Henry Schein's PRIVILEGES PROGRAM rewards our loyal customers with products and services that will help their businesses stay competitive and profitable – now more than ever.

As a PRIVILEGES member, you are entitled to redeem Value Certificates earning you up to 50,000 Bonus Points for your equipment purchases!

Additionally, by using any of our electronic ordering solutions for medical supply purchases, PRIVILEGES members earn Rewards Points (one point for each dollar spent) that are automatically posted in your online PRIVILEGES Rewards account. Visit your account often to check your points, browse the gift catalog, and redeem points for thousands of brand-name gift items – including FREE travel and event tickets! You can reward an employee or redecorate your office with PRIVILEGES points!

Redeem your equipment Value Certificates now to receive up to 50,000 Bonus Points! (see back for details)

If you’re not a current Privileges member, sign up today! Start enjoying all the special attention and exclusive benefits you deserve. Membership is FREE!

As a PRIVILEGES member, you’ll receive:
- PRIVILEGES Rewards Points for all electronic purchases
- Value Certificates to reduce your expenses and offer you the opportunity to earn Bonus Points
- PRIVILEGES Monthly E-Promotions
- Exclusive Quarterly E-Newsletter
- FREE COMPLETEcare Advisor Equipment Inventory Tracker to track warranties and service contracts

To learn more about the Henry Schein PRIVILEGES Program, talk with your Sales Consultant or visit www.henryschein.com/privilegesmd to download an enrollment application.

"Did you know that Henry Schein can reward you with up to 50,000 Bonus Privileges Points with your equipment purchase?"

We do that!
If your purchases qualify you for more than 1 offer above, you may photocopy this certificate and send in with appropriate invoices. Value Certificates may only be used once per order per office location and have no residual or cash value. This specific Value Certificate may ONLY be applied to equipment purchases that are invoiced by Henry Schein. This certificate cannot be combined with any other offers, certificates or items that are part of a contract. Returns and voided invoices will be deducted from original invoice and the coupon recalculated excluding the returned items. Multiple invoices to be applied to this Value Certificate must be from the same office location. The same invoice cannot be used for multiple Value Certificate redemptions. If you have already redeemed these Value Certificates this year, you will not qualify to redeem them again.

Disclosure Note: Upon any request by Medicare, Medicaid, Tricare or other payer, you must report the value of any benefit received from a discount program (e.g., points gifts, or other special awards).

You must be a current Privileges member to redeem this Value Certificate. If you are not a Privileges member, please talk to your Sales Consultant or visit www.henryschein.com/privilegesmd to download an enrollment application. Enrollment eligibility exclusions apply.

Please allow 4-6 weeks for processing. Taxes, shipping and handling charges are not to be included in minimum purchase requirements. Value Certificates cannot be processed without a copy of the original invoice.

Redeeming Your Value Certificate(s):

1. All information MUST be filled out above.
2. Attach a copy of the original invoice(s) you wish to apply to this certificate.
3. Mail this certificate and copy of invoice(s) to:
   Privileges MD Certificate Redemption Center
   520 South Rock Blvd.
   Reno, NV 89502

You may also fax to 1-800-442-0511 or scan/e-mail to PrivilegesMD@henryschein.com

This feature guide represents many of the highest quality testing solutions available, by offering a variety of options from multiple manufacturers. Henry Schein can offer you the best solution to fit your needs. If your practice is interested in learning how to begin diagnostic testing or expand your testing options, call your Henry Schein Sales Consultant, your total office lab solution provider 1-800-772-4346.
What do you do when a patient presents with a fever and sore throat?

We have the answer.

And the answer is simple. Test with QuickVue:

You’re already familiar with the market-leading QuickVue Influenza A+B test and our CLIA-waived QuickVue RSV test for viral infections. And you’re already familiar with our QuickVue Strep A tests for bacterial throat infections.

But did you know that most sore throats are caused by viruses and not bacteria? Upper respiratory infections can be very similar in clinical symptoms, so the next time your patient comes in with a fever or sore throat make sure you have the QuickVue rapid diagnostic trio of tests ready to help you in your diagnosis.

QuickVue. The right choice. The dependable choice.

For more information, contact your Henry Schein representative.
Save without compromising on excellence, with our own high-quality Henry Schein Brand.

We offer over 6,000 quality products you can trust to fulfill your practice needs—each bearing the Henry Schein Seal of Excellence—your guarantee of satisfaction.

- Categories for disposables, diagnostics, instruments, testing kits, and most common items
- Fulfillment opt-in program for maximizing your supply purchases
- Extra benefits for PRIVILEGES Members
- Consultation on product mix that is right for you

“Brand Quality without Brand Cost”

Save Money
**RESPIRATORY**

### QuickVue Influenza Tests

**An immunosassay for detecting influenza types A and B. 3 simple steps with results in 10 minutes or less. Color-coded procedure card helps demonstrate each step of test. Kit contains positive and negative controls, and stores at room temperature.**
- Detects both A and B types of influenza
- Results in 10 minutes or less, right in exam room
- CLIA waived
- Prompt Diagnosis and Treatment:
  - Most patients tested can be diagnosed and treated in 1 office visit
  - Information for better patient management decisions
- 1 step (nasal wash/aspirate), 3 steps (nasal swab)
- Color-coded procedure card helps demonstrate each step of test
- No instrumentation needed
- Available in both 10-test and 25-test kit sizes
- Room-temperature storage with up to 24-month shelf life from date of manufacture
- Contains: 20 test devices, 2 mL each extraction reagent solution, 1 mL each positive & negative controls, & 40 disposable pipettes.

#### BinaxNOW® Influenza A & B Tests

- **Rapid test for identification and differentiation of influenza A and B, using nasal washes/aspirates and nasopharyngeal swabs.**
- CLIA waived
- Differentiates types A and B on the same card
- Easy to use: no additional reagents needed
- 15-minute results
- Same specimen can be used with BinaxNOW® RSV test

### BinaxNOW® Influenza A & B Test

- CPT® Codes: Influenza A, 87804QW/Influenza B, 87804-59

### OSOM® Influenza A & B Test Kit

- **In vitro diagnostic test for the qualitative detection of influenza A and influenza B antigens from nasal-swab specimens.**
- Differentiates between influenza A and B
- Easy to read: 3 distinct lines
- 2 extra test sticks included for external QC testing
- Nasal swab specimens
- Less than 1 minute hands-on time; results in 10 minutes
- Room-temperature storage
- Moderately complex
- CLIA waived

### Clearview® RSV Test

- A 15-minute, four-step test for the qualitative detection of RSV. For use with nasopharyngeal swabs and nasal aspirate specimens (approved claim: in children less than 6 years and adults more than 60).
- CLIA waived
- 93.9% sensitivity; 97.7% specificity
- Room-temperature storage for up to 12 months
- Built-in control to ensure accuracy

### BinaxNOW® RSV Tests

- CLIA waived
- Easy to use: no additional reagents needed
- 15-minute results
- Built-in control to ensure accuracy
- Same specimen can be used with BinaxNOW Influenza A & B Test

### QuickVue RSV Test

- Dipstick format
- Two-color result
- Easy to use
- Three-step procedure
- 15 minutes to result
- Room-temperature storage
- Built-in internal controls
- Kit includes external controls
- CLIA waived

www.henryschein.com/medical
Flu season as we know it has changed drastically. In June 2009, the World Health Organization declared a pandemic, so now more than ever, it is imperative physicians and healthcare professionals be prepared to test and treat patients in order to minimize the spread of the virus.

Genzyme’s OSOM® Influenza A&B Test is a comprehensive panel which differentiates between flu A and B with results in 10 minutes and requires less than one minute hands-on time. The test is objective, easy-to-use, and detects seasonal H1N1 strains.** With the support of our experienced team of medical technologists and skilled professionals, you can be confident that the OSOM® Influenza A&B Test delivers the highest quality available. Your rapid tests should be OSOM®, yes awesome.

For more information 800-332-1042 or www.genzymediagnostics.com

** This test has been shown to also detect the Mexico/4108/2009 virus cultured from a positive human specimen (cultured and provided by the CDC), as well as cultured avian influenza viruses, including avian influenza A subtype H5N1 virus. The performance characteristics for this test with specimens from humans infected with these strains have not been established.
ONESTEP+ STREP A CASSETTE TEST
Rapid chromatographic immunoassay for the qualitative detection of Strep A antigen from throat swab specimens to aid in diagnosing of Group A streptococcal infection. Provides results in 5 minutes. Kit can be stored at room temperature or refrigerated. Test device must remain in sealed pouch until use. Do not freeze. For professional in vitro diagnostic use only.
- CLIA waived
- Room-temperature storage
- Results in 5 minutes or less
Complete Kit (900-4051) ................................25/box
CPT® Code: 87880QW

ONESTEP+ STREP A DIPSTICK
- CLIA waived
- Room-temperature storage
- Canister packaging for ease of multiple testing
- Walk-away procedure (107-4050) ..............25/box
CPT® Code: 87880QW

QuickVue® Dipstick Strep A Test
- 95% sensitivity; 98% specificity
- 98% overall agreement
- Easy-to-use procedure
- ± endpoint
- Built-in workstation
- Room-temperature storage
- Built-in controls for CLIA compliance
Moderately complex #20122 (489-0075) ..............25/box
CPT® Code: 87880

QuickVue In-Line® One-Step Strep ATest
True one-step test with a unique in-line extraction and rapid procedure that allows testing to occur right at the point of care. Two-color results give you clear readability, as well as proven accuracy and dependable results. Kit stores at room temperature and includes positive and negative external controls.
- Easy to use; easy to read
- Two-color results
- Rapid results in 5 minutes
- Room-temperature storage
- Built-in controls for CLIA compliance
Moderately complex #0343 (227-4207) ..............25/box
CPT® Code: 87880QW

OSOM® Ultra Strep A Test
Ultrasensitive strep A test with the ease of use and rapid results your busy practice needs. Studies show sensitivity of OSOM Ultra Strep A test and standard single-swab culture method are not statistically different.
- CLIA waived
- Easy to use
- Easy-to-read, 2-color results in minutes
- Room-temperature storage
- Includes positive and negative controls
#147 (392-7389) ..............25/box
#149 (102-7617) ..............50/box
CPT® Code: 87880QW

ICON® DS Strep A Kit
Dipstick-format test.
- CLIA waived
- 98% accuracy and sensitivity
- Easy-to-read, 5-minute results (331-1419) ..............25/kit
Contains: 25 test strips, extraction reagent A, extraction reagent B, positive control, negative control, extraction tubes, & throat swabs.
CPT® Code: 87880QW

ICON® SC Strep A Kit
Easy-to-use cassette with on-board extraction.
(331-6584) ..............25/box
Contains: 25 test cassettes, sterile rayon swabs, vial of reagent A, vial of reagent B, positive control, & negative control.
CPT® Code: 87880QW

Plated Media
#1146, Strep Select Agar SSA Plates, 100 mm (437-3477) ..............10/pkg
#1160, TSA 5% Sheep Blood, 100 mm (437-5777) ..............10/pkg

BD Taxo™ Differentiation Discs (224-1056) ..............50/box
Giving real-time A1C results today can mean a lower A1C at your patient's next visit.

The ADA recommends the use of A1C point-of-care testing for making timely treatment decisions.¹

On-the-spot feedback may result in as much as a 1% point reduction in your patient’s A1C over time.²

A 1% point reduction lowers the risk of serious complications by 40%.³

---

* Study results with healthcare professionals showed that the accuracy of A1CNow+® with fingerstick samples was, on average, 99%. This means that, on average, a true 7.0% A1C could read approximately 6.9% A1C. An individual A1CNow+® result may differ by as much as -1.0% A1C to +0.8% A1C from the true result. This represents the 95% confidence limits of a Bland-Altman plot.

3. UKPDS 35. BMJ 2000; 321: 405-12

**DIABETES MANAGEMENT**

**DCA Vantage Analyzer**
- Point-of-care immunoassay analyzer for diabetes management.
- Provides precise and accurate quantitative test results for HbA1 in whole blood during a patient’s visit to help improve decision making. With a single urine sample, the analyzer also provides quantitative test results for low levels of albumin, creatinine, and A:C ratio in the physician’s office or clinic.
- Contains: 2 vials of high control & 2 vials of low control.

**TrueTest™ Control Level 1**
- Contains: 2 vials of high control & 2 vials of low control, & reconstitution fluid.

**TRUEresult™ Blood Glucose Meter Kit**
- Advanced monitoring features:
  - No coding: eliminates a step that can lead to inaccurate results
  - Results within 4 seconds: means virtually no wait time
  - 0.5 micro liter sample size: less blood means less painful testing
  - 500-test memory: includes time/date and 7-day, 14-day, and 30-day averaging
  - Onboard QC
  - Out-of-meter dosing
  - Stores 100 results for each parameter (glucose and cholesterol)

**TRUEresult™ Control Level 2**
- For use with TRUEresult™ and TRUE2go™ meters

**Accutrend® Plus Meter Kit**
- Formerly known as Accu-chek®
  - CLIA waived
  - Stores 100 results for each parameter (glucose and cholesterol)
  - Out-of-meter dosing
  - Onboard QC
  - Positive strip lot ID
  - Fast, reliable results
  - Portable
  - Room-temperature storage

**Accutrend® Cholesterol Control 2 Level**
- Contains: 1 of each 4-mL low-level and high-level glucose controls.
Put Affordable, No Coding, Diabetes Testing In The Palm Of Your Hand!

Introducing The TRUEresult™ - New, Advanced Performance, Diabetes Testing System.

- Tiny, 0.5 microliter blood sample
- Results in as fast as 4 seconds
- 500 test memory
- Reminder alarms
- Strip release button
- Uses state-of-the-art, low cost, TRUEtest™ Strips

TRUEresult™ joins the new, no coding, TRUE2go™ - the world’s smallest meter. These two systems with low cost, TRUEtest™ Strips, better fit active lifestyles and make it easy and affordable to test more often.

These new TRUE systems are covered by many private insurance plans, as well as Medicare Part B and most Medicaid plans.

To order these new TRUE systems, call Henry Schein today at 800-P-SCHEIN.
Chemstrip® Micral
Test for microalbumin. Fast, easy test to detect subclinical neuropathy.
• 1-minute test
• In office
• Accurate compared to radioimmunoassay
#417146 (891-6088)..............30/btl
CPT® Code: #83518W

Multistix® 10LS Pro Reagent Strips
More reliable tool for detecting kidney disease. Test for glucose, ketone, high protein, low protein, specific gravity, creatinine, pH, blood, nitrite, and leukocytes.
• Creatinine ratio to correct for varying urine concentrations
• Decreases false positive protein and false negative protein rates
• For over-65 patients and those with diabetes, CVD, or UTI
• Indication of a dilute requires patient to submit specimen, triggering another urine sample
• Automatic identification of strip configuration for Clinitek® 50 users
#1566 (147-8028)..............25/btl
#1554 (147-2360)..............100/btl
CPT® Codes: 82044/82570

OSOM® ImmunoDip® Urinary
Albumin Test
Rapid urinary albumin test for microalbuminuria to aid in the early detection of kidney disease.
• Easy to use: simply place test device into urine sample
• Fast: results in 3 minutes
• Accurate: albumin 18 mg/L or less indicates negative result, greater than 18 mg/L indicates positive result
• Specificity 99%; Sensitivity 98%
• 18-month shelf life
• Room-temperature storage
• CLIA waived (901-0106).............25/box
CPT Code: 83518W

CLINITEK® Microalbumin Test Strip
Test for semiquantitative determination of microalbumin/creatinine in urine. Semiquantitative tests for protein (2–4 mg/dl) and creatinine. Includes an A:C ratio result.
#2083 (147-7172)..............25/btl
CPT® Codes: 82044/82570

HemoCue® Albumin 201 System
Can be used for quantitative determination of low levels of albumin in urine for the purpose of screening, diagnosis, monitoring, and supporting clinical evidence in the treatment of microalbuminuria. The system consists of a small, specially designed analyzer and individually packaged microcuvettes containing freeze-dried reagent. The test is performed at the point-of-care, using a microcuvette filled by capillary action. To obtain a quantitative result, fill the microcuvette, place it in the analyzer, and read the result. The system is based on an immunoturbidimetric reaction using antihuman albumin antibodies. The antigen-antibody complex creates turbidity, which is measured photometrically at 610 nm. The albumin concentration is proportional to the turbidity, and the result is shown on the display in mg/L.
Analyzer Kit with 1 Box of Microcuvettes (111-5593).............ea
Albumin Microcuvettes (111-5591).............50/box

To Order: 1.800.P.SCHEIN 8am–9pm, et     •     To Fax: 1.800.329.9109 24 Hrs

URINALYSIS ONE STEP PLUS

**HENRY SCHEIN**

**ONESTEP™ PLUS STRIP READER**
Readings eliminate subjectivity of visual color interpretation, which makes urinalysis simpler and more reliable. Features a nontouch operation: After strip placement, the measurement starts automatically, which makes urinalysis faster and more hygienic. Offers best value compared to leading brands. CLIA waived.

(900-4304) .................ea

**URISPEC™ GP+A URINE REAGENT TEST STRIP**
Test for glucose and protein, with ascorbic acid test for accuracy.
- Protein and glucose
- Ideal for metabolic, kidney, and diabetic monitoring
- Dip and read in 60 seconds

(100-6567) .............100/btl

**URISPEC™ 4-WAY URINE REAGENT STRIP**
- Protein, nitrite, glucose, and leukocytes
- Ideal for OB/GYN
- Infection, diabetes, and kidney function
- Dip and read in 60 seconds

(107-7157) .............100/btl

**URISPEC™ 11-WAY URINE REAGENT TEST STRIP**
Urine Reagent Test Strips
For urinalysis by the dip-and-read technique. Similar to Multistix® 10 SG plus ascorbic acid. Tests for glucose, bilirubin, ketone, specific gravity, blood, pH, protein, urobilinogen, nitrite, and leukocytes. Also includes additional ascorbic acid analyte pad. The importance of the addition of an ascorbic acid analyte pad is that the glucose test must be repeated if the ascorbic acid reaction is positive. An ascorbic acid content of as little as 5 mg/dl (0.3 mmol) can interfere with a glucose assay in low concentrations. As with glucose detection, blood detection is also disturbed by low concentrations of ascorbic acid, whereas high ascorbic acid concentrations can interfere with the nitrate and bilirubin test zones.
- Unique Read All at 60 seconds feature
- Similar to all brands of 10 SG products
- Glucose, bilirubin, ketone, specific gravity, blood, pH, protein, urobilinogen, nitrite, and leukocytes
- Reader available
- Ascorbic acid pad to assure uncompromised results
- Room-temperature storage

CPT® Codes: 81000/81001/81002/81003

(102-2285) .............100/btl

**ONESTEP PLUS READER PAPER ROLLS**
(900-4163) ..............6/pkg

**The Dropper Urine Dipstick Control**
2-Level Set, 25 mL
This control validates urine dipstick readings by applying the control directly onto the dipstick with a plastic dropper tip designed for easy dispensing and maximum use.

#1440-02
(113-9968) ..............4/box

**The Dipper™ Urine Dipstick Control**
2-Level Set, 15 mL
This control is designed to validate visual and instrumental readings of urine dipsticks by immersing the dipstick into the control, the same way a patient sample is tested.

#1440-01
(113-3581) ..............6/box
Clinitest® Status® Analyzer
Simpler because the intuitive touch screen provides unparalleled ease of use, and using Clinitek® Status® versus visual reading requires less hands-on time. Better because patient information and operator identification can be input to enhance test tracing, and a new level of efficiency can be obtained with an instrument that easily integrates with your workflow. Plus, it now performs hCG tests. Affords more confidence because the subjectivity of visual reading is eliminated, as are potential errors in timing and transcription of results. This means that the results obtained are reliable and can be acted upon with confidence to care for your patient. Uses Multitix® Pro and Multitix® 10 SG strips.

(781-6438).................ea

Albustix® Strip
Test for proteinuria.
(147-1625).................100/btl

Azostix®
Test for blood urea nitrogen.
#2830 (147-5180)..............25/btl

Combistix®
Test for pH, glucose, and protein in urine.
(147-9259)..................100/btl

CLINITEX®
Microalbumin Test Strip
Test for semiquantitative determination of microalbumin/creatinine in urine. Semiquantitative tests for protein (2–4 mg/dl) and creatinine. Includes an A:C ratio result.
#2083
(147-4712).................25/btl

CPT® Codes: 82044/82570

URINALYSIS

Urisys 1100™ Urine Analyzer
This new CLIA-waived urine analyzer makes urine testing easier than ever before! With the simple press of a button, the analyzer automatically evaluates urine test strips and prints a patient report. This easy-to-use system is an ideal choice for physician offices looking to standardize test results and improve office efficiency through automated urinalysis testing. Uses CHEMSTRIP 7, 10 MD, and 5 OB strips.

Chemstrip® 10 MD
Intended to be used for visual testing or for automated testing on the Chemstrip 101 urine analyzer and Criterion II urine analyzer. Measures blood, protein, leukocytes, nitrate, pH, glucose, ketones, bilirubin, urobilinogen, and specific gravity.

Chemstrip® GP
Test for glucose and protein.

Chemstrip® 7
Test for leukocytes, pH, protein, glucose, ketone, nitrite, and blood.

Chemstrip® 9
Test for leukocytes, nitrite, pH, protein, glucose, ketone, urobilinogen, bilirubin, and blood.

Chemstrip® 10 SG
For visual or automated testing on the Chemstrip 101 urine analyzer and Criterion II urine analyzer. Measures leukocytes, nitrite, pH, protein, glucose, ketone, urobilinogen, bilirubin, blood, and specific gravity.

Uri-Check™ Plus
A semiquantitative dip-slide culture system for the screening and early detection of urinary tract infections. More than 100,000 bacteria per mL indicates infection. 1½" diameter with patient label affixed to vial. Refer to Uri-Check reference chart to help identify bacterial growth present. 3–5 month shelf life. Not returnable. Requires Boekel’s Micro Incubator #260700 (100-6303). (224-9604).........10/box

Refer to Uri-Check reference chart to help identify bacterial growth present. 3–5 month shelf life. Not returnable. Requires Boekel’s Micro Incubator #260700 (100-6303). (224-9604).........10/box
Planning an effective CRC screening program means selecting the right blend of tests and procedures to yield reliable results with the lowest total cost. For more than 40 years, no other FOBT has outperformed the Hemoccult brand for safe, accurate, cost-effective CRC screening.

Cited in over 300 clinical publications, Hemoccult brand is the proven gold standard and trusted choice for saving lives through early detection of CRC. No other FOBT has as much clinical documentation supporting its accuracy or efficacy.

**Start saving right away.** For a limited time, you can take advantage of a special offer to help you implement a reliable CRC screening program. Get a 25% discount when you buy three or more cases of Hemoccult guaiac tests, or receive a free collection card with every Hemoccult ICT product purchased. When it comes to CRC screening, nobody does it better than Hemoccult. Call 1-800-352-3433 or visit www.beckmancoulter.com/FOBT3 to learn more.

FECAL OCCULT BLOOD–GUIAC

**ONESTEP OCCULT BLOOD SINGLE SLIDE**
- Detects hemoglobin through chemical reaction
- Compares to high-sensitivity products
- Room-temperature storage
- 100 two-hole slides and 100 sticks (147-1246) ............100/box
- Contains: 100–2-hole slides with both positive & negative on-slide monitors, 100 sticks, & developer.

**Hemoccult II® Dispensapak™ Plus**
- Most clinically proven and widely used FOBT. Trusted for over 30 years.
- #61130A, 40-Patient Kit (254-5748) .....................ea
- Patient kit: 1 Hemoccult II triple-test card, 3 flushable sample collection tissues, 3 applicators, 1 illustrated diet & test instructions, 1 patient pamphlet, & 1 Barrier mailing pouch.

**HENRY SCHEIN® ONESTEP OCCULT BLOOD PATIENT MAILER**
- Effective and rapid method for detecting occult blood in stool. Aids in diagnosis of asymptomatic gastrointestinal problems such as colorectal cancer, ulcers, polyps, anemia, and diverticulosis.
- Detects hemoglobin through chemical reaction
- Compares to high-sensitivity products
- Room-temperature storage
- (147-7182) ..........50 kits/box
- Contains: 50 triple 2-hole slides, 150 sticks, developer, & 50 US postal mailers.

**Hemoccult II® SENSA® Dispensapak™ Plus**
- The fecal occult blood test that provides improved readability versus Hemoccult and other standard FOBT products.
- Easier readability
- Higher clinical sensitivity
- Detects more true positives
- #64150A, 40-Patient Kit (254-4454) .....................ea

**Hemoccult® Single-Test Card**
- #60151A (254-9052) .....................ea
- Contains: 100 Hemoccult single-test cards, 2–15-mL bottles developer, 100 applicators, & 1 product instruction manual.

**HEMOSURF® iFOB TEST**
- Immunochromatographic Fecal Occult Blood Test (FIT)

**Clinically and Financially the Right Choice For Colorectal Cancer Screening (CRC)**

**Increased Accuracy**
- Higher Sensitivity compared to gFOB
- Greatly Reduces False Positives

**Improved Healthcare**
- No Dietary or Drug Restrictions
- Specific to Human Hemoglobin
- Higher Patient Compliance, due to Ease of Use
- Easy to Read Results, Similar to Pregnancy Test
- User Friendly and more Sanitary

**Cost Effective**
- Best Value Package (792-8076)
- 40% more Collection Tubes and Home kits
- 5x Higher Reimbursement *(ROI)*

* CPT Codes: 82274 QW/ G0328 QW (Average National Reimbursement: $23.22 varies by State)
QuickVue® IFOB Test
• Results in 5 to 10 minutes
• Analytical sensitivity: 50 µg hHb/mL buffer or 50 µg hHb/g feces
• Specificity: specific to human hemoglobin
• Agreement is 98% when using quality control specimens
• Specimen collection tube doubles as convenient, sanitary dispenser
• Self-contained test cassette
• Bold burgundy end points for ease in reading and interpreting results
• Room-temperature storage with 24-month shelf life from date of manufacture
• External controls available separately
• Monoclonal; no dietary restrictions
• Agreement is 98% when using quality control specimens
• Specificity: specific to human hemoglobin
• Analytical sensitivity: 50 µg hHb/mL buffer
• CLIA-waived
• Complete with home kit
• Easy-to-read results, similar to pregnancy test
• User-friendly and more sanitary
• Higher patient compliance, due to ease of use
• Easy-to-read results, similar to pregnancy test
• User-friendly and more sanitary
• Higher patient compliance, due to ease of use

Hemosure® iFOB Tests
• Best value package (792-8076) *40%
• More collection tubes and home kits
• 5x higher reimbursement (ROI)
• No dietary or drug restrictions
• Specific to human hemoglobin
• Higher patient compliance, due to ease of use
• Easy-to-read results, similar to pregnancy test
• User-friendly and more sanitary
• Complete with home kit
• CLIA waived

Clearview® ULTRA iFOB Test Kit with Collection Papers
Rapid 2-step immunoassay test for the detection of fecal occult blood.
• 5X higher reimbursement and ROI
• No dietary restrictions; specific for human hemoglobin only
• More sensitive than guaiac
• Higher patient compliance due to easier collection method
• 2 steps; positive results in as little as 1 minute
• Specific for blood in lower GI tract only
• Built-in controls for accuracy; CLIA waived

Hemosure® iFOB Tests
• Best value package (792-8076) *40%
• More collection tubes and home kits
• 5x higher reimbursement (ROI)
• No dietary or drug restrictions
• Specific to human hemoglobin
• Higher patient compliance, due to ease of use
• Easy-to-read results, similar to pregnancy test
• User-friendly and more sanitary
• Complete with home kit
• CLIA waived

ONESTEP+ IFOBT CASSETTES
CLIA-waived procedure. User-friendly test; no dietary or drug restrictions. Greater test accuracy (elimination of most false positives). For the detection of human hemoglobin in stool where test can be performed directly from the patient’s fecal sample. Test can be used for routine annual screening as well as a diagnostic test for the detection of gastronomical bleeding at any time, based upon the physician’s professional assessment of the patient’s symptoms. Different ICD-9 and CPT Codes are required for the reimbursement when used diagnostically.

Cassettes (900-4414) ..................10/kit
Contains: 10 cassettes & buffer tubes.
CPT® Codes: 82274/G0328

HENRY SCHEIN®
ONESTEP+ IFOBT OCCULT BLOOD MONOCLONAL ANTIBODY KIT
Innovative kit designed to avoid increased costs caused by noncompliant patients.
• Patient takes home stick and card only
  (compare to patient takes buffer tubes home)
• New 30-day sample stability (compare to 4–8 day)
• Monoclonal; no dietary restrictions
• Clean in-office sample handling
• Multiple-site accuracy
25-Test Complete Kit (900-4413) ..................25/kit
Contains: mailing cards kit, cassettes, & buffer tubes.
All-inclusive Test Kit
CPT Code: 82274GW/G0328GW
National reimbursement average: $23.22

HENRY SCHEIN®
ONESTEP+ IFOBT Mailing Envelopes
Immunochromographic fecal occult blood-collecting mailing envelope used in conjunction with an IFOBT cassette and buffer tube for the detection of human hemoglobin (Hb (globin)) in the stool.
Product used as replacement envelopes for the iFOBT Kit (900-4413).
20-Patient Mailer Kit (900-4416) ..................20/pkg
Contains: sticks, card mailer, & instructions.

Hemosure® iFOB Tests
• Best value package (792-8076) *40%
• More collection tubes and home kits
• 5x higher reimbursement (ROI)
• No dietary or drug restrictions
• Specific to human hemoglobin
• Higher patient compliance, due to ease of use
• Easy-to-read results, similar to pregnancy test
• User-friendly and more sanitary
• Complete with home kit
• CLIA waived

Clearview® ULTRA iFOB Test Kit with Collection Papers
Rapid 2-step immunoassay test for the detection of fecal occult blood.
• 5X higher reimbursement and ROI
• No dietary restrictions; specific for human hemoglobin only
• More sensitive than guaiac
• Higher patient compliance due to easier collection method
• 2 steps; positive results in as little as 1 minute
• Specific for blood in lower GI tract only
• Built-in controls for accuracy; CLIA waived

CPT® Codes: 82274/G0328

Hemoccult® ICT
Next-generation fecal occult blood test (FOBT) for colorectal cancer screening. Specific for human hemoglobin, this immunochemical test eliminates all diet and drug restrictions. It also offers higher specificity and sensitivity for better detection of colorectal adenomas than standard guaiac FOBTs. Specific for lower GI bleeding, which provides fewer false positives and a reduction in unnecessary invasive procedures.
• CLIA waived; easy test procedure
• Screening reimbursement code: G03280W
#395066A, Screening Kit (834-3249) ...............ea
Contains: patient screening kit: 1 dispensing envelope with patient instructions, 3 Hemoccult ICT collection cards, 3 flushable collection tissues, 3 applicator sticks, & 1 mailing pouch.
Box: 40 patient screening kits.
#395067A, Test Kit (834-6389) ...............ea
Contains: 20 test devices & 1–1-mL bottle Hemoccult ICT buffer (to be used with Hemoccult ICT collection cards & patient screening kits)
#395068A, Controls (834-5620) ...............ea

HENRY SCHEIN®
ONESTEP+ IFOBT MAILING ENVELOPES
Immunochromographic fecal occult blood-collecting mailing envelope used in conjunction with an IFOBT cassette and buffer tube for the detection of human hemoglobin [Hb (globin)] in the stool.
Product used as replacement envelopes for the iFOBT Kit (900-4413).
20-Patient Mailer Kit (900-4416) ..................20/pkg
Contains: sticks, card mailer, & instructions.

HENRY SCHEIN®
ONESTEP+ IFOBT MAILING ENVELOPES
Immunochromographic fecal occult blood-collecting mailing envelope used in conjunction with an IFOBT cassette and buffer tube for the detection of human hemoglobin [Hb (globin)] in the stool.
Product used as replacement envelopes for the iFOBT Kit (900-4413).
20-Patient Mailer Kit (900-4416) ..................20/pkg
Contains: sticks, card mailer, & instructions.
ONESTEP+ PREGNANCY STRIP TEST
Rapid, chromatographic immunoassay for the qualitative detection of human chorionic gonadotropin (hCG) in urine to aid in the early detection of pregnancy.
- Urine test
- CLIA waived
- 25 mIU/mL detection level
- Room-temperature storage
- Read time 3 minutes or less
(900-4072).............25/box
Contains: 25 pouched tests per kit & 1 package insert.
CPT® Code: Urine 81025

ONESTEP+ PREGNANCY COMBO CASSETTE TEST
- Urine or Serum test
- CLIA waived for urine only
- 25 mIU/mL detection level
- Room-temperature storage
- 25-Patient Kit
(900-4075).............25/box
Contains: 25 pouched tests per kit & 1 package insert.
CPT® Codes: 81025 Urine; 84703 Serum

QUIDEL

QuickVue® One-Step hCG Combo Tests
- 20 mIU sensitivity in urine, 10 mIU sensitivity in serum
- Results in 5 minutes for serum, 3 minutes for urine (CLIA waived urine only)
- 99% sensitivity, 99% specificity
- Room-temperature storage
- Built-in controls for CLIA compliance
- One-step ± endpoint
(371-6739).............30/box
(371-1811)..........90/box
CPT® Codes: Urine, 81025/Serum, 84703 (Combo tests are classified as moderate when testing serum samples.)

OSOM® hCG Urine Test
Avoid the mess and hassle of manipulating urine samples while providing the flexibility and reliability your patients deserve.
- CLIA waived
- Dipstick: simple, 1-step procedure
- Fast results: as soon as 1 minute
- 25 mIU/mL sensitivity
- 2-color results
- Room-temperature storage; 24-month shelf life
- Easy to run
#124
(327-9522).............25/box
CPT® Code: 81025

OSOM® hCG Urine Test
Traditional physician-office hCG test with the added benefit of easy-to-read, two-color results. Add 3 drops of urine and read result.
- Results in as soon as 1 minute
- 25 mIU/mL sensitivity
- More than 99% accurate in clinical studies
- Easy to run
- CLIA waived
#102
(327-0743).............25/box
CPT® Code: 81025
ICON® 25 Hcg Pregnancy Test
A one-step, rapid, combination serum/urine test designed for the early detection of pregnancy.
- 25 mIU/mL sensitivity, >99% specificity
- 3-minute results for urine, 5-minute results for serum
- Requires just 3 drops of specimen
- CLIA waived for urine
(254-2726) .............25/box

Clearview® hCG Rapid Tests
- CLIA waived for urine only
- For Urine Dipstick and Urine Cassette
  - 25 mIU/mL sensitivity
- For Combo II 20 mIU/mL sensitivity for urine and 10 mIU/mL sensitivity for serum
- Greater than 99% specificity
- Room-temperature storage for up to 24 months
- Results in 3 minutes or less for urine; 5 minutes for serum
- Built-in controls ensure accuracy
#92115, Combo II
(512-7077) .............40/box
#92117, Urine Cassette
(512-0075) .............40/box
#92211, Urine Dipstick
(512-5273) .............50/box

OSOM® BVBLUE® Test
Detects elevated vaginal fluid sialidase activity, an enzyme produced by bacterial pathogens associated with bacterial vaginosis, including gardnerella, bacteroides, prevotella, and mobilincus.
- CLIA waived
- Sensitivity: 92.8% vs. Gram’s stain
- More sensitive and specific than wet mount
- One-minute hands-on time
- Instant color change provides clear, easy-to-read results
- Room-temperature storage
#183, Test
(414-4170) .............25/box
CPT® Code: 87905QW

Impact RPR® Tests
For Syphilis
Rapid detection of syphilis in serum or plasma.
- Simple and accurate
- 100% agreement with reference FTA testing study
- No incubation
- Read in 8 minutes after rotation on slide rotator
50-Test Kit
(512-1386) .............ea
Dry Control Card
(512-4000) .............10/box
Liquid Control
(512-3595) .............3/box
CPT® Code: 86592
The Problem:
Mixed vaginal infections.

One of every four vaginal infections are caused by two or more organisms: Candida species, Gardnerella vaginalis or Trichomonas vaginalis.

Failure to diagnose these common causes of vaginitis can carry significant risk for your patients. Trichomoniasis and bacterial vaginosis (BV) are associated with increased risk of HIV infection, delivering preterm, low birth weight babies and, if untreated, PID.1,2

1 Trichomoniasis, CDC, Div. STD. Fact Sheets Sept 2000.
3 Data from package insert.

The Solution:
1 molecular test that detects & differentiates 3 organisms.

The BD Affirm™ VPIII system quickly identifies and differentiates three pathogens from one single test.
The Affirm VPIII technology provides RNA accuracy to enable targeted therapies.

- Results in < 45 minutes
- Enables proper therapy, the first visit
- Unaffected by difficult specimens: menses, sperm or creams from self medication.3

Learn more about Affirm VPIII testing in your laboratory, call 800.553.3470.

** Drug Class Information: ** AMP class contains AMP, mAMP, MDMA. OPI Class contains OPI, MOP, OXY. These drugs can only be billed for one time if they fall on the same panel; see Example 1

** QW modifier for Medicare/Medicaid, check with your insurance provider.

** Example 1:** When billing the Multi-CLIN 11 panel drug screen order code DCB-1115-011 containing COC, THC, OPI, AMP, PCP, BZO, BAR, MDMA, PPX, OXY, TCA, it would be appropriate to bill CPT code 80101 nine times due to OPI and OXY falling into the same OPI drug class and AMP and MDMA falling into the same AMP class.

** Example 2:** When billing the iCup 5 panel drug screen, order code I-DUA-157-023 containing COC, THC, OPI, AMP, PCP, it would be appropriate to bill CPT code 80101 five times due to OPI and OXY falling into the same OPI drug class and AMP and MDMA falling into the same AMP class.

PN: 52076, Triage Drug of Abuse, Control 3 (High Positive) (111-5933)...........6 x 5 mL

Drug Screen Dip BUP Buprenorphine (BUP) Single Dip Device
Buprenorphine is used in the treatment of opioid addiction. The drug is sold under the trade names Subutex™ and Suboxone™. Therapeutically, buprenorphine is used as a substitution treatment for opioid addicts. It is as effective as methadone but demonstrates a lower level of physical dependence.

Can you spot the difference between these two kits?

The answer is simple.

You can’t... because there is no difference between the two kits. Quidel is committed to ensuring consistency from kit-to-kit and lot-to-lot to provide you with the same high quality products that you have come to trust. The same quality that has made QuickVue the #1 selling Influenza test in the professional market.¹

For more information, contact your Henry Schein representative.

**SPECIALTY TESTS**

---

**h. pylori**

**HENRY SCHEIN® ONESTEP+ H. PYLORI CASSETTE TEST**
- Whole blood, serum, or plasma
- CLIA waived for whole blood
- Controls included
- Simplified
- Results in 10 minutes or less
- Allows for rapid treatment decisions

**Complete Kit**
- #175 (309-0040) ................................20/box
- Contains: 20 pouched test devices with disposable sample droppers; disposable, heparinized capillary tubes & dispensing bulb; 1 each: positive & negative control; sample buffer; procedure card; & package insert.
- CPT® Code: Urine 81025

---

**Clearview® H. pylori Rapid Test**
For the visual qualitative detection of antibodies specific to *H. pylori* in human serum, plasma, or whole blood. Simple, two-step procedure.
- CLIA waived for whole blood only
- 88% sensitivity; 88% specificity
- Results in 10 minutes or less
- Room-temperature storage for up to 18 months
- Built-in procedure controls to ensure accuracy

**#92405**
- (512-4160) ......................30/box
- CPT® Codes: 86318QW/86318

---

**ThyroChek® Thyroid Rapid-Test Kit**
Elevated TSH is the first clinical indicator of hypothyroidism. This test allows you to know in minutes if your patient's TSH is greater than 5 mLU/L. Requires 1 drop of blood from a fingerstick or venous draw.
- #175 (309-0040) ......................ea
- Contains: 20 tests, pipettes, buffer, & instructions.
- CPT® Code: 84430W (Average Medicare Reimbursement: $23.47 varies per state)

---

**Clearview® Simplify D-dimer 10-Minute Rapid Test**
Rapid lateral flow test for quantitative detection of D-dimer to aid in the diagnosis of deep vein thromboses (DVT), pulmonary embolism (PE), and disseminated intravascular coagulation (DIC).
- Fast: 10-minute results
- Easy: 2 easy steps
- Flexible: uses whole blood or plasma
- Reliable: built-in control
- #175 (309-0040) ......................10/box
- CPT® Code: 85380

---

**RPS Adeno Detector™ for Pink Eye**
CLIA-waived, 10-minute, in-office test used for conjunctivitis (pink eye). Working from an easy-to-collect eye-fluid sample, this test delivers a positive result when the infection is caused by the adenovirus. Knowing the underlying infection source helps clinicians determine the most appropriate treatment.
- Reimbursed
- Proven accuracy
- Reduces antibiotic resistance
- #175 (770-1362) ......................ea
- CPT Code: 87809QW

---

**DTM Test Agar Dermatophyte Test**
Medium Vial
Selective isolation of fungi from cutaneous (skin) samples.
- #175 (224-0011) ......................20/box
- Item stored under refrigeration. May be shipped separately.
**SPECIALTY TESTS**

**BD Microtainer® Plastic-Clad Micro Hematocrit Tubes**
Feature safety engineering to help protect healthcare workers from accidental injury during some of the most common medical procedures. Each tube is encased in a thin Mylar® film that does not interfere with the accuracy of the user's visual inspection.

- #361021, Heparinized (843-1691).............1000/case  
- #361025, Plain (987-6921).............200/box  
- #361027, Calibrated (987-4209).........1000/case

**Microhematocrit Capillary Tube–Red Tip Heparinized**
(130-3223).............200/vial

**Microhematocrit Capillary Tube–Blue Tip Plain**
(227-5359).............200/vial

**Sedi-Rate™ Westergren ESR System and Accessories**
**Starter Kit**
(217-0930)..............ea  
Contains: 100-test kit, rack, leveling platform, funnels, & transfer pipettes.

- #3469, Test Kit (368-5132).............100/box  
- #3479, Pipette (600-7387).............100/box  
- Acrylic Leveling Platform (691-4303)..............ea

**Dispette 2 Sedimentation Rate Kit**
With improved safety features plus greater efficiency. Modified Westergren sedimentation rate. Includes 100 ESR disposable plastic pipette tubes and 100 prefilled, pieceable cap reservoirs.

- (668-9703) ...............ea

**Hb 201+ Handheld Hemoglobin Analyzer**
Offers the same important benefits as its predecessor, the B-Hemoglobin Photometer. Smaller size gives more flexibility and mobility to use the system anytime and anywhere. Performs an internal self-test. No control cuvette required.
- Produces results in less than 1 minute with lab-quality accuracy
- 3 easy steps
- Precalibrated, portable analyzer that requires minimal maintenance
- No calibration or instrument manipulation (between cuvette/reagent batches) needed
- Safe and easy to use
- Reimbursable
- CLIA waived
- 2-year warranty

- Hb 201+ Handheld Hemoglobin Analyzer (345-2344) ...............ea  
  Contains: Analyzer, AC adapter, manual, & training CD-ROM.

- Microcuvettes (110-9167).............100/box  
  Contains: 4 packs of 25.

- Microcuvettes (345-8733).............200/box  
  Contains: 4 packs of 50.

**LeadCare® II Analyzer**
Accurate, On-the-Spot Lead Testing
- Perform blood-lead measurements with only 2 drops of blood
- In-office immediate results in 3 minutes
- Accuracy and sensitivity of a reference lab test (from capillary or venous blood sample)
- Two-drop sample size requires only a finger stick; allows combination of LeadCare II with other tests
- CLIA-waived, reimbursable test

- LeadCare® II Analyzer (106-4441) ...............ea  
- Test Kit (106-5736) .............48/box  
CPT® Code: 83655
Triage® Profiler S.O.B. (Shortness of Breath) Panel
Rapid fluorescence immunoassay of the quantitative determination of creatine kinase MB (CK-MB), myoglobin, troponin 1, B-type natriuretic peptide (BNP) and D-dimer in whole blood or plasma. Test devices include 2 levels of built-in controls. Results in approximately 15 minutes. Read by Triage® MeterPro™ meter. Measurement of 5 markers:
- Troponin 1
- CK-MB
- Myoglobin
- BNP
- D-dimer

Triage® BNP Test
The only CLIA-waived blood test measuring B-type natriuretic peptide (BNP). Cardiac hormone produced by the heart ventricles in response to ventricular volume expansion and pressure overload. CLIA waived for use with whole-blood samples. Rapid, objective point-of-care immunoassay used:
- As an aid in the diagnosis of CHF
- As an aid in the assessment of severity of CHF
- For the risk stratification of patients with ACS
- For the risk stratification of patients with HF

Triage® D-Dimer Test
Rapid, quantitative immunoassay to aid in the assessment and evaluation of patients suspected of having disseminated intravascular coagulation (DIC) and thromboembolic events, including pulmonary embolism (PE) and deep-vein thrombosis (DVT).
- Performed on Triage® meters
- Provides rapid, quantitative results in approximately 15 minutes
- Utilizes highly sensitive fluorescence immunoassay technology

Triage® TOX Drug Screen
The Drug Screen panel simultaneously detects 11 drugs in one rapid, easy-to-use test that is read on the Triage® meter. PN: 94400 Triage TOX Drug Screen (131-0824) — 25 tests/pkg PN: 94413 Triage TOX Control Level 1 (131-7103)... 5 x 0.25 mL PN: 94414 Triage TOX Control Level 2 (131-0969)... 5 x 0.25 mL

To Order: 1.800.P.SCHEN 8am–9pm, et • To Fax: 1.800.329.9109 24 Hrs www.henryschein.com/medical
CoaguChek™ S
Kit and Accessories
Handheld point-of-care monitor for quantititative prothrombin time (PT/INR) measurement for monitoring oral anticoagulant therapy, using capillary or venous whole blood.
• CLIA waived
• Fastest test time: results in 1 minute
• Smallest sample requirement: just 10 µL
• Broadest reporting range: 0.6–8 INR
• True one-button operation
• Automatic control identification

CoaguChek® XS System
PT/INR Monitoring Solution
The next generation in POC PT/INR testing, this new system uses exclusive smart technology to help ensure accurate results and offers the flexibility and control that healthcare professionals need to confidently manage a wide range of anticoagulated patients. It is the only system to perform onboard quality control and determine patient results in a single test chamber.
• Neutralizes therapeutic levels of heparin and LMWH
• INR corrected for hematocrit within specified range; manage a broad array of anticoagulated patients with 1 device
• Small sample size (10 µL) for easy dosing
• Strip allows dosing from either top or side for simple blood application
• 18-month strip shelf life; no refrigeration needed
• Small, battery-powered, handheld meter for portability and efficiency
• New onboard controls; no external QC needed
• Auto-on with strip insertion and auto-off capabilities

INRatioR2 Monitor
Allows you to obtain a Prothrombin Time (PT) and International Normalized Ratio (INR) result using 1 drop of blood from a fingerstick.
• Easy to use
• Single-button operation
• 1-step auto turn-on with strip insertion
• Larger LCD screen and easy-to-read digits
• Small, 1-drop (15µL), sample size
• Wider test-strip area for easier sample application
• Test results in under 1 minute
• CLIA waived
• Test strips do not require refrigeration
• Test strips are individually wrapped, stored at room temperature
• 2-channel, On Board Quality Control runs on every test
• No need for external liquid quality control or extra strips

HemoSense
CoaguChek XS® Plus System
Built-in QC and Data Management for POC Anticoagulation Testing
This system has the same features as the CoaguChek® XS system but offers new QC and data management capabilities for healthcare professionals at the point of care.
• Stores 500 patient and/or QC results
• Operator and QC lockout capabilities
• Code chip programming
• Data storage or up to 60 code chips
• Meter

VerifyNow® Aspirin Assay
A qualitative assay to aid in the detection of platelet dysfunction due to aspirin ingestion in citrated whole blood for the point of care or laboratory setting.
• Simple: 1-step, closed-tube sampling
• Rapid: results in 5 minutes
• Accurate: >99% specificity; 91.4% sensitivity
• Cost-effective: eligible for Medicare and private-payer reimbursement with CPT code 85576 QW; platelet aggregometry–arachidonic acid (agonist)
**ABAXIS**

**Piccolo® Point-of-Care Chemistry Analyzer**
The first broad-menu clinical chemistry analyzer designed for near-patient testing.

**Basic Panel** contains BUN, Ca, Cr, CRE, GLU, K, Na+ and 1CHO2. **Comprehensive Panel** contains ALB, ALP, ALT, AST, BUN, Ca, Cr, CRE, GLU, K, Na+, TBIL, TCHO2, and TP. **Lipid Panel** contains CHOL, CHOL/HDL (calculated), HDL, LDL (calculated), TRIG, and VLDL (calculated).

- General chemistry, liver, electrolyte, BMP, CMP, lipid, renal, and hepatic panels available
- No daily controls, calibrators, or maintenance
- Intelligent Quality Control (IQC) verifies correct performance
- No special training required
- 0.1-cc whole blood, serum, or plasma
- Single-use reagent discs
- Compact and portable
- Built-in QC and calibration
- Lipid panel is CLIA waived
- Whole blood, serum, or plasma
- Less than 2 minutes hands-on
- Results in under 15 minutes

#100-0000 Chemistry Analyzer Accessory Kit
(106-6368) ..................ea
Contains: 1-0.1 cc Minipette, 1-96 pack disposable Minipette tips, operator’s manual, training CD, power cord, power supply, 10 lithium heparin tubes, screwdriver, & 2-12 pack result cards.

#100-0000, Chemistry Analyzer
(756-1444) ..................ea
Contains: accessory kit of 1-0.1-cc Minipette, 1-96 pack disposable Minipette tips, operator’s manual, training CD, power cord, power supply, 10 lithium heparin tubes, screwdriver, & 2-12 pack result cards.

#400-0024, Basic Metabolic Panel
(137-3987) ...............10/box

#400-0028, Comprehensive Metabolic Panel
(174-6978) ...............10/box

#400-0025, Lipid Panel
(146-0189) ...............10/box

---

**i-STAT® 1 Handheld System**
Performs a comprehensive panel of critical tests. Utilizing self-contained test cartridges, along with the Precision PCx™ and Precision PCx Plus™ glucose test strips, the i-STAT 1 system delivers lab-accurate testing for blood gases, electrolytes, chemistries, coagulation, hematologist, glucose, and cardiac markers (cTnI).

It is portable, reliable, and includes these important features:
- Easy to use: Cartridges are self-contained and the system is simple to learn and operate
- Lab-accurate results: Advanced biosensor technology and real-time quality assurance provides extremely accurate testing
- Small sample size: Just a few drops of blood per cartridge
- Ready when you need it: Test results in as little as 2 minutes

#11-781 Cholestech Thermal Label Printer
For use with Cholestech LDX System
(949-6403) ...............ea

#11-785 Cholestech Thermal Printer Labels
White labels for use with Cholestech Thermal Label Printer
(803-6378) ...............400/roll

#11-787
(803-3213) ...............ea

#10-986, Test for TC
(420-7892) ...............10/box

#10-988, Test for TC and HDL
(495-0149) ...............10/box

#10-987, Test for TC, HDL, and Glucose Panel
(600-5779) ...............10/box

#10-990, Test for TC, HDL, and Glucose Panel
(600-5771) ...............10/box

#10-991, Test for Lipid Profile and Glucose
(694-9360) ...............10/box

#12-788, Test for ALT/AST Alamine Aminotransferase
(608-8836) ...............10/box

#10-982, Control Set for Lipid and Glucose Levels 1 & 2
(928-0208) ...............ea
Contains: 1-2-mL vial level 1 & 1-2-mL vial level 2.

#12-807, High-Sensitivity C-Reactive Protein (hs-CRP)
(392-1076) ...............10/box

#11-255 Calibration Verification Material
(Lipids/Glucose) 1 vial ea of Levels 1–4 2 mL, (837-0939) ...............1ea

#12-712 Multi-Analyte Controls
(Lipids/Glucose/ALT/AST) 1 vial Level 1 & 1 vial Level 2, 2 mL
(348-1106) ...............10/ea

1 vial Level 1 & 1 vial Level 2, 3 mL
(611-7512) ...............ea

CPT® Code for lipid profile: #80061QW; for lipid profile/hDL: 80081QW; for ALT/AST 84460QW

*Except hs-CRP
**BLOOD COLLECTION**

**Vacutainer® Stretch Latex-Free Tourniquet**
Ideal product for those looking to eliminate latex from their healthcare environment. Won't cause an allergic reaction in latex-sensitive patients or employees. Convenient packaging allows for easy, one-at-a-time dispensing that facilitates a single-use policy that will reduce danger of cross contamination between patients and healthcare workers. 

#367203  
(270-3884)...........25/box

**BD Microtainer® Contact-Activated Lancets**

- #366592, Low Blood Flow (Single Drop), Purple, 30-ga x 1.5-mm D Needle  
  (106-5174)...........200/box  
- #366593, Medium Blood Flow, Pink, 21-ga x 1.8-mm D Needle  
  (106-5210)...........200/box  
- #366594, High Blood Flow, Blue, 1.5-mm W x 2-mm D Blade  
  (106-5209)...........200/box

**HENRY SChEin® BLOOD LANCETS**
Sterile, Disposable  
(100-0178)...........200/box

**Tenderfoot® Lancets**

#TF50, Pink/Blue  
(107-9563)...........50/box

**TERUMO® Capiject® Safety Lancets**

- 28 ga, 1.25 mm, Purple  
  (110-8541)...........200/box  
- 1.5 mm x 1.0 mm, Pink  
  (110-8854)...........200/box

(Blood collection products and information)
BD Vacutainer® Push Button Blood Collection Sets

Set offers split-second protection for that single moment that could potentially change your life. Push-button safety mechanism instantly helps protect you against needlestick injury. BD offers the only blood-collection system with push-button technology. Set is designed to be simple, easy to use, ergonomic and, most important, helpful in protecting you from accidental needlestick injuries. Set with preattached holder is now available and ready to use right out of the package, with no assembly required.

- #367342, with Luer Adapter, 12” Tubing, 23 ga
  (919-4247) ............50/box
- #367344, with Luer Adapter, 12” Tubing, 21 ga
  (987-3358) ............50/box
- #367323, without Luer Adapter, 12” Tubing, 25 ga
  (987-3303) ............50/box

BD Vacutainer® Safety-Lok™ Blood Collection Sets

Safety-engineered winged sets for both blood collection and infusion. Each set features a translucent, integrated, protective shield that allows for one-handed activation immediately after use to help minimize the risk of needlestick injuries and to offer clear visibility of blood flashback.

- #367294, 7” Tube with Luer, 25 ga
  (987-5250) ............50/box
- #367287, 7” Tube with Luer, 21 ga
  (958-5699) ............200/case
- #367285, 12” Tube with Luer, 25 ga
  (840-3447) ............ea
- #367283, 12” Tube with Luer, 23 ga x 3/4”
  (987-1301) ............50/box
- #367281, 12” Tube with Luer, 21 ga
  (987-8393) ............50/box
- #367298, 12” Tube without Luer, 25 ga
  (923-4670) ............50/box
- #367297, 12” Tube without Luer, 23 ga
  (987-4692) ............50/box
- #367296, 12” Tube without Luer, 21 ga
  (987-9967) ............50/box

  (987-8940) ............25/box
- #368652, 12” Tube with Preattached Holder, 21 ga
  (111-7212) ............200/ca

BD Vacutainer® Plus Plastic Blood Collection Tubes

Offer a safer method of blood collection. Reduce risk of tube breakage and specimen spillage. Safe, simple disposal in accordance with EPA guidelines. #367981, Clot Activator/Gel for Serum Separation, 3.5 mL, Red/Gray Top, Paper Label, Silicone-coated Interior, 13 mm x 75 mm
(987-1419) ............100/box
- #367856, EDTA, K2EDTA, Lavender Top, Paper Label, Hemogard Closure, 3 mL, 13 mm x 75 mm
  (127-4412) ............100/box
- #367861, EDTA, K2EDTA, Lavender Top, Paper Label, Hemogard Closure, 4 mL, 13 mm x 75 mm
  (987-7504) ............100/box
- #367988, SST Tube, Silica/Gel, Red/Gray Top, Paper Label, Conventional Stopper, 8.0 mL, 16 mm x 100 mm
  (987-2786) ............100/box
- #367986, SST, Silica/Gel, 5 mL, 13 mm x 100 mm
  (987-0936) ............100/box
- #364300, Lavender, Glass, 2 mL, 10.25 x 64 mm
  (908-1970) ............1000/case

BD Vacutainer® Eclipse™ Blood-Collection Needles

Thin Wall, 1/4”
Safety-engineered, multisample needle offers a simple, effective way to collect blood while it reduces the possibility of needlestick injuries. It features a patented shielding that allows for one-handed activation to cover needle immediately upon withdrawal from vein and confirm proper activation with an audible click. New needles with preattached holders are ready to use with no assembly required.

- #368608, 22 ga
  (987-2645) ............48/box
- #368607, 21 ga x 1/4”
  (987-6956) ............48/box
- #368651, with Preattached Holder, 22 ga
  (987-6134) ............100/case
- #368650, with Preattached Holder, 21 ga
  (987-5021) ............100/case

Surshield™ Safety Wing Blood-Collection Sets

One-handed, easy-to-activate safety device. Requires no change in needle insertion technique. Built-in safety design is easy to use. Latex-free.

- 12” Tubing
  Long, 21 ga
  (315-5704) ............50/box
  Long, 23 ga
  (315-0039) ............50/box

Vacutainer® Eclipse One-Use Holders

#3645815, for 13-mm and 16-mm Diameter Tubes
(987-0051) ............250/bag
### Gram Stain Kits
Gram stain kits and reagents are used to stain for microorganisms from cultures or specimens by the differential Gram method.

- **#212529, Gram Iodine (Unstabilized) (264-9099)**
  - 4/pkg

- **#212539, Gram Stain Kit (106-2056)**
  - 4/pkg
  - Contains: 1–250-mL bottle ea of Gram crystal violet, Gram iodine (stabilized), Gram decolorizer, & Gram safranin.

- **#212529, Gram Iodine (Unstabilized) (264-9099)**
  - 4/pkg

- **#212531, Gram Safranin (343-3274)**
  - 4/pkg

- **#212525, Gram Crystal Violet (116-6788)**
  - 4/pkg

- **#212536, Acridine Orange Stain (610-4654)**
  - ea

- **#212524, Gram Stain Kit (645-2264)**
  - 4/pkg
  - Contains: 1–250-mL bottle ea of Gram crystal violet, Gram iodine diluent with iodine concentrate, Gram isopropyl decolorizer solution, & Gram safranin solution.

- **#212527, Gram Decolorizer (224-5022)**
  - 4/pkg

- **#212542, Gram Iodine (Stabilized) (613-3242)**
  - 4/pkg

### Sedi-Stain™ Concentrated Reagent
Stabilized modification of the Sternheimer-Malbin stain for use in the microscopic examination of urine sediment, which is generally recognized as a valuable diagnostic technique to permit rapid and accurate identification of intrinsic renal disease.

- **#421570, 12.5-mL Bottle with Dropper (168-9062)**
  - ea
  - Contains: Crystal violet 0.10%, safranine O 0.25%, ammonium oxalate 0.03%, ethyl alcohol (SD-3A) 10%, & water & stabilizers 89.62%.

### Isopropyl Alcohol
99% Purified

- **1 gal (120-8443)**
  - ea

### Alcohol-Anhydrous
ACS Reagent
Suitable for histology. Contains 90.5% ethyl alcohol, 4.5% methyl alcohol, and 5% isopropyl alcohol.

- **#1200-1GL, 1-gal Bottle (120-8724)**
  - ea

### Formaldehyde 37%, USP

- **1 gal (120-8716)**
  - ea

### Hematology Solutions and Stains

- **#400110, QuickLink I Wright’s Stain, 16 oz (104-3950)**
  - ea

- **#400120, QuickLink I Wright’s Stain, 32 oz (104-3896)**
  - ea

- **#400129, QuickLink I Wright-Giemsa Stain, 3 oz (103-0691)**
  - ea

- **#400171, QuickLink III Fixative, 1 gal (996-4989)**
  - ea

- **#400160, QuickLink III Set, 16 oz (3) (833-1331)**
  - ea

- **#400191, Eosinophil Stain, 16 oz**
  - Compares to: Hansel’s® Stain (751-9989)
  - ea

- **#400133, Wright Stain Kit, 8 oz (244-8256)**
  - 3/box

### Microbiology Solutions and Stains

- **#400308, Chlorazol Black E, 2 oz (792-4876)**
  - ea

**UNICO**

**PowerSpin™ LX Centrifuge**
Features a 6-place angled rotor designed for 2–10 mL tubes (maximum tube size up to 116 mm x 110 mm) and a fixed speed of 3400 rpm, generating 1350 RCF (g) for superior specimen separation. Set the 0–30-minute timer to desired run length.
- Maintenance-free, brushless motors run quietly at a fixed speed of 3400 rpm, emitting only 58 dB, all with low temperature rise
- Suction-cup rubber feet hold unit firmly in place while virtually eliminating vibration
- Lid features a gasket to reduce aerosol emissions, a window for strobe speed checks, and a safety interlock switch that cuts power to motor if lid is raised.
- Dimensions: 10.2” x 11.8” x 7.9”
- Weight: 15 lb
- 115 V/60 Hz
- Weight: 15 lb
- Dimensions: 10.2” x 11.8” x 7.9”
- 1-year manufacturer’s warranty
- Accessories available on request: 8-place rotor, pediatric tube adapters

**UNICO**

**Micro-Hematocrit Centrifuge**
This powerful centrifuge, with all-metal housing, spins up to 24 micro-hematocrit tubes at 12,000 rpm. Tubes are held in place with a screw-down metal lid and replaceable rubber gasket/ring. The 15-minute mechanical timer has a bell tone to signal a completed run, while the electronic brake can stop the unit on demand. The unit features a safety-lid latch that cuts engine power if the lid is lifted. The unit comes complete with a metal hematocrit reader tray. 1-year warranty.

#C-MH30
(715-8877) .....................ea

---

**UNICO**

**Rock-IT Jr. Blood Tube Rocker**
8-Place
A versatile rocker for hematology (blood) tubes prior to counting; also excellent for vials and gentle mixing of injectables. Nearly silent while gently completing 25 mixing cycles per minute. Platform is designed for 8 tubes and has a reversible pad that can be autoclaved. Dimensions: 8.6” x 4.7” x 5”. 1-year warranty.

#LTR100
(159-0730) .....................ea

**UNICO**

**IP730 Microscope**
Designed to provide crisp, clear imaging on a versatile and ergonomic platform. Available with 30° inclined Binocular or Trinocular heads. Features Seidnertopf optical design with 55–75 mm interpupillary distance adjustment. Both heads rotate 360° and lock in place with a thumbscrew. Eyepieces are standard with 10X 22-mm extra-widefield eyepieces for viewing comfort and clarity. Available with a variety of optics and configuration choices:

#IP730, Advanced Binocular Microscope, Achromat Objectives: 4X 10X 40X 100X Achromat
(106-9122) .....................ea

#IP730PL, Advanced Binocular Microscope, Plan Objectives: 4X 10X 40X 100X Plan Illumination: 6V/20W Halogen
(109-9806) .....................ea

---

**UNICO**

**Tube-Cubes**
Available in 3 configurations that accommodate practically all your needs. Each cube measures 2”D x 2½”H x 2½”W. 4-place holds 26-mm to 30-mm tubes/50-ml tubes. 9-place holds 8-mm to 16-mm tubes/10-15 mL tubes. Single place holds 86-mm cups, alcohol dispensers, small flasks, etc. Invert and pour! Tubes will stay in place.

- Great for phlebotomy trays
- Organize and store samples in refrigerator or freezer

#54400, 4-Place for 26-30-mm Tubes
(112-4210) .....................4/pkg

#54100, Single Place for up to 66-mm Tubes
(112-4212) .....................4/pkg

**UNICO**

**Vortex Mini Mixer**
This economical vortex mixer is rugged and sturdy for the most demanding applications. Dual-mode switch lets you vortex continuously or intermittently using the touch mode; simply press your tube to the soft rubber mixing cup. Features speed control to adjust the vortexing velocity to your requirements.

- Powerful and quiet
- Variable speed up to 3000 rpm
- Switch from Auto to Touch mode
- Power On LED indicator
- 1-year limited warranty

#L-VM1000
(110-0228) .....................ea

**UNICO**

**Tube Racks**
Starting with a single 50-place T-Rack, you can attach as many racks as space allows. These patented racks attach together quickly and easily with their unique built-in T-Connector, which allows the flexibility to attach as many racks as needed.

- Each T-Rack holds up to 50 tubes of varying sizes in two 25-hole sections
- Top shelf of each T-Rack has cross-referencing alphanumeric designation in order to track exact location of specific tubes in rack
- Attach additional T-Racks together; make a single large rack as big as needed
- Made of durable, autoclavable polypropylene; will not break or become brittle in low-temperature refrigerators
- Easy to clean and disinfect
- Dimensions: each 50-Piece T-Rack measures 8⅜” x 3½” x 5⅛”
- T-Racks arrive disassembled and can be snapped together in seconds

#54500, Tube Racks, 50 Place (Expandable)
(111-7761) .....................ea

---

**UNICO**

**Tube-Cube® Carrier**
Durable acrylic, and designed to hold any combination of Tube-Cubes. Available in 2-, 3-, and 4-place configurations. Provides a safe, convenient way to carry patient samples to the lab.

#54040
(112-4213) .....................4/ca

Graduated Transfer Pipettes

These plastic transfer pipettes are made from high-quality, flexible polyethylene and are completely unbreakable. They are offered in a variety of sizes and tip styles and are perfect for all liquid transfer applications.

- Packaged in convenient dispenser boxes
- Available in sterile and non-sterile versions
- Non-toxic and inert

#137135, 3 mL, Sterile, Graduated to 1 mL
#137038, 5 mL, Sterile, Graduated to 1 mL
#135038, 7 mL, Sterile, Graduated to 1 mL

3mL graduated to 1mL
#137035, 3mL graduated to 1mL
#137038, 5mL graduated to 1mL
#137039, 7mL graduated to 1mL

Sterile Cups

- Trilingual patient ID label
- Individually wrapped to maintain sterility
- Bulk packaged

#1208751

Non-Sterile Cups

- Frosted writing area for patient information

#428596

Non-sterile, Graduated to 3 mL
#137038, 3 mL, Non-sterile, Graduated to 3 mL

4oz (120mL) Specimen Cups

Perfect for urine collection. Features an easy-to-turn leak-resistant screw cap and molded graduation marks.

#6066028

Premium Microscope Slides

- Pre-cleaned and ready to use
- Ground edges consistent with every slide
- Boxes are shrink-wrapped to protect against humidity and moisture
- Safety corners for comfort handling
- Packaged: 72 slides per box

Did you know your practice can earn up to $64,000 in government incentives as part of the HITECH Act?

Henry Schein Medical is Future Ready...NOW!
(With Technology + Services For Advancing Practices)
To help you earn up to $64,000 in government incentives.

We are uniquely positioned to leverage current government initiatives to modernize the healthcare practice with new solutions. Our partnership with leading equipment manufacturers delivers a full line of products and resources to connect your office to a comprehensive Allscripts Electronic Health Records (EHR) solution.

The Time is Now! The Health Information Technology for Economic and Clinical Health Act (HITECH) provides financial incentives for medical practices that purchase and use an EHR system in their practice. Physicians can earn between $44,000 and $64,000 over five years from Medicare/Medicaid if they are utilizing an EHR solution in 2011.

To learn more, contact your Sales Consultant or call our Allscripts Customer Service Team.
Phone: 1-866-530-3540  •  E-mail: Allscripts@henryschein.com  •  Visit: www.henryschein.com/allscripts

Have You Seen LabDAQ Lately?

Recognized as “Top of the Class” Information System Vendor

- Consistently highly rated LIS software and company
- Superior after sales support
- Clients value our attention to detail and responsiveness to their needs

Superior Onsite Training
- Laboratory staff is trained quickly and efficiently
- Training completed in your own lab environment
- No travel issues to worry about

Established Connectivity Experts
- Installed in more than 2,300 laboratories
- Seamless integration with leading EHR, Practice Management and HIS systems
- Numerous bi-directional national and regional reference laboratory interfaces are available

*Voted by readers of Advance for Administrators of the Laboratory

For more information, contact sales at 800.359.0911 ext. 3, or via email sales@antekhealthware.com

Call your Henry Schein sales consultant for more details
Immunoassay systems deliver new levels of laboratory efficiency, standardization, and cost effectiveness.

Chemistry systems provide exceptional capacity for improved workflow and productivity.

Hematology analyzers offer performance, value, and safety in an easy-to-use system.

Providing a test menu that matters featuring BMP, CMP, hepatic, lipid, renal, electrolyte and many more.

Need all the pieces, without the puzzle?

Total lab solutions from a single, reliable source.

Buying different products from different vendors can be highly perplexing — and a poor fit for your practice. Fortunately, there’s a better way. Beckman Coulter offers proven, affordable solutions for Immunoassay, Chemistry, Hematology, Hemoccult and Rapid Test Kits — from one convenient source. Thanks to walk-away instrumentation, broad testing menu, trusted quality and backing by one of the best support programs in the industry, all the pieces simply fall into place.

For a total laboratory solution that fits your individual needs, one call does it all. 800-526-3821 or visit www.beckmancoulter.com/pcd.

© 2008 Beckman Coulter Inc.

VIDAS® systems automated immunoassays

Management of disease diagnosis and treatment for Point of Care Testing

- The VIDAS requires no startup and minimal maintenance
- A load-and-go system, the miniVIDAS® offers one-step testing for TPSA, thyroid and fertility assays
- Ready-to-use reagents, available in a single kit (60 tests/kit)
- Single test reaction strip, optimizing the cost per test
This system offers extra-small workload laboratories or work areas a compact solution for clinical chemistry. It is designed to fulfill the important needs of integrated laboratory networks serving outpatient, emergency departments and clinics, and private laboratories serving primary-care physicians.

- **Common reagents:**
  - Same reagent formulations across platforms
  - Traceability of results to common references

- **Extensive menu:**
  - Access to over 140 assays and formulas
  - Includes innovative tests such as whole blood HbA1c

- **Comparable results:**
  - Standardizes patient results for laboratory networks
  - Increases flexibility without sacrificing performance
A touch-screen monitor and state-of-the-art Windows 2000 software for easy navigation

Automatic onboard dilutions for selected assays

Switching between the standard operating mode and the Turbo mode on the IMMULITE 1000 system is quick and easy to perform. The IMMULITE 1000 has all of the advantages of a floor model in a benchtop system.

**Easy to Operate**
- True random access operation
- 5-minute daily startup
- Continuous loading of samples and Test Units
- Minimal maintenance
- Easy access to working components

**Productive**
- Routine, esoteric and STAT assays
- Throughput of up to 120 tests/hour
- No load lists required
- Onboard dilutions for selected assays

**Extensive Menu**
- Over 80 assays available
- Continual new assay development focused on disease management
- True testing consolidation

**Turbo Assays**
- Test results in under 15 minutes
- NT-proBNP, Troponin I, Myoglobin, CK-MB, Intact PTH and HCG
- Optional Turbo cart to move the system wherever it is needed

**Intuitive Software**
- Windows® 2000 operating software
- Flexible “from anywhere to anywhere” system navigation
- LIS interface with host-query capability
- Remote Diagnostics—facilitates superior customer support
- Built-in QC management
- Automated Levey-Jennings and graph generation

**Proven Technology**
- Enzyme-amplified chemiluminescence allows third-generation performance on selected assays
- Proprietary wash technique achieves highly efficient separation for extremely low nonspecific binding, resulting in excellent assay performance
