HENRY SCHEIN BRAND

MEDICAL SELECTION

Quality Products from a Company You Trust!

HENRY SCHEIN BRAND

Quality • Value • Service • Selection
“Does Henry Schein have private label products that are competitively priced and offer consistent high-quality as well?”

We do that!

HENRY SCHEIN IS THE ONLY SOURCE YOU NEED FOR SUPPLIES.

We are your direct source for all your clinical and office supplies. We stock the largest, most complete selection available for all types of specialties with more than 90,000 products ready to go.

Select from top national brands or save without compromising on excellence, with our own high-quality Henry Schein Brand. Our product roster includes all the products you use regularly. And, you can have absolute confidence they’ll measure up to your standards, because they have already met our high standards to earn the Henry Schein Seal of Excellence.

Henry Schein Brand products:
- Save on the products and supplies you use most
- More than 5,000 Henry Schein Brand products…and growing
- Selected for high quality and high value
- Categories for disposables, instruments, testing kits, and more
- Opt-in program for maximizing your supply purchases
- Extra benefits for PRIVILEGES Members
- Consultation on product mix that is right for you

ONE STEP+ H. PYLORI TEST DEVICE KIT
Rapid chromatographic immunoassay for the qualitative detection of IgG antibodies to *Helicobacter pylori* in whole blood, serum, or plasma to aid in the diagnosis of *H. pylori* infection in adults 18 years of age and older.

Contains: 20 pouched test devices with disposable sample droppers, disposable, heparinized capillary tubes & dispensing bulb; 1 each: positive & negative control, sample buffer, procedure card & package insert.

ONE STEP+ MONO TEST DEVICE KIT
Rapid chromatographic immunoassay for the qualitative detection of heterophile antibodies to infectious mononucleosis in whole blood, serum, or plasma to aid in the diagnosis of infectious mononucleosis.

Contains: 20 pouched test devices with disposable sample droppers, disposable, heparinized capillary tubes & dispensing bulb; 1 each: positive & negative control, sample buffer, procedure card & package insert.

ONE STEP+ STREP A TEST
• New and improved: higher sensitivity (increased from 95.1% to 97%)
• Stronger, clearer, and distinct result lines
• Easier to read
• Positive result visible in as soon as 1 minute
• Negative result in 5 minutes
• Built-in procedural control for accuracy
• Can be used for culture confirmation

CPT Code: 87880QW
**HENRY SCHEIN® ONESTEP+ HCG URINE STRIP TEST**

Rapid, chromatographic immunoassay for the qualitative detection of human chorionic gonadotropin (hCG) in urine to aid in the early detection of pregnancy.

- **25 mIU/mL hCG detection level**
- **3-minute read time: rapid test results**
- **Clear red line appears in test region if positive, and clear control line will also be present: easy to interpret**
- **Built-in procedural control line: confirms correct procedural technique**
- **Greater than 99% accuracy: as accurate as other commercially available hCG membrane tests**
- **Room-temperature storage: refrigeration not necessary, so valuable refrigerator space remains available for other items**
- **Long, 2-year shelf life from date of manufacture**

(900-4072) ............25/box
Contains: 25 pouched tests per kit & 1 package insert.

CPT Codes: Urine 81025, Serum 84703

---

**HENRY SCHEIN® ONE STEP+ HCG URINE DEVICE TESTS**

Rapid chromatographic immunoassay for the qualitative detection of human chorionic gonadotropin in urine or serum to aid in the early detection of pregnancy.

- **Lateral flow format: simple and rapid procedure with no special training required**
- **Monoclonal and polyclonal antibody combination technology: selectively detects the claimed level of hCG; no cross-reactivity interference from elevated hFSH, hLH, or hTSH levels**
- **25 mIU/mL hCG detection level: allows for qualitative detection of hCG**
- **3-minute read time: rapid test results**
- **Clear red line appears in test region if positive, and clear control line will also be present: easy to interpret**
- **Built-in procedural control line: confirms correct procedural technique**
- **Greater than 99% accuracy: as accurate as other commercially available hCG membrane tests**
- **Room-temperature storage: refrigeration not necessary, so valuable refrigerator space remains available for other items**
- **Long, 2-year shelf life from date of manufacture**

25-Patient Kit (900-4073) ............ea
Contains: 25 pouched tests per kit & 1 package insert.

CPT Codes: Urine 81025, Serum 84703

---

**HENRY SCHEIN® ONE STEP+ HCG COMBO DEVICE TEST**

Rapid chromatographic immunoassay for the qualitative detection of human chorionic gonadotropin in urine or serum to aid in the early detection of pregnancy.

- **Lateral flow format: simple and rapid procedure with no special training required**
- **Monoclonal and polyclonal antibody combination technology: selectively detects the claimed level of hCG; no cross-reactivity interference from elevated hFSH, hLH, or hTSH levels**
- **Urine and/or serum specimen type: offers test specimen options when using a 10-mL Bottle test**
- **25 mIU/mL hCG detection level: allows for qualitative detection of hCG**
- **3-minute read time (urine) and 5-minute read time (serum): rapid test results**
- **Clear red line appears in test region if positive, and clear control line will also be present: easy to interpret**
- **Built-in procedural control line: confirms correct procedural technique**
- **Greater than 99% accuracy: as accurate as other commercially available hCG membrane tests**
- **Room-temperature storage: refrigeration not necessary, so valuable refrigerator space remains available for other items**
- **Long, 2-year shelf life from date of manufacture**

25-Patient Kit (900-4075) ............ea
Contains: 25 pouched tests per kit & 1 package insert.

---

**HENRY SCHEIN® OneStep Fecal Occult Blood Kit**

Patient Mailer

Effective and rapid method for detecting occult blood in stool. Aids in diagnosis of asymptomatic gastrointestinal problems such as colorectal cancer, ulcers, polyps, anemia, and diverticulosis.

- **Detects occult blood at levels of up to 1 part/30,000 (equal to all extra-sensitive tests on the market)**
- **Greater sensitivity to earlier detection of colorectal cancers and adenomas**
- **Unique formulation virtually eliminates all false positives**
- **Achieves 100% specificity and greater sensitivity by using a unique formulation in both developer and paper**
- **Simple and easy to use for patient and physician**
- **Uses actual hemoglobin for its positive controls (other tests use a chemical reaction to simulate positive control)**
- **Greater assurance of test reliability and readability**
- **Easier to interpret marginal occult blood in stool (‘early detection’)**
- **Darker blue reaction dye used**
- **Delivers a quality product in a cost-effective manner to the healthcare environment**
- **Price effective**

(147-1246) ............ea
Contains: 50 triple 2-hole slides, 150 sticks, developer & 50 US postal mailers.

---

**HENRY SCHEIN® OneStep Fecal Occult Blood Slide Developer**

- Detects hemoglobin in 1 part/25,000
- Easy-to-interpret results
- 100% specificity: equivalent to extra-sensitive tests
- Positive samples/control retain color longer
- Stores at room temperature

10-mL Bottle (147-1963) ............ea

---

**HENRY SCHEIN® BLOOD LANCET**

Sterile, Disposable

(100-0178) ............200/box

CRITERION™ LIGHTLY POWDERED LATEX SURGEONS’ GLOVES
Compare to Triflex® Sterile Powdered Surgeons’ Latex Gloves
Sterile
Smooth • Chlorinated • Certified Protein Claim: None
Henry Schein’s Criterion brand of low-powder latex surgical gloves provides the optimal balance between barrier protection and tactile sensitivity. Super-soft latex film and anatomical design provide unprecedented comfort to reduce fatigue, even during the longest procedures. Beaded cuff allows easy donning—and, combined with the 12” length, holds the glove firmly to prevent roll-down or slippage. Satin-smooth finish feels like a second skin to ensure the very best sensitivity for delicate work. These gloves meet or exceed ASTM standards and are 100% air-inflation tested to ensure that strength, durability, and barrier protection are never compromised.

CRITERION™ POWDER-FREE LATEX SURGEONS’ GLOVES
Compare to Micro-Touch® PF Latex Surgeons’ Gloves
Sterile
Textured • Chlorinated • Certified Protein Claim: ≤50 µg
Henry Schein’s Criterion brand of powder-free latex surgical gloves helps eliminate powder-related complications and irritation, yet still provides outstanding quality and performance you would expect from a premium surgical glove. Advanced polymer coating on inside surface allows glove to don easily, even when hands are damp or wet. Super-soft latex film and anatomical design provide unprecedented comfort to reduce fatigue, even during the longest procedures. With a microtextured surface and optimized tack level, Criterion provides excellent grip in wet and dry conditions and gives user unmatched tactile sensitivity for precise work. These gloves meet or exceed ASTM standards and are 100% air-inflation tested to ensure that strength, durability, and barrier protection are never compromised.

**NEW from Henry Schein!**

**HENRY SCHEIN® BRAND**

**WOUND CLOSURE STRIPS**
- Hypoallergenic medical-grade adhesive: excellent adhesion while still gentle to the skin
- Color-coded packaging: quick identification of size
- Includes bilateral nylon filaments: makes for a high tensile strength

- **1/4" x 3"**
  - (900-4317) .............50/box
  - Contains: 5 strips per envelope.

- **1/4" x 4"**
  - (900-4315) .............50/box
  - Contains: 3 strips per envelope.

- **1/4" x 4"**
  - (900-4318) .............50/box
  - Contains: 10 strips per envelope.

- **1/2" x 4"**
  - (900-4314) .............50/box
  - Contains: 6 strips per envelope.

- **1" x 5"**
  - (900-4319) .............25/box
  - Contains: 4 strips per envelope.

URISPEC™ 11-WAY TEST STRIPS

Reagent Test Strip

For urinalysis by the dip-and-read technique. Similar to Multistix® 10 SG plus ascorbic acid. Tests for glucose, bilirubin, ketone, specific gravity, blood, pH, protein, urobilinogen, nitrite, and leukocytes. Also includes additional ascorbic acid analyte pad. The importance of the addition of an ascorbic acid analyte pad is that the glucose test must be repeated if the ascorbic acid reaction is positive. An ascorbic acid content of as little as 5 mg/dl (0.3 mmol) can interfere with a glucose assay in low concentrations. As with glucose detection, blood detection is also disturbed by low concentrations of ascorbic acid, whereas high ascorbic acid concentrations can interfere with the nitrate and bilirubin test zones.

- Addition of ascorbic acid
- Same regulatory approval process as the leading brand
- Desiccant is in the lid
- Read at 60 seconds vs. variable time readings
- Waived list approval for CLIA regulations
- Same quality, better value

(102-2285) ........ 100/btl

Henry Schein, Inc. is a FORTUNE 500® Company. Henry Schein Common Stock trades on the NASDAQ Stock Market® under the symbol HSIC.
