

## Millable solution for *removable applications.*

Zirlux® Acetal is a millable resin with properties that closely mirror those of a natural tooth, making it a flawless solution for laboratories to reduce processing time by eliminating labor-intensive metal investing and casting procedures in the workflow process.

I am type (Z).

“ Zirlux® Acetal gets a 10/10 rating for removable partial denture frameworks.

Our lab is more than satisfied with the easy handling of this metal-free material,

and precision of the case- *it fits like a glove on the model!* ”

*Jim Caruso*

Ottawa Dental Laboratory

# Zirlux<sup>®</sup> Acetal

## Indications

- Partial Denture Frameworks
- Provisional Crowns and Bridges
- Bite Splints
- Cosmetic Smile Enhancers

98.5mm	A1	A2	A3.5	B1	G2 (Bleached)	Price
98.5x15mm	901-1255	901-1256	901-1257	901-1258	901-1259	<b>\$69.99</b>
98.5x20mm	901-1260	901-1261	901-1262	901-1263	901-1264	<b>\$69.99</b>
98.5x25mm	901-1266	901-1267	901-1268	901-1269	901-1270	<b>\$69.99</b>

## Highlights

- Low moisture absorption and fatigue resistant
- No thermal conductivity
- Lower mass/strength ratio makes the final removable denture lighter and improves patient comfort
- Reduce processing time by eliminating labor-intensive metal investing and casting process
- Available in 98.5mm discs
  - Shades: A1, A2, A3.5, B1, G2 (bleach shade)
  - Thickness: 15mm, 20mm and 25mm
