Boardroom

## CORE FACILITIES & CAPABILITIES

- **Ambulatory Surgery Center Suite:** This space mirrors a surgery center. It provides a hands-on environment to interact with a dual-head operating room light, operating table, patient monitoring systems, and integrated anesthesia and ultrasound technology for an understanding of how these products perform
- **Dental Equipment Showroom:** Designed for immersive technology experiences, this space features a full sterilization center, multiple brands of state-of-the-art dental chair packages, 3D printers, the latest CAD/CAM technology, and a full CBCT system
- **Lab Experience Site:** Comprehensive lab incorporates respiratory and infectious disease testing products, as well as cardiovascular and diabetes diagnostics, to see how the technology works firsthand
- **Executive Boardroom:** A space suitable for executive level meetings, including for collaborative work and idea sharing
- **Breakout Zones:** Modular spaces designed for group work and networking
- **Hospitality:** Lounge areas and dedicated quiet zones for other professional tasks

## STRATEGIC VALUE

- **For Customers:** Access to the latest solutions in dentistry and medicine
- **For Supplier Partners:** A hub for industry collaboration and the opportunity to showcase products
- **For Team Schein Members:** A centralized resource for continuous professional development and the ability to learn about the newest technologies
