✓ Spotlight on: Disposables and supplies by practice area; a quick shopping list for the practice on the go ....22-23
✓ Spotlight on: Henry Schein Exclusives ........................................................................................................Back Cover
Be flexible.
Despite the economic downturn, patients continue to demand new products and services. And, so it follows that the more you offer, the more patients you will attract. You can also bundle existing services for a single fee. You may even market this approach as a "buy three, get one free" package for budget-conscious prospects. Take a close look at the demography you are trying to reach and set your prices for affordability. Do what you can to further accommodate varying budgets in your market by offering patient-financing options that allow payment over time.

Be open to new opportunities.
You may be tempted to do the opposite in difficult economic times, but you might actually consider expanding your business. This may be a good time to evaluate the acquisition of an existing medical practice that's unable or unwilling to withstand an economic downturn or may be considering retirement. Make sure you perform due diligence on the business—and always review profit-and-loss statements with your accountant before making any decisions.

Are you aware of the substantial opportunities gained by acquiring equipment and technology this year?
If you are planning an office expansion, check with your tax advisor concerning the new 2009 Section 179 Tax Deduction allotments. This tax law will allow you to lower your taxable income, boost the productivity of your practice, and offer new and improved treatments. The Economic Stimulus Act of 2009 is now in effect, and is worth looking into. IRS Section 179 encourages small-business owners, sole proprietorships, partnerships, and corporations (including LLCs) to invest in equipment by allowing them to deduct the asset’s value in the first year. The 2009 limit is $250,000. Invest in your practice and capitalize on this tax benefit.

Consult your tax advisor for specific details. Your Sales Consultant can schedule a no-cost, no-obligation visit to explore equipment opportunities based on your specialty. In addition, Henry Schein offers leasing and financing for your large-equipment purchases through Henry Schein Financial Services. For details, call 1-631-843-5554.

Each month we circulate practical and useful tips to provide cost-saving practice solutions as well as environmental tips that help the physician survive the current economy. Log onto www.henryschein.com/medicalnews to sign up for this helpful newsletter.
“Does Henry Schein have private brand products that are competitively priced and offer consistent high-end quality as well?”

We do that!

Spotlight on: ANESTHESIA AND MONITORING

Statistics show that anesthesia today is safer and more effective than ever before. Due to advancements in monitoring technology and anesthetic drugs, extensive specialty education and training, and high professional standards.

In 1993, a pre-anesthesia checkout recommendation was developed and widely accepted to be an important component of safe anesthesia practice. The updated Pre-Anesthesia Checkout Design Guideline can be viewed by logging on to http://www.asahq.org/clinical/fda.htm

Atlas™ Monitor
A cost-effective monitor with all the parameters for conscious sedation procedures.

- Affordable: One of the least expensive, ECG and ETCO2 device for sale
- Simple to use: Easy and straightforward operation
- Big bright LCD panel: Easy to see from a distance
- Multi-parameter: Facilities can choose the parameters they need
- Flexible mounting options: Mobile stand, wall mount or desk top

Spot Vital Signs® LXI
Take vital signs in about half the time. Take patient care to a whole new level

- Take vital signs in about half the time: Increases efficiency
- Simple to use: Easy and straightforward operation
- Error messages display with error codes: Easier troubleshooting
- Flexible mounting options: Mobile stand, wall mount or desktop
- Interfaces with select digital scales: Simple to enter weight;
- Can manually enter weight, height, respiration rate and pain level;
BMI: More comprehensive data collection

Call your Henry Schein Representative to discuss the best monitoring devices for your practice.

**Secureline™ Surgical Skin Marker**
- 120-2370 10/Box

---

See pages 10-11 for post operative compression, pain management and cold therapy products.
Spotlight on: LIPOSUCTION

Liposuction is the third most frequently performed cosmetic surgical procedure. Source: ASPS

While the economy has slowed down the demand for this procedure, it is still the most frequently requested procedure for ethnic patients, enjoying a 13% increase in 2008. Source: ASPS

Phantom

These aspirators are the only suction devices that allow for the attachment of up to 4 collection canister systems at one time. This feature virtually eliminates the need to make time-consuming canister changes during the procedure.

All Phantom aspirators have been awarded the UL, c-UL and CE marks of design and manufacturing quality excellence.

Spotlight on: POST PROCEDURE SKIN CARE

Alginates have been used in various forms for fifty years, and yet they remain a poorly understood and probably underused dressing. 4 major studies show major benefits of this compound due to its properties’ moist microenvironment that promotes healing and the formation of granulation tissue.

Violet Skincare™ Inc., your surgical after-care specialist.

Post Operative System for Breast Augmentation and Reduction

This Moisture Repair System contains three products:

- **Step One:** Liquid Alginate SC® 4 fl. oz.
- **Step Two:** Advanced Healing Agent™ 4 fl. oz.
- **Step Three:** Finishing Cream™ 4 fl. oz.

176-2197

“Moisture Repair System” for post-operative laser, dermabrasion, surgical peels, and facelift.

- Alginate SC® - 4 fluid oz.
- Advanced healing agent - 2 fluid oz.
- Finishing cream - 4 fluid oz.
- Skin polisher - 4 fluid oz.

176-0807

Topical retinoids have been shown to improve the texture and fine lines of photodamaged skin.

Source: George J. Hruza, MD

Journal Watch Dermatology, 2007

Exclusively available from "Henry Schein™

Afirm™ Cream is a retinol cream that reduces the appearance of fine lines making the skin appear smoother and firmer. AFFIRM delivers the skin improving benefits of retinol via the unique MICROSPONGE system. AFFIRM is available in three strengths: 1x for sensitive skin, 2x for normal skin and 3x for more tolerant skin and comes in 30 gm tubes and is only available to physicians.

472-0639
1x 15% Sensitive Skin, 30 gm tube

472-7317
2x 30% Normal Skin, 30 gm tube

Spotlight on: NON-INVASIVE PROCEDURES

Aesthetic patients are becoming more focused on the texture and pigmenary issues of their skin.
Source: Sharon McQuillan, MD Trends in Aesthetic Medicine September 2008

Researchers predict more than 55 million cosmetic surgery procedures will be performed in 2015, 12 percent will be surgical, and 88 percent will be non-surgical. Source: Plastic and Reconstructive Surgery June 2008

Exclusively from HENRY SCHEIN®

Salicylic Acid Peel
Provides patients with reliable results and younger-looking skin.
The innovative formulation of beta hydroxy acid enhanced by microsponge technology works instantly on fine lines and surface imperfections. Helps skin to appear smoother, firmer, and healthier.

Spotlight on: ELECTROSURGERY

Electrosurgery is commonly used for cosmetic procedures such as breast augmentation and body contouring as well as reimbursable procedures such as removal of tumors and skin lesions and breast reconstruction. It is often preferred by surgeons over laser surgery and cryosurgery for several procedures.

Aaron 2250 by Bovie® offers the most consistent energy delivery in the industry (5000 x per second), ideal for the most demanding procedures like tummy tucks and breast augmentation/reduction. This product is ideal for cosmetic and reconstructive procedures due to its ability to have both monopolar and bipolar accessories plugged in at the same time.

For a cost-effective alternative or a practice that is performing mostly breast or facial procedures, consider the Aaron 1250.

PROTECT YOUR EQUIPMENT INVESTMENT BEYOND THE MANUFACTURERS’ WARRANTY

—Manufacturers’ warranties sometimes fail to cover expensive repairs. Relax, if your equipment is protected by a Henry Schein COMPLETEcare service contract, you’ll have coverage that goes beyond the maker’s contract.

- Ask your representative about leasing options
- Don’t forget your 2009 Capital Equipment Tax Credit!

### Smoke Shark™ Smoke and Particle Remover

Designed to be easy to use and extremely effective at smoke and particle removal at the operative site. Although it is designed for use with all electrosurgical generators, it is also excellent for use in controlling laser smoke.

We do that!
Spotlight on: SUPPLIES BY PRACTICE AREA

With the constant demands of a bustling practice, there is a lot of pressure to have all of your supply needs at hand just where and when you need them.
