Maxima™
Four-Layer Acrylic Teeth

Manufactured in four layers, Maxima features a distribution of colors that enhances the natural aesthetics. Lower, cross and normal articulations satisfy the needs of patients with retrognathism, prognathism or normal occlusion.

Characteristics
• 4 chromatic layers
• European moulds in two European shade systems
• European Posterior Articulation
• MZ1 0° posterior
• Wear resistant
• Reduced reticulation at the tooth base for a secure union with the prosthetic material

References
• Ivoclar® Shades:
  1A, 1C, 1D, 1E, 2A, 2B
• Vita** Shades:
  A1, A2, A3, A3.5
  B1, B2, B3
  C1, C2, C3, D2
• BO Bleach Shade
