide compounds, and more
- Removes ions from instrument's surface to enhance effectiveness of ultrasonic cleaning unit

1-gal Bottle
(100-3836)..... ea

HENRY SCHEIN®

MAXIZYME® Multi Enzymatic Detergent

Improved multienzymatic detergent that cleans fast in manual, ultrasonic, and automatic cleaning systems. Low-foaming formula rapidly dissolves and carries away organic soils, including blood, protein, tissue, and more. Its corrosion-inhibiting, pH-neutral formula is safe for instruments and equipment, extending the useful life of instruments. Concentrated and economical, each 1-gallon bottle yields 128 gallons of solution. Clean, fresh scent. (570-3275)..... Gal.

THE MARKET LEADER
FOR HbA1c TESTING

Afinion 2™

Simply More Efficient

The Afinion 2 Analyzer enables fast and easy quantitative determinations of hemoglobin A1c (HbA1c) and albumin-creatinine ratio (ACR). Its compact size and rapid result time make it ideal for managing patients with diabetes.

Contact your Henry Schein representative today.

Benefits of HbA1c testing with Afinion 2

Small, 1.5 µL
fingerstick
sample

Easy to
use in just
3 steps

Highly
accurate
results in
as little as
3 minutes

No
maintenance
required

Afinion 2 Analyzer

With its compact size and panel of tests, the Afinion 2 system is ideal for point-of-care testing in physician offices, clinics, community health centers, and hospital outpatient clinics. From just a small urine or fingerstick whole-blood sample, lab-accurate results for ACR and HbA1c are made available during the consultation. With built-in connectivity, the Afinion 2 Analyzer can communicate with LIS and HIS systems to share and manage data more effectively, contributing to better patient management everywhere.

- Size: 7.2" x 7.5" x 13"
- Weight: 7½ lb
- Patient/operator ID and patient/control results stored in memory
- No maintenance required
- No operator calibration
- Extensive and comprehensive failsafe systems prevent the possibility of erroneous results
- QC and operator lockout
- Afinion tests can be used with both the Afinion 2 Analyzer and the Alere Afinion AS100 Analyzer

Cholestech LDX™ System

Complete Lipid Profile, Glucose

Lab-accurate lipid profile and glucose results in about 5 minutes from a simple fingerstick. Allows provider to get results while patient is still in office—provider can counsel and intervene face-to-face. This improves patient compliance and increases control and management of heart disease and diabetes. Reimbursable by Medicare and most private payers.

- CLIA waived
- Procedure saves time and enhances productivity
- Small, tough, and portable
- Eliminates anxiety of venipuncture; requires only a fingerstick
- On-the-spot adjustment of therapy and improved patient compliance
- Accuracy comparable to laboratory tests
- Saves time: fewer follow-up visits required
- Enhances compliance through teachable moments between healthcare providers and patients

DETERMINE™ HIV-1/2 Ag/Ab COMBO

RAPID AND EARLY IDENTIFICATION OF HIV

INNOVATIVE

First and only CLIA-waived* point-of-care test that detects both acute and chronic HIV infections

EARLY DETECTION

Incorporates the p24 antigen for earlier diagnosis compared to antibody-only tests

EFFICIENT

Get results in just 20 minutes and improve same-visit notification

FLEXIBLE

Use capillary and venous whole blood, serum, or plasma samples

Contact your Henry Schein Representative for additional information.

Determine HIV-1/2 Ag/Ab Combo

The first FDA-approved rapid point-of-care test that detects both HIV-1/2 antibodies and free HIV-1 p24 antigen. This 4th-generation test has the ability to identify HIV sooner than conventional rapid tests, which rely solely on the presence of HIV-1/2 antibodies. It enables health care providers to diagnose HIV infection earlier.

- Innovative: It's the first rapid point-of-care test that detects both HIV-1/2 antibodies and free HIV-1 p24 antigen
- Empowering: Enables health care providers to diagnose HIV infection earlier, allowing individuals to seek medical care sooner
- Dependable: Built-in quality controls let you know the test is working
- Efficient: Requires minimal training, test in 3 simple steps, and presents clear results in just 20 minutes
- Flexible: Multiple sample types; fingerstick and venous whole blood, serum, or plasma samples

Urispec™ Plus Urinalysis Reader & Urispec™ 11-Way Urine Strip Promotion

Provides dependable urine status results to detect early stages of many diseases, such as diabetes, kidney disease, and urinary tract infections. Instrument-read results have long proven to be advantageous for both busy health care professionals and patients. Comprehensive interface options and the optimized printouts minimize risk associated with manual transcriptions. Reliable results can be obtained virtually immediately at the point of care. Easy switch between different test strips: Urispec Plus is for use with the Urispec 11-Way, 5-Way Plus, 4-Way, and GP+A urine test strips for up to 11 parameters for the semiquantitative detection of occult blood, urobilinogen, bilirubin, protein, nitrate, ascorbic acid, ketones, glucose, pH, specific gravity, and leukocytes. Use of these test strips on the Urispec Plus analyzer is CLIA-waived.

- CLIA-waived
- Readings eliminate subjectivity of visual color interpretation, which makes urinalysis simpler and more reliable
- Features no-touch operation: After strip placement, measurement starts automatically, which makes urinalysis faster and more hygienic
- Easy switch between different test strips: Urispec Plus is for use with Urispec 11-Way, 5-Way Plus, 4-Way, and GP+A urine test strips

Urispec™ Urinalysis Controls

For Most Brands of Routine Urine Dip Sticks and Pregnancy Tests

A bilevel product packaged in plastic tubes and dropper bottles. Controls are liquid, ready-to-use, and are designed to validate urinalysis reagent strips. Packaged in plastic dip tubes and dropper bottles, they are convenient and easy to use. Long open- and closed-vial stability at 2°C–8°C for 2 years unopened, or 90 days once the Dip Control is opened, and 180 days once the Drop Control is opened. This allows the user ample time to utilize the product before expiration, resulting in cost savings.

- Values for all pregnancy test brands
- Assays for common brands of urine dip for routine urinalysis (2 parameter-10SG)
- Includes values for microalbumin, creatinine, and hCG
- Two distinct levels (normal and abnormal)
- Closed-vial dating up to 2 years with refrigerator storage
- 30-day stability at room temperature

3 Bilevel Sets, 15 mL/Tube (6 Vials)

Dip stick in tube, with open-vial stability of 90 days at 2°C–8°C.

(112-6841).....ea

2 Bilevel Sets, 25 mL/Dropper Bottle (4 Bottles)

Open-vial stability of 180 days at 2°C–8°C.

(112-6842).....ea

The Savanna HSV 1+2/VZV assay leverages real-time PCR technology with a differentiated VZV target to provide superior patient outcomes faster.

Savanna® HSV 1+2/VZV Assay

The power of certainty

Lesions for HSV-1, HSV-2, and VZV are misdiagnosed by visual examination in up to 20 percent of cases.

Make an impact for your patients with Savanna HSV 1+2/VZV assay, a unique rt-PCR assay, by providing results up to 230 percent faster than a typical send out.*

Solana Molecular Testing Platform

Solana is a benchtop instrument that combines Quidel's proprietary helicase-dependent amplification (HDA) with fluorescence detection to deliver molecular results you can trust, faster than ever before. The Solana testing system is easily accessible and can be seamlessly integrated. Solana's workflow is easy and flexible, capable of testing a single specimen or batching up to 12 tests at a time. Solana offers an intuitive, touch-screen interface with guided operation and customizable settings. The instrument possesses 4 USB ports, bar-code technology, an external printer, and LIS connectivity. Results are reported on the screen, stored in the instrument and can be saved to a USB drive, printed, and/or sent to the LIS. Solana also comes with the power of Virena®, Quidel's proprietary wireless data management and surveillance ecosystem.

Trusted & Trustworthy

It's true. The PURELL® brand is trusted and preferred by healthcare workers.

But more importantly, we work tirelessly to earn that trust.

Our hand hygiene is gentle on hands, even with frequent use. And our powerful surface products can even be used near patients and on electronics.

The Difference Is Clear.

Together, we can build a **healthier world for all.**

Practice Green is designed to empower the health care community to positively impact the future of the planet by reducing the ecological footprint and promoting sustainability—both in daily life and while at work.

A product included in the Practice Green portfolio has been carefully selected by Henry Schein as “green” based on the product information provided by the supplier partner that it is either reusable, contains recycled materials, can be recycled, is biodegradable, or is from a sustainable source.

Conforming Stretch Gauze Rolls

4.1-yd Rolls

- Economical knitted bandage in various widths
- High-quality materials consist of nylon, polyester, and cotton; provides light compression as it cushions and protects
- Offers softness, breathability, and alleviation of irritation
- Low lint content reduces contamination to wound site
- Improved packaging is resealable, durable, easy to store, and remains clean
- Not made with natural rubber latex

Criterion™ Non-Woven Sponges

Sterile 2s, 4 Ply

- High quality
- Excellent construction
- Rayon/poly-blend that is soft and gentle to the touch
- Not made with natural rubber latex
- Thicker and more absorbent than standard sponges
- Multiuse sponge that can be used for all applications of wound-care treatments
- Easy-to-open, peel-back packaging

3M™ Durapore™ Medical Tape

A silk-like cloth tape in the High-Strength Securement Class. For clinical jobs, including securing catheters/tubes and patient positioning.

- Offers strong adhesion: good initial and long-term adhesion to dry skin
- Easy to use: can be torn lengthwise and crosswise to create a variety of sizes as needed
- Adheres to dry skin, tubes, devices, and itself
- Helps reduce risk: individually packaged single-use length rolls can help protect patients by reducing the risk of cross contamination
- Not made with natural rubber latex

3M™ Medipore™ H Soft Cloth Surgical Tape

Very adhesive, breathable, soft cloth tape categorized in the Flexible Securement Class. Appropriate for clinical applications such as dressings and added pressure, when swelling or movement is anticipated, chest tubes, and surgical drain tubes.

- Conformability: bidirectional stretch accommodates swelling, distension, and movement
- Easy to tear at perforations: no scissors necessary
- Helps reduce risk: individually packaged, single-use length rolls can help protect patients by reducing the risk of cross contamination
- Not made with natural rubber latex

3M™ Transpore™ Surgical Tape

Transparent, perforated plastic tape that tears easily and works reliably. Easy, straight, bidirectional tear allows clinicians to tailor the tape for various dressings and devices.

- Easy to handle with gloves
- Good adhesion to skin and tubing
- Transparent
- Porous
- Water-resistant
- Hypoallergenic: not made with natural rubber latex

3M™ Tegaderm™ Transparent Film Dressing

Dressings can be used to protect IV catheter sites and wounds, to secure devices to the skin, and to maintain a moist environment for wound healing. They are breathable, waterproof, and act as a barrier to protect against external contaminants, including bacteria, viruses, blood, and bodily fluids.

- Transparent dressing allows for continuous visibility to the IV insertion site
- Adhesive is gentle on skin
- Dressing flexes with skin for greater patient comfort
- Picture-frame delivery makes accurate placement easy
- Unique shapes and designs for both IV and wound needs
- Hypoallergenic and not made with natural rubber latex
- Provides extra holding power for improved adhesion in challenging conditions

3M™ Tegaderm™ + Pad Film Dressing with Non-Adherent Pad

An all-in-one dressing that provides a sterile, waterproof, viral, and bacterial barrier. Consists of a nonadherent, absorbent pad bonded to a thin-film, transparent dressing.

- Provides a barrier to bacteria and viruses
- Enhances patient comfort
- Helps support healing
- Easy to apply
- Convenient for clinicians and practical for patients

3M™ Tegaderm™ CHG Chlorhexidine Gluconate IV Securement Dressing

The Tegaderm™ CHG Dressing consists of a transparent adhesive dressing and an integrated gel pad containing chlorhexidine gluconate (CHG), a well-known antiseptic agent. Used to cover and protect catheter sites and to secure devices to skin, it also provides continuous antimicrobial activity at the IV site.

3M™ Adaptic™ Non-Adhering Dressing

This dressing is a primary wound contact layer made of knitted cellulose acetate with a woven mesh structure impregnated with petrolatum emulsion, allowing easy removal while minimizing pain during dressing change.

- Enables fluid transfer to a secondary dressing, reducing the risk of exudate pooling and maceration
- Can be used under compression
- Can be cut to the size of the wound without unravelling and shredding
- Suitable for dry to highly exuding wounds

3M™ Fibracol™ Plus Collagen Wound Dressing

A sterile, soft, absorbent, and conformable topical wound dressing. Its unique combination of natural biopolymers are created by a process that combines the structural support of collagen and the gel-forming properties of alginates. Indicated for the management of exuding wounds, including full-thickness and partial-thickness wounds, pressure injuries, venous ulcers, ulcers caused by mixed vascular etiologies, diabetic ulcers, second-degree burns, donor sites, and other bleeding surface wounds, abrasions, traumatic wounds healing by secondary intention, and dehiscent surgical incisions.

- Composed of 90% collagen 10% calcium alginate
- Maintains a physiologically moist microenvironment

3M™ Promogran™ Prisma™ Matrix

Composed of a sterile, freeze-dried composite of 44% oxidized regenerated cellulose (ORC), 55% collagen, and 1% silver-ORC. Silver-ORC contains 25% w/w ionically bound silver, a well-known antimicrobial agent. Indicated for the management of all wounds healing by secondary intent that are clear of necrotic tissue, including: venous leg ulcers, diabetic foot ulcers, pressure ulcers, traumatic wounds, and surgical wounds.

- Maintains a moist environment
- Provides antimicrobial protection
- Offers a balanced combination of collagen, ORC, and silver-ORC

TOPICAL SKIN ADHESIVE - BUTYL

Strong Bonding and Reliable Protection

- Sterile, single-use plastic ampules of liquid skin adhesive consisting of n-butyl-2-cyanoacrylate
- Antibacterial barrier protects the wound
- Applicator tips provide precise, controlled application
- Will not clog or dry when opened
- Blue liquid color option available to enable easy control over quantity applied

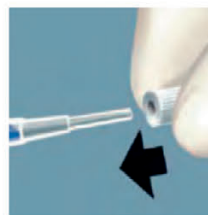

EASY-TO-USE APPLICATION

Open the package and take out the tip.

Open the ampule by twisting off the ribbed tip.

Apply the tip to opened ampule.

Apply the glue in a thin layer to the wound edges and hold in position for 60 seconds.

Safety Hypodermic Needles and Syringes

From a Name You Can Trust.

Features & Benefits:

- 3 single-handed safety activation methods: hard-surface, thumb, or finger
- Double-locking mechanism with an audible “click”
- Needle hub-compatible with all standard Luer lock and Luer slip-tip syringes
- ISO color coded—easy and quick identification of the needle gauge
- Bevel-up needle—allows for low-angle injections

RELY ON US FOR QUALITY, SELECTION, PERFORMANCE, AND VALUE!

Ready, set, vaccinate with BD hypodermic solutions

It's simple: the more immunity you can give your patients, the better. That means having enough of the right vaccines on hand *and* the high-quality needles and syringes you need to deliver them. BD hypodermic solutions are designed to deliver consistent quality and reliable performance.

BD SafetyGlide® Needles are designed to help keep clinicians safe from accidental needlestick injuries and feature Activation-Assist® Technology—making safe injections easier and more efficient.

Hypodermics

SOL-GUARD™ Safety Needles

Designed to help prevent needlestick injury. The robust safety mechanism is intuitive and compatible with all standard Luer-lock and slip-tip syringes.

#SND486, 25 ga x 5/8"	
(139-8460)	100/box
#SND475, 25 ga x 1"	
(139-8463)	100/box
#SND493, 23 ga x 1 1/2"	
(139-8462)	100/box

SOL-CARE™ Luer Lock Safety Syringe with Exchangeable Needle

- Highly transparent barrel with bold, precise scale for perfect visualization and accurate dosage
- Integrated plunger stopper prevents plunger from being pulled out, avoiding exposure to hazardous fluids

3-mL Syringe	
#100078IM, 25 ga x 5/8", Orange	
(261-0258)	100/box
#100079IM, 25 ga x 1", Orange	
(139-6144)	100/box
#100077IM, 23 ga x 1", Blue	
(261-0260)	100/box

SOL-M™ Hypodermic Needles

These hypodermic needles focus on patient comfort. The hubs are color coded for gauge identification. SOL-M™ blister peel-apart packaging allows for ease in dispensing the needle.

#112510, 25 ga x 1"	
(138-7007)	100/box
#112515, 25 ga x 1 1/2"	
(138-7008)	100/box
#112310, 23 ga x 1"	
(138-6997)	100/box

VanishPoint® Safety Needles and Syringes

- Needle retracts into the syringe when the plunger is fully depressed or after the injection
- Easy, one-handed activation
- Lubricated needle
- Requires less disposal space in sharps containers
- Regular wall needle with tribeveled tip

EasyPoint® Retractable Needle With 3-mL Syringe

Features automated retraction technology and pre-removal activation. The triple-beveled, lubricated needle provides patient comfort.

Retractable Needles.....	50/box
Specify:	
#82311, 25 ga x 1"	(138-8675)
#82331, 23 ga x 1"	(138-8676)

U-100 Insulin Syringes

0.5 mL	
#15291, 30 ga x 3/8"	
(137-1779)	100/box
#10161, 25 ga x 1"	
(701-5933)	100/box
#10331, 22 ga x 1"	
(701-9859)	100/box
#10351, 21 ga x 1"	
(125-4798)	100/box

THE FIRST 0.5 mL LUER LOCK LOW DEAD SPACE SYRINGE

- PRECISE DOSING
- MINIMAL PRODUCT LOSS
- EXCHANGE NEEDLES
- REDUCE NEEDLE POP-OFF

Air-Tite donates a portion of all MinimLL sales to various breast cancer research and awareness programs.

Discover the difference **BD Vacutainer® UltraTouch™** push button blood collection sets can make.

The **BD Vacutainer® UltraTouch™** blood collection set improves the overall phlebotomy experience for both patients and clinicians:

- Reduction in perceived overall patient pain¹
- Faster tube fill times²
- Ability to use a 25-gauge needle without compromising sample quality³
- Up to 88% reduction in needlestick injuries⁴

Visit bd.com/Vacutainer/UltraTouch to learn more.

* Tube fill time evaluation is based on a bench study. Bench study results may not necessarily be indicative of clinical performance.

TES

A COMPREHENSIVE MENU TO ANSWER LIFE'S REPRODUCTIVE QUESTIONS

Beckman Coulter offers a menu that supports fertility assessment and hormone monitoring. Labs can provide accurate, reliable results to clinicians that guide patient care decisions for people with reproductive health concerns.

Our comprehensive reproductive endocrinology menu addresses

Fertility assessment and management

Support the understanding and diagnosis of the underlying causes of infertility with a complete panel of fertility testing assays.

Prenatal screening

Provide better patient care and help lower overall cost throughout pregnancy. Aid in the identification of prenatal conditions.

Reproductive aging

Give answers to women struggling with infertility or planning to become pregnant later in life by measuring ovarian reserve.

AWARENESS IS THE FIRST STEP IN EVALUATING CONCUSSIONS

DID YOU KNOW...

- only 3% of reported concussions are due to sports¹
- women have a higher rate of concussions than men²
- 15% of concussion patients experience long-term symptoms³
- CT scans can miss 1 out of every 4 concussions compared to MRIs⁴
- Abbott's TBI plasma-based biomarker test aids in concussion assessment ruling out the need for a CT scan in mild traumatic brain injury patients⁵

ALINITY i TBI TEST PATHWAY

Abbott's Alinity i TBI tests aid doctors in evaluating a suspected mild traumatic brain injury (such as a concussion) in people 18 and older within 12 hours of injury and specifically help rule out the need for a head CT scan.⁵

ABX Pentra 60 C+ Hematology Analyzer

- Horiba Medical holds 2 patents, Double Hydrodynamic Sequential System (DHSS) and Multi-Distribution Sampling System (MDSS), plus RUO parameters (research use only)
- Concept and technology: cytochemistry, impedance (real cell volume measurement), optical DHSS technology (analysis of the internal cellular structure by measuring light absorbance), and MDSS technology (precise homogenization of blood samples with reagents)
- No compressor, no shear valve, and less maintenance
- Throughput to 60 samples/hour
- Perfect differentiation of the 5 WBC subpopulations with DHSS technology
- Three histograms for RBC, BAS/WBC, and PLT, together with the 5 DIFF matrix
- Basophils counted through specific channel
- High-resolution matrix includes the determination of 2 additional subpopulations (% and #): atypical lymphocytes (ALY) and large immature cells (LIC)
- Data management on stand-alone PC
- Microsampling from whole blood (CBC: 30 µL and DIFF: 53 µL)

Direct Hemoglobin A1c Assay on the Pentra C400

Pentra 400
Clinical Chemistry System

POINTE Hemoglobin A1c assay complements the full menu of general chemistry and drugs of abuse tests on the Pentra C400.

HbA1c measures average blood sugar level over the past 2-3 months. It is used for the evaluation of glycemic control in diabetes mellitus.

The POINTE HbA1c assay is an innovative, reliable, direct two-part reagent. It is important to choose an HbA1c assay that you can rely on for rapid results, and HORIBA provides that with the POINTE HbA1c assay.

Inquire about programs available to bring HbA1c testing in-house with the Pentra C400.
