Supplies, Equipment, Pharmaceuticals and Technology Solutions for the Foot and Ankle Healthcare Professional
Dear Healthcare Professional

We are very proud to present the Henry Schein Medical Foot and Ankle Catalog.

This catalog celebrates the partnership of Henry Schein, Universal Footcare Products, and Stone Podiatry now serving your practice as Henry Schein Medical Foot and Ankle. The goal of this partnership is to provide you with equipment, supplies, pharmaceuticals, technologies and the personal service your practice demands to help your business succeed.

Our well trained, dedicated Sales Consultants and Customer Service Team are committed to maximize your practice profitability. We offer an extensive product line, specialty services including financing and leasing along with our ProRepair Equipment Service program.

Your orders will now be shipped from the 5 regional Henry Schein distribution centers located in Sparks, NV; Denver, PA; Grapevine, TX; Jacksonville, FL and Indianapolis, IN. This means that in most cases, you will now receive your goods within one day of placing your order.

Henry Schein is a global leader in the distribution of medical products to office based practitioners and has been serving the foot and ankle market for over 30 years.

We look forward to working with you in the years to come and thank you for placing your trust in us. We will continue to strive for excellence offering more products, service, and value for your practice.

Sincerely,

James L. Foster
President, Henry Schein Medical Foot and Ankle

DARCO Night Splints

DARCO offers both posterior and dorsal night splints. Both are effective, comfortable and easy to use. Make the choice that is right for your patient.

Body Armor® Night Splint
Dorsal Night Splint

The DARCO Body Armor® Night Splint is the only night splint that actively engages the windlass mechanism of the foot, resulting in a specific and sustained stretch to the plantar fascia, and a sustained low load stretch to the flexor tendons, Achilles tendon and calf muscles. Suggested L-code L4396

Pneumatic Night Splint
Posterior Night Splint

The DARCO Pneumatic Night Splint features a fully-integrated inflation/deflation system that can be easily operated with one hand. The internal air bladder is infinitely adjustable so every wearer can find the degree of dorsiflexion that works best for them. The natural cotton terry liner absorbs moisture and ensures a cool, comfortable fit. Non-skid sole. Suggested L-code L4396

A BLAST OF COLD PAIN RELIEF
THAT’S GOOD FOR PATIENTS AND YOU.

Offering Biofreeze® with Ilex, the #1 doctor-recommended choice for cold therapy pain relief, is a great way to extend your treatment between visits. It helps you offer the kind of comprehensive care that generates word-of-mouth referrals and repeat business.

HOW TO USE BIOFREEZE® TO BUILD YOUR PRACTICE!

SAMPLING PROGRAM:
We will customize brochures with your name and phone number with two 5 gram trial packets attached all at NO-CHARGE.

COUNTERTOP DISPLAYS:
We provide your office with a FREE countertop display – alerting patients that you sell Biofreeze Pain Reliever, and showing the range of products you have to offer, be that tube, roll-on and/or spray.

“WHERE TO BUY” SERVICE:
This on-line tool helps potential patients identify locations in their area where they can purchase Biofreeze Pain Reliever and/or receive service from you.

To sign up for this FREE program, visit www.biofreeze.com or call 1-800-246-3733

PerformanceHealth
For your feet and so much more...

- Softens and conditions rough, callused areas
- Helps protect the skins natural moisture balance
- Quick absorption for easy application of wraps
- Fresh pleasant scent
- Never sticky or greasy

Satisfactory Performance Guaranteed!

accessibility.

You asked. We listened.
For more information about this product, please contact Universal Footcare, call 1-800-MIDMARK or visit midmark.com.
Designed for Podiatry, the Midmark Modular Casework is strong enough for even the most rigorous medical use. A durable one piece, structural shell made of 18-gauge steel, serves as the caseworks foundation. Both the BV and MC packages include a stationary floor unit with a solid counter top, and a mounted upper unit with two adjustable shelves.

**BV Package Specifications:**
- Standard Features:
  - Configured with one 4” drawer, one 2” drawer, one pull-out writing desk and two doors for bulk storage.
- Specifications:
  - Floor unit dimensions (48” W x 36” H x 18” D)
  - Wall unit dimensions (48” W x 24” H x 14” D)

**MC Package Specifications:**
- Standard Features:
  - Configured with one 2” drawer, two 4” drawers, one pull-out writing desk and one 8” drawer.
- Specifications:
  - Floor unit dimensions (48” W x 36” H x 18” D)
  - Wall unit dimensions (48” W x 24” H x 14” D)
**Midmark 6066 Mobile Treatment Cart**

- 3 - 4” drawers
- 1 - 8” drawer

Infection control is a must and spills won’t penetrate Midmark cabinetry. Our specially designed top and construction eliminate areas where bacteria can get a foothold.*

Dimensions: 24” W x 18” D x 34” H

111-1706

**Midmark 6067 Mobile Treatment Cart**

- 5 - 4” drawers

Mobile Treatment Carts add great looks along with the fact that they depreciate much faster than built-ins, and you have a spectacular treatment cart.*

Dimensions: 24” Wide x 18” Deep x 34” High

386-9660

*Standard colors are Pebble Grey Kydex top with Pebble Grey sides, drawers, and doors. Please specify color of inserts for door and drawer pulls.

Features MTI’s premium 5-drawer Mobile Vacuum/Cabinet, MTCDV-2 can be equipped with adaptors to fit most of today’s popular drills. European drawers and slides along with rounded edges and European style 3 mm edge banded drawers give a pleasing appearance to your treatment room. 104-9694

MTI Mobile 5-Drawer Cabinet
MTI’s premium 5-drawer Mobile Cabinet, MTC-1. European drawers and slides along with rounded edges and European style 3mm edge banded drawers give a pleasing appearance to your treatment room. 110-2872
530 Power Knee Break Podiatry Chair/Table

The MTI 530 Quad Function Chair/Table with power lift, tilt, back and foot, are the most mechanically and technologically advanced podiatry surgery tables on the market. The 530 is capable of lifting patients over 600 pounds and the 300 pound rating of the foot rest provides increased safety in the event a patient accidently sits on the foot section. The power footrest has an electrical interlock built in it to preclude accidental operation of the footrest if the debris tray is accidently left extended.

The MTI 530 Podiatry Chair/Table is engineered with an industry first, the use of low voltage DC motors. Low voltage gear motors offer unmatched safety for the operator and patient and at the same time are more quiet, less complex, and more powerful than traditional high voltage motors, and they use less electricity. They plug right into standard electrical outlets too!

OPTIONS
- Auxiliary electrical outlet (remains on when electrical lock-out is actuated)
- Visual curtain blocks (two types), chair mounted mayo tray assemblies, shoe trays, and exam lights
- Mobile and swivel bases for specialty applications
- Optional vinyl colors

MTI 527
Tri-Powered Podiatry Chair

The 527P Programmable model offers two user programmable positions and an auto-return function, while the 527S Standard, non-programmable model is standard with MTI’s semi-auto “position switch” plus an auto-return function. A hand control or foot control can be had in lieu of each other or, optionally, together. With a minimum entry height of 21” and an extended height of 40.5” the 527’s afford easy entry for elderly or disabled patients, while providing extended heights for even the tallest of operators. The one-handed operation of the locking slide back arm, provides a safe and steady rest for the patient. From upright to reclined, the MTI 527 can do it all. The footrest extension adjustment with dual locks are located on both sides at the end of the footrest. Both the stainless steel debris tray and footrest extend 12” using KTL Cataphoresis coated slides and supports up to 200 pounds extended.

526 Podiatry Chair

With today’s patient population aging and the obesity percentage among adults continuing to rise, MTI has designed a family of podiatry products that assist in the delivery of caring podiatric services. The dual-power MTI 526 model is perfect for those podiatrists who sit rather than stand or who desire an economical alternative to the power base models. Standard features are the same as the 527 models except for the power base. A hand control with four user programmable positions or foot control with auto return can be had in lieu of each other or optionally, together. Almost 30º of tilt ensures access to the sitting podiatrist.

All of MTI’s chairs are powered by industry leading 24 volt DC low voltage motor technology, with current sensing control. MTI low-voltage motors are more powerful, more reliable, quieter and safer than competitive chairs. MTI chairs are made of all steel construction with Velcro attached to individual cushions for easy cleaning. All have coded lock-out to preclude unwanted operation of a chair by unauthorized adults or children.

OPTIONS:

- Auxiliary electrical outlet (remains on when electrical lock-out is actuated)
- Visual curtain blocks (two types), chair mounted mayo tray assemblies, shoe trays, and exam lights
- Optional vinyl colors

REVOLUTIONIZE YOUR OFFICE
WITH AN MTI 527 PODIATRY EXAM CHAIR

GET THE BEST IN FOOT AND ANKLE CARE:
INTRODUCING THE MTI 527

The new MTI 527 Podiatry Chair is not only beautiful, but with a maximum lift capacity of 650 lbs, it is a brute among its competitors. The 527's can lift the entire 620 lbs of the MTI founding Baker family Jeff, Brad, Matthew, and Michael.

- Rated to lift an astounding 650 lbs and has a low entry height of 21 inches.
- Employs ultra-quiet low-voltage DC-motor technology
- Dual-end footrest positive lock adjustments
- Has patent pending, Floating Arms™ that slide back and are rated at over 200 lbs
- Won the prestigious Gold Medal award of the American Society of Plastic Engineers for design, innovation, and unique production techniques

For more information on the NEW MTI 527, call (800) 924-4655 or visit our website at www.mti.net.

20/20 Imaging

The industry leader in digital imaging for podiatry

Henry Schein Foot & Ankle's new Phone # 1-800-323-5110
The ScanX 12 is the only digital imaging system specially developed for the podiatry office. It uses a reusable film substitute to capture a latent image. A phosphor plate is placed inside an X-ray cassette (instead of film and screens) and is exposed in the normal manner using existing X-ray equipment. The plate is “read” by the ScanX 12 and the image information is sent to your computer for viewing and storage. These phosphor plates may be reused thousands of times! In addition, if you are using blue sensitive film you will be able to reduce your X-ray exposure by over 50%. If you are like most podiatrists, you probably take 8” x 10” and 10” x 12” X-rays; so does the ScanX 12. The ScanX 12 lets you take two views on one 10” x 12” plate, just as you do now.

- User-friendly plate insertion, just like a film processor. Much easier than attaching a plate to a drum
- Saves time and space… the ScanX 12 reads a 10” x 12” plate in a mere 35 seconds and its space-saving footprint is only 14” x 14”.
- The ScanX 12 is manufactured in the U.S.A. by a manufacturer that has been in business since 1985.

Speed, size, convenience, price, and made in the U.S.A! Only the ScanX 12 delivers what you need in a digital imaging system. Universal Footcare Products will help you build a system that specifically meets your needs!

For pricing go to: www.henryschein.com/footandankle
“With ScanX® 12 computed radiography we have streamlined our process and are very happy with the change. ScanX 12 is easy to use and is saving our practice thousands of dollars.”

Dr. Michael S. Kuzner
Dr. John R. Iredale
Central Carolina Foot & Ankle Associates
Durham, NC

Switching To Computed Radiography Will Save You Thousands!

ScanX 12 computed radiography provides high resolution, detail-rich digital images at a cost lower than most other digital systems. Images are easily enhanced to maximize diagnostic information. And, through eliminating the recurring costs of film, chemicals, processor maintenance, and maintaining a darkroom, the ScanX 12 pays for itself in a short time and will save your practice thousands of dollars. In addition, ScanX 12 uses your existing X-ray equipment to expose reusable phosphor plates.

Count on the ScanX 12 to:
• Enhance images for more accurate diagnoses and enable more thorough patient discussions.
• Save precious space. No more darkroom, no more paper filing systems.
• Eliminate the recurring costs of film-based imaging.

To learn more about the ScanX 12 and how affordable digital can be, call 888-862-4050.
Apus PXP-15HF
Foot & Ankle X-ray Unit

Apus is a specially designed inverter type foot & ankle unit. This device is useful for the radiography of foot and ankles. Diverse angles for exposures and handy operation are one of the strong features of PXP-15HF.

Features:
- Ultra-lightweight and compact size
- Constant X-ray output without influence of line power fluctuation
- Equipped new remote control functions
- Flat touch panel & digital display
- LED readout/Display reverse switch
- Scale tape for SID measurement
- Built-in halogen collimator
- X-ray Output: 15 mAs/80kVp
- Generator: 70 kHz, HF Inverter Type
- KV Range: 50-80k/1kV Step
- mAs Range: 0.3 to 30mAs
- PROM APR memories for 6 selection of L.M.S. size each (Total 18 memories)
- Power Requirement: 110 V/AC, 50/60Hz
- Standard Accessory: Power cord cable, Exposure hand switch, and manual

314-9573

Mobile

- 28” SID
- Mobile system brings X-ray to patient
- Large casters roll easily
- Short wheel base easy to position
- X-ray from chair or poser
- Withstands constant moving
- Factory set for 8” poser
- Other X-ray head mounting heights available

Fax Order: 800-524-4969

Low Base LB-700 A/C

- 28” SID
- Radial Arm
- Low-base Poser (LB)
- 3.5” Base Height
- Lateral X-rays
- Non-threatening lower platform for older patients

Unit mounts easily on wood or metal studs. A wood backing board spanning two metal studs is recommended, but not included with the unit.

Xcel Tilt X-ray Machine

X-CEL X-RAY CORPORATION has expanded their line of easy-to-use Podiatry X-ray Machines. The newest easy-to-use feature is the patented Tilt-Head which is cleverly accomplished by simply tilting the X-ray source.

Fax Order: 800-524-4969
HFPM Mobile X-ray System and HFPS Stationary X-ray System

**HFPM and HFPS systems feature:**

- Easy to use efficient high frequency x-ray unit that provides 2-3 times shorter exposure times compared to conventional x-ray devices
- 5 memory stations for storing and one touch recall of x-ray exposure techniques
- Patient friendly, accessible designs
- Smallest footprints available
- 3 year limited warranty

MinXray HF units provide the best image resolution and optimum efficiency for use with digital imaging systems!

Best imaging results are achieved with 100-200 speed film or digital imaging systems.
Mid Base MB-900 A/C

• 28” SID
• Radial Arm
• Mid-Base Poser (MB)
• Base height 6”
• Perfect height for patient and operator use

114-9668

Mid Base MB-700 A/C

• 28” SID
• Radial Arm
• Mid-Base Poser (MB)
• Base height 6”
• Perfect height for patient and operator use

971-8960

Flip Base FB-700 A/C

• 28” SID
• Saves floor space
• 3.5” base height
• Fits between wall and chair
• Minimum space required: 34” x 51”
• Both lateral possible
• Folds to 18” wide
• Fits in hall

871-8589
All-Pro Automatic X-ray Processing System

- Processes up to a full 10” x 12” X-ray
- Processing cycle activates when film is inserted
- Returns to stand-by when film is delivered
- Built-in automatic replenishment system

Dimensions:
Processor: 15” Wide x 18” High x 25” Deep

All Pro 2010® X-ray Processor
102-3192

Accessories:
Quickloader™ Covered Feed Chute
- Perfect for busy practices
- Easy installation
- Accommodates film sizes up to 10” wide

830-7343
Processor Stand
696-3687
Drain Tube Washer
696-4020

Orthoposer Box

Specifications
Height: 7 in / 17.8 cm
Length: 28 in / 71.1 cm
Width: 14.31 in / 36.4 cm
Weight: 15 lbs / 6.8 kg
Accommodates up to 10” x 12” (24 cm x 30 cm) cassettes

Firmly holds any cassette or non-screen film envelope up to 10” x 12” while exposing half the film. Unexposed half is protected from exposure by a built-in lead shield. Used with most X-ray units.

The CryoPen Tackles Tough Plantar Warts

The New CryoPen Cryosurgical System provides revolutionary pen-like precision and eliminates the need for dangerous cryogenic liquids or gases and expensive disposable canisters.

- **Simple.** Non-technique dependent procedure administered with pen-like precision
- **Safe.** No more handling of liquid nitrogen or other dangerous cryogenic liquids or gases
- **Effective.** Consistent freeze temperature for treatment of plantar warts

Dramatically Increase Revenue!

*In my practice, I have found the CryoPen System to be an effective modality for the treatment of pedal verruca in the majority of cases. The treatment is simple, safe, and effective.*

**Burton™ Reflectors**

The “standard” in the medical industry, offering uncompromised quality and reliability. The Burton Reflector provides the best features and durability of any reflector-type light in its class, plus includes a sturdy SteriHandle and handle adapter.

**Features:**

- More than 3000 footcandles of illumination
- Includes a 100 watt halogen bulb with 2000 hr. life
- Bulb housed in a heat absorbing, color-correcting glass cylinder
- Design reduces shadows in field of vision
- Focusable
- 12” reflector
- 115V standard; 100V, 220V, or 240V models also available
- Battery option
- Includes SteriHandle and Adapter* available (can be purchased separately for both new and old reflectors
- UL listed and CSA certified; made in the USA
- 3-year warranty

* Engineering and field use studies have shown that a side handle adapter (such as the 1007101) is safer and more reliable on Reflector style lights than center adapters.

CryoPen
The CryoPen uses no cryogenic gases or liquids. It offers the most advanced state-of-the-art cooling technology in the field of cryosurgery. The CryoPen Cryosurgical System is designed to be the most effective and simplest cryosurgical instrument on the market. It is less costly than other current treatments, and is less painful than traditional methods. The CryoPen also offers accurate pen-point precision and a consistent freeze temperature, which can be monitored using the CryoPen Temperature Indicator. With its simple, non-technique dependent procedure, the CryoPen makes cryosurgery simple, safe, and effective.
114-4913

Stinger-Lite
Portable Lightsource for your Endoscope
• 15,000 candlepower
• Rechargeable up to 1000 times
• Xenon-bright bulb (extra bulb included)
• Unique condensing lens concentrates light
• Fits all ACMI scopes
• Includes charging station
114-9981

Needle Stand
To permanently hold and transport electrosurgical units.
For transporting electrosurgical unit. Tilted mounting panel for comfortable use while sitting or standing. Stable, tripoint base. Stand is finished in lustrous, durable Brewerchrome.
550-3682

Penrose Drain
• Unique fully adjustable cuff shape adjusts to variations in limb, shape, and taper
• Positive locking connector helps prevent accidental cuff disconnection
• Soft & flexible cuff design
• Latex-free
• Extra cuff width allows blood flow to be stopped at lower tourniquet pressures
• Thinner cuff design provides less obstruction at the surgical site
• Matching limb protection sleeves
113-7499

Contour Lower Leg Cuff
• Can be operated on AC power or on rechargeable batteries
• Compact lightweight tourniquet can be held in the palm of one hand
• Table top or IV pole mounting
• Regulates pressure using advanced digital technology and ambient air
• Large display to show tourniquet time & pressure
• Audio-visual alarms for over/under pressure and elapsed time
• Self test & leak alarms
114-5841

Contour Adult Thigh Cuff
• Matching limb protection sleeves
• Positive locking connectors help prevent accidental disconnection
• Latex-free

Mada Oxygen Unit
Fix flow regulators set at 6 liters per minute for 28 minutes-only one on-off valve to operate. Gauge shows capacity at all times.

Mada D.V.R.
Emergency Oxygen Unit
Used to provide 100% oxygen. Designed to operate on a regulated oxygen supply pressure of between 40-90 psi (275-620 kPa) and capably reduces pressures to physiologically acceptable levels. The rate of oxygen flow is dependent on the inhalation effort. Gases from the lung are expelled through the non-breathing valve during exhalation.
Complete with E cylinder on chrome-plated cart.

**MultiPro™ 395 Variable Speed Moto-Tool**

An adjustable, high-speed, ball-bearing motor (5000-30,000 RPM) is 30% more powerful than previous models. Speed can be adjusted for any application. It is double insulated, eliminating the need for grounding. The custom-designed, shatter-resistant housing fits comfortably in your hand to provide precise fingertip control. A thrust bearing provides greater drilling capability with a 6’ two-wire, flexible coil cord.

**Motor Specification:**

- 115 V
- 60 Hz
- AC
- 1.15 amps

**Model 225 Flex-Shaft**

Allows fingertip control for tight corners and hard-to-reach areas. 36" long cable attaches to Moto-Tools 395, 285 and 275. Pencil-like ½" diameter handpiece is cool running.

Maxima® SELF-SEAL STERILIZATION POUCH WITH SURE-CHECK® TECHNOLOGY

An innovative technology that confirms ALL three sterilization parameters —
time, temperature and presence of steam!

Printed directly on the pouch, the Sure-Check multi-parameter steam indicators start out light pink and change to dark brown when sterilization parameters are met, making it easy for users to read results.

Characteristics:
• Confirms all 3 sterilization parameters — time, temperature and presence of steam
• Features Sure-Check internal/external multi-parameter steam indicator technology
• Eliminates the extra step of adding separate multi-parameter steam indicators to each pouch
• Meets CDC Infection Control Guidelines for effective sterilization
• Complies with strict ISO chemical indicator standards
• Tested and certified by an independent laboratory
• Allows easy, reliable and cost-effective use

Maxima Sterilization Pouches’ advanced multi-parameter steam indicators provide sterilization assurance you and your patients can count on.
Tuttnauer Manual Autoclaves

Tuttnauer manual autoclaves set the standard for steam sterilization and they still remain the benchmark in the industry. Time-tested reliability and durability is built into every Tuttnauer product.

Features:
- Automatic shutoff at the end of both the sterilization and dry cycles.
- A long-life electro-polished chamber and door.
- Double safety-locking device prevents door from opening while chamber is pressurized.
- Overheat cutoff prevents burnout of heating elements in case of insufficient water in chamber.
- Drain valve located on the front, allowing for quick and easy draining of water reservoir.
- Dual safety thermostat to protect against overheating.
- Overall Dimensions: 21.5"D x 20"W x 14.4"H.

Model | Chamber Size
--- | ---
668-5221 | 9" x 18"
668-2477 | 10" x 18"

Tuttnauer Fully Automatic Autoclaves

Tuttnauer fully automatic autoclaves fill, sterilize, exhaust and dry at the touch of a button. Innovative closed door drying cycle maintains sterility and ensures efficient drying of packs and pouches.

Features:
- Pre-loaded cycles: unwrapped instruments; wrapped/packs; liquid and additional drying cycle.
- All program parameter can be changed and stored.
- Power outage recovery system.
- HEPA filtered air circulated in chamber during drying.
- Chamber door remains closed during entire cycle.
- One-touch fully automatic operation; forget it once you set it.
- Optional printer available.

Model | Chamber Size
--- | ---
668-0401 | 9" x 18"
668-0402 | 10" x 18"

Valueklave 1730

- The speed and quality you demand with the value you deserve.
- Provides all basic sterilization needs at an economical price.
- Compact size (7" chamber) makes it a perfect unit for small offices or a second autoclave for larger practices.
- Fast cycle time: 9 minutes from a hot start (Standard unwrapped cycle time).
- Overall Dimensions: 17.9"D x 17.4"W x 12"H.

Model | Chamber Size
--- | ---
668-2244 | 7" x 12"

Henry Schein Offers Complete Office Planning, Premium Financing and Leasing Options.

Fax Order: 800-524-4969
The Midmark M11 UltraClave® Automatic Sterilizer is the largest tabletop sterilizer that provides reliability, capacity and efficiency. Easy to use with four pre-programmed cycles. Simply load it... set it... and forget it. Once the sterilization process is complete, the door opens automatically to dissipate steam and quickly dry the instruments.

- Safe and Reliable
- User Friendly
- Quiet Automatic Door Operation
- Pulse Air-Removal Technology
- Easy to Clean and Maintain with Maintenance Reminders
- Front Fill and Drain
- Pre-Set and Programmable Cycles
- Modern Fresh Look

Specifications:
- Overall Length: 23.8” (60.5 cm)
- Overall Width: 17.8” (45.2 cm)
- Overall Height: 17.8” (45.2 cm)
- Minimum Countertop Area: 21”D (53.3 cm)
- Chamber: 11” diameter (27.9 cm) x 18” depth (45.7 cm); 6.5 gal. (24.6 liters) usable volume
- Water Reservoir Capacity: 1.4 gal. (5.3 liters)
- 2 Large Trays – 9”W x 15”L x 1.1”D
  (22.9 cm x 38 cm x 2.9 cm)
- 2 Small Trays – 6.6”W x 15”L x 1.1”D
  (16.8 cm x 38 cm x 2.9 cm)

Electrical:
- 115 VAC, 50/60 Hz, 15 amps single phase
- 115 VAC has 1425 watt tubular immersion heater
- UL61010A-1, UL61010A-2-041
- CAN/CSA C22.2 No. 1010
- CAN/CSA C22.2 No. 1010.2-041-96
- Meets the requirements of ASME Boiler and Pressure Vessel Code
- A separate (dedicated) circuit is recommended for this sterilizer.

Diack Sterilizer Controls
Diack Controls are used for general autoclaving at 250° (15 Lb. pressure). The most common use is to check proper sterilization of dressings. Long strings on vial allow for easy retrieval from center of pack being tested.

**FX Pro™ Boot – Darco**
- Ultra low profile walker with a full rocker sole.
- Provides smooth heel-to-toe transition.
- Eliminates back and hip pain caused by other walkers.
- Washable padded liner.
- Vented for air circulation—keeps the lower leg cool and comfortable.
- “Spatula” stirrups prevent ankle motion and friction against the sides of the calf.
- Full-length, pressure-moldable comfort foam insole conforms to the foot while absorbing shock.

**Peg Assist Insole**
- Allows the Darco Square Toe Medical Surgical Shoe to be converted into a premium off-loading and wound-care product.
- Can be used on patients with wounds, ulcerations of the foot, trauma to the foot, and recent surgery.
- Highest grade plasazote and poron materials
- Insole is 18 mm thick.
- Most effective when the blue poron side is worn up, against the foot.

**Med Surgical Shoe – Darco**
- Square toe design provides additional bumper protection when K-wires are present.
- Rocker Sole reduces plantar pressure on the forefoot and heel by over 25 percent.
- Strapless Forefoot Closure eliminates buckle pressure and expands to accommodate a 17” dressing.
- Ankle Strap eliminates heel slippage.
- Zoned Outsole provides traction under the midfoot.
- MetaShank Protection provides more rigid control under the metatarsal heads.
- Removable Insole fully customizable with over twice the padding.

**OrthoWedge™ – Darco**
- Removes pressure from the metatarsal heads and digits to protect the forefoot.
- Extended sole
- Black color

**Air Traveler by Darco**
- Circumferential Air Bladder - ultimate compression and security.
- Easily adjusting 5-way strapping system.
- Achilles Barrier - forces air for consistent, even compression.
- Low Profile - almost same height as a walking shoe.
- Lightweight Walker.
- Rocker Sole - aids in transition form heel to toe.
- Anatomically contoured “Spatula” Stirrups - conform to the leg and immobilizes the ankle.

**Heel Wedge Healing Shoe – Darco**
Specifically designed to protect the heel.

**Swede-O Night Splint**

Designed to provide relief during the night from the pain and discomfort of Plantar Fasciitis and Achilles Tendonitis. Allows the patient to apply a consistent 90° angle stretch to the plantar fascia by holding the foot in a gentle dorsiflexion. Removable foam wedge insert is included for additional 5° stretch on the plantar fascia. Soft gray padded cover provides patient comfort and protection against skin irritation.

- 364-8241: Small
- 364-3969: Medium
- 364-0472: Large
- 364-8630: XX-Large

**Swede-O Step-Smart, Drop Foot Device**

The only complete solution for drop foot. The Step-Smart™ brace is not only designed for clearance during swing phase, but it is also engineered to handle shock absorption at heel strike. The exclusive Jacob Joint™ pushes the foot into gentle dorsiflexion during swing phase. Then the pre-loaded feature of the joint absorbs shock and decelerates the plantar flexion phase instantaneously during heel strike.

The Jacob Joint™ comes complete with three sets of replaceable compression components that offer varying degrees of shock absorption. This allows the practitioner to adjust the shock absorption level to match the weight and step length of the patient.

- 364-1745: Left, Small/Medium
- 364-5280: Left, Large/X-Large
- 364-8967: Right, Small/Medium
- 364-8254: Right, Large/X-Large

**Swede-O Walking Boot Mossy Oak, Tall Fixed**

Wider foot bed provides a more comfortable fit and accommodates a wider variety of people. Rocker bottom and low profile heel allows for a more natural gait. Indications for use include post cast removal, post surgery, severe ankle sprains, and stable ankle fractures.

- 110-5039: Small
- 110-5040: Medium
- 110-5042: Large

**Swede-O Walking Boot, Pneumatic Tall, Fixed**

Pre-inflated pneumatic liner provides increased stability while helping to reduce swelling. Pneumatic air cell in the foot bed provides additional patient comfort. Lightweight design includes metal reinforcement uprights for greater strength.

- 110-4525: Small
- 10-4528: X-Large

**Swede-O Inner Lok 8®**

Two figure-eight straps are actually pre-configured through the inside of the ankle brace, allowing patients to easily apply the brace in the correct position every time. Fits right or left ankle and is guaranteed for one full year. Latex-free.

**Tuli’s® Classic Heel Cups**

Double ribbed to provide relief from heel strike pain. Worn in your shoes, they will prevent sore heels and knees, shin splints and heel spurs. Also relieves arch, ankle, leg, and back pain from everyday heel strike.

- 893-2803 Regular (Under 175 Lb.) Pair
- 893-0266 Large (Over 175 Lb.) Pair
Double-ribbed heel cups are the most advanced shock-absorbing heel cups available. Primary force of the heel strike is absorbed by the larger and higher waffle pattern. Lower and denser waffle pattern absorbs the "high pressure" and final force spike of heel strike. Perfect for sports activities.

Tuli's® Classic Gel Heel Cups
TuliGEL is a specially formulated Polymer that is lighter, softer, and more resilient than other heel cups. The unique character of TuliGEL combined with the patented waffle design provides the ultimate in cushion for shock and vibration. For everyday use.

- Adult size fits 97% of all adults
- Junior size fits children and women with small heel areas
- Lightweight, thin-molds itself to shape of foot

For pricing go to: www.henryschein.com/footandankle
Web Ankle Support - Darco
For chronic weak ankles, recovering ankle injuries, post-op ankle recovery and ankle support.
- The open back ankle support uses elastic laces with hook & loop tabs to comfortably secure
- Thin enough to wear with athletic shoes or casual dress shoes
- Durable vinyl outside lined with high tech spacer padding to help wick moisture
- Latex-free
- Fits either right or left

### About PPT®
PPT® is a medical grade soft-tissue supplement from the Langer Biomechanics Group. PPT offers the highest level of protection and performance against shock and pressure.

- PPT® provides a low friction surface for easy passage of socks and hose and roughed surface for superior gluing.
- PPT® Plus offers the same roughed surface for superior gluing and the alternate side is reinforced with a non-woven material to provide proven tear strength in orthotic applications.
- Ultralux™ topcoat offers unprecedented ‘wicking’ ability, protecting against moisture buildup, discomfort, fungus, and odor.
- Ultrastretch combines a four-way stretch nylon fabric with PPT® to increase durability and elasticity.

**Modified Roberts-UCBL (Heel Stabilizer) Forms**

Thermoplastic (Subortholene®) Modified Roberts Heel Stabilizer form is dispensed to children needing substantial calcaneal and forefoot control. Recommended for control of rearfoot pronation and in instances of muscular weakness, ligamentous laxity, premature fatigue, and any other conditions. Designed to limit calcaneal inversion, eversion, and inclination and stabilize rear-foot, subtalar and midtarsal joint motion.

**Infant’s Subortholene**

- 114-9554: Size 2/3 Pair
- 114-9555: Size 4/5 Pair
- 114-9556: Size 6/7 Pair

**Child’s Subortholene**

- 114-9557: Size 8/9 Pair
- 114-9558: Size 10/11 Pair
- 114-9559: Size 12/13 Pair

**Youth’s Subortholene**

- 114-9556: Size 1/2 Pair
- 114-9557: Size 3/4 Pair

**Moulded Leather Shells**

A full-length shell featuring a well-rounded heel cup and mild medial elevation.

**Soft Support Prefoms**

- Constructed of cellular rubber, Preform® is designed for patients in need of soft, accommodative and inexpensive orthoses treatment: geriatrics, arthritics, children and athletes. The Schaefer form is recommended in instances of metatarsalgia, plantar fasciitis, pes planus, pes cavus, spalfoot, and premature foot fatigue and/or pain. Designed to support stressed or high structured feet, improve gait, and reduce discomfort.

Introducing GelSmart by Pedifix

- Exceptional Quality
- Innovative Designs
- Cost-Effective
- Washable and Reusable

100% Pure USDA Medical Grade Mineral Oil Thermoplastic Elastomer.

This advanced oil-based polymer gel slowly releases a medical-grade mineral oil that softens and moisturizes skin. Dermatologist tested, hypoallergenic and odorless, M-GEL is cost-effective for most applications including: orthopedic products, prosthetic and orthotic products, and wound care.

100% Medical Grade Silicone

Silicone is considered the traditional material for the medical community. S-GEL is ideally suited for use in a wide range of medical products including: orthopedic devices, prosthetic liners, and wound and scar management. The 100% medical grade silicone is soft, hypoallergenic, durable, and washable. It never bottoms out.

GelSmart Corn Pad
Flexible fabric ½ coated with soft gel. Ideal for corns, blisters and other digital injuries.
108-0539 Small/Medium 12/Pack
108-0540 Large/X-Large 12/Pack

**Full-Length Insole with Toe Crest**

Ideal for fat pad atrophy, metatarsalgia, Morton’s neuroma, etc.

- 728-0294: Small
- 728-2647: Medium
- 728-9411: Large
- 728-0674: X-Large
- 728-2810: XX-Large

**Gel Metatarsel Pad with Toe Spreader**

Soft, durable and comfortable insole allows foot to slide easily into shoe. May be used under other insoles for shock absorption and protection.

- 728-8094: Small/Medium
- 728-7696: Large/X-Large

**Low Profile Fabric Covered Insole**

Soft, durable and comfortable insole allows foot to slide easily into shoe. May be used under other insoles for shock absorption and protection.

- 728-4151: Small
- 728-0042: Medium
- 728-4231: Large

**Malleolar Gel Sleeve**

- Gel pads molded into elastic sleeve
- Comforts and cushions the ankle
- Helps reduce abrasion and shear forces
- Can be used for hot or cold therapy
- Skin protection system

- 471-5827: One Size, 1 Sleeve/Pkg.

**Soft Sock**

- Double-layer sock with gel bottom
- Helps reduce friction, abrasion and shear force
- Helps reduce callus formation
- Recommended for: Diabetic, rheumatoid, and the insensitive foot

- White:
  - 640-7475: Small (7-9)
  - 797-2680: Medium (9-11)
  - 170-8695: Large (10-13)
  - 605-6810: X-Large (13-16)

**Pressure Relief Padding**

- Ideal lining for orthotics, shoes, braces, and splints
- Reduces friction and shear forces
- Insulates against shock and vibration
- Adhesive backing adheres to most clean, dry surfaces
- Easily cut and glued to any surface
- ¼” Gel Thickness

- 471-2873: 4” x 36”
- 471-7986: 8” x 36”

The Fabrifoam® Material Collection

Fabrifoam® is a patented, fabric/foam composite material combining our latex-free foam with high-quality fabrics, offering varying degrees of stretch for specific applications. Fabrifoam® breathes, wicks away perspiration, resists migration, provides maximum compression, is infinitely adjustable, Velcro-hook receptive, safe and latex-free, washable, reusable, durable, comfortable, and cost-effective. Its ease of use ensures high patient compliance.

Gel Foot Cover

Made from a thin layer of gel covered on both sides with fabric. Offers complete toe protection. Extends to under the metatarsal heads. Worn comfortably in everyday footwear. Can be worn under hosiery.

Gel Metatarsal Pad

- 100% Medical Grade Silicone
- Absorbs shock, vibration
- Provides even pressure distribution
- Reduces pressure and pain of hammer, claw and mallet toes
- Will not bottom out like foam

AnkleGard™

- Recommended for ankle sprains and ankle instability. Can be used for treatment, or as a preventative of ankle injuries.
- Delivers semi-rigid or rigid support while allowing for adjustable compression.
- Slim, slip-resistant device, comfortable to wear, fits in most footwear.
- Created with NuStim Wrap™; available in sizes for optimal fit.

AnkleWrap™

- A superior replacement for traditional cloth wraps, helps prevent inversion and eversion injuries and aids in rehabilitation.
- Compression and support helps eliminate pain and discomfort.
- Made of 10' MediWrap™, comfortably accommodates three heel locks and figure eights.
- Secures with Velcro® closure.
Step-in Compression™
- Easy “step-in” design provides adjustable compression and support; ideal for geriatric patients.
- Effective in treatment of edema and discomfort.
- Can be worn in most shoes. One size fits most.

Bunion Sling
110-0261 Small Left
110-0921 Large Left
110-2957 Small Right
110-3467 Large Right

SuperWrap™
- An exciting breakthrough in adjustable compression and support therapy.
- Allows for a very high degree of multi-directional elasticity with adjustable compression and support.
- Ideal for treating a wide range of injuries.
- Latex-free, non-migratory, breathable, and durable.

NustimWrap™
- Provides a moderate degree of two-directional stretch.
- Replaces neoprene wraps for wrist, elbow, ankle, and knee supports.
- Secures proper placement of electrodes, hot or cold packs, and customized supports.

MediWrap™
- Provides a low-to-medium degree of two-directional stretch.
- Secure wrap replaces adhesive tape for wrists, thumbs, fingers, patellae, and ankles.
- Rigid support useful for restricting mobility and protecting against strain and injury during work and athletics.

ProWrap™
- Delivers a powerful degree of strength with minimal elasticity.
- Excellent for use as a superior strapping material, compression wrap and for customized supports.

**Cutinova® hydro Hydrocolloid Dressing**

- Absorbs up to two times as much wound fluid as other hydrocolloid dressings
- Allows for fewer dressing change
- Semi-transparent for easy wound inspection
- Virtually non-adherent to a moist wound site
- Sticks comfortably to dry skin for a waterproof seal around the wound
- Provides a natural wound cleansing via autolysis
- No gel residue left behind
- High oxygen permeability prevents skin maceration

DRESSINGS, GAUZE & ADHESIVES

DuoDERM “CGF”
Sterile “Hyroactive” Dressing
• Proven environment for fast healing
• Allows dressing removal with virtually no damage to delicate new tissues
• Water-resistant surface permits bathing and washing
• Ideal for leg ulcers, pressure areas, pressure sores, and superficial wounds

For use on superficial, minimally exudating pressure ulcers
• Unique, sheer, flexible design allows observation
• Conforms readily, even on difficult-to-dress areas
• Water-resistant surface permits bathing and washing

Polymem Adhesive Cloth-Backed Dressing

DuoDERM Extra Thin

Polymem Adhesive Film
Wound Care Dressings, known as “The Pink Dressing”.
• Provides a warm, moist healing environment that promotes formation of granulation tissue and reepithelialization
• Protects the wound while facilitating the body’s natural healing process.

Fibraco™ Collagen - Alginate Wound Dressing
• Collagen compound breaks down gradually ensuring the wound does not dry out and helps maintain a moist wound environment
• Non-adherency minimizes tissue trauma, is easily removed, and leaves the wound free of fiber
• Allows exudate transmission without maceration
DRESSINGS, GAUZE & ADHESIVES

To Order: 800-323-5110

Mediplast®
Salicylic Acid Plaster 40%. Packaged in envelopes.
831-8936 ........................................ 2” x 3” 25/Box

Owens Dressing – Kendall
Non-adherent plain surgical dressings. Use over burns, incisions, granulating areas, skin grafts, donor and recipient sites, lacerations and abrasions. A semi-permeable polyester fabric that prevents capillary penetration without ointments. Wound surface damage is minimized.
324-4281 ........................................... 3” x 3” 36/Box

Spenco® 2nd Skin® Wound Dressing
• Feel and consistency of human skin
• Removes friction between moving surfaces
• Cleans wounds by absorbing secretions
• Evaporative cooling effect relieves pain and itching
Non-Sterile
645-2314 ............................................. 1” x 1” Square 200/Jar
645-0991 ............................................. 3” Round 48/Jar

Amerigel® Gauze Dressing
FDA approved antimicrobial/antifungal hydrogel impregnated gauze. Indicated for stage 1-IV pressure ulcers, diabetic skin ulcers, venous stasis ulcers, 1st and 2nd degree burns, post-surgical incisions, cuts, and abrasions.
185-0014 ........................................... 2” x 2” 10/Box

Amerigel® Wound Dressing
First and only antimicrobial Hydrogel. Promotes a moist wound environment. Assists in autolytic debridement. Prevents infections. The once-a-day treatment for matrixectomies. Eliminate soaking, neutralize phenol, prevent infections and reduce healing times.
185-5327 ........................................... 1oz. Tube 24/Case

Tegaderm™ – 3M
Transparent Dressing consists of a thin, strong, yet highly flexible polyurethane backing, coated with a hypoallergenic, water-resistant, acrylate adhesive. Sterile, transparent, and impervious to water and bacteria, but permeable to moisture vapor and oxygen.
777-9152 ........................................... 2½” x 2½” 100/Box
120-3612 ........................................... 4” x 4½” 50/Box

Amerigel® Care Lotion
The only lotion to combine Urea, Zinc, Oakin, and Dime-thicone. Exfoliates, re-hydrates dry skin and prevents interdigital friction. Exfoliates damaged skin with Oakin, moisturizes with Urea and protects with Dimethicone.
185-0016 ........................................... 8 oz. Bottle

TenderWet® Active
Eliminates the need for wet-to-dry dressing changes by actively rinsing and debriding wounds for up to 24 hours. Attracts the proteins in dead tissue, bacteria and toxins into its super-absorbent core. At the same time, Ringer’s solution is released from the dressing to help continuously irrigate the wound resulting in a cleaner wound that can heal faster and save nursing time.
115-4450 ........................................... 2” Round Dressings, 7/Box

Fax Order: 800-524-4969

<tr>
<td><strong>SilvaSorb Gel</strong></td>
<td>Harnesses the power of ionic silver, releasing silver at a controlled level for broad-spectrum antimicrobial action, without harming tissue cells. Ionic silver is suspended in the dressing to control its release over a period of up to 7 days. SilvaSorb offers antimicrobial protection over a broad spectrum of bacteria and fungi, including MRSA and VRE. Kills microbes but is completely biocompatible with the tissue cells of healing. Available in 4 formats: sheets for flat wounds with none to moderate exudate; perforated sheets for flat wounds with moderate exudate; cavity strands for deeper wounds of all exudate levels; and gel for dry wounds. Latex-free.</td>

Arglaes™ Powder
Well suited for difficult-to-dress wounds. Its alginate base forms a soft, conforming gel when it contacts wound exudate, and the ionic silver delivers effective antimicrobial action. Easily combined with other dressings to create a system for bioburden control and optimal moist wound healing.

Tielle Hydropolymer Dressing
Provides an exudate handling system for low to moderate exuding wounds. During use, the absorbent island gently expands as it absorbs exudate. Maintains a moist environment without the risk of maceration.

- Waterproof, permeable polyurethane backing acts as a bacterial barrier and allows moisture vapor to evaporate through dressing.
- Gentle adhesive border.
- May be left in place for 5–7 days to minimize wound disturbance and reduce nursing time.
- All-in-one dressing requires no secondary dressing or tape.

Sterile Podiatry Procedure Pack

Makes Every Minute Count!
The Foot Surgery Pack contains the basic items necessary to perform most foot- and bone-type surgeries (e.g., bunion-ectomies, heel spurs, osteotomies, etc.). To maintain the sterile integrity of our packs, the gowns are sterilized separately and can be removed without breaking the sterility of the procedure tray.

Each pack contains:
1. Table cover – 44” x 76”
2. Stretch gauze – 4” x 5 yds.
3. 16 oz. sponge bowl
4. Fluff dressing
5. 2 oz. medicine cup
6. Elastic bandage – 4”
7. Poly towels
8. Towel clamps
9. Sheets – 44” x 60”
10. Gauze sponges – 4” x 4”
11. Stainless steel #15 blades
12. Gauze sponges – 3” x 3”
13. Mayo stand cover
14. Base tray
15. Gowns with hand towel

Helping to Keep You on Your Feet

What better time than now, during this struggling economy, to take advantage of affordable prices from Gordon Laboratories. In this, our Sixtieth Anniversary year, we have kept prices stable while adding a few specials.

If you are thinking about in-office dispensing, see how easy it is to get started, and how our affordable pricing and our wide selection of topicals can increase your revenues.
**Aloe Grande Creme**
Fine, all-purpose skin cream. Contains vitamins A and E and Aloe Vera Gel.

115-6450 ........................................ 2.5 oz. Jar

**Abscents® Deodorizing Powder**
Immune to thermal or chemical reaction like enzymes or chlorophyll, it totally differs from fragrance-type products because it truly eliminates, not masks, odors. No physiological effects; it can be used directly on the foot or placed in the shoe.

423-9788 ........................................ 1 oz. Shaker Bottle
864-5264 ........................................ 3 oz. Shaker Bottle

**Aloe Grande Lotion**

How do you get a stubborn Wound to move?

3M® Tegaderm® Matrix Dressing with PHI® technology, helping chronic wounds progress toward healing

Tegaderm® Matrix dressing was designed to promote the natural moisture balance needed to help jump-start chronic wounds, enabling them to progress through the normal healing cascade.

To help your patients manage Diabetic Foot Ulcers and other hard-to-heal wounds, contact your 3M Skin and Wound Care Sales Representative. To request a FREE evaluation kit, call 1-866-802-7278 or visit www.3M.com/tegaderm-matrix4
INJECTABLES & SOLUTIONS

A

Adrenalin Chloride
Epinephrine 1:1000
890-7468 .......................... 30cc Vial

Alcohol Preps
108-7680 .......................... Medium 200/Box
110-0539 .......................... Large 1000/Case

B

Aristospan
(Triamcinolone hexacetonide injectable suspension, USP). Prolonged effect results from slower absorption. Designed for intra-articular therapy. Most potent of the steroids currently available in terms of efficacy and duration of action.
632-8773 .......................... 20 mg, 1 mL

B-12 Cyanocobalamin
1000 mcg/mL
248-4301 .......................... 10 mL Vial
111-6120 .......................... 30 mL Vial

Bacteriostatic Water for Injection
Preserved with 0.9% Benzyl Alcohol
258-7428 .......................... 30 mL
104-7765 .......................... 30 mL 25/Box

C

Bupivacaine - Abbott Labs
104-7069 .......................... 0.25% with Epinephrine 50 mL Vial

Carbocaine
631-1626 .......................... 1% 50cc Vial
258-1385 .......................... 2% 50cc Vial

ALP 100 mL Dual Top Irrigation Solutions
An aseptic system for cleansing, moistening, diluting and soaking. Dispense the solution exactly where it’s needed, as it’s needed, easily, conveniently, with less waste. Use the easy opening twist and pull tab for controlled pressure dispensing squeeze bottle. Use the snap-off top for pouring or tracheal catheter insertion/cleansing.
698-3696 .......................... Sterile Water 25/Case
698-5812 .......................... Sodium Chloride 25/Case

Bethamethasone Combo
114-8668 .......................... 30 mg per 5 mL

Fax Order: 800-524-4969
INJECTABLES & SOLUTIONS

**Celestone Soluspan**
6 mg/mL
516-0266 ........................................ 5 mL Vial

**Dehydrated Alcohol**
375-3870 ........................................ 1 mL 10 Ampules/Box

**Depo-Medrol**
20 mg/mL
908-3069 ........................................ 5 mL Vial
40 mg/mL
908-5362 ........................................ 1 mL Vial
908-9783 ........................................ 5 mL Vial
908-1188 ........................................ 10 mL Vial
80 mg/mL
908-7956 ........................................ 1 mL Vial
908-3787 ........................................ 5 mL Vial

**Dexamethasone Sodium Phosphate**
111-3174 ........................................ 4 mg/mL 5 mL Vial
258-1970 ........................................ 4 mg/mL 30 mL Vial

**Dual Wound Cleansing System**
Dual Ingredients:
Only Poloxamer 188 and sterile water...nothing to cause irritation.

Dual Action Cleanser:
Surfactant contains both hydrophobic and hydrophilic elements to promote cleaning by itself with less trauma to healing tissue.

Dual Opening System:
100 mL bottle has a “pull and twist off” top for squeeze/pressure dispensing, plus a “snap-off” top for easy pouring.

**Epinephrine Injection 1:1000 – Elkins – Sinn**
1 mg/mL multiple dose
109-9438 ........................................ 30 mL Vial

**Gentamicin Sulfate**
40 mg/mL
248-9959 ........................................ 2 mL Vial

**Emergency EpiPen**
• Automatically delivers an accurate, premeasured dose of epinephrine intramuscularly: 0.3 mg (adult)
• Always ready for use; requires no filling, assembly or preparation
• Concealed needle minimizes patient fear
• Virtually painless

**Emergency Eyewash Station**
SHA Required
This eyewash unit has an automatic shut-off valve, and will fit any faucet that has a removable aerator.

Swede•O Strap Lok®
- Figure-eight straps simulate the effect of a professional taping procedure
- The heavy-duty top strap locks the figure-eight straps in position
- Exclusive offset panel locks the laces in place for a more secure fit

Dorsal Night Splint
- Gently Stretches Plantar Fascia
- Dorsal design supports the foot from above
- Low profile design provides greater patient compliance

Thermoskin Plantar FXT™
- Nighttime Plantar Fasciitis treatment
- Gently stretches the plantar fascia to promote healing
- Excellent Patient Compliance

Swede•O Tarsal Lok®
- Built-in stabilizer molds to the shape of ankle simply from body heat
- Patented stabilizer design helps control the midtarsal joint
- Low profile design fits easily and comfortably in almost any style shoe

Stabilizer will actually mold to the shape of your ankle simply from body heat

Comfortably and effectively relieves the painful symptoms of Plantar Fasciitis

- Patented clam shell supports soft tissue and metatarsal while holding foot in neutral position during sleep
- So lightweight, cool and easy to wear patients are willing to wear it for longer periods of time
- The Dorsal Night Splint can also be used for severe ankle sprains, Achilles tendonitis, foot drop/neurological deficits, muscular strains and many other conditions that require ankle stabilization in a neutral position

Exceptional protection for active lifestyles during exercise or athletic activity

- Solid U shape design off loads 8.2% of body weight in gait and provides inversion/eversion protection
- Bilateral hinge allows freedom of motion in plantar flexion/dorsiflexion
- Custom molded EVA padding for unequaled fit and comfort

The mobility of a lace-up with added support by controlling the heel and forefoot

- Unique Y-Shaped vertical stabilization straps allow for unprecedented control over both the forefoot and the heel
- Total control lacing allows for an even pull throughout the body of the brace, creating a better fit for a variety of foot shapes
- Four spring steel stays help support the ankle and aid in preventing heel release by supporting the body of the brace
- Circumferential strap helps stabilize the brace, prevent unwanted slippage and provides a secure and comfortable fit
- Neoprene lined nylon shell

The 2-in-1 ankle orthosis that takes the patient from acute phase through rehab

- Innovative, dual density padding system with integrated memory foam technology provides compression for edema control while continually adapting to the changing anatomy of the injured ankle
- Padding is easily modified for greater comfort when normal activities resume

Innovations in care.
PATIENT CONFIDENCE. SQUARED.

Introducing the Squared Toe Post-Op Shoe

Maintains Foot in Proper Location – High ankle strapping
Maximizes Protection of Forefoot – Squared toe design acts as bumper
Provides Ease of Ambulation and Pressure Reduction – Rigid rocker sole
Accommodates a Wide Range of Treatment Protocols – Forefoot fastening system
Helps Prevent Skin Breakdown in Critical Areas – Soft nylon upper and reinforced heel

Fits male or female (left or right) to streamline your inventory management

Call 760.727.1280 or Toll Free 800.793.6065 to Give Your Patients Confidence. Squared.
Free Podiatric Procedures Video

For a limited time, Gebauer Company is offering a free copy of an Ethyl Chloride Podiatric Procedures video exclusively to Henry Schein Foot & Ankle customers. See for yourself how Gebauer’s Ethyl Chloride® topical anesthetic skin refrigerant is used in podiatric offices to temporarily control the pain of injections and minor surgical procedures, like podiatric blocks and ingrown toenails. Anxiety or fear of the pain associated with a procedure can severely interfere with patient satisfaction. Utilizing Ethyl Chloride prior to painful procedures assuages patient fear and anxiety, resulting in fewer cancellations, appointments and confirms patient comfort, a standard of healthcare today. Simply contact a Gebauer Company representative at 1-800-321-9348 and reference: FREE PODIATRY to receive your free Podiatric Procedures video.

Not all “cold sprays” are alike

While other topical freezing agents or generic “cold sprays” containing isobutane and propane may be less expensive, they are not FDA approved for pre-injection anesthesia and controlling the pain of minor surgical procedures. At less than one-dollar per application, trust your practice to the fast, easy, and effective topical anesthetic skin refrigerant approved by the FDA and used with confidence by clinicians for more than one hundred years, Gebauer’s Ethyl Chloride.

Verruca Freeze®

Great for Removing Plantar Warts!
2 Easy Methods of Application!

Verruca Freeze® is a convenient and effective cryosurgical system for the treatment of superficial skin lesions. Verruca Freeze® is a safe, non-flammable cryogenic agent that freezes up to -70°C. There is minimal discomfort for patients. Treatment time is less than 1 minute and the entire procedure can be performed in less than 2 minutes.

CryoBuds® (available in small, medium & large) are great for use on boney/thin skin surface areas.

Item #s: BUDS, BUDM, BUDL or mixed pack BUDP includes 30 per pack.

Limiting Cones (available in 5 sizes) are great for use on fleshy skin surface areas and they are reuseable.

Item #s: TCONES

* CryoBuds® and Limiting Cones are included in the 65 & 35 Freeze Kits, and are available for individual purchase.

The Podiatry Canister (VFL) has up to 100 freezes and offers the lowest cost per treatment.

* Canisters also available in 65 & 35 Freeze sizes.

Benefits
- generates practice revenue
- treatment time less than 1 minute
- environmentally safe (no CFCs)
- minimum 5 year shelf life
- portable and self-contained
- freezes up to -70°C

Visit www.verrucafreeze.com for CPT Coding and more.

Terms & Conditions

If your order is being shipped outside the U.S., please refer to the International Terms & Conditions. Unless otherwise agreed, freight terms are FOB Shipper's Dock (“Ex Works” outside North America). Title passes at the time the shipment is loaded at the shipper’s dock.

Henry Schein, Inc. and Customer agree that the terms and conditions hereinafter set forth shall govern the relationship between Henry Schein and the Customer. Customer acknowledges and accepts all such terms and conditions by placing an order for goods with Henry Schein, and upon Customer’s receipt of Henry Schein’s invoice enclosed with items delivered to Customer, or upon Customer’s receipt of Henry Schein’s credit memorandum or statement, whichever occurs first.

Delivery Terms

Continental U.S.:
All orders will be subject to a handling charge. This charge includes freight, except for additional carrier charges related to special delivery services and hazardous material shipments. Special orders are subject to additional freight charges. Vaccines and other products requiring refrigeration are shipped Monday–Thursday. Next business morning, next business day and Saturday delivery are all available to you for a nominal additional fee. Freight on certain equipment is based on weight and zip code destination.

Alaska, Hawaii & Pacific Protectorates:
All orders will be subject to a handling charge. Standard shipping methods provide direct, reduced cost, expedited air delivery service to all accounts in Alaska and Hawaii. Customers in the Pacific Protectorates are offered direct surface transport, or postal services, for reliable delivery. No additional surcharges apply, except when special services are requested. Low-level hazardous items (dangerous goods in accepted quantities and Consumer Commodity ID 8000) are now available via UPS 2nd day air.

Guam, Puerto Rico, U.S. Trust Territories & Virgin Islands:
All orders will be subject to a handling charge. Standard shipping methods provide direct, reduced cost, expedited air delivery service to all accounts in Guam, Puerto Rico, U.S. Trust Territories and Virgin Islands. Special delivery orders and hazardous material shipments can be shipped via United Parcel Services (UPS) for an additional charge. No minimum order amount or weight applies. Speak to your international representative for details. For Puerto Rico only, The Commonwealth of Puerto Rico imposes a 6.6% excise tax, which is not collected by Henry Schein, Inc.

Ordering Controlled Substances
Regulations require us to limit the sale of Rx and controlled substances only to registered, licensed healthcare professionals. If you are a new customer or have recently moved, please furnish us with a copy of your DEA certificate, verifying your shipping address. Class II drugs can only be ordered by mail. All Federal 222 Forms for Class II drugs must be mailed to:

Henry Schein, Inc.
Suite 300
5315 West 74th Street
Indianapolis, IN 46268

Payment by CHECK or by the HENRY SCHEIN CREDIT CARD, VISA, MASTERCARD, DISCOVER and AMERICAN EXPRESS
Federal 222 Form

Product Returns

WE CANNOT ACCEPT ANY RETURNS WITHOUT PRIOR AUTHORIZATION.

Please note these exceptions:
Equipment: Opened and used equipment may not be returned for credit. Before opening equipment, we suggest that you check the shipping container and packing list to ensure that you are getting exactly what you ordered. Equipment is backed by the manufacturer’s repair or replacement warranty. Please read and return all warranty information required immediately upon taking delivery of your new equipment. Open or defective equipment will be covered by manufacturer’s warranty.

SPECIAL ORDER ITEMS: Products that we do not ordinarily stock are not returnable.
OPENED COMPUTER HARDWARE & SOFTWARE: Not returnable.
CONTROLLED DRUGS: Not returnable.

Items that cannot be returned to manufacturer for credit are not returnable.

You will receive 100% credit for all products returned within 30 days of invoice date (except on exceptions noted). For products returned after 30 days from invoice date, a 15% handling charge will apply.

• Expired products are not returnable.
• Immune globulin products are not returnable.
• Shipping charges will apply on all returns.
• Shortages or errors in shipments must be reported within 7 days of invoice date to issue credit (if applicable).
• HAZARDOUS MATERIALS: Not returnable.
• Any item marked non-returnable.

Returns Form
New Federal Regulation Regarding Returns of Prescription Drugs: The Prescription Drug Marketing Act (“PDMA”) requires any customer returning prescription drugs to complete and return a Prescription Drug Return Authorization form. Federal law requires that the healthcare entity returning prescription drugs document that the product was kept under proper storage and handling conditions while in their possession, and during the return of the product. To get a copy of the form and proper return authorization, please contact Customer Support at 1-800-472-4346 (8am-9pm, EST).

We Offer Convenient Payment & Delivery Terms

Payment Methods - For your convenience, we provide several payment alternatives. We accept most major credit cards and the Henry Schein credit card. Please have your credit card number ready when placing your order. In addition, any order can be billed to your account. All invoices are payable within 30 days. (Credit cards are accepted on open account balances.)

Receive 2% rebate or FREE miles on all purchases with our Henry Schein Credit Card. To apply now, call: 1-866-398-9296.

Open Accounts Receivable: All unpaid accounts receivable past 30 days are subject to a 1.5% finance charge.
