Henry Schein introduces the 2010 Physician Office Lab Supply Guide. This guide is intended to serve as an overview of our most popular diagnostic testing options and supplies needed at the point of care. Don’t see what you are looking for, ask your Sales Consultant. From rapid test kits to large analyzers, from CLIA waived to highly complex, we have POL solutions for all your needs.

If you have questions regarding diagnostic, pharmaceutical, or vaccine items used in your practice, the DxRx Solutions Hotline is here to help! The DxRx Solutions Hotline can provide CPT Code, package inserts, CLIA product status, product storage requirements, and brand-to-generic comparisons. Let us help you today!

Now, more than ever, rely on Henry Schein Brand Products!

Save without compromising on excellence, with our own high-quality Henry Schein Brand.

We offer over 6,000 quality products you can trust to fulfill your practice needs—each bearing the Henry Schein Seal of Excellence—your guarantee of satisfaction.

- Categories for disposables, diagnostics, instruments, testing kits, and most common items
- Fulfillment opt-in program for maximizing your supply purchases
- Extra benefits for PRIVILEGES Members
- Consultation on product mix that is right for you
What do you do when a patient presents with a fever and sore throat?

We have the answer.

And the answer is simple. Test with QuickVue.

You're already familiar with the market-leading QuickVue Influenza A+B test and our CLIA-waived QuickVue RSV test for viral infections. And you're already familiar with our QuickVue Strep A tests for bacterial throat infections.

But did you know that most sore throats are caused by viruses and not bacteria? Upper respiratory infections can be very similar in clinical symptoms, so the next time your patient comes in with a fever or sore throat make sure you have the QuickVue rapid diagnostic trio of tests ready to help you in your diagnosis.

QuickVue. The right choice. The dependable choice.

For more information, contact your Henry Schein representative.
**QuickVue® Influenza Tests**

**QuickVue® Influenza Tests**

An immunoassay for detecting influenza types A and B. Three simple steps with results in 10 minutes or less. Color-coded procedure card helps demonstrate each step of test. Kit contains positive and negative controls, and stores at room temperature.

- Detects both A and B types of influenza
- Results in 10 minutes or less, right in the exam room
- CLIA waived
- Prompt diagnosis and treatment: Most patients tested can be diagnosed and treated in a single office visit
- Information for better patient management decisions

**#20171, Transport Tubes** with 25 sterile foam swabs inside plastic transport tubes

- Available in both 10-test and 25-test kit sizes
- Room-temperature storage with up to 24-month shelf life from date of manufacture
- Kit includes external controls
- Built-in internal controls
- Easy to use: no additional reagents needed
- CLIA waived
- 2-color result in 15 minutes
- On-board extraction
- 15-minute results
- Differentiates types A and B on the same card
- Same specimen can be used with BinaxNOW® Influenza A & B Tests

**#20183, A+B Test, Differentiates Type A or Type B**

- 10-step kit is individually packaged for patient convenience
- CLIA waived
- Detects both A and B types of influenza
- Available in both 10-test and 25-test kit sizes
- Color-coded procedure card helps demonstrate each step of test
- No instrumentation needed
- Available in both 10-test and 25-test kit sizes
- Room-temperature storage with up to 24-month shelf life from date of manufacture
- 10-test kit is individually packaged for convenient single-use testing and disposal

**#20163, A+B Test, Differentiates Type A or Type B**

- #00317, Non-differential (227-5611).............25/box
- #20171, Transport Tubes with 25 individually packaged sterile foam swabs (227-3550).............25/box
- #20183, A+B Test, Differentiates Type A or Type B (227-5611).........................25/box
- #00317, Non-differential (227-9012).........25/box
- #20171, Transport Tubes with 25 individually packaged sterile foam swabs (227-3022).............25/box
- #20183, A+B Test, Differentiates Type A or Type B (227-5611).........................25/box

**CPT® Code:** 87804QW/87804-59

**BinaxNOW® Influenza A & B Tests**

Rapid test for identification and differentiation of influenza A and B, using specimen collected by nasal washes/aspirates, nasal swabs and nasopharyngeal swabs.

- CLIA waived
- Differentiates types A and B on the same card
- Easy to use: no additional reagents needed
- On-board extraction
- 15-minute results
- Same specimen can be used with BinaxNOW® Influenza A & B Tests

**#416-022, BinaxNOW® Influenza A & B Test**

- (153-8781) .........................22/box
- #416-110, BinaxNOW® RSV test (348-7480) .........................10/box
- #416-080, Swab Controls for 10 Patients (512-0001) .........................20/pkg
- #400-065, Nasopharyngeal Swabs (512-5997) .........................20/box
- Contains: 2 controls per box, 10 boxes per package.

**CPT® Codes:**

- Influenza A: 87804QW
- Influenza B: 87804-59

**BinaxNOW® RSV Tests**

- CLIA waived
- Easy to use: no additional reagents needed
- On-board extraction
- 15-minute results
- Built-in control to ensure accuracy

**#430-100, Test**

- (301-8899) .........................10/box
- #430-122, Test (512-5059) .................22/box
- #400-065, Nasopharyngeal Swabs (512-5997) .........................20/box
- Contains: 2 controls per box, 10 boxes per package.

**CPT® Code:** 87807QW

**Clearview® RSV Test**

A 15-minute, four-step test for the qualitative detection of RSV. For use with nasopharyngeal swabs and nasal aspirate specimens (approved claim: in children less than 6 years and adults more than 60).

- CLIA waived
- 93.9% sensitivity; 97% specificity
- Room-temperature storage
- Built-in control to ensure accuracy
- Shelf life up to 12 months from date of manufacture

**#710-000, 22-Test Kit (512-8933) .........................20/box
**

**CPT® Codes:**

- RSV Tests: 87449

**BinaxNOW® S. pneumoniae Urinary Antigen Test**

An in vitro rapid immunochromatographic assay for the qualitative detection of S. pneumoniae antigen in the urine of patients with pneumonia and in the cerebral spinal fluid (CSF) of patients with meningitis. In conjunction with culture and other methods, it is intended to aid in the diagnosis of both pneumococcal pneumonia and pneumococcal meningitis.

- Dependable accuracy
- No results negatively affected by previous antibiotic use
- Self-contained, swab-based device—no tubes or pipettes
- Easy to use: insert urine- or CSF-saturated swab into test card, add reagent, and read results in 15 minutes
- Both built-in and external positive and negative controls ensure test viability
- Accuracy/sensitivity: urine: 86% sensitivity/99% specificity; CSF: 97% sensitivity/99% specificity

**#710-000, 22-Test Kit (512-0000) .........................ea
**

**CPT® Code:** 87448

**OSOM® Influenza A & B Control Kit**

A rapid test for identification and differentiation of influenza A and B antigens from nasal-swab specimens.

- Differentiates between influenza A and B
- Easy to read: 3 distinct lines
- 2 extra test sticks included for external QC testing
- Nasal swab specimens
- Less than 1 minute hands-on time; results in 10 minutes
- Room-temperature storage
- Moderately complex

**#191, Influenza A & B Control Kit (106-3126) .........................ea**

**CPT® Codes:**

- Influenza A and B: 87804-59

**RESPIRATORY**

- 95% sensitivity; 98% specificity
- 98% overall agreement
- Easy test procedure
- ± endpoint
- Built-in workstation
- Room-temperature storage
- Built-in controls for CLIA compliance
- Moderately complex
#20122 (489-0075) ..........................25/box
CPT® Code: 87880QW
There’s been some confusion and concern with healthcare professionals regarding the use of rapid influenza diagnostic tests (RIDTs) for the detection of seasonal or novel influenza. Some tests showed poor sensitivity during the 2009 outbreak.

Yes, there are more sensitive diagnostics available, but they are more time consuming, expensive, and complex. Faster is better, and tests of greater sensitivity are not readily available in the majority of laboratories. So, RIDTs continue to be a useful tool.

Genzyme Diagnostics’ OSOM® Influenza A&B Test differentiates between flu A and B with results in 10 minutes and requires less than one minute hands-on time. The test is objective, easy-to-use, and detects H1N1 strains*. With the support of our experienced team of medical technologists and skilled professionals, you can be confident that the OSOM® Influenza A&B Test delivers the highest quality available. The OSOM® truth, yes awesome.

For more information 800 332 1042 or www.genzymediagnostics.com

* Although the test has been shown to detect the Mexico/4/09 (H1N1) virus cultured from a positive human respiratory specimen, the performance characteristics of the device with clinical specimens that are positive for the 2009 H1N1 influenza virus have not been established.
ULTRASSENTITIVE STRP A TEST

OsOM® Ultra Strep A Test

- Ultrasensitive strep A test with the ease of use and rapid results
- CLIA waived
- Easy to use
- Easy-to-read, 2-color results in minutes

CAN REAL-TIME RESULTS LEAD TO BETTER OUTCOMES?
The potential benefits of point-of-care A1C testing

- The ADA recommends that healthcare professionals use A1C point-of-care testing for timely decisions on therapy changes\(^1\)
- Giving patients with diabetes on-the-spot feedback on their A1C number may result in as much as a 1% point reduction in their A1C overtime\(^2\)
- A 1% point reduction in A1C may lower the risk of complications by up to 40%\(^3\)

More efficient than the lab
- Results in 5 minutes
- Portable – use in multiple exam rooms
- Small (5μL) blood sample
- Easy to use – minimal training required
- No maintenance

Key features
- Lab accuracy
- National Glycohemoglobin Standardization Program (NGSP) certified
- CLIA waived
- Reimbursable – bill to CPT code 83037

Bayer’s A1CNow+® Multi-Test A1C System
Helps you Improve Your Patients’ A1C Results. Bayer’s A1CNow+® provides you with a fast and easy way of obtaining accurate A1C results in your office. This innovative technology enables you to communicate face-to-face with your patients about their diabetes control.

Basic features
- Test time - 5 Seconds
- Memory - 480 results
- Sample size - 0.6μL

Accuracy
- Auto-calibration
- No manual coding
- Automatic Hematocrit correction

Advanced features
- 2 Settings —Basic (L1) and Advanced (L2) modes
- 7-, 14-, and 30-day averages
- 7-day HI and LO summary
- Individual HI and LO ranges
- Pre- and post-meal markers
- Post-meal test reminder

Bayer’s CONTOUR® Blood Glucose Monitoring System
For fast, accurate results using No Coding® Technology: automatic underfill detection, control marking and temperature correction. PC download option available. For use with CONTOUR® Blood Glucose Test Strips.

Order number: DCD03024 A1CNow+ Multi-Test A1C System, 1 kit - 10 bx
Order number: DCD0321 A1CNow+ Multi-Test A1C System, 1 kit - 20 bx

* In non-pregnant adults with type 2 diabetes.

Bayer’s CONTOUR® Blood Glucose Meter
Cleared for multiple site testing, which means more choice and flexibility about where you test: finger, forearm, palm, abdomen, or thigh—it’s up to you. However, be sure to talk with your healthcare professional first to ensure that alternate site testing is right for you.
• No coding required
• Automatic underfill detection
• Automatic control marking
• Automatic temperature control
• Small sample size (0.6 µL)
• Quick testing time—results in 15 seconds
• Saves information for up to 240 tests with time and date

Performance & Confidence

Give your patients a TRUE EDGE in diabetes testing with these high performing, no-coding meters.

**TRUEresult® and TRUE2go®**
Blood Glucose Monitoring Systems
- Results in as fast as 4 seconds
- Tiny, 0.5 microliter blood sample

Both systems utilize TRUEtest™ Strips featuring Quad-Electrode™ Laser Accuracy.

**TRUEbalance™**
Blood Glucose Monitoring System
- Accurate results in 10 seconds
- Small, 1.0 microliter blood sample

Utilizes TRUEbalance™ Test Strips featuring patented TRUEfill® technology.

Clinically Proven Accuracy.
TRUEresult® performs as well as leading brands.¹

Together with TRUEmanager™ data management software, these meters make it easy for your patients to log results, streamlining the reimbursement process.

A1CNow® Test

The handheld A1CNow+ monitor provides accurate in-office A1C results, allowing physicians to make on-the-spot treatment decisions for diabetes patients.

- In-office testing; no waiting for lab results
- Results in just 5 minutes
- Hands-on procedure time is less than 1 minute
- Simple, 3-step procedure
- CLIA waived
- No calibration
- No capital equipment required
- Enables A1C testing in every exam room
- No refrigeration necessary if used within 4 months

SIEMENS

DCA™ Vantage Analyzer

Point-of-care immunoassay analyzer for diabetes management. Provides precise and accurate quantitative test results for HbA1 in whole blood during a patient's visit to help improve decision making. With a single urine sample, the analyzer also provides quantitative test results for low levels of albumin, creatinine, and A:C ratio in the physician's office or clinic.

KIDNEY FUNCTION

**SIEMENS**

**Multistix® 10LS Pro Reagent Strips**

More reliable tool for detecting kidney disease. Test for glucose, ketone, high protein, low protein, specific gravity, creatinine, pH, blood, nitrite, and leukocytes.
- Creatinine ratio to correct for varying urine concentrations
- Decreases false positive protein and false negative protein rates
- For over-65 patients and those with diabetes, CVD, or UTI
- Indication of a dilute requires patient to submit specimen, triggering another urine sample
- Automatic identification of strip configuration for Clinitek® status

CPT® Codes: 81000/81001/81002/81003/82570QW

**HemoCue® Albumin 201 System**

To obtain a quantitative result, fill the microcuvette, place it in the analyzer, and read the result. The system is based on an immunoturbidimetric reaction using antihuman albumin antibodies. The antigen-antibody complex creates turbidity, which is measured photometrically at 610 nm. The albumin concentration is proportional to the turbidity, and the result is shown on the display in mg/L.

Introducing Henry Schein’s NEW Urinalysis Analyzer OneStep Pro

Control supply costs without compromising. Over 6,000 quality products you can trust to fulfill your practice needs—each bearing the Henry Schein Seal of Excellence—your guarantee of satisfaction.

What’s Your Fave?

Introducing Henry Schein’s
NEW Urinalysis Analyzer OneStep Pro

COMING SOON

STRIPS NOW AVAILABLE!

URISPEC 10SG URINE STRIPS
Strips for Use in Analyzer or for Visual Read
Tests for glucose, bilirubin, ketone, urobilinogen, specific gravity, blood, pH, protein, nitrites, and leukocytes.
(900-4994)..................100/btl

URISPEC 5 OB URINE STRIPS
Strips for Use in Analyzer or for Visual Read
Tests for glucose, protein, blood, nitrites, and leukocytes.
(900-4995)..................100/btl

URISPEC PRO 2 GP URINE STRIPS
Strips for Use in Analyzer or for Visual Read
Tests for glucose and protein.
(900-4996)..................100/btl

ONE-STEP PRO URINALYSIS READER
This easy-to-use unit reads 10SG, 50B, and glucose/protein strips and prints a hard-copy readout.

- Easy to use
- CLIA-waived status
- Hard-copy readout
- Reads 10SG, 50B, and glucose/protein strips

Call for Details on SPECIAL ANALYZER OFFER AVAILABLE IN 2011
URINALYSIS

URISPEC™ GP+A URINE REAGENT TEST STRIP
Test for glucose and protein, with an ascorbic acid test for accuracy.
• Protein and glucose
• Ideal for metabolic, kidney, and diabetic monitoring
• Dip and read in 60 seconds
(100-6567) .......................100/btl

URISPEC™ 4-WAY URINE REAGENT STRIP
• Protein, nitrite, glucose, and leukocytes
• Ideal for OB/GYN
• Infection, diabetes, and kidney function
• Dip and read in 60 seconds
(107-7157) .......................100/btl

URISPEC™ 11-WAY URINE REAGENT TEST STRIP
Urine Reagent Test Strips
For urinalysis by the dip-and-read technique. Similar to all Multistix® 10 SG Plus Ascorbic Acid.
Tests for glucose, bilirubin, ketone, specific gravity, blood, pH, protein, urobilinogen, nitrite, and leukocytes. Also includes additional ascorbic acid analyte pad. The importance of the addition of an ascorbic acid analyte pad is that the glucose test must be repeated if the ascorbic acid reaction is positive. An ascorbic acid content of as little as 5 mg/dL (0.3 mmol) can interfere with a glucose assay in low concentrations. As with glucose detection, blood detection is also disturbed by low concentrations of ascorbic acid, whereas high ascorbic acid concentrations can interfere with the nitrate and bilirubin test zones.
• Unique “read all” feature at 60 seconds
• Glucose, bilirubin, ketone, specific gravity, blood, pH, protein, urobilinogen, nitrite, and leukocytes
• Reader available
• Room-temperature storage
(102-2285) .......................100/btl
CPT® Codes: 81000/81001/81002/81003

URISPEC URINALYSIS CONTROLS
• Values for all pregnancy test brands
• Assays for common brands of urine dip for routine urinalysis (2 parameter-10SG)
• Control for urine tablet test
• Includes values for micro albumin, creatinine, and HCG
• Two distinct levels (normal and abnormal)
• Closed vial dating up to 2 years with refrigerator storage
3 Bi-level Sets, 15 mL/tube (8 vials)
Dip stick in tube, with open vial stability of 90 days at 2°C–8°C
(900-4991) ........................................ea
2 Bi-level Sets, 25 mL/dropper bottle (4 bottles) Dip stick in tube, with open vial stability of 18 months at 2°C–8°C
(900-4992) ........................................ea

HENRY SCHEIN* ONESTEP® PLUS STRIP READER
Readings eliminate subjectivity of visual color interpretation, which makes urinalysis simpler and more reliable. Features a no-touch operation: After strip placement, the measurement starts automatically, which makes urinalysis faster and more hygienic. Offers best value compared to leading brands. CLIA waived.

URINALYSIS

**Urisys 1100™ Urine Analyzer**

This CLIA-waived urine analyzer makes urine testing easier. With the simple press of a button, analyzer automatically evaluates urine test strips and prints a patient report. This easy-to-use system is an ideal choice for physician offices looking to standardize test results and improve office efficiency through automated urinalysis testing. Uses Chemstrip® 7, 10 MD, and 5 OB strips.

- #3617556, Thermal Printer Paper (891-8216) ................. 5/pkg

---

**Chemstrip® 10 MD**
Intended to be used for visual testing or for automated testing on the Chemstrip® 101 urine analyzer and Criterion II urine analyzer. Measures blood, protein, leukocytes, nitrate, pH, glucose, ketones, bilirubin, urobilinogen, and specific gravity.

- #3260763 (891-4205) ......................... 100/box

**Chemstrip® 7**
Test for leukocytes, pH, protein, glucose, ketone, nitrite, and blood.

- #1008552 (891-1914) ....................... 100/btl

**Chemstrip® 5 OB Urine Test Strips**

- #1893467 (891-4294) ......................... 100/btl

**Chemstrip® 9**
Test for leukocytes, nitrite, pH, protein, glucose, ketone, urobilinogen, bilirubin, and blood.

- (891-4564) ....................... 100/btl

**Chemstrip® GP**
Test for glucose and protein.

- #200743 (891-5332) ....................... 100/btl

**Chemstrip® 10 SG**
For visual or automated testing on the Chemstrip 101 urine analyzer and Criterion II urine analyzer. Measures leukocytes, nitrite, pH, protein, glucose, ketone, urobilinogen, bilirubin, blood, and specific gravity.

- #417145 (891-8002) ....................... 100/btl

**Urinalysis**

**Uri-Check® Plus**
#3000UC, CLED Agar/EMB Agar
A semiquantitative dip-slide culture system for the screening and early detection of urinary tract infections. More than 100,000 bacteria per mL indicates infection. 1½" diameter with patient label affixed to vial. Refer to Uri-Check reference chart to help identify bacterial growth present. 3–5 month shelf life.
Not returnable. Requires Boekel’s Micro Incubator #260700 (100-6303).
(224-9604) ......................10/box

**Uri-Check® Test Kit**
#1000UC, CLED Agar/EMB Agar
A semiquantitative dip-slide culture test for the detection of urinary tract infections. Kit includes 1" vials and caps, paddles slightly smaller than 1", and patient labels affixed to the outside of the vial.
#1000UC, Test Kit
(224-7373) ......................10/box

**Uricult CLED/EMB**
A simple, self-contained urine test method for the detection of bacteria that commonly cause urinary tract infections. Uricult urine-culture paddles are capable of detecting bacteriuria concentrations as low as 1,000 CFU/mL of urine.
#1000, Uricult
(120-9110) ......................10/box
Contains: paddles, patient ID stickers & package insert.

**Accutest® Uriscrern™ Test**
- Rapid urinary-tract infection screen test for bacteriuria and presence of somatic cells in urine
- Detects true infections with high sensitivity and high NPV
- Positive screening result indicates presence of bacteria and/or somatic cells
(106-9335) ......................20/box
CPT® Code: 87899QW

Ask Your Sales Consultant about the Ratio & Early Detection Programs.

The CLINITEK Status+ Analyzer for complete point-of-care urinalysis testing
Urinalysis, microalbumin for diabetes, early detection of kidney disease, and pregnancy testing
Answers for life.
CLINITEK Status®+ Analyzer

Provides convenient point-of-care testing with improved data integrity for more confidence in the results. Simple, fast, and accurate testing produces a result in about 60 seconds. Status analyzer can process basic urine strips, ratio tests, and hCG cassette tests. Full alphanumeric keyboard, easy-to-use touch-screen display, and automatic strip identification make this unit convenient to use. Eliminates need for visual reading, timing errors, and transcription errors. Memory to store 950 patient records. Future-ready for EMR when you are.

Critical numbers to know.

How Hemoccult ICT Can Help With Colorectal Cancer (CRC) Screening

50

According to the American Cancer Society (ACS), people who have no identified risk factors (other than age) should begin regular CRC screening at age 50. In the United States, 49,960 people die from colorectal cancer annually. It is the third leading cause of cancer-related deaths in the United States when men and women are considered separately, and the second leading cause when both sexes are combined.

2

Two is the minimum number of samples recommended by ACS for CRC Screening using fecal occult blood test (FOBT) or fecal immunochemical test (FIT).\(^1\) You may have heard the “one day, one visit, one test” motto for FIT. However, after reading this, you’ll understand why healthcare providers should say “good-bye” to the 1-day liquid-based FIT.

100% clinical sensitivity when you test with a 3-day FIT.
89% clinical sensitivity when you test with a 2-day FIT.
58% clinical sensitivity when you test with a 1-day FIT.

Percentages based on clinical sensitivity.\(^2\)

The fact is, 1-day FITs often miss sporadically bleeding polyps that are a precursor to colon cancer. That’s why leading cancer authorities recommend multiple-day colon cancer screening over 1-day tests.

14

All Hemoccult-brand FOBT and FIT products use a dry-slide technology with 14-day, room temperature sample stability. This stability allows the patient two weeks to complete a multiple-day test and return it to the physician.\(^3\)

The QuickVue liquid-based FIT test has a 5-day room temperature sample stability.\(^4\) Hemosure iFOBT requires sample collection tubes stored refrigerated (2-8°C) after sample collection, if not used immediately.\(^5\) Hemoglobin is unstable in a liquid sample, degradation begins very quickly (<1 hour) and is catalyzed by elevated temperatures. Hemoglobin degrades as much as 50% in a single day.\(^6\)

0

Immunochrometric fecal occult blood tests (FIT), such as Hemoccult ICT have zero diet and drug restrictions and detect intact human hemoglobin originating in the lower GI.

Now you know why it’s time to say “good-bye” to 1-day liquid-based immunochrometric fecal occult blood tests (FIT).

Finally,

1

The number of people your patient needs to ensure the best care and guidance for colorectal cancer screening, and that “1” is you!

Be CRC Aware and let Hemoccult-brand help you become a CRC Life Saver.

Hemoccult® ICT
Fecal Occult Guiac

Hemoccult II® Dispensapak™ Plus
The fecal occult blood test that provides improved readability versus Hemoccult and other standard FOBT products.
• Easier readability
• Higher clinical sensitivity
• Detects more true positives
#64130A, 40-Patient Kit
(254-4454)..............................ea
Patient kit: 1 Hemoccult II SENSA triple-test card, 3 flushable sample collection tissues, 3 applicators, 1 illustrated diet & test instructions, 1 patient pamphlet & 1 Barrier® mailing pouch.
#61200A, Hemoccult II Slides
(224-9819)..............................102/box

Hemoccult II® SENSA® Dispensapak™
The fecal occult blood test that provides improved readability versus Hemoccult and other standard FOBT products.
• Easier readability
• Higher clinical sensitivity
• Detects more true positives
#64151A
(254-3896)..............................ea
Contains: 100 Hemoccult SENSA single-test cards, 2–15-mL bottles developer, 100 applicators, & 1 product instruction manual.

Hemoccult® SENSA® Single-Test Card
#64151A
(254-3896)..............................ea
Contains: 100 Hemoccult SENSA single-test cards, 2–15-mL bottles developer, 100 applicators, & 1 product instruction manual.

Hemoccult® SENSA® Developer
(254-8308)..............................ea

ONESTEP™ OCCULT BLOOD SINGLE SLIDE
• Detects hemoglobin through chemical reaction
• Compares to high-sensitivity products
• Room-temperature storage
• 100–2-hole slides and 100 sticks
(147-1246)
Contains: 100–2-hole slides with both positive & negative on-slide monitors, 100 sticks & developer.

ONESTEP™ OCCULT BLOOD PATIENT MAILER
Effective and rapid method for detecting occult blood in stool. Aids in diagnosis of asymptomatic gastrointestinal problems such as colorectal cancer, ulcers, polyps, anemia, and diverticulosis.
• Detects hemoglobin through chemical reaction
• Compares to high-sensitivity products
• Room-temperature storage
(147-7182)..............................50 kits/box
Contains: 50 triple 2-hole slides, 150 sticks, developer & 50 US postal mailers.

FECAL OCCULT IMMUNOCHEMICAL

HENRY SCHEIN®

ONESTEP+ IF OBT OCCULT BLOOD MONOCLONAL ANTIBOD J KIT

Innovative kit designed to avoid increased costs caused by noncompliant patients.

- Patient takes home stick and card only (compare to patient takes buffer tubes home)
- 30-day sample stability (compare to 4–8 day)
- Monoclonal; no dietary restrictions
- Clean in-office sample handling
- Multiple-site accuracy

Cassettes
(800-4414).........................10/kit
Contains: 10 cassettes & buffer tubes.

25-Test Complete Kit
(900-4413).........................25/kit
Contains: mailing cards kit, cassettes & buffer tubes.

20-Patient Mailer Kits
(900-4416).........................20/kit
Contains: sticks, card mailer & instructions.

All-inclusive Test Kit
CPT® Code: 82274QW/G0328QW

HEMOSURE® IF OB TEST

-Immunochromic Fecal Occult Blood Test (FIT)

Clinically and Financially the right choice for Colorectal Cancer Screening (CRC)

"The ACG supports the joint guideline recommendation that older guaiac-based fecal occult blood tests be abandoned as a method for CRC screening... the ACG recommends the FIT as the preferred cancer detection test."

Better Healthcare
- No dietary or drug restrictions
- Greatly reduces false positive results

High Accuracy
- Specific to human hemoglobin

Cost Effective
- Higher Reimbursement (ROI)

Contact your Henry Schein sales representative for more information. Interested in receiving a free evaluation kit? Contact Hemosure, Inc. at 888-436-6787 (HEMOSURE) or e-mail us at: sales@hemosure.com
**Fecal Occult — Immunochemical**

**QuickVue® iFOB Test**
- Results in 5 to 10 minutes
- Analytical sensitivity: 50 µg Hb/mL buffer or 50 µg Hb/g feces
- Specificity: specific to human hemoglobin
- Agreement is 98% when using quality control specimens
- Specimen collection tube doubles as convenient, sanitary dispenser
- Self-contained test cassette
- Bold burgundy end points for ease in reading and interpreting results
- Room-temperature storage with 24-month shelf life from date of manufacture
- External controls available separately

**Hemoccult® ICT**
- Next-generation fecal occult blood test (FOBT) for colorectal cancer screening.
- Specific for human hemoglobin, this immunochemical test eliminates all diet and drug restrictions. Specific for lower GI bleeding, which provides fewer false positives and a reduction in unnecessary invasive procedures.
- CLIA waived; easy test procedure
- Screening reimbursement code: G0328QW

**Hemosure® IFOB Tests**
- Best value package (792-8076) *40% more collection tubes and home kits

WOMEN’S HEALTH — HCG/SPECIALTY

ICON® 25 Hcg
Pregnancy Test
A one-step, rapid, combination serum/urine test designed for the early detection of pregnancy.
- 25 mIU/mL sensitivity, >99% specificity
- 3-minute results for urine, 5-minute results for serum
- Requires just 3 drops of specimen
- CLIA waived for urine
(254-2726) 25/box

ICON® 20 hCG
A rapid test for detecting hCG qualitatively.
#395097A 25/box
(331-0431) 25/box

Clinitest® hCG Pregnancy Test
hCG test cassette for use with the CLINITEK Status® Analyzer. Quick, reliable, instrument-read results eliminate interpretation and provide accurate results for your patient.
- 99% accuracy
- Sensitivity equal to or greater than 25 mIU/mL
- Time frame: 5 minutes
- Room-temperature storage
- CLIA waived
(186-4896) 25/box
CPT® Code: 847002W

Clearview®
hCG Rapid Tests
- CLIA waived for urine only
- For Combo II:
  20 mIU/mL sensitivity for urine;
  10 mIU/mL sensitivity for serum
- For Urine Dipstick and Urine Cassette:
  25 mIU/mL sensitivity
  Greater than 99% specificity
  Room-temperature storage for up to 24 months
  Results in 3 minutes or less for urine; 5 minutes for serum
- Built-in controls ensure accuracy
#92115, Combo II (512-7077) 40/box
#92117, Urine Cassette (512-0075) 40/box
#92211, Urine Dipstick (512-5273) 50/box

RapidVue®
hCG Test
- CLIA-waived
- Results in 3 minutes or less
- Dipstick format
- Two-color endpoint for easy-to-read-and-interpret results
- 25 mIU/mL sensitivity
- Built-in controls
- Room-temperature storage
- Ability to detect low hCG levels as early as 2–3 days before menses is expected
#20112 (227-0039) 25/box
CPT® Code: G0225

NEW!

VS-SENSE™ Test
Rapid Acidity Test for Evaluation of BV and Trichomonas
The VS-SENSE™ Test is comprised of a vaginal swab, coated with an innovative proprietary polymer. When the polymer, which is yellow before use, contacts fluids with the combination of pH level, and buffer capacity, which cross a specific threshold hold, the user observes a blue or green stain on the yellow background.
The VS-SENSE offers immediate results without need to:
- Use a color scale
- Send a sample to a lab
- Operate time consuming pH paper strips
- Operate time consuming testing devices

Positive for BV or Trichomonas
Negative - Possible yeast infection

Accuracy over 90%
Reimbursed - CPT 83986QW

To order, call your Schein representative at 1-800-772-4346 and ask for item code 411-0001
QuickVue® Chlamydia Test
- Results in 12 minutes or less
- 92% sensitivity, 98.6% specificity
- Simple extraction procedure requires only 2 reagents
- Everything needed is in kit
- Room-temperature storage
- Built-in controls, external controls included

HENRY SCHEIN®

ONESTEP+ MONO CASSETTE TEST
A rapid chromatographic-immunoassay for the qualitative detection of infectious mononucleosis in whole blood, serum, or plasma.
• CLIA waived
• Finger stick or collection tube
• Room-temperature storage
• Includes controls
Complete Kit
(900-4070) .......................20/box
Contains: 20 pouched test devices with disposable sample droppers; disposable, heparinized capillary tubes with dispensing bulb; 1 of each control (positive & negative); 1 sample buffer; 1 procedure card & 1 package insert.

CPT® Code: 86308W

QuickVue+ Infectious Mononucleosis Test Kit
• IgM-specific test
• Results in 5 minutes
• Easy to read +/- test result
• 99% sensitivity and 99% specificity
• CLIA waived for whole blood
• Flexible specimen-collection options
#20121
(227-0024) .......................20/box
Contains: 20 test cassettes, 1 developer, 1 of each control (negative & positive), 20 sample pipettes & 20 capillary tubes.

Acceava® Mono Cassette
The high-performance mononucleosis diagnostic test for whole-blood, serum, or plasma samples.
• CLIA waived for whole-blood procedure only
• FDA cleared with no age limits
• Positive results in 8 minutes
• Superior sensitivity at 99.9% for earlier IM detection
• Specificity of 98.8%
• External positive and negative controls provided with your kit—no additional purchase is necessary
#92407
(512-0004) .......................25/pkg

ICON® Mono Test Kit
Approved for testing on all ages. Combines fingerstick whole-blood convenience with EIA membrane technology for fast, accurate results. Uses direct solid-phase immunoassay technology for early qualitative detection of IM heterophile antibodies in whole blood, serum, or plasma.
• Serum/plasma is moderately complex.
• Whole-blood-test waived
• 99.9% relative sensitivity and 98.8% relative specificity of serum/plasma
• 98.3% relative specificity of whole-blood assay
(111-7123) .......................30/box

- 88% sensitivity; 88% specificity
- Results in 10 minutes or less
- Room-temperature storage for up to 18 months
- Built-in procedure controls to ensure accuracy
CPT® Codes: 86318QW

QuickVue® H. pylori GII™ Tests
For Helicobacter pylori Serum, Plasma, and Whole Blood
- CLIA waived for whole blood
- Simple, one-step procedure
- Results in 5 minutes or less
- 94% sensitivity; 95% specificity
- 92% overall agreement with EIA
- Built-in controls for CLIA compliance
- Positive and negative controls included
- Room-temperature storage
CPT® Codes: 86318 (moderately complex) / 863180W (whole blood only)
## SPECIALTY TESTING

### thyroid

**ThyroChek® Thyroid Rapid-Test Kit**
Elevated TSH is the first clinical indicator of hypothyroidism. This test allows you to know in minutes if your patient’s TSH is greater than 5 mLU/L. Requires 1 drop of blood from a fingertick or venous draw.

### conjunctivitus

**RPS Adeno Detector™ for Pink Eye**
CLIA-waived, 10-minute, in-office test used for conjunctivitis (pink eye). Working from an easy-to-collect eye-fluid sample, this test delivers a positive result when the infection is caused by the adenovirus. Knowing the underlying infection source helps clinicians determine the most appropriate treatment.

- **Reimbursed**
- **Proven accuracy**
- **Reduces antibiotic resistance**

### SEDIRATE

**Sedi-Rate™ Westergren ESR System and Accessories**
The erythrocyte sedimentation rate (ESR) system is a nonspecific test that alerts physicians to the presence of disease or abnormality in the body. Sedi-Rate’s pipette features a unique self-sealing aerosol barrier plug designed to seal upon contact with blood, eliminating exposure to blood aerosols. Its polypropylene vial is prefilled with 0.25 mL of 3.8% trisodium-citrate diluent and features a self-sealing stopper. Test results are ready in 60 minutes and can be read directly from the imprinted graduation marks on the pipette.

CLLA-1™ Luminometer
This compact luminometer automatically prints a complete report that lists the tested allergens and the severity of the patient’s response to each. Easy to use, the system is the simplest, quickest, and most convenient allergy testing method available today. It can analyze up to 180 allergens in 8 minutes.

Hb 201+ Handheld Hemoglobin Analyzer
Offers the same important benefits as its predecessor, the B-Hemoglobin Photometer. Smaller size gives more flexibility and mobility to use the system anytime and anywhere. Performs an internal self-test. No control cuvette required.

• Produces results in less than 1 minute with lab-quality accuracy
• 3 easy steps
• Precalibrated, portable analyzer that requires minimal maintenance
• No calibration or instrument manipulation (between cuvette/reagent batches) is needed
• Safe and easy to use
• Reimbursable
• CLIA ‘88 waived
• 2-year warranty

**Triage® BNP Test**

- Rapid, objective point-of-care immunassay used:
  - As an aid in the diagnosis of CHF
  - As an aid in the assessment of severity of CHF
  - For the risk stratification of patients with ACS
  - For the risk stratification of patients with HF

**Triage® D-Dimer Test**

- Rapid, quantitative immunassay to aid in the assessment and evaluation of patients suspected of having disseminated intravascular coagulation (DIC) and thromboembolic events, including pulmonary embolism (PE) and deep-vein thrombosis (DVT).
- Performed on Triage® meters
- Provides rapid, quantitative results in approximately 15 minutes
- Utilizes highly sensitive fluorescence immunoassay technology

**Triage® Drug Profiler Panel**

- Measurement of 4 cardiovascular markers: troponin, CR-MB, myoglobin, BNP.
- Results in approximately 15 minutes.
- Results read by Triage MeterPro™ meter.

**Triage® Drugs of Abuse Panels**

- See page 36 for Panels

**Triage® TOX Drug Screen**

- The Drug Screen panel simultaneously detects 11 drugs in one rapid, easy-to-use test that is read on the Triage® meter.
- PN: 94400 Triage TOX Drug Screen (131-0824) 25 tests/pkg
  - PN: 94414 Triage TOX Control Level 2 (131-0969) 5 x 0.25 mL

Empowering Cardiovascular Treatment Decisions

The right diagnostic tools provide the timely, actionable data you need to make better in-office decisions that can improve your patient’s quality of life.

Complete Lipid Profile with the Cholestech LDX® System
Get your patients to goal, and experience a smarter, faster workflow that improves office efficiencies. CLIA waived Lipid Profile, Glucose, and ALT•AST results in 5 minutes.

Track Coumadin® Patients with the iNRatio®2 System
Empower face-to-face dosage change decisions that can help your patients stay in therapeutic range. CLIA waived, fingerstick PT/INR results in about 1 minute.

Manage Heart Failure with the Triage® Meter
Diagnose, assess severity, and risk stratify your patients at risk for heart failure in approximately 15 minutes, right in your office. BNP test is CLIA waived for whole blood.

Be empowered. Connect to rapid results. Make smarter decisions.

Piccolo® Point-of-Care Chemistry Analyzer Accessories
The first broad-menu clinical chemistry analyzer designed for near-patient testing. Basic Panel contains BUN, Ca, Cl-, CRE, GLU, K+, Na+, and iCO2. Comprehensive Panel contains ALB, ALP, ALT, AST, BUN, Ca, Cl-, CRE, GLU, K+, Na+, TBIL, TC02, and TP. Lipid Panel contains CHOL, CHOL/HDL (calculated), HDL, LDL (calculated), TRIG, and VLDL (calculated).

- General chemistry, liver, electrolyte, BMP, BMP, lipid, renal, and hepatic panels available
- No daily controls, calibrators, or maintenance
- Intelligent Quality Control (IQC) verifies correct performance
- No special training required
- 0.1cc whole blood, serum, or plasma
- Single-use reagent discs
- Compact and portable
- Built-in QC and calibration
- Lipid panel is CLIA waived
- Whole blood, serum, or plasma
- Less than 2 minutes hands-on
- Results in under 13 minutes

Making Blood Collection Safe, Precise, Simple

**Capiject® Safety Lancets**
High quality, single-use lancets offer the form, fit and function you’ve come to rely on.
- Never see or handle the sharp
- One-step activation
- No special staging required
- Color-coded sizes

**Sursheild® Safety Blood Collection Sets**
Help shield your staff against accidental needlesticks with Sursheild.
- Simple, one-handed activation
- Audible click for confirmation that needle is securely locked
- Available in 21G and 23G in 7” and 12” tubing, and 25G with 12” tubing.
**BD**

**Vacutainer® Eclipse™ Blood-Collection Needles**

Thin Wall, 1/4”

Safety-engineered, multisample needle offers a simple, effective way to collect blood while it reduces the possibility of needlestick injuries. It features a patented shield that allows for one-handed activation to cover needle immediately upon withdrawal from vein and confirm proper activation with an audible click. New needles with preattached holders are ready to use with no assembly required.

These adapters and holder provide a quality, low-cost, single-use product that can help customers to comply with OSHA regulations. Compatible with BD Vacutainer Eclipse™ Blood Collection Needles. BD Vacutainer Safety-Lok™ Blood Collection Sets, BD Vacutainer Push-Button Blood Collection Sets, and BD Vacutainer Multi-Sample Luer Adapter.

- #364815, One-Use Holder (987-0051) ..............250/bag
**UNICO**

**Tube-Cubes**
Available in 3 configurations to accommodate practically all of your needs. Each cube measures 2 5/8"H x 2 5/8"W x 2 5/8"D. The 9-place version holds 8mm–16mm/10–15-mL tubes. The 4-place version holds 26mm–30mm/50-mL tubes. The single place version holds 66mm cups, alcohol dispensers, small flasks, and more.
- Invert and pour: tubes will stay in place
- Great for phlebotomy trays
- Organize and store samples in refrigerator or freezer

#54900, 9 Place, for 8mm–16-mm Tubes
(112-4212)..........................4/pkg

#54600, 4 Place, for 26mm–30-mm Tubes
(112-4210)..........................4/pkg

#54100, Single Place, for Up to 66mm Tubes
(112-4214)..........................4/pkg

---

**UNICO**

**Tube Rack**
Starting with a single 50-place T-Rack, you can attach as many racks as space allows. These patented racks attach together quickly and easily with their unique built-in T-connector, which allows the flexibility to attach as many racks as needed.
- Each rack holds up to 50 tubes of varying sizes in two 25-hole sections
- Top shelf has cross-referencing alphanumeric designation in order to track exact location of specific tubes in rack
- Attach additional T-Racks together; make a single large rack as big as needed
- Made of durable, autoclavable polypropylene; will not break or become brittle in low-temperature refrigerators
- Easy to clean and disinfect
- Arrives disassembled and can be snapped together in seconds
- Dimensions: 8 3/4" x 3 3/4" x 5 1/4"

#54500, 50 Place (Expandable)
(111-7761)..............................ea

---

**SmoothRack Test Tube Racks**
Features include:
- 72-tube capacity
- 9.7" x 5.0" x 2.6"
- Autoclavable polypropylene
- Accommodates test tubes 10mm to 16mm in diameter

Blue
(720-0000)..............................ea

White
(720-0001)..............................ea
PowerSpin™ LX Centrifuge
Spin blood, urine, fecal materials, or semen at the best speed for each type of specimen with this powerful, variable-speed, 6-place centrifuge. Maintenance-free, brushless motor runs quietly at a fixed speed up to 4000 rpm, emitting only 58dB, all with a low temperature rise. Suction-cup rubber feet hold unit firmly in place while virtually eliminating vibration. Lid features a safety-lid latch that cuts power to motor if lid is raised. Accessories available upon request: 8-place rotor and pediatric tube adapters. • 1-year manufacturer’s warranty • Dimensions: 10.2” x 11.8” x 7.9” • Weight: 15 lb • 115 V/60 Hz
#C306, Fixed Speed, 6 Place (715-5981)..............................ea

Micro-Hematocrit Centrifuge
This powerful centrifuge, with all-metal housing, spins up to 24 microhematocrit tubes at 12,000 rpm. Tubes are held in place with a screw-down metal lid and replaceable rubber gasketing. The 15-minute mechanical timer has a bell tone to signal a completed run, while the electronic brake can stop the unit on demand. Metal lid features a safety-lid latch that cuts engine power if lid is lifted. Unit comes complete with a metal hematocrit reader tray. 1-year warranty.
#C-MH30 (715-0877)..............................ea

Vortex Mini Mixer
This economical vortex mixer is rugged and sturdy for the most demanding applications. Dual-mode switch lets you vortex continuously or intermittently using the touch mode: simply press your tube to the soft rubber mixing cup. Features speed control to adjust the vortexing velocity to your requirements. • Powerful and quiet • Variable speed up to 3000 rpm • Switch from Auto to Touch mode • Power On LED indicator • 1-year limited warranty
#L-VM1000 (110-0228)..............................ea

Rock-IT™ Blood Tube Rocker
A versatile rocker for hematology (blood) tubes prior to counting; also excellent for vials and gentle mixing of injectables. Nearly silent while gently completing 25 mixing cycles per minute. Platform is designed for 15 tubes and has a reversible pad that can be autoclaved. 1-year warranty.
Dimensions: 13.7” x 4.7” x 5”
#LTR100, 15 Place (715-2650)..............................ea

IP730 Series Microscopes
Designed to provide crisp, clear imaging on a versatile and ergonomic platform. Available with 30° inclined binocular or trinocular heads. Features Seidentopf optical design with 55mm–75mm interpupillary distance adjustment. Both heads rotate 360° and lock in place with a thumbscrew. Eyepieces are standard with 10X 22mm extra-wide field eyepieces for viewing comfort and clarity. Available with a variety of optics and configuration choices.
#IP730, Advanced Binocular Microscope, Achromat Objectives: 4X, 10X, 40X, 100X Achromat (106-9122)..............................ea
#IP730PL, Advanced Binocular Microscope, Plain Objectives: 4X, 10X, 40X, 100X Plan Illumination: 6 V/20 W Halogen (109-9806)..............................ea

### Research-Grade Centrifuge Tubes
- **15 mL (16.8mm x 120mm) Conical Centrifuge Tubes with Screw Caps**
  - Select sterile or non-sterile, clear scratch-resistant acrylic or translucent polypropylene tubes. All are top-quality centrifuge tubes with white printed graduations and a white writing area that eliminates the need for labels.
  - Acrylic spin rate is 5000 rpm
  - Polypropylene spin rate is 10,000 rpm
  - All caps are made from high-density polyethylene (HDPE)
- **Details**
  - #6264, Polypropylene, Non-sterile, Bulk
    - (280-5289)........500/case

- **Frosted, Colors–Color on 1 End/1 Side**
  - #1324W, White (868-6492) ...................72/box

**Lens Paper**
- For fine lenses and optical instruments.
- Special high wet strength
- Soft and dust-free
- Will not scratch glass
- Ideal if liquid cleaner is used
4" x 6"
(100-8362) .......................50/pkg

**Urine Centrifuge Tubes**
- PS, Graduated, 12 mL
- Tube dimensions: 20mm x 115mm
- Polystyrene spin rate: 1500 rpm
- #112017, Ames-Type (120-9178) ..................500/pkg
- #112015, Kova Type (424-0006) ...................2000/case
- #112030, Sediment Bulb, Whale-Type (424-0004) .............1500/case
- #113136, Blue Snap Caps for 12-mL Flared-Top Centrifuge Tubes (120-6724) .......................500/pack
- #113137, Yellow Snap Caps with Sanitary Grip for 12-mL Flared-Top Centrifuge Tubes (120-9568) ...................500/pack

**Transport Tubes, Polypropylene**
- Tubes are self-standing with conical bottoms
- Available with caps attached or packaged separately
- #6101, 5 mL, with Separate Screw Cap, Non-sterile (110-6203) .................1000/case
- #6101C, 5 mL, with Attached Screw Cap, Non-sterile (356-3969) ..................1000/case
- #6101S, 5 mL, with Attached Screw Cap, Sterile (120-9171) .....................1000/case
- #6102, 10 mL, with Screw Cap, Non-sterile (120-9172) .....................1000/case
- #6102C, 10 mL, with Attached Screw Cap, Non-sterile (120-9506) .....................1000/case
- #6102S, 10 mL, with Attached Screw Cap, Sterile (945-6590) ..................500/case
- Contains: 25 bags.
- #6256, 50 mL, with Attached Screw Cap, Sterile (999-6888) ..................500/case
- #6255, 50 mL, with Screw Cap, Non-sterile, Bulk (424-6071) ..................500/case
- Contains: 25 bags

**Urine Collection Containers and Cups**
- #5912, Sterile, Trilingual Patient ID Label, Individually Wrapped, 4 oz. (606-6026) ..................100/case
- #5915, 4-oz Container, Non-sterile, Etched Writing Space, Bulk (642-6596) ...................500/case

**TM4-RT Transport Tube**
- #R12506, Tube Only (924-3992) ...................12/box

**BZK Towelettes without Alcohol**
- Fan-Folded Crepe
- #D35100, 5" x 7" (113-7842) ..................100/case

**Mid-Stream Collection Kit, Valu-Pak**
- This all-sterile kit comes with a 4-oz/120-mL polypropylene container, an attached protective collar, screw-on lid, ID label, and castile soap towelettes.
- #DYND30228 (678-7517) ..................100/case

**Specimen Container–Polypropylene, Sterile**
- This 4-oz/120-mL container is packaged clean. Nested in sleeve. 25 containers and lids per sleeve.
- #DYND30330, 4 oz. (111-7441) ..................100/case
STAINS & REAGENTS

Gram Stain Kits and Reagents
Used to stain for microorganisms from cultures or specimens by the differential Gram method.

- **#212539, Gram Stain Kit**
  - (106-2056) ...........................................4/pkg
  - Contains: 1-250-mL bottle ea of Gram crystal violet, Gram iodine (stabilized), Gram decolorizer, & Gram safranin.

- **#212524, Gram Stain Kit**
  - (645-2264) ...........................................4/pkg
  - Contains: 1-250-mL bottle ea of: Gram crystal violet, Gram iodine diluent with iodine concentrate, Gram isopropyl decolorizer & Gram safranin.

- **#212525, Gram Crystal Violet**
  - (116-6788) ...........................................4/pkg
  - #212527, Gram Decolorizer
    - (224-5022) ...........................................4/pkg
  - #212531, Gram Safranin
    - (343-3274) ...........................................4/pkg
  - #212542, Gram Iodine (Stabilized)
    - (613-3242) ...........................................4/pkg
  - #212529, Gram Iodine (Unstabilized)
    - (264-9099) ...........................................4/pkg
  - #212536, Acridine Orange Stain
    - (610-4654) ............................................ea

Sedi-Stain® Concentrated Reagent Stain
Stabilized modification of the Sternheimer-Malbin stain for use in the microscopic examination of urine sediment, which is generally recognized as a valuable diagnostic technique to permit rapid and accurate identification of intrinsic renal disease.

- **#421570, 12.5-mL Bottle with Dropper**
  - (168-9062) ............................................ea
  - Contains: Crystal violet 0.10%, safranine O 0.25%, ammonium oxalate 0.03%, ethyl alcohol (SD-3A) 10%, & water & stabilizers 89.62%.

Isopropyl Alcohol
99% Purified

- **1 gal**
  - (120-8443) ............................................ea

Alcohol-Anhydrous
ACS Reagent
Suitable for histology. Contains 90.5% ethyl alcohol, 4.5% methyl alcohol, and 5% isopropyl alcohol.

- **#1200-1GL, 1-gal Bottle**
  - (120-8724) ............................................ea

- **#1200-1GL, 1-gal Bottle**
  - (120-8788) ............................................ea

Isopropyl Alcohol
Suitable for histology. Contains 90.5% ethyl alcohol, 4.5% methyl alcohol, and 5% isopropyl alcohol.

- **#1200-1GL, 1-gal Bottle**

Have You Seen LabDAQ Lately?

Recognized as “Top of the Class” Information System Vendor
- Consistently highly rated LIS software and company
- Superior after sales support
- Clients value our attention to detail and responsiveness to their needs

Superior Onsite Training
- Laboratory staff is trained quickly and efficiently
- Training completed in your own lab environment
- No travel issues to worry about

Established Connectivity Experts
- Installed in more than 2,300 laboratories
- Seamless integration with leading EHR, Practice Management and HIS systems
- Numerous bi-directional national and regional reference laboratory interfaces are available

*Voted by readers of Advance for Administrators of the Laboratory

Have you seen LabDAQ lately? See for yourself why Antek HealthWare was voted “Top of the Class” Information System Vendor for 2007 & 2008.

Take the LABOR Out of Your Laboratory!

Let Alfa Wassermann chemistry analyzers do the work for you and your customers!

The ACE Alera® Clinical Chemistry System can help save time and money, and increase practice productivity and profitability.

Get a helping hand today!
Call your Henry Schein sales consultant for more details.

ACE Alera® Clinical Chemistry System
- Exclusive closed tube sampling
- Patented dot coded reagent bottles
- 16 wavelengths for superior accuracy
- No external water supply required
- 23”H x 27.5”W x 22.5”D

4 Henderson Drive, West Caldwell, NJ 07006  Phone: 800-220-4488  Fax: 973-276-0383  Website: www.AlfaWassermannUS.com/reps  Email: info@AlfaWassermannUS.com
Immunooassay systems deliver new levels of labatory efficiency, standardization, and cost effectiveness.

Chemistry systems provide exceptional capacity for improved workflow and productivity.

Hematology analyzers offer performance, value, and safety in an easy-to-use system.

Providing a test menu that matters featuring BMP, CMP, hepatic, lipid, renal, electrolyte and many more.

Need all the pieces, without the puzzle?

Total lab solutions from a single, reliable source.

Buying different products from different vendors can be highly perplexing — and a poor fit for your practice. Fortunately, there’s a better way. Beckman Coulter offers proven, affordable solutions for Immunoassay, Chemistry, Hematology, Hemoccult and Rapid Test Kits — from one convenient source. Thanks to walk-away instrumentation, broad testing menu, trusted quality and backing by one of the best support programs in the industry, all the pieces simply fall into place.

For a total laboratory solution that fits your individual needs, one call does it all.

800-526-3821 or visit www.beckmancoulter.com/pcd.

© 2009 Beckman Coulter, Inc.
**Easy to Operate**
- True random access operation
- 5-minute daily startup
- Continuous loading of samples and Test Units
- Minimal maintenance
- Easy access to working components

**Productive**
- Routine, esoteric and STAT assays
- Throughput of up to 120 tests/hour
- No load lists required
- Onboard dilutions for selected assays

**Extensive Menu**
- Over 80 assays available
- Continuous new assay development focused on disease management
- True testing consolidation

**Turbo Assays**
- Test results in under 15 minutes
- NT-proBNP, Troponin I, Myoglobin, CK-MB, Intact PTH and hCG
- Optional Turbo cart to move the system wherever it is needed

**Intuitive Software**
- Windows 2000 operating software
- Flexible “from anywhere to anywhere” system navigation
- LIS interface with host-query capability
- Remote Diagnostics—facilitates superior customer support
- Built-in QC management
- Automated Levey-Jennings and graph generation

**Proven Technology**
- Enzyme-amplified chemiluminescence allows third-generation performance on selected assays
- Proprietary wash technique achieves highly efficient separation for extremely low nonspecific binding, resulting in excellent assay performance

Patient Collections

Take Advantage of MaxCollect From HSFS.

A systematic business model for collecting delinquent patient accounts is vital to your practice’s success. MaxCollect is a simple, consistent system that will accelerate your cash flow while adding more profits to your practice. You will dramatically increase your recovery rates while lowering your collection costs.

- Systematic approach
- Effectively collect outstanding accounts
- Lowest cost to collect funds—as little as 5%
- Proceeds paid directly to provider
- Increase profit margin
- Accelerate cash flow
- Every account worked thoroughly

2010 Small Business Tax Benefits

Decrease your taxable income and increase cash for your other needs!

Section 179 encourages small-business owners to invest in equipment by allowing them to deduct a substantial amount of the asset’s value in the first year. Taxpayers who acquire new equipment—including machinery, furniture, fixtures, and off-the-shelf software—may be able to deduct up to $134,000 of the value during the first year of ownership. Capital-equipment expensing is limited once fixed-asset additions for the year exceed $530,000.

We’re there when you need us—with our DxRx Solutions Hotline

Do you have questions regarding the diagnostic, pharmaceutical and vaccine items you use in your practice? Need help finding a CPT code, package insert CLIA status, or looking for brand-to-generic comparisons?

The Henry Schein DxRx Solutions Hotline provides information on the following topics for diagnostics, pharmaceuticals and vaccines:

- Indications and usage as provided on a package insert
- Package inserts
- CLIA product status
- Storage requirements
- MSDS sheets
- Brand-to-generic comparisons
- CPT codes and J codes
- ACIP recommendations for vaccinations
- State law requirements for school and day care entry
- Latest updates on supply issues and much more

We do that!
