YOUR PRACTICE.  
YOUR CHOICE.™

Introducing the Complete Family of Waterline Treatment Products from Crosstex.

ONCE A YEAR -
DentaPure®

ONCE A WEEK -
Liquid Ultra™

Left unmanaged, water coming through your dental unit waterlines can pose a threat to your dental practice and more importantly, your patients.

Crosstex brings you Dental Unit Waterline Treatment solutions that are:

✓ Simple  ✓ Safe
✓ Effective  ✓ Reliable

Visit CROSSTEX.COM/PUREH2O and see what’s lurking in your waterlines.

www.henryschein.com/sm
**ClearView**™

**SINGLE-USE NASAL HOODS**

*Help your patient relax!*

The only nasal hood that actually demonstrates that your patient is breathing through their nose!

- Clear outer hood shows slight fogging when patient breathes properly through nose, and allows view of nasal/facial seal of the soft inner hood
- Low profile expands clinical field of view, provides easier access to patient’s mouth, and keeps patient from making hood adjustments to see activities, operatory TV, etc.
- Appealing colors/scents delight and engage patients; unscented available
- Single-use minimizes cross-contamination; saves staff time
- CO₂ Capnography version available to fulfill regulatory requirements for moderate to deep sedation & general anesthesia
- Compatible with a wide variety of scavenging circuit brands

**Monoject Needles—Medtronic**

(Formerly Covidien)

A sterile, disposable, self-threading, and self-aligning universal-fit hub to ensure a consistent fit. Ultrasharp, tribeveled, anticoring lancet point. Available in plastic and metal hubs.

#401 Plastic

**Topex® Topical Anesthetics**

Sultan Healthcare

Fast, effective 20% benzocaine topical anesthetic gel with no bitter aftertaste. Use for temporary pain relief during procedures, such as local anesthetic injection, periodontal curettage, impression taking, and radiographs.

**Gel**

Specify:

- Bubble-Num® (312-6828) Piña Colada (312-4774)
- Cherry (312-5235) Razzberry (312-3618)
- Mint (313-1321) Strawberry (312-7938)

**Lollicaine™ Centrix**

Single dose of 20% benzocaine topical gel. One clean swab and topical gel in peel-back packaging.

Unit Dose.......................................................... 120 per Pkg.

Specify:

- Bubblegum (163-2021) Mint (163-9625)
- Cherry (163-9121) Piña Colada (163-3324)

**OraVerse®**

(Phentolamine Mesylate)

Injectable—Septodont

Indicated for reversing soft-tissue anesthesia and the associated deficits from an intraoral submucosal injection of a local anesthetic containing a vasoconstrictor. Patients experience a return-to-normal sensation and function in about half the time. Not recommended for children less than 6 years of age.

0.4 mg./1.7 mL Cartridges (228-2237) ............................................ 10 per Box

Elipar™ DeepCure-S-3M
Cordless LED curing light with 1,470 mW/cm² output and a 1-piece stainless steel housing. Significantly better depth of cure due to optimized optics, allowing for a deep, uniform cure, from surface to cavity bottom. Optimized light-guide geometry makes it easier to access hard-to-reach areas. 3-year warranty on handpiece, 1-year warranty on battery.
Complete Unit (777-2122) ..................................................... Ea.
Contains: 1 of each: handpiece, charging base, lithium-ion battery, eye shield & 10mm light guide.
Replacement Battery (777-2137) ............................................. Ea.
10mm Light Guide (777-2131) ............................................. Ea.
Eye Shield (777-2132) ............................................. Ea.

Cavitron® Select™ SPS™ Ultrasonic Scaler—DENTISPLY Professional
SPS technology in a sleeker, smaller size. SPS technology maintains power so scaling effectiveness is maintained at a decreased power setting. Extended low-power range for comfortable subgingival scaling. Foot-pedal boost control allows for quick removal of tenacous calculus. 30 kHz frequency features a shorter, lightweight handpiece that is compatible with all Cavitron® 30 kHz Inserts. Optional, self-contained pump and water reservoir. 2-year warranty.
Dimensions: 4 1/4” W x 4 1/2” H x 1 1/2” D
Weight: 15 oz.
Complete Unit (167-1302) ............................................. Ea.
Contains: 1 of each: unit, foot switch, detachable, sterilizable Steri-Mate™ handpiece with swivel; & instruction manual.
Unit with Reservoir Pump (167-6720) ................................. Ea.
Contains: 1 of each: unit, reservoir pump, reservoir bottle, foot control, handpiece, water line, AC power cord, universal power supply & instruction manual.

Maxima® PRO High-Speed Handpieces
- High Performance handpiece is quiet and powerful
- Ceramic-Bearing Technology for quiet, smooth, extended operation
- Push-Button Autochuck for fast, effortless bur changing
- Ergonomic Design reduces hand fatigue and increases control
- Standard Head with Innovative 4-Port Spray for optimum cooling
- Angled Head for improved access
- Mini Head model with compact head size for superior visibility
- *Available on Mini PRO & Mini PRO LTC models
- Cellular Glass Rods for maximum longevity and illumination. *Available on PRO LTC models
- MultiFlex Connection with cutting edge LED technology
- *Available on PRO LTC models
- 1-Year Warranty

All canals are not created equal.
Neither are hand files.

Roydent offers a full array of files so you have the right file for the job. Every time.

Roydent C-Files feature:
- Heat-tempered stainless steel for increased stiffness
- Ideal for gaining access to calcified canals
- Sharp edges twisted to the top
C-Files available in 21 & 25mm: 06, 08 and 10, 12.5, 15 & assorted.
Also available from Roydent: K-Files, Flexicut Files, K-Reamers, Hedstroms, NiTi Hand Files and more!

What’s getting into your sterilization pouch?

**PEELVUE+**

Feel confident Peelvue+ Sterilization Pouches are properly and completely sealed with the visual guidance of the **Closure Validator**.

Patented **Closure Validators** provide a visual guide to achieve a properly sealed pouch designed to prevent contaminants from entering the sterile pouch.

**Additional benefits of PeelVue+**
- Color-coded for identification.
- Internal and external multi-parameter chemical indicator.
- Vents located on lateral sides of internal indicator allow ambient conditions for sterilizing.

**Increase Efficiency, Decrease Chair Time with Solo Diamond and Traxodent®**

**Solo**

**Get a fresh start with every single patient!**

Single-patient use, sterilized diamonds
- Gamma-sterilized and individually packaged to improve infection control. 5-Year accelerated aging test supports the claim of “sterile until opened”.
- Convenient, fast tooth preparation with a fresh, always sharp cutting instrument.
- CE-marked, manufactured and sterilized in the U.S.A. to ISO standards.

**traxodent**

**Hemodent Paste Retraction System**

Easy, effective hemostasis and retraction
- The sleek syringe with bendable tip permits easy application.
- After two minutes it is rinsed, leaving a clean, accessible margin.

Traxodent is gentle, absorbent and fast.

**Kerr® TOTALCARE**

**FlashTips™—Sultan Healthcare**
Disposable air/water syringe tips, in 5 colors, help save time and minimize the risk of cross contamination that can occur with metal tips. Separate air/water channels minimize crossover. Sturdy construction will not separate and offers soft, smooth edges that are gentle to patients and equipment. Locking indicators ensure tips are securely attached to syringes.
Assorted Colors
(312-0104) .................................. 250 per Bag
(312-0103) .................................. 1200 per Bag

**Easydry Premium Towels Easydry**
Easydry is a new-generation textile, an innovative and highly functional drying material that guarantees complete hygiene and environmental sustainability. Made from natural fibers, Easydry towels are the new alternative to outdated cotton towels and laundry systems. These disposable towels reduce the risk of cross contamination. The patented WaterWeave™ construction of the Easydry fibers means moisture is absorbed to the inside of the towel, where it is retained, preventing bacteria growth.

BLU-BITE® HP
Mousse-like, fluffy vinyl-polysiloxane material. Used for bite registration, copying transfers, and primary impression with bite trays. Blue thixotropic material has an excellent durometer of over 85 and flows easily, yet will not sag or run. The high-performance cartridge allows easier dispensing of material. Regular Set (2:30 total work/set time), Fast Set (1:30 total work/set time), and Super Fast Set (1:00 total work/set time). Rigid is ultrahard with a Shore hardness of greater than 90. Gluten-free.

DentaPure® Dental Unit Water Purification System–Crosstex
Dental Unit Water Purification System EPA registered as an antimicrobial, DentaPure® treats dental unit waterlines by reducing harmful bacteria exposure to patients and staff, from the first day of installation for the life of the cartridge. It contains no silver or other hazardous chemicals, so it produces no hazardous waste. It is safe for your patients, your staff, and the environment. DentaPure eliminates the need for complicated procedures and is easily installed.

Municipal Water System Cartridges
Single-cylinder filter installs to existing waterlines at the junction box.

economical non-gamma 2 admix alloy

- High early compressive strength
- Very low microleakage
- Optimal handling characteristics

HemoStyp™
Topical Hemostatic Dressing-Medicom
Sterile, woven, and pH neutral, this soluble hemostatic gauze is derived from cellulose and is easy to apply. Upon contact with blood, it forms a gel-like substance, which acts as a homeostatic agent that expands slightly to cause direct pressure on blood vessels and helps control bleeding. Once bleeding has ceased and coagulation has occurred, HemoStyp™ can be rinsed away with water and dissolves into glucose and saline.
