A Powerful New Anti-Microbial That Protects Against MRSA/ Bacteria

Advantages
- SilvrSTAT is a NEW type of silver that immediately and continuously kills harmful bacteria
- It is the only multivalent silver FDA indicated to inhibit MRSA
- NOT an ionic silver and NOT deactivated by saline irrigation
- It DOES NOT create bacterial resistance like traditional antibiotics
- Transparent, water based - no alcohol, alginate or sulfara
- No known adverse events or allergies
- Cost competitive with other silver products
- Can be used as House Stock with huge cost savings

Indications: Pressure/Stasis /Diabetic Ulcers, Surgical Incision Sites, Device Insertion Sites, Graft / Donor Sites, 1st -2nd Degree Burns, Lacerations, Abrasions, and Skin Tears

Directions for Use
- Apply SilvrSTAT directly to the wound (cut, burn, abrasion, skin tear, ulcer, and incision site,) 1/8” thick and cover with a conventional dressing if necessary. Apply daily or up to every 3 days until the wound is healed.
- Store SilvrSTAT at room temperature up to 3 years

MRSA
- MRSA (Methicillin-resistant Staphylococcus Aureus) is one of the most important healthcare issues today
- SilvrSTAT is the only multivalent silver FDA indicated to inhibit MRSA
- SilvrSTAT can be used to prevent and treat MRSA infections of the skin
- SilvrSTAT kills MRSA bacteria quickly and effectively

Consider SilvrSTAT if you are using the following products
- Silvadene®(silver sulfadiazine)
- SilvA-Sorb®
- SilverMed® and Amerigel®
- Gentell’s Silver Hydrogel Ag®
- Elta’s SilverGel™ Advanced Silver
- DermaSyn®/Ag Antimicrobial Silver
- any Hydrogel
- Bactroban® (mupirocin)

REIMBURSEMENT INFORMATION
- SilvrSTAT is reimbursable under HCPCS Code A6248
  - If you follow the billing guidance, the physician can send a patient home with a 3 ounce tube of SilvrSTAT and not only cover the cost of the product, but generate about $20 in income
  - Submit on the standard HCFA 1500 form
    - Physician must first complete a procedure that breaks the skin (e.g. Wart removal, punch biopsy, cautery, wound debridement, etc.)
  - Open a new tube of SilvrSTAT and apply -- Give patient this tube for home use
  - Use an “A” modifier to identify the number of wounds (e.g. A1 is one wound, A2, is two, etc.)
    - Use Place of Service (POS) #12 (home) Do NOT use POS #11 (office)
- Visit the Billing Code section of www.henryschein.com/silvrstat for more information
