Jonathan L. Ferencz, D.D.S.
Diplomate American Board
of Prosthodontics

“ The introduction of colored, *highly translucent zirconia* like Zirlux® Zirconia allows laboratories to deliver *extremely aesthetic restorations* to their dentists which is ultimately what gives the patient *something to smile about.* ”

Dr. Tony Mancuso
Welland Dental Care
Welland, ON

“I was losing my confidence in layered Zirconia restorations with all of the chipping problems of the layering porcelain. Once Zirlux® Zirconia came to market, it has been my go-to restoration, especially in the posterior region. The aesthetics are exceptional and the *strength is second to none.*”

Kristine Van Cleve

Dental Prosthetic Services
Cedar Rapids, IA

“Zirlux® Acetal milled easily using our standard PMMA milling strategies and tooling, and the partial frameworks fit the models with minimal adjustment. Zirlux® Acetal has the potential to be *a great alternative to cast partial denture frames.*”

Steve Pigliacelli

Marotta Dental Studio
Farmingdale, NY

“ Zirlux® Zirconia is possibly *the most versatile Zirconia* on the market today. Strong enough for full arch bridges and aesthetic enough for beautiful anterior crowns.”
