ICS Derma is a revolutionary skincare formula developed in Italy and is now available in the United States. It is a proprietary blend of botanical ingredients that re-establishes the communication between anti-aging proteins and skin cells to naturally restore a youthful and radiant look.

Case studies show that ICS Derma intensively rejuvenates skin after just 56 days:

- **Day 0**
  - WRINKLES SMOOTHED

- **Day 56**
  - WRINKLES SMOOTHED

ICS Derma helps to replenish the proteins needed by the epidermis and reestablishes the communication between the skin cells strengthening the collagen and elastic fibers.

**How ICS Derma Works**

- As our skin ages it loses protein and the collagen and elastic fibers become weaker which causes the outer layer of our skin, the epidermis, to become thinner creating aging lines and wrinkles.
- ICS Derma works to increase the thickness of the epidermis, erasing wrinkles and reversing the signs of aging.
- It is clinically proven to achieve all the benefits of traditional retinol-based products without any of the harmful side effects such as redness, burning or irritation.
- ICS Derma is not an acid and is made with natural botanical ingredients.
- It can be used everyday and is not affected by sunlight.
- ICS Derma helps to replenish the proteins needed by the epidermis and reestablishes the communication between the skin cells strengthening the collagen and elastic fibers.
- ICS Derma gives you a wrinkle free, more natural, youthful and radiant looking skin.

ICS Derma is a revolutionary skincare formula developed in Italy and is now available in the United States. It is a proprietary blend of botanical ingredients that re-establishes the communication between anti-aging proteins and skin cells to naturally restore a youthful and radiant look.

Retinol may be the most common anti-aging ingredient in use today, but as a strong acid it is hard to absorb and is harsh on the skin, often causing redness, irritation, and flakiness. When using traditional retinol products, your skin should not be exposed to the sun as it may cause harm to your skin.

Research on our propriety achillea millefolium extract discovered a new anti-aging process – the receptors linked to cell renewal in the keratinocytes. Keratinocytes are the most common types of cells in the epidermis, the outermost layer of the skin. By stimulating specific cell renewal receptors, we have demonstrated, for the first time that this has a direct impact on the rejuvenation of the skin surface. Clinical results show that after 2 months, our proprietary Achillea millefolium extract increases the thickness of the outer layer of the skin (the epidermis) and: reduces fine lines and wrinkles, reduces the size and visibility of pores, and increases the overall softness of skin.

**Directions for Use**

Use daily morning and night. Apply a pearl-sized amount on cleansed skin. Gently massage with your fingertips in round upward movements over the entire face until completely absorbed.

**Ingredients**

Aqua (Water), Caprylic/capric triglyceride, Cetearyl olivate, Propanediol, Sorbitan olivate, Glycerin, Butyrospermum parkii (Shea butter), Cetyl palmitate, Achillea millefolium extract, Sodium ascorbyl phosphate, Tocopherol, Papain, Sorbitan palmitate, Helianthus annuus seed oil, Sorbitol, Algin, Xanthan gum, Tetrosodium glutamate diacetate, Lecithin, Sodium polyacrylate, Butylene glycol, Pentylene glycol, Caprylyl glycol, 1,2-Hexanediol, Carborner, Dimethicone, Phenoxyethanol, Ethylhexylglycerin.
