**Isovue-M 200, 41%**
- #1411-11, 10-mL Vials (840-6446) - 10/box
- #1411-25, 20-mL Vials (840-8206) - 10/box

**Isovue-250, 51%**
- #1317-05, 50-mL Vial (115-6902) - 10/case
- #1317-02, 100-mL Vial (115-3175) - 10/case

**Isovue-M 300, 61%**
- #1412-15, 15-mL Vial (840-6445) - 10/box

**Isovue 370, 76%**
- #1316-35, 100-mL Bottle (109-3061) - 10/box
- #1316-04, 125-mL Bottle (116-0092) - 10/box
- #1316-37, 150-mL Bottle (115-3176) - 10/box

**Isovue Multipack® 370, 76%**
- #1316-38, 500-mL Bottle (840-9716) - 6/case

**Cystografin**
- #0149-60, 100-mL Bottle (113-1376) - 10/case
- #0149-57, 300-mL Bottle (112-4611) - 10/case
- #1410-30, Dilute, 300-mL Bottle (109-2480) - 10/case

**Gastrografin Solution**
A formulation of iopamidol in orange-flavored aqueous solution for gastroenterography by oral administration or, where necessary, by enema. Its non-ionic nature permits a considerable improvement in the radiological exploration of the gastrointestinal tract compared to traditional contrast media.

**Sinografin**
- #0523-30, 10-mL Vial (115-3786) - 10/box

**Kinevac**
- #0556-15, 5mcg Vials (634-0011) - 10/box

**ProHance® Contrast Medium**
ProHance® (gadoteridol) is a contrast medium for magnetic resonance imaging (MRI) in the form of a sterile, apyrogenic solution for intravenous injection. In MRI, ProHance® provides contrast enhancement of the brain, spine and surrounding tissues, resulting in improved visualization (compared with unenhanced MRI) of lesions with abnormal vascularity or those thought to cause a disruption of the normal blood-brain barrier. ProHance® can also be used for whole-body MRI, including the head, neck, liver, breast, musculoskeletal system, and soft tissue pathologies.

**MultiHance® Contrast Agent**
MultiHance® (gadobenate dimeglumine) is a paramagnetic MRI contrast agent. The paramagnetic gadolinium ion is complexed with gadobenate, a chelating agent that forms a highly stable coordinating sphere around the gadolinium ion. It is salified with meglumine, forming a 0.5 M solution. MultiHance is endowed with all the physicochemical features typical of gadolinium class compounds, but in addition it has outstanding relaxivity properties.
## CONTRAST MEDIA/BARIUM SUPPLIES

### Oral Contrast Agents

**CT Barium**
- Esopho-Cat Barium Sulfate Suspension, 3%, w/v
  - #738, 30-g Jar with Spoon
    (728-1241) .....................24/case

**Volumen LHV Thin Liquid Barium Sulfate for Suspension, 40%, w/v after Reconstitution**
- #4507-01, 450-mL Bottle
  (845-7168) .....................24/case

**Redi-Cat® 2 Barium Sulfate Suspension, 2.1% w/v, 2.0% w/w**
- #7350, Apple, 450 mL
  (172-7836) .....................24/case

**Barium Sulfate Suspension, 2.1% w/v**
- #7550, 450 mL, Vanilla
    (904-0151) .....................24/case

- #4503-06, 250-mL Vanilla
  (961-1170) .....................24/case

- #7150, Berry, 450 mL
  (614-2896) .....................24/case

- #7750, 450 mL, Mochaccino
  (607-0002) .....................24/case

- #723, 450-mL Bottle
  (728-6535) .....................24/case

- #726, 1900-mL Jug
  (728-5271) .....................12/case

- #729, 900-mL Bottle
  (260-1289) .....................12/case

**Barium Sulfate Suspension, 1.3%, w/v, 1.2% w/w**
- #4501-3, 900-mL Bottle
  (728-9441) .....................12/case

**Barium Sulfate Suspension, 1.3%, w/v**
- #724, 1900-mL Jug
  (101-7808) .....................4/case

- #728, 450-mL Bottle
  (728-2784) .....................24/case

**E-Z Cat® Dry Barium Sulfate for Suspension, 2.0% w/w after mixing**
- #727, 23-g Packet
  (166-4048) .....................50/case

**EZ Cat® Barium Sulfate for Suspension Concentrate (4.9% w/v, 4.6% w/w)**
- #4501-01, 225-mL Bottle mL
  (240-3648) .....................24/case

- #4500-01, Capacity Mixing Container with Lid, 32 oz
  (614-2868) .....................25 per case

### Contrast Agent Used to Diagnose Problems with the Gastrointestinal Tract

- Varibar®
  - 40% w/v
    - #900002, Nectar Barium Sulfate Suspension, 240 mL
      (695-8941) .....................24/case

- #900005, Honey Barium Sulfate Suspension, 250 mL
  (110-1850) .....................12/case

- #900006, Pudding Barium Sulfate Esophageal Paste, 230 mL
  (846-3564) .....................12/case

- #900001, Thin Liquid Barium Sulfate for Suspension, 148g
  (E30-2265) .....................24/case

### Liquid Polibar® and Liquid Polibar® Plus Barium Sulfate

**Liquid Polibar® and Liquid Polibar® Plus, 100% w/v**
- #9002-02, 64-oz Liquid Polibar®, 100% w/v
  (728-0257) .....................4/case

- #9002-03, 64-oz Liquid Polibar® Plus, 105% w/v
  (670-7082) .....................4/case

- #9013-01, Enema Tip, Rounded Flex-Tip
  (110-2372) .....................12/case

- #9013-03, Enema Tip, Infant Flex-Tip
  (392-4248) .....................24/case

- #9013-05, Enema Tip, 14F Pediatric Flex-Tip®
  (108-3925) .....................48/case

- #9012-02, Miller Air Tip
  (399-7535) .....................48/case

- #9012-01, Flexi-Cuff with Non-Latex Cuff
  (728-7929) .....................48/case

- #9013-06, Cone Colostomy Tip
  (110-2372) .....................48/case

- #9013-07, Nipple Colostomy Tip
  (333-7672) .....................12/case

- #9004-04, Air Bulb Insufflator
  (889-0738) .....................12/case

- #9004-05, One-Shot Cuff Inflator
  (889-7114) .....................12/case

### Liquid E-Z-Paque® Barium Sulfate Suspension

- #902901, 60%, w/v, 41% w/w, 1900-mL Jug
  (728-2700) .....................ea

- #902801, 60%, w/v, 41% w/w, 355-mL Bottles
  (728-4267) .....................24/case

### Ultra-R® Barium Sulfate for Suspension

- #901902, 93% w/v, 6 oz
  (386-0665) .....................24/case

### E-Z-Paque® Barium Sulfate for Suspension

- #901901, 96% w/176-g Bottle
  (728-3052) .....................24/case

- #903001, 96% w/w, 10-kg Pail
  (102-4420) .....................ea

- #902601, 96% w/w, 1200-g Jug
  (728-4807) .....................8/box
E-Z-HD™
#9017-02, High Density Barium Sulfate for Suspension 250% w/v, 340-g (12-oz) Bottle
(728-7974) ......................24/case

Digibar® 190 Barium Sulfate for Suspension
#9017-01, 190% w/v, 12 oz
(158-1192) ......................24/case

Maxibar™ Barium Sulfate Suspension
#9027-01, 210% w/v, 120 mL
(338-5477) ......................24/case

E-Z-Gas® II Effervescent Granules
#9020-01
(728-1046) ......................50/box

E-Z-Disk™ Barium Sulfate Tablets
#9021-02, 648g
(302-5261) ......................100/btl

LiquiPrep Magnesium Citrate Oral Solution
#3902-01
(728-2894) ......................24/case

LoSo Prep™ Bowel Cleansing System
Contains one packet of magnesium carbonate, citric acid, and potassium citrate for oral solution of 18-g magnesium citrate; four 5-mg bisacodyl tablets, USP; one 10-mg bisacodyl suppository, USP.
#3076
(728-2659) ......................10/case

E-Z-Scan®
#6010-03, 1 Gal
(325-4766) ......................4/case
#6010-04, 5 Liter
(672-3032) ......................4/case

EnterouVu™ Barium Sulfate for Suspension
#9014-01, 81% w/w, 110-g Packets
(687-6031) .....................12/box

Liquid EnterouVu Barium Sulfate Suspension
#9014-06, 13%, 600 mL
(341-7368) .....................12/box

Liquid EnterouVu Barium Sulfate Suspension
#9014-07, 24% w/v 600 mL
(102-6811) .....................12/box

Enteroclysis Catheter
#9015-01, 155cm
(257-5786) .....................ea
#9015-03, 152cm
(362-7717) .....................ea

Entero-H™ Barium Sulfate Suspension
#9014-08, 80 w/v, 1900 mL
(338-2289) .....................4/case

Cysto-Aid™
#9010-04, 1000 mL
(457-1313) .....................25/case

Vinyl Retention Ring
#9011-01
(728-0373) .....................12/box

LoSo Prep™ Bowel Cleansing System
Contains one packet of magnesium carbonate, citric acid, and potassium citrate for oral solution of 18-g magnesium citrate; four 5-mg bisacodyl tablets, USP; one 10-mg bisacodyl suppository, USP.
#3076
(728-2659) ......................10/case

Liquid EnterouVu Barium Sulfate Suspension
#9014-06, 13%, 600 mL
(341-7368) .....................12/box

Liquid EnterouVu Barium Sulfate Suspension
#9014-07, 24% w/v 600 mL
(102-6811) .....................12/box

Enteroclysis Catheter
#9015-01, 155cm
(257-5786) .....................ea
#9015-03, 152cm
(362-7717) .....................ea

Entero-H™ Barium Sulfate Suspension
#9014-08, 80 w/v, 1900 mL
(338-2289) .....................4/case

Cysto-Aid™
#9010-04, 1000 mL
(457-1313) .....................25/case

Vinyl Retention Ring
#9011-01
(728-0373) .....................12/box

Henry Schein DxRx Solutions

We’re there when you need us—with our DxRx Solutions Hotline

Do you have questions regarding the diagnostic, pharmaceutical and vaccine items that you purchase from Henry Schein? Need help finding a CPT code, package insert, or looking for brand to generic comparisons?

The Henry Schein DxRx Solutions Hotline provides information on the following topics for diagnostics, pharmaceuticals and vaccines:

• Indications and usage as provided on a package insert
• Package inserts
• Brand to generic comparisons
• CPT codes and J codes*

*For informational purposes only. Source: Reimbursement Codes.com and/or www.cms.gov. Customer is responsible for verification of billing/coding in accordance with applicable specific circumstances.

We do that!™

- #344-15, 150-mL Vial (636-6027)..............................10/box

Magnevist Injection

Magnevist (brand of gadopentetate dimeglumine) injection is the N-methylglucamine salt of the gadolinium complex of diethylenetriamine pentaacetic acid, an injectable contrast medium for magnetic resonance imaging (MRI) to be administered by intravenous injection. Each mL contains 469.01 mg gadopentetate dimeglumine, 0.39 mg meglumine, 0.15 mg diethylenetriamine pentaacetic acid and water for injection.

- #1973676, 5-mL Vial (106-2199).............................20/case
- #1311935, 10-mL Vial (112-4621)..........................20/case
- #1311745, 15-mL Vial (926-3676)..........................20/case
- #3218450, 20-mL Vial (430-0353)..........................20/case
- #1213347, 15-mL Prefilled Syringe (109-9220).........5/pkg
OPTIRAY® 240 Injectable
Nonionic, low-osmolar contrast media agent intended for intravascular administration. Therapeutically and biologically inert when injected into body for use in organ or tissue enhancement in CT, X-ray, and fluoroscopy imaging procedures. Indicated for use in adults for angiography throughout the cardiovascular system. Uses include cerebral, coronary, peripheral, visceral, and renal arteriography, venography, aortography, left ventriculography, CT of head and body, and pediatric excretory urography. Not for intrathecal use. Each mL contains 509 mg of ioversol, 3.6 mg of tromethamine as a buffer, and 0.2 mg of edetate calcium disodium as a stabilizer.

ULTRAJECT® Prefilled Handheld Syringes
- #1324-81, 125 mL
- #1324-75, 50 mL

---

**TERUMO® Surflo® IV Catheters**
- Consistently safe and simple venipuncture. Eliminates worries about leakage or separation of IV catheter and hub. Flashback chamber in clear, sure-grip hub gives immediate indication of proper placement. Flexible, thin-wall catheter with large inner diameter ensures good blood flow. Catheters are ea.

---

**BRAUN**

**Introcath® Safety™ Catheters**
- Passive design minimizes needlestick injuries without change in technique. Requires minimal in-service training and a short learning curve. Eliminates risk of inadvertent activation. Compliance virtually ensured since safety mechanism cannot be bypassed.
  - 24 ga x ¾", Straight (507-0341) ea

---

**SURFLO® Winged Infusion Sets**
- These soft, flexible, interlocking wings readily conform to the body's contour. The wing is angled for easy positioning of the needle during venipuncture, for less risk of vessel damage or occlusion of the lumen. The precisely honed needle with Ultra-Thin wall design ensures ease of penetration and continued access with a single insertion. DEHP-free.

Call Henry Schein for all of your Radiographic Room Equipment Needs! We Have it ALL!

A 5-year parts warranty assures long-term value.
Simple...

Nothing Makes Your Transition To Digital Easier

ALL-IN-ONE DESIGN
ImagePilot exemplifies the true meaning of an integrated digital radiography system. It combines patient registration, CR acquisition, distributed workflow, image review, and long-term storage in one easy to use and maintain system. These advanced features meet private practice workflow needs and eliminate the need for a separate PACS.

Standard ImagePilot Features:
• All-In-One Design—Easiest for the staff to learn. Reduces IT support requirements.
• AutoPilot—Automatic image processing for unsurpassed consistency in image quality.
• Simplified Image Acquisition—Single click workflow increases productivity.
• Same User Interface At Every Workstation—learn only one system.
• Easy-To-Use And Feature Rich Viewing Screen—Image adjustments, annotations, measurements, inputs and outputs, customizable for basic to advanced users.

ImagePilot Sigma Highlights:
• REGIUS Sigma Tabletop CR Reader
  — 25 or 45 cassettes per hour
  — Flexible plate technology for compact design and cost-effectiveness
• Small 20"W x 24"D x 14"H
• Lightweight—under 70 pounds
• Reliable—very few replacement parts
• Touch Screen capable—easy operation
• Informity ready!

ImagePilot LS Highlights:
• Rapid Output Speed—40 cassettes per hour.
• Redundant Storage—mirrored 500GB hard drives (RAID 1)
• Distribute Workflow with Multiple Users—Two additional licenses (3 total including the server).
• Import Priors or Export Patient Images to CD—Better than film for transportability and viewing.

**Kodak Ektavision® G and L Extraoral Film–Panoramic**

Get low-crossover technology that captures crisp radiographic detail with both. Ideal for panoramic and cephalometric radiographs, TMJ cases, implant procedures, and more. Both feature 400-speed film system that minimizes radiation exposure. Ektavision G Extraoral Film: Kodak’s sharpest extraoral film to visualize maximum amount of radiographic information for diagnosis. Panoramic radiographs taken with films like this may even assist in detection of calcifications in carotid arteries, a possible predictor of heart attack or stroke. Ektavision L Extraoral Film: low-contrast, wide-latitude film. Ideal tool for enhancing soft tissue visualization for CT and cephalometric radiographs. Process both films automatically or manually, and use current cassettes with Kodak Ektavision or Lanex Regular screens.

  (594-4023)..................ea
- 4-in-1 Unit, 56½"W
  (594-4457)..................ea

**Trimline Illuminator**
Features film-activated “auto switch,” which turns illuminator on when X-ray is inserted, as well as standard on/off. Constructed of steel, finished in baked-on white polyurethane, unit comes standard with 2-lamp (1,713 candela per square meter) illumination (unit comes with bulbs in place), roller grip film retainer, and 8' line cord with hospital-grade plug. Unique to Trimline is Wolf E-”Z”-Bar™, a simple wall-mounting system that lets you install illuminator in minutes. Viewing area: 14"W x 17"H.
14"W x 22"H x 3¼"D
(100-6719)..................ea

**HZ Series Horizontal Illuminator**
Perfect for desktop use, this illuminator can also be wall hung. Made of heavy-gauge steel and finished in baked-on white polyurethane, it features two 20-W fluorescent lamps (shipped in place), a Magic Grip film retainer, rocker switch, and 5' line cord with 3-prong plug. 12" x 24" unbreakable Plexiglas® viewing area is perfect for viewing two 10" x 12" or 8" x 10" radiographs together.
13½"H x 22½"W x 4"D
(594-1670)..................ea

**#200 FILM ILLUMINATOR**
Stainless steel frame (steel housing) Magic Grip film retainer. Holds two 18" window mounts or 5" x 7" or 8" x 10" film. Viewing area: 10" x 13". Overall dimensions: 15½" x 11½" x 2½". 1-year warranty. 110 V.
(313-6330)..................ea

**#TR130 CEPHALOMETRIC TRACING BOX AND VIEWER**
Lies flat, stands on desk, or hangs on wall. Includes 2 clips for holding film. Viewing area: 10" x 10". Overall dimensions: 12½" x 11¼" x 2½". 1-year warranty. 110 V.
(313-7060)..................ea

**#100 SLIM LINE FILM ILLUMINATOR**
Viewing area: 5" x 14". Overall dimensions: 15¼" x 6½" x 2½". 1-year warranty. 110 V.

Henry Schein brings the ACUSON family of Siemens products to your clinical practice

ACUSON X300™ ultrasound system, premium edition (PE)
Take full advantage of the broad range of capabilities this product offers, including Abdominal, Cardiac, Stress Echo, Vascular, OB/GYN, Urology, and Superficial/Small Parts imaging.

- The all-around performer, designed to address the diverse needs of any practice
- Ergonomic features facilitate ease of use in small spaces
- Highly configurable reporting package created specifically for the office environment

ACUSON X150™ ultrasound system
Ideal for general scanning including Abdominal, OB/GYN, Urology, and Superficial/Small Parts imaging. A scalable product designed to grow with your practice.

- Add powerful, advanced features at any time, as your clinical needs evolve
- Ultra-compact with an intuitive, easy-to-learn interface
- Highly configurable reporting package created specifically for the office environment

ACUSON Cypress™ cardiovascular system PLUS
A comprehensive cardiac and vascular ultrasound system in a small, hand-carried package ideal for the office environment.

- Supports adult and pediatric echocardiography, Stress Echo, and Peripheral and Abdominal Vascular imaging
- Easily carried from room to room or office to office
- Network connectivity with CypressViewer™ ultrasound software provides a cost-effective solution for offline review on a PC
**HENRY SCHEIN®**

**ULTRASOUND GELS**

Blue
Multipurpose, hypoallergenic, medium-viscosity ultrasound gel that is bacteriostatic for patient satisfaction. Excellent conductive agent with superior lubricating and clinical features for the most common professional diagnostic and imaging procedures. Simple operation and disposal. Long shelf life.

- 8.5-oz Bottle (900-4094)..............................ea
- 5-liter Bottle (900-4086)..............................ea

**CLEAR ULTRASOUND GELS**

Multipurpose, hypoallergenic, medium-viscosity ultrasound gel that is clear, dye-free, and bacteriostatic for patient satisfaction. It is also an excellent conductive agent with superior lubricating and clinical features for the most common professional diagnostic and imaging procedures. For use in therapeutic ultrasound, diagnostic imaging, and other external procedures that require a thick medium with excellent lubricating and glide purposes. Will spread evenly without running or drying under standard clinical applications.

- 8.5-oz Bottle (900-4352)..............................ea
- 5-liter Bottle (900-4353)..............................ea

**Aquasonic® 100 Ultrasound Transmission Gels**

Most widely used gel for diagnostic and therapeutic medical ultrasound. Recommended for all procedures where a viscous gel is required.

- Acoustically correct for the broad range of frequencies used
- Hypoallergenic, bacteriostatic, and nonirritating
- No formaldehyde
- Not a spermicide

- 2-oz Tube, Clear (101-0693)..............................ea
- 60-g Tube, Blue (100-7634)..............................ea

- 0.25-liter Bottle, Blue (101-1042)..............................ea

Studies show 55% of women over 50 have osteoporosis or low bone mass. If you had the capability to test patients in a matter of minutes, how many patients could be tested per day?

Bone Density testing is safe, noninvasive and easy to do in your office. Great reimbursement rates make osteoporosis assessment very attractive and important for your patient care.

Your Henry Schein Sales Consultant can schedule our Imaging Equipment Specialist to help you evaluate bone density testing.
