EMPOWERED

DIGITAL PRACTICE

Dr. Becerra and her team partner with **Henry Schein Dental** to help streamline procedures. The clinic's digital workflow begins with a 3D cone-beam unit that produces the precise imaging essential for discovering complex health concerns. Their open-architecture CAD/CAM system delivers same-day, chairside solutions, while educating patients on their treatment plan.

"We equipped our clinic with cutting-edge technology to yield more thorough, sensitive, and timely treatment tailored to our patients' needs. Because of the integration of several systems, we have significantly improved the patient experience."

— Karen Becerra, DDS, MPH
Gary & Mary West Senior Dental Center | San Diego, CA

EMPOWERED PRACTICE

"We started from scratch, but we have seen the office grow from zero to thirty new patients per month. It's exciting to see the practice grow month to month, and to get the word out that we are here and ready to serve the community!"

—Terry Lemons, DDS

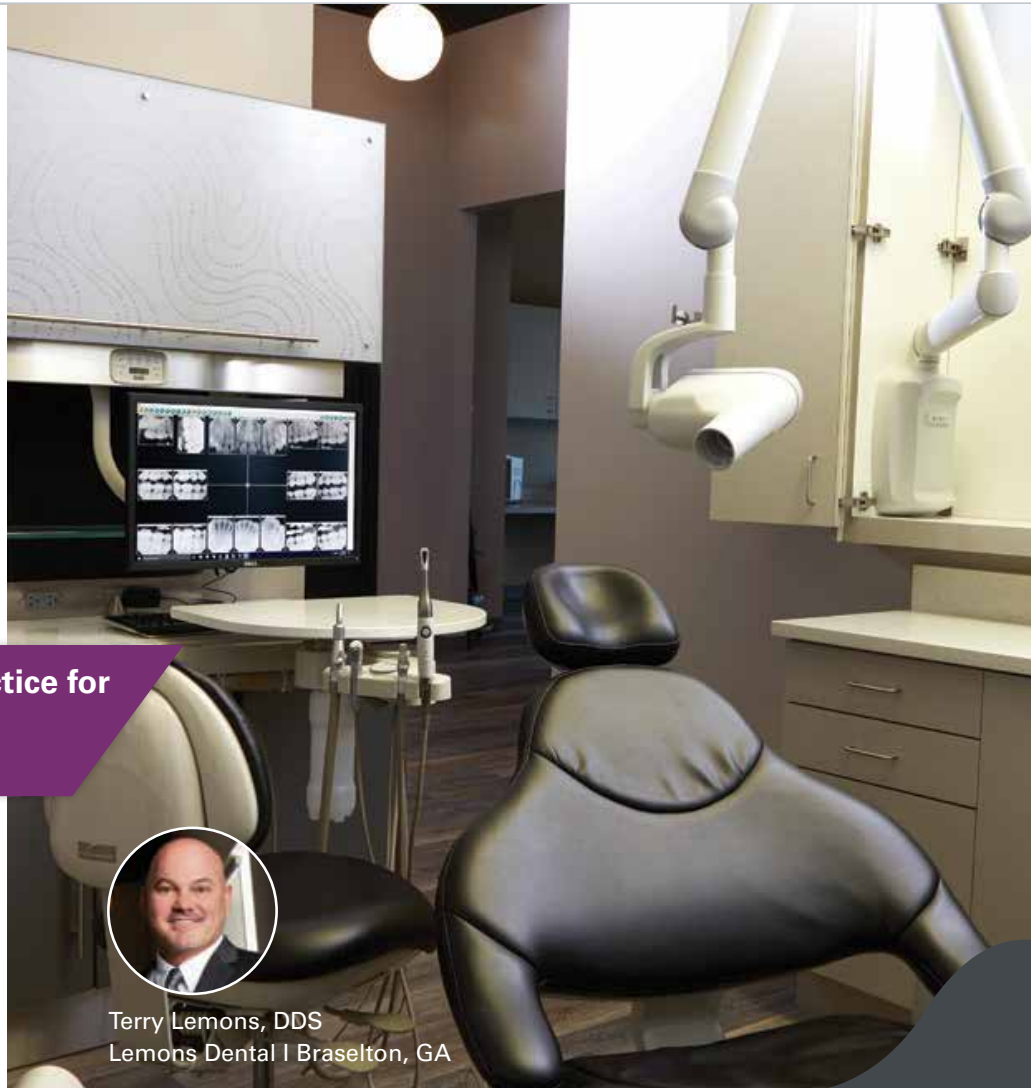

Henry Schein Dental has everything you need to run a successful and productive practice. You can rely on us to understand your challenges and offer efficient equipment solutions and integrated technologies designed specifically for your needs.

Rely on us to empower your practice for success, so you can focus on the care of your patients.

Expand Your Care

When your stand-alone imaging solutions don't seamlessly integrate with Dentrix, you waste your patient's time and minimize the care you provide. But with Dentrix Smart Image, you can access all your diagnostic images in the patient chart without bridges or multistep integration

paths while also tagging those images with CDT codes that automatically post to the Ledger. Now you can focus on your patient, not just their images, and be confident you'll get paid for the work you do.

[Learn more at Dentrix.com/SmartImage](https://www.dentrix.com/SmartImage)
