The DentaPure® cartridge is making microbiological dental unit water purification safe, easy & economical!

DentaPure cartridges give you an entire year of safe, compliant water with one simple install.

Save money and effort while keeping your patients protected!

Visit www.DentaPure.com to see the simple installation!

Dental Unit waterlines are virtual breeding grounds for bacteria - research shows that in just five days, biofilm buildup can send microbial counts soaring - reaching 200,000 CFU/mL¹.

All canals are *not* created equal. Neither are hand files.

Roydent offers a full array of files so you have the right file for the job. Every time.

FILE	TIP	DESIGN
C-FILES	Non-Cutting tip	Designed for initial access and breaking through calcification.
K-FILES	Cutting tip	Designed for full instrumentation.
FLEXICUT FILES	Non-Cutting tip	Triangular blade for increased flexibility. Designed for full instrumentation.
NITI FILES	Non-Cutting tip	Conforms to the curvature of the canal during instrumentation.

Also available: Hedstroms, Reamers, Mid-Sized K-Files.

All Roydent hand files feature:

- German made with precision engineering
- Ideal tactile feedback
- Non-slip plastic handles for a firmer grip
- ISO color coded for easy identification
- Pre-inserted silicone stops

SONIC BOOM

THE SOUND OF QUALITY

When energy waves are accelerated fast enough through the air it can achieve a sonic boom. This was the inspiration in the development of our latest ultra-thin Aurelia **Sonic® Nitrile Glove**. We've revolutionized how strength, comfort and tactile sensitivity come together to enhance your experience while your hands are moving at the speed of sound.

Free goods must be same brand as purchased.

MICROFLEX®

BECAUSE SIZE MATTERS

Wearing exam gloves that are too loose or too tight may lead to hand fatigue and possibly career impacting injuries.

Microflex® Ultraform® comes in a range of 1/2 sizes for a perfect fit, because no two hands are exactly the same.

If your glove isn't Microflex Ultraform, then it isn't half as good.

Dirty water. Clean instruments.

The sign of a great instrument cleaner is what it leaves behind. A recent study put all the leading brands to the test, and ReSURGE® proved to be the most powerful.* The CDC prefers an automated method for instrument cleaning, because it makes your practice more efficient and helps ensure the health of you and your patients. The evidence couldn't be any clearer.

A BOLD QUESTION: CAN A MOUTHWASH CHANGE THE WORLD OF ORAL HEALTH?

When 76% of patients are willing to add another step to their oral care routine^{1*}—it can.

Patients who added LISTERINE®
to mechanical methods had

BOLD PROOF IT'S POSSIBLE:

- The antimicrobial action of LISTERINE® comes from its fixed combination of 4 ESSENTIAL oils
- These essential oils deeply penetrate into the bottom layers of the plaque biofilm, breaking down its structure³⁻⁸
- Boldly going beyond the reach of both brushing and interdental cleaning, LISTERINE® is the essential third step in twice-daily oral care

Evidence as bold as this demonstrates how better oral health is not only possible, but attainable—and it starts with a LISTERINE® recommendation from your practice. Find this bold proof in a landmark analysis in the August 2015 issue of *The Journal of the American Dental Association*.

FAST-SET, IMMEDIATELY PACKABLE,
NON-STICKY GLASS IONOMER RESTORATIVE

- Perfect marginal adaptation and packability in one product, thanks to a change in viscosity during application
- Fast-setting time of only 2 minutes from placement of the filling
- The first glass ionomer material with tooth-like fluorescence
- High level of fluoride release
- The new capsule design reaches smaller cavities and difficult-to-access areas of the mouth
- High compressive strength and abrasion resistance

Accolade SRO™

Super Radiopaque Flowable Composite

- Superior radiopacity
- Superb esthetics
- Excellent polishability
- 0.7 micron fill
- Natural Fluorescence

With a radiopacity of 320% of aluminum, (similar to titanium) radiographs were never easier to read! Recently confirmed by a leading clinical reviewer, Accolade SRO is among the most radiopaque flowable on the market, yet is value priced. As a 0.7 micron hybrid microfill, Accolade SRO also offers exceptional strength, esthetics, and the polishability of Startflow and Accolade.

THE LEADER. NO MATTER THE CLASS.

SureFil SDR *flow* material is the most thoroughly researched and clinically proven bulk fill composite. **NEW** SureFil SDR *flow+* has higher wear resistance and is available in Universal, A1, A2, and A3 shades making it suitable for Class III and V indications and more versatile than ever. Increased radiopacity allows for better visualization on x-rays, helping to prevent misdiagnoses. The best just got even better.

Visit www.SureFilSDRflow.com to request a free sample of the bulk fill flowable that's in a class of its own.

A beautiful smile she can't wait to share.

There are things in life worth sharing ... and now, her smile can be one of them. Restore with beautifully strong Filtek™ Supreme Ultra Universal Restorative — and polish with the Sof-Lex™ Diamond Polishing System. Together, they can produce a diamond paste-like gloss with the convenience of a rubberized system. Oh, don't be surprised if word of your great work gets around ... because she shares everything she thinks is amazing.
