Midmark 630 HUMANFORM[®] Procedures Table

The perfect mix of precision positioning and comfort, the Midmark 630 HUMANFORM[®] procedures table is the new benchmark in efficient, patient-centered design.

Positioning – powered height, back, seat and tilt

Ergonomics – height adjustable from 18 – 40 inches

Efficiency – programmability and optional rotation

Comfort – Motion Profiling[®] for more humanlike movement

Safety – Active Sensing Technology[™]

Because we care.

Manufactured by Midmark Corporation, Versailles OH.

an all-inclusive Clinton exclusive

The Only Thing Missing Is You.

**SEVEN ITEMS,
ONE ORDER NUMBER,
ONE PRICE**

The best and most affordable way to quickly furnish an entire exam room all for a single price. What you see is what you get: our most popular exam table; 48" wall and base cabinets with stainless steel sink and faucet; single, stainless steel glove box holder; 5-leg pneumatic stool; stainless steel waste receptacle and coordinating padded side chair.

Save time and save money with this inclusive, exclusive offer from Clinton!

M9 UltraClave® & Sterilizer

This reliable and efficient sterilizer features a sleek look, quiet-door operation, and pulse-air-removal technology. Front fill-and-drain tube feature means you never have to move it to maintain or drain the water. Load it, set it, and forget it.

- Reliable and easy to use
- Provides quality infection control
- Select your cycle and time is set
- Press "Start" and M9 fills with correct amount of water
- When cycle is complete, door opens automatically and quietly for fast drying time

EZ9, EZ10, and EZ10K Fully Automatic Autoclaves

Fill, sterilize, exhaust, and dry at the touch of a button. Innovative closed-door drying cycle maintains sterility and ensures efficient drying of packs and pouches.

Features:

- Contemporary design with easy-to-read display panel
- Preloaded cycles for unwrapped instruments, wrapped/packs, liquid, and additional drying cycle
- All program parameters can be changed and stored
- Power-outage recovery system
- HEPA-filtered air circulated in chamber after sterilization cycle to dramatically reduce drying time and overall cycle times
- Chamber door remains closed during entire drying cycle, which eliminates risk of airborne pathogens from entering chamber and contaminating instruments after sterilization cycle
- One-touch, fully automatic operation: forget it once you set it
- Optional printer available
- 2-year parts and labor warranty, 10-year chamber warranty

ARC InstaTemp MD™

Engineered with the latest in infrared sensor technology, the ARC InstaTemp MD™ is the only clinically proven non-touch thermometer that measures core body temperature.

- Non-touch device minimizes cross-contamination.
- No probe covers or consumables.
- No re-calibration required over the life of the device.

HSI # (124-4491)

Special offer! When you buy 5
ARC InstaTemp MD's, you get one **at no charge!**

Taking a Temperature

POINT the device above the eyebrows and between the eyes making sure any hair or perspiration is wiped away.

CLICK and hold the button for 2-1/2 seconds.

HOLD the device in place until the temperature appears on the screen.

READ the temperature. A new temperature can be taken in as little as 5 seconds.

Please contact your Henry Schein rep to receive additional device and pricing information.

Digital IQecg™

Makes your job easier with a range of reviewing and editing tools to help increase productivity and efficiency. At the touch of a button, you can capture an abnormal ECG as it appears on screen, enhance the diagnosis with tools like zoom and electronic calipers, quickly edit statements, and perform serial comparison.

Features include:

- Lightweight, portable design, weighing less than 11 oz
- View and monitor live, 12-lead ECG in selectable formats on screen
- Interpret and analyze data for neonate, pediatric, and adult patients via the Midmark 12-lead Resting Electrocardiogram Analysis Program
- Review and edit ECG results on screen with free text or customizable quick-edit statements
- Perform serial comparison with overlay of up to 4 ECG tests
- Save time and reduce data-entry errors by populating patient information directly from your EHR/EMR software
- Facilitate paperless office strategy: eliminate costs of thermal paper and the hassles of scanning and filing patient charts

IQspiro™ Digital Spirometry System

Combines a digital spirometer with innovative software solutions that make it fast and easy to capture, interpret, and retrieve patient information. This digital spirometer also features correct patient positioning that can optimize testing and an eject lever that saves time and alleviates handling of used mouthpieces.

- View real-time Flow/Volume Loop and Volume/Time graphs with fully customizable parameters
- Pre- and post-bronchodilator testing with automatic interpretation
- Eject lever alleviates handling of used mouthpiece
- Accurate and precise; meets or exceeds ATS 2005 Standards
- Lightweight, portable design weighs only 9 oz.
- Correct, ergonomic patient testing orientation
- Easy-grasp, T-shaped-handle design for patient support and stability during testing
- Improved mouthpiece stability and protection with easy-latch door design
- Easy-to-print, full-page reports on standard paper

Burdick ELI™ 280C Touchscreen Electrocardiograph

Compact and lightweight, the ELI™ 280 electrocardiograph provides comprehensive functionality in a portable, touchscreen device. The easy-to-use ELI 280 is designed to meet the demands of high-volume ECG environments. 10½" high-resolution color LCD, with convenient touchscreen, displays up to 12 leads of ECG data for immediate review and plotting. Widely recognized Mortara resting-ECG interpretation algorithm uses gender-specific and adult and pediatric criteria to provide a silent second opinion for resting ECG interpretation. ELI 280 offers a choice of either the innovative WAM™ wireless acquisition module or the AM12™ acquisition module. Both include replaceable lead wires, lead fail indicator, and remote control with buttons for ECG acquisition and rhythm printing. ELI 280 incorporates Mortara's unique Best 10 feature, which automatically selects and displays the best 10 seconds of ECG from memory, reducing the need for repeat ECGs caused by patient movement or other sources of ECG artifact. ELI 280 easily integrates with cardiology management systems for increased efficiency and optimized workflow. With automatic time sync and the ability to obtain orders and reports with a single touch, the ELI 280 can save user time and effort. Experience the benefits of bidirectional communication via internal modem, LAN, or wireless LAN with Mortara's E-Scribe™, as well as third-party PACS systems via XML, PDF, UNIPRO32, and DICOM®.

When it's time to choose an AED
We make it simple

LIFEPAK CR[®] Plus DEFIBRILLATOR

Simple to use

with an intuitive two-step process,
the guidance from our ClearVoice[™]
prompts and no shock button to push.

Simple to own

with automatic self-testing, one of the
longest warranties in the industry and
the lowest cost of ongoing ownership.

Simply put

the LIFEPAK CR Plus automated external
defibrillator from Physio-Control is
the effective, safe and affordable choice
for your customer.

A study published in the Prehospital
Emergency Care Journal showed that
the LIFEPAK CR Plus has the
fastest time to deliver therapy.*

LIFEPAK CR[®] Plus
(106-8280)..... ea

*Andre A, Jorgenson B, Froman J, et al. Automated External Defibrillator
Use By Untrained Bystanders. Prehospital Emergency Care. 2004;8:284-291

AED users should be trained in CPR and the use of an AED. LIFEPAK AEDs
require a prescription in the USA. Please consult your physician.

Vaccine Temperature Data Loggers

EXCEEDS CDC & VFC Vaccine Monitoring Guidelines

Fridge-tag® 2v when connected via USB to a PC or Mac, it creates a PDF and ASCII file. Thanks to the electronic signature the raw data can be verified to be in compliance with the FDA regulations 21 CFR Part 11. This means that each month you obtain a report with the assurance that your temperature-sensitive goods are stored and recorded in accordance with regulations.

Fridge - Alarm Set Points 2.0°C & 8.0°C, w/Vial & Probe (124-0382)ea

Freezer - Alarm Set Points -20.0°C & 1.0°C, w/Vial & Probe (124-0383)ea

LogTag® measures and stores up to 7770 temperature readings over -40 to +99°C measurement range from the remote temperature probe. Statistical temperature and duration readings for up to 30 days can be reviewed on the display. The visual display of current temperature and previous alarms is an important feature in "static" applications such as cool rooms and refrigerators.

(123-6550)ea

Wall Mounting Bracket (124-3196)ea

Powerful Data Logger designed to meet today's CDC's and VFC's requirements for Vaccine Storage and Monitoring. The 1240381 is a SELF CONTAINED DATA LOGGER that requires NO PC SOFTWARE needed to generate a complete Excel CSV report. Monitor both the Ambient Room and Refrigerator (or Freezer) Temperatures & Min and Max Recorded Temperatures Simultaneously on Large Easy to Read LCD Display.

(124-0381)ea

Data Loggers are Certified, Serialized and Provided with a ISO17025 Calibration Certificate, Traceable to NIST accredited by ILAC MRA to assure accuracy and compliance with all regulatory requirements.

Ice-O-Matic ice is the #1 choice

Doctors, surgeons, dentists, hospitals, sports medicine, clinics, orthopedics, and many other medical facilities.

BRAND PROMISE

HENRY SCHEIN®

PRO PLUS SERIES PROFESSIONAL STETHOSCOPE

Combination adult-size chest piece is precisely machined to exacting tolerances from surgical stainless steel for outstanding performance and rugged durability. Available in 3 striking colors for departmental coding or personal identification.

- Extra-large bell (1 $\frac{3}{8}$ " diameter) for unsurpassed low-frequency response
- Ultrasensitive diaphragm (1 $\frac{7}{8}$ " diameter) for greater amplification and crisper high-frequency response
- Stainless steel binaurals with double-leaf internal spring fixed at 15° angle for greater comfort
- Reinforcing yoke molded into flexible 22" PVC "Y" tubing
- Deluxe PVC ear tips (in small and large) for the ultimate in wearing comfort and acoustic seal
- Spare diaphragm included
- Not made with natural rubber latex
- Lifetime warrant

RADIOGRAPHIC SOLUTIONS

COMPUTED RADIOGRAPHY

Vita Flex CR

Ideal for small to mid-size hospitals, clinics and practices that need a compact digital solution at an affordable price.

ImagePilot

This workhorse computed radiography system provides basic X-ray image acquisition to complete PACS functionality in one easy-to-use system.

SPECIALITY SYSTEMS

Orthopedic, Clinics, Hospitals, Chiropractic, General Radiology, Emergency, Veterinary and other applications.

If you can dream it we can make it happen.

SERVICE & SUPPORT

Merry X-Ray's local Sales and service teams are available to provide unsurpassed service and meet all of your imaging needs.

TRADITIONAL RADIOGRAPHY

Economical choices for high performance imaging. Choose from an entire system to meet your needs or choose specific components to update your current installation.

PACS

Suite of digital radiology tools to achieve the most fully integrated patient database, imaging and communications system on the market today.

Disaster Recovery

Lossless HIPAA compliant disaster recovery copy of every exam. Exams are automatically forwarded to the disaster recovery archive.

DIGITAL RADIOGRAPHY

AeroDR

The easiest way to achieve Digital workflow. Faster, More Flexible and More Intelligent, with the highest quality and reliability!

DR+ Wireless

Exceptional quality with advanced software. Ideal for use in both new systems or as a retrofit to your existing hardware. The panel goes directly into the bucky or cassette tray for a quick install.

Straight Arm DR U-Arm DR

Our line of DR solutions use integrated flat panel detectors to provide a superior imaging experience over standard analog film or CR. DR offers advanced image quality and full DICOM functionality allowing for the most efficient workflow.

IMAGE ARCHIVING SOLUTIONS

PACS, RIS, EHR, and Disaster Recovery

- ✦ Customizable workflows
- ✦ Meaningful use stage 2 compliance
- ✦ View from any device - FAST!
- ✦ Any size PACS from small office and modalities to large enterprise web enabled packages

HOLOGIC™

The Women's Health Company

Horizon Bone Densitometer

The Horizon DXA System offers a multi-element detector array that incorporates the same high-definition technology used in modern CT devices. Capture highly detailed images you can trust — even when imaging large, obese patients. With its low-noise detectors, the Horizon DXA provides the power to assess an expanded range of clinical conditions with speed and precision. Hologic's detector array also works in concert with a new high-capacity X-ray generator to increase heat-load capacity for longer life — with no cool-down time. Not only does this help increase patient throughput, it improves image quality. The Horizon DXA System's remarkable, high-resolution images are designed to enrich lives — yours and your patients.

Features:

- Atypical Femur Fracture Assessment
- Abdominal Aortic Calcification
- Instant Vertebral Assessment™ Scan with low-dose image in 10 seconds
- BMD Histogram
- Hologic's exclusive Internal Dynamic Calibration System

The Henry Schein/Siemens ACUSON Family

A. ACUSON X150™ Ultrasound System

Delivering Top Performance. Outstanding Value. Exceptional Reliability.

This ultrasound system delivers an outstanding combination of diagnostic performance, ergonomics and scalability—at an extraordinary value.

B. ACUSON X300™ Ultrasound System

Performance Meets Accessibility

This ultrasound premium edition (PE) system is designed to offer exceptional imaging in all patient body types, enabled by technologies pioneered by Siemens. Providing superior imaging performance across a wide range of clinical applications and advanced features.

C. ACUSON X600™ Ultrasound System

The Best of What Matters Most

This ultrasound system provides heavyweight performance in an agile, lightweight package. It's founded on an advanced imaging engine typically reserved for higher-end systems.

D. ACUSON X700™ Ultrasound System

Diagnostic Confidence, Investment Confidence

This easy-to-operate core system leverages sophisticated imaging technologies to boost efficiency and provide rapid, uniform visualization. With an advanced imaging engine and enhanced transducer compatibility, this system is built to run like a champion in any ultrasound environment.

E. ACUSON P300™ Ultrasound System

The Complete, Portable Patient Care Solution

Small in size, this portable ultrasound system is big on performance with dual processing, supporting multiple exam types, applications and clinical environments. It offers excellent image quality, a full range of transducers, multiple ports and streamlined workflow.

NEW

F. ACUSON P500™ Ultrasound System, FROSK Edition

Adaptable, Flexible and Durable

This ultrasound system is a portable engineered point-of-care unit to better serve a wide range of environments and patient types. It delivers sophisticated technologies from across our portfolio to ensure unprecedented image quality, plunkability, and smart workflow all in a compact notebook format.

G. ACUSON Freestyle™ Ultrasound System

Modern Healthcare, Meets Modern Technology

This ultrasound system sets the pace for modern healthcare. Its advanced technologies, including the industry's first wireless ultrasound transducers, are designed to streamline operation and sterile field management.

MOMENTUM[®] By Visual MED

MOMENTUM Printer Replacement App

Eliminates the 40 year old thermal printer technology from your 21st century ultrasound system and links your images to your EMR, in support of Meaningful Use requirements.

(121-7238)

MOMENTUM makes your ultrasound system a "Network Imaging Device" that communicates with your EMR for less than the cost of a thermal printer.

What does MOMENTUM do?

1. Acquires your ultrasound images and makes them available for your EMR.
 - Supports your Meaningful Use part 2 'Image Results' requirement.
2. Auto Archives your ultrasound images.
 - Eliminating the costly, cumbersome, and complicated PACS.
3. Allows you to send images to your expectant mom's smart phone.
 - The images are anonymized so no patient information is available to send or share.
 - Enhances your patient's practice experience.

MOMENTUM also works great for Urology, Pain Management, and Vascular practices and can be used with Ultrasound, Bone Densitometry, C-Arm, and Digital X-ray.

Everything you need to set up, you already have:

- DICOM ultrasound system
- Existing WIN PC/laptop
- Network connection for your ultrasound system

Call your Henry Schein Rep for more information or to set up an evaluation to test for yourself.

Cutting Edge New or Reliable Refurbished ASC Medical Equipment

LABORATORY

From Otsuka America Pharmaceutical, Inc.

The POCone® Infrared Spectrophotometer

The POCone is an in vitro diagnostic device used in conjunction with BreathTek® UBT for *H. pylori*.

The POCone measures the ratio of $^{13}\text{CO}_2$ to $^{12}\text{CO}_2$ in breath samples taken before and after a patient ingests a solution containing ^{13}C -urea, and then calculates the difference in concentration ratios between the post-dose and pre-dose samples, and displays the results.

SPECIFICATIONS	THE POCone
Size	8.6" wide x 10.7" high x 14.2" deep
Weight	22 lbs
Warm-up time	10 min
Analysis time	Approx. 2 min
Batching	No
Timer	Yes
Sleep mode	No
Power	AC 120 V, 60 Hz
Power consumption	200 VA (Watts)

Technical Support for the POCone is available at 888.637.3835.

For more information and device support, please visit:

CoaguChek XS® System

PT/INR Monitoring Solution

The next generation in point-of-care prothrombotin (PT) and international normalized ratio (INR) testing, this new system uses exclusive smart technology to help ensure accurate results and offers the flexibility and control that health care professionals need to confidently manage a wide range of anticoagulated patients. It is the only system to perform onboard quality control and determine patient results in a single-test chamber.

- CLIA waived
- Neutralizes therapeutic levels of heparin and LMWH
- INR corrected for hematocrit within specified range; manage a broad array of patients with a single device
- Small sample size (10 μL) for easy dosing
- Strip allows dosing from either top or side for simple blood application
- Small, battery-powered, handheld meter for portability and efficiency
- Onboard controls; no external QC necessary
- Auto-on with strip insertion and auto-off capabilities
- 18-month strip shelf life; no refrigeration needed
- **Made in the USA**

GIVE YOURSELF AND YOUR PATIENTS WITH DIABETES THE COMPLETE PICTURE

iPro®2 Professional Continuous Glucose Monitoring

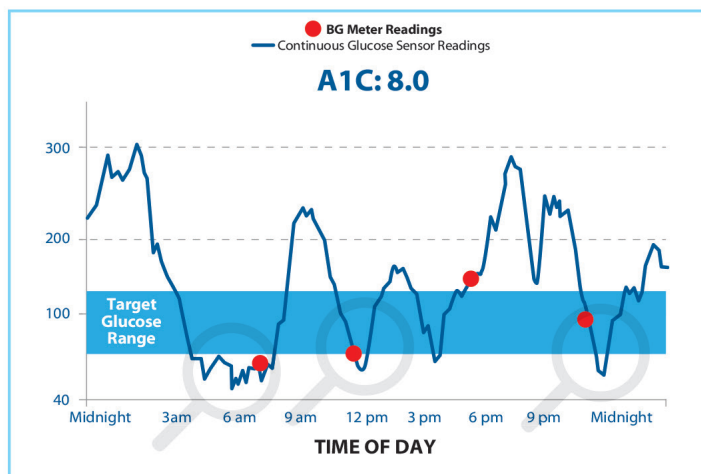

With iPro2 professional CGM, you can:

- Quickly uncover hidden highs and lows that A1C and BG tests cannot capture
- Quick evaluation with insightful reports that make adjustments more effective¹
- Coach and educate your patients on the link between lifestyle and glucose levels

Your patients who may benefit from iPro2:

- Are not at their target A1C
- Have recurrent hypoglycemia and/or hypoglycemic unawareness
- Experience highs after meals
- Are taking oral medications such as sulfonylureas

Afinion™ Test System

The Afinion™ AS100 Analyzer provides valuable near-patient testing for today's health-care professionals. It utilizes the latest technology and provides a simple, fast, and reliable method to monitor patients' disease progression.

- Multi-assay analyzer system
- 3-minute HbA1c, CLIA-waived
- 5-minute albumin/creatinine ratio (ACR)
- Reliable, lab-quality results
- No manual calibration required
- Unique integrated fail-safe system
- Allows for input of patient and operator IDs
- Easy sample collection and operation, minimal training required
- Short test time provides the opportunity for more timely treatment changes

TRUEresult® BLOOD GLUCOSE MONITORING SYSTEM

Features audible fill detection, easy-to-read display, 500-test memory, a weekday display, 7-, 14-, and 30-day averaging, glucose control detection, 4 testing reminders, ketone testing reminder, a strip release button, auto on/off, and data management capabilities.

- A no-coding system with high performance features
- Clinically proven accurate
- Lifetime warranty
- Only requires a tiny, 0.5-mL blood sample
- Provides accurate results in as fast as 4 seconds

(112-7066)ea

Contains: TRUEresult® meter, installed 3-volt battery, lancing device, 10 lancets, instructions for use, self-test log book & compact carrying case.

TRUEtest™ TEST STRIPS

For use with the TRUEresult® Blood Glucose Monitoring Systems. TRUEtest™ Test Strips use Quad-Electrode Laser Accuracy for enhanced precision and accuracy. They also use the patented TRUEfill® beveled tip, which allows for precise entry of blood sample.

(112-6827)50/box

Hb 201+ Handheld Hemoglobin Analyzer

Offers the same important benefits as its predecessor, the B-Hemoglobin Photometer. Smaller size gives more flexibility and mobility to use the system anytime and anywhere. Performs an internal self-test. No control cuvette required.

- Produces results in less than 1 minute with lab-quality accuracy
- 3 easy steps
- Precalibrated, portable analyzer that requires minimal maintenance
- No calibration or instrument manipulation (between cuvette/reagent batches) is needed
- Safe and easy to use
- Reimbursable
- CLIA '88 waived
- 2-year warranty

Glucose 201 Analyzer

The HemoCue Glucose Systems are based on a glucose-dehydrogenase method and consist of a small, dedicated analyzer and a unique, disposable microcuvette. They will produce lab-accurate results for diagnosing or monitoring diabetes, as well as monitoring neonatal blood glucose levels.

- More accurate and 68% higher reimbursement than glucose meters
- FDA-compliant unit when screening and diagnosing
- Analyzer: 0–444 mg/dL (0–24.6 mmol/L)
- Only 5 µL of capillary, venous, or arterial blood is needed
- No inherent limitations related to hematocrit or known drug interferences
- No recalibration needed between cuvette lots
- 2-year warranty

URISPEC™ URINALYSIS CONTROLS

For Most Brands of Routine Urine Dip Sticks and Pregnancy Tests

A bilevel product packaged in plastic tubes and dropper bottles. Controls are liquid, ready-to-use, and are designed to validate urinalysis reagent strips. Packaged in plastic dip tubes and dropper bottles, they are convenient and easy to use. Long open- and closed-vial stability at 2°C–8°C for 2 years unopened, or 90 days once the Dip Control is opened, and 180 days once the Drop Control is opened. This allows the user ample time to utilize the product before expiration, resulting in cost savings.

- Values for all pregnancy test brands
- Assays for common brands of urine dip for routine urinalysis (2 parameter-10SG)
- Includes values for microalbumin, creatinine, and hCG
- Two distinct levels (normal and abnormal)
- Closed vial dating up to 2 years with refrigerator storage
- 30-day stability at room temperature

BD Veritor™ System

Accurate, simple, fast, and trusted, this is the first CLIA-waived digital immunoassay (DIA), a new category of diagnostic tests where the assay and instrument work together to combine advances in detection particles, optical image recognition, and interpretation algorithms to improve accuracy. Advanced Particle Technology enhances sensitivity by using a proprietary process to produce highly stable modified colloidal metal particles, helping improve test performance. Adaptive Read Technology helps improve specificity to reduce false-positive results by compensating for background and nonspecific binding.

BD Veritor System Group A Strep Test

The first CLIA-waived digital immunoassay (DIA) for the rapid detection of Group A strep (GAS) with an instrumented result. Test device is ready to insert into reader 5 minutes after sample is added. Once the test device is inserted in the reader, an objective, digital test result is displayed in 10 seconds.

- Sample type: Throat swab sample
- Sensitivity*: 95.4%
- Specificity*: 95.7%

#256040
(992-0006).....30/box

CPT® Code: 87880QW†

*Reference method: Bacterial culture; data from package insert.

BD Veritor System RSV CLIA Waived Kit

The first CLIA-waived RSV test referenced against a higher sensitivity standard than culture. Test device is ready to insert into reader 10 minutes after sample is added. The same sample processed for RSV can also be used for flu A+B. Digital results displayed in 10 seconds.

- Sample type: NP swab sample
- Positive percent agreement (PPA): 81.6%
- Negative percent agreement (NPA): 99.1%

#256038
(121-7553).....30/box

CPT® Code: 87807QW†

BD Veritor™ System Flu A+B Test Kit

The first CLIA-waived flu A+B test referenced against PCR, a higher sensitivity standard than culture. Device is ready to insert into reader 10 minutes after same is added.

- Positive percent agreement (A/B): 82.1%/74.6
- Negative percent agreement (A/B): 98.6%/99.6%
- Positive agreement vs. PCR for current visual read rapid tests ranges from 10% to 70%
- Streamlined workflow: Provides a digital result in <11 minutes, with <50 seconds of hands-on time

Triage® MeterPro™ Meter

High-performance, comprehensive cardiovascular and drugs-of-abuse testing in the laboratory or at the point of care (POC). Designed to provide diagnostic results quickly and easily. Quantitative diagnostic panel results are displayed and printed in easy-to-read numbers and highlighted when the result is above the cutoff. Qualitative diagnostic panel results are displayed as positive (POS) or negative (NEG), eliminating the need for interpretation of lines that often hamper qualitative diagnostics.

- Customizable test panels
- 16 immunoassays available
- Results in about 15 minutes
- Whole blood, plasma, or urine
- Onsite training and implementation support
- Results printed, displayed, and interfaceable
- Full connectivity support

Alere™ Cholestech LDX® System

Complete Lipid Profile, Glucose

Lab-accurate lipid profile, glucose, ALT, AST, and hs-CRP results in about 5 minutes* from a simple fingerstick. Allows provider to get results while patient is still in office—provider can counsel and intervene face-to-face. This improves patient compliance and increases control and management of heart disease and diabetes. Reimbursable by Medicare and most private payers.

- CLIA waived**
- Procedure saves time and enhances productivity
- Small, tough, and portable
- Eliminates anxiety of venipuncture; requires only a fingerstick
- On-the-spot adjustment of therapy and improved patient compliance
- Accuracy comparable to laboratory tests
- Saves time: fewer follow-up visits required
- Enhances compliance through teachable moments between healthcare providers and patients

LABORATORY

Sample In. Answer Out.

On-Site Molecular Diagnostics Changes What's Possible

We are designing a world where breakthrough diagnostics will empower everyone to make optimal healthcare decisions. Our easy-to-use tests and scalable systems deliver actionable results. But even with 18 FDA cleared tests, we are just getting started. Connecting bold ideas in new, unexpected ways — that's the innovative spirit driving us to revolutionize patient care.

For more information, contact your Henry Schein sales representative.

*Xpert Flu/RSV XC is for *in vitro* diagnostic use by non-waived laboratories. Xpert Flu+RSV Xpress is FDA cleared for use by both CLIA-waived and non-waived laboratories.

Cepheid
A better way.

Provide convenient and quality patient care in your practice while you also increase profitability.

Henry Schein Medical's LabTeam™ is a single source for advice within the laboratory setting. With specific expertise in lab consultation and analysis, the LabTeam™ improves your patients' experiences in the office, while navigating profitability and regulatory requirements.

FEATURES:

- Consultation
- Design
- Financing
- Selection
- Implementation
- Support/Training

HENRY SCHEIN
LabTeam
SOLUTIONS FOR CLINICAL LABS

BENEFITS:

- Improve patient satisfaction with convenient onsite testing
- Expedite ability to diagnose with rapid turnaround of results
- New or expanded sources of revenue
- Stay current on technology/reimbursement/regulatory changes
- Custom laboratory management solutions for cost-effective operations

LABORATORY

MicroScan autoSCAN-4 System with LabPro Computer

The autoSCAN-4 System processes panels in seconds, simplifying identification and antibiotic susceptibility testing (ID/AST) while standardizing results. Over 30 years of exceptional instrument reliability and our conventional panel technology make the autoSCAN-4 an excellent supplemental system for difficult organisms or as a primary instrument for low-volume usage.

Features:

- Automated read of bacterial ID and susceptibility in seconds
- Supports testing for difficult and slow-growing species
- Computerized system automatically records and interprets instrument results

MicroScan WalkAway 40 Plus System with LabPro Computer

The WalkAway Plus System is the 4th generation of proven WalkAway technology and reliability. The WalkAway Plus System includes LabPro Information Management software designed to simplify workflow and minimize technologist interaction while accommodating differing regional and institutional environments through extensive customization features.

Features:

- Delivers gold-standard accuracy for microorganism identification and susceptibility testing
- Delivers accurate emerging resistance detection for the toughest pathogens, including VISA, VRSA, and MRSA
- Supports multiple workload needs with 40-capacity models
- Automated incubation, test interpretation, and reagent control

XN-Series™ Automated Hematology Analyzer

Greater Possibilities by Design

Onboard decision rules and advanced parameters are standard offerings of the XN-Series™. Includes advanced clinical parameters, including nucleated red blood cell counts (NRBCs) with every complete blood count (CBC), immature granulocytes with every diff, RET-He within the Reticulocyte profile and a fluorescent platelet channel for immature platelet fraction (IPF). The series-wide compact design delivers a smaller footprint for increased physical productivity.

- Modular design
- Onboard decision rules
- 88-µl sample volume
- Remote monitoring

i-STAT® Handheld System

This fully automated system provides accurate results in minutes for a wide range of tests using just 2 or 3 drops of Xblood.

- Weighs 18 oz, making it portable
- Requires no special sample preparation or user calibration; maintenance is minimal
- Easy to use: Insert blood on the cartridge, insert cartridge into the analyzer and view the results in minutes
- Operator and patient information can be entered via barcode scanner
- Operator lockout prevents unauthorized users from performing or viewing test results
- Test results are uploaded automatically when placed in the downloader

#04J60-20, iSTAT Handheld System

Piccolo Xpress® Chemistry Analyzer

This fully automated chemistry analyzer provides the accuracy of larger laboratory analyzers in a compact and portable system.

- Small footprint occupies very little counter space
- Easy to use: load sample, insert disc and read results
- 11 panels are CLIA waived—largest menu on a single platform
- Self-contained reagent discs deliver complete results in 12 minutes
- Only 0.1 cc of whole blood, serum or plasma needed to perform the test
- 5 bidirectional USB ports for easy connectivity to EMR/LIS or peripherals
- Barcoded discs self-calibrate with every run and minimize data input errors
- iQC™ system provides continuous quality control checks on every run to eliminate the potential for erroneous results

#07P05-01, Piccolo Xpress® Chemistry Analyzer
(106-6368) ea

SIEMENS

Dimension® EXL™ 200 Integrated Chemistry System

This system offers revolutionary LOCI® advanced chemiluminescent technology and automated, productivity-enhancing features for the smaller-sized laboratory.

Immunoassay:

- 167 tests per hour
- Homogeneous chemiluminescent technology
- Short reaction times: no washing or separation steps
- Excellent STAT testing capability
- Low sample volume required

Trusted, proven technologies:

- LOCI® advanced chemiluminescence, with a maximum throughput of 624 tests per hour (437 photometric tests per hour, 187 ISE tests per hour)
- Heterogeneous module
- Photometry
- QuikLYTE® IMT
- User-defined serum index (HIL) testing
- Automation capabilities

Fewer manual tasks:

- No manual reagent preparation
- No manual sample pretreatment
- No limit or dedicated STAT positions required

ACE Axcel® Clinical Chemistry System

Alfa Wassermann is the Market Leader in POL Chemistry

Based on proven instrument technology, the ACE Axcel Clinical Chemistry System provides reliable, accurate results in a small footprint. With over a decade of award-winning customer excellence, it's no surprise that Alfa Wassermann is #1 in chemistry analyzers for the Physician Office Laboratory.

THE ACE AXCEL® CLINICAL CHEMISTRY SYSTEM

- Run between 15 CMP/Lipids to 50 CMP/Lipids per day
- Ready-to-use liquid reagents
- No external water or waste drain required
- Closed tube sampling improves safety and workflow

Access® 2 Immunoassay System

With an intuitive operator interface, enhanced sample handling and innovative menu, the state-of-the-art Access 2 system delivers new levels of laboratory efficiency, standardization and cost effectiveness. A broad menu of high-quality assays from Beckman Coulter and productivity-enhancing features on the Access 2 offer laboratories a flexible option for immunoassay testing. Maximum throughput of 100 tests per hour for one-step assays and 50 tests per hour for two-step assays.

Products Features:

- Touch-panel user interface improves data and sample management
- View rack and run completion time on screen, in real time
- Link up to 4 systems through a single LIS interface for greater efficiency
- Magnetic particle separation with chemiluminescent detection technology achieves wide analytical range and fast assay processing
- 24 resident assays with continuous random access and STAT capability
- Onboard refrigeration enhances reagent stability

GOLD STANDARD™
DIAGNOSTICS

ThunderBolt® Automated Immunoassay Analyzer

The ThunderBolt® software adapts to your laboratory to enable maximum productivity and deliver highly reliable results. The Test Designer and Report Designer combine with the multitude of other features to make ongoing operation of your ThunderBolt® as effortless as possible. The Test Designer allows configuration of virtually any EIA or chemiluminescence assay protocol down to the most minute detail.

- High capacity: 192-sample capacity
- Open architecture: Program any EIA or CLIA protocol (CLIA requires CLIA + EIA configuration)
- Adaptable: Up to 8 different protocols in a single batch
- High-precision microsyringe: Aspirate 1 µl with less than 3% CV
- Convection incubator: Eliminate "edge effect" by evenly heating each well
- Orbital shaker: No-spill design, up to 900 RPM
- Built-in reader: Ultra-compact and fully automated reader
- Onboard camera: Remote diagnostics for maximum uptime
- Intuitive, open, flexible software: Powerful test designer, custom report generator, LIS compatible, bidirectional interface

NanoEnTek
Revolutionary Wave for Human Welfare

FREND™ System

This quantitative immunoassay analyzer utilizes disposable kits to provide in-vitro diagnostic results for TPSA. The accurate, automated testing procedure—a simple, 3-step operation—provides results in 4 minutes. No need to batch your sample—run when you are ready. This fully automated device is equipped with an easy-to-use touchscreen interface. The FREND™ is compact and lightweight, allowing for portability.

- With electronic code-chip calibration, there's no need to run liquid calibrators
- Daily electronic system QC control takes only 1½ minutes
- Controls run a minimum of once a month

NanoEnTek
Revolutionary Wave for Human Welfare

FREND™ Free T4 Test

Measures the level of free T4 to estimate the actual amount of T4 flowing in the blood and eventually the function of the thyroid gland. Fast and accurate, quantitative in-vitro diagnostic of the protein in human serum or plasma based on the lab-on-a-chip technology. Disposable cartridge designed for insertion into the FREND system. Free thyroxine (FT4) is a valuable test to complement our trusted TSH assay. On average, for every 3 TSH tests currently performed in the physician-office laboratory, an FT4 is requested. You can now perform the FT4 along with the TSH in your own lab.

#FT4-020, Free T4 Test
(124-9389).....20/box
Contains: 20 FREND FT4 cartridges, 20 FREND FT4 pretreatment tubes, 30 disposable pipette tips and FREND FT4 code chip.

SIEMENS

Advia Centaur® XP Immunoassay System

This high-performance system has more onboard reagents and dedicated STAT capabilities to maximize productivity, regardless of volume or types of tests. Offers "always ready" continuous operation without interruption.

System offers:

- **Comprehensive disease state menu:**
 - Reproduction
 - Infectious disease
 - Thyroid
 - Oncology
- **Capacity for any size lab:**
 - Centaur XP—up to 240 tests per hour
 - 30 onboard assays
- **Productivity and efficiency for patient-focused laboratories**
 - Predictable turnaround times with dedicated STAT sample loading
 - Automatic dilution, repeat, and reflex testing
 - Smart algorithm software automatically repeats and confirms reactive hepatitis testing
 - Siemens Remote Service (SRS) proactively maintains connection with Siemens service team

HENRY SCHEIN® POWERSPIN™ CENTRIFUGE

Features a 6-place angled rotor designed for 2–10 mL tubes (maximum tube size up to 16 mm x 110 mm) and a fixed speed of 3400 rpm, generating 1350 RCF (g) for superior specimen separation. Set the 0–30-minute timer to desired run length.

- Maintenance-free, brushless motors run quietly at a fixed speed of 3400 rpm, emitting only 58dB, all with a low temperature rise
- Suction-cup rubber feet hold unit firmly in place while virtually eliminating vibration
- Lid features a gasket to reduce aerosol emissions, a window for strobe speed checks, and a safety interlock switch that cuts power to motor if lid is raised
- Dimensions: 10.2" x 11.8" x 7.9"
- Weight: 15 lb
- 115 V/60 Hz

#C806, Fixed Speed, 6 Place

CardinalHealth Traceable® Mini-Alarm Timer/Stopwatch

Featuring an extra-large, 4-digit LCD that can be read from 8 ft away, this timer/stopwatch can be programmed in the countdown mode from 99 minutes, 99 seconds to zero in any second increment. In the stopwatch mode, the unit will count up to 59 minutes, 59 seconds, and automatically roll over to zero and continue timing. The high-decibel alarm can be turned off manually or is automatically silenced after 1 minute. Individually numbered keys make it easy to set the timer, which is accurate to 0.01%. A magnetic back allows it to be placed on incubators, titrators, and most lab equipment. Timer also has a flip-open easel for standing on the lab bench, a spring fastener for clipping to a lab coat, and a hole for a lanyard. Comes with a 2-year, continuous-use silver-oxide battery. The timer is supplied with an ISO 17025 serial-numbered certificate to indicate traceability to standards provided by NIST. Dimensions: 2½" x 2¼" x ½". Weight: 1½" oz.

#C6510-12
(288-0616).....ea

Traceable® is a registered trademark of Control 3, Inc.

CardinalHealth Traceable® Triple-Display Timer

Displays 3 test lines of 1"-digits that can be read from across the lab. Times can be set from 19 hours, 59 minutes, 59 seconds to 1 second. When zero is reached, the timer starts counting up to show the lapsed time since the alarm sounded. Additional features of this timer include stopwatch, time out and time of day. The timer can be programmed for 3 different countdown times that can be started simultaneously or separately. Repetitive tests can be done easily because the memory returns the display to the previously programmed countdown time at the touch of a button. The high-decibel alarm may be turned off manually or is automatically silenced after 1 minute. A magnetic back allows timer to be placed on incubators, titrators, and most lab equipment. Timer comes with a 2-year AAA battery and is supplied with an ISO 17025 serial-numbered certificate to indicate traceability to standards provided by NIST. Dimensions: 2½" x 3¾" x ¾". Weight: 3 oz.

Hettich EBA 200/200S Tabletop Centrifuge

The EBA 200, Hettich’s new, high-performance clinical centrifuge, offers simplicity and safety within a compact, elegant frame. For convenient operation, the EBA 200 features a built-in, high-performance, 8-place, fixed-angle rotor and a bright, updated LCD display. The EBA 200 is ideal for small-batch clinical chemistry applications. The higher performance version of the centrifuge, the EBA 200S, is STAT capable and achieves PPP with platelet counts of less than 10,000 platelets/μL in minutes.

Features:

- Compact and powerful clinical tabletop centrifuge for standard blood tubes
- Run-Silent™ operation
- Easy-Lift™/Safety-Lock™ lid
- 5-year warranty
- FDA-registered centrifuge manufacturer

Hettich EBA 270 Tabletop Centrifuge

The Hettich EBA 270 is a compact tabletop centrifuge for the clinical laboratory. Ideal for the physician’s office, the centrifuge comes prepackaged with a built-in 90° horizontal rotor for blood, and round-bottom tubes up to 15 mL. Hettich packages include a centrifuge, rotor, buckets, adapters, and biocontainment lids (when applicable).

Features:

- For gel blood tubes
- Ideal for physicians’ offices
- 90° swing-out built-in rotor
- Maintenance-free, brushless motor
- Run-Silent™ operation
- Safety-Lock™ lid
- 5-year warranty

EBA 280/280S Clinical Tabletop Centrifuge

The EBA 280, Hettich’s new, high-performance clinical centrifuge, offers versatility, convenience, and safety in a compact, elegant frame. The EBA 280 is ideal for serology, STAT, PPP, coagulation, and clinical chemistry applications. The higher performance version of the centrifuge, the EBA 280S, is able to provide flat separation PPP with platelet counts of less than 10,000 platelets/μL in minutes.

Features:

- Memory control system
- Run-Silent™ operation
- Easy-Lift™/Safety-Lock™ lid
- 5-year warranty
- Ergonomic Quick-Lift™ Rotor System
- Compact and powerful clinical tabletop centrifuge for 90° flat separation of all standard blood, urine, and pediatric tubes

Hettich Universal 320/320R Benchtop Centrifuge

The Universal 320 offers laboratories a true workflow benefit due to its vast capabilities as a midsized, general-purpose, tabletop centrifuge. Available with temperature control, the Universal 320R refrigerated centrifuge offers a unique, fast-cool function that will lower the unit to 4°C in 10–15 minutes, saving you valuable time spinning delicate samples.

Whether you are working with blood, urine, cell/tissue culture, plates, or cytology, the Universal 320 benchtop centrifuge will provide consistent, accurate results spin after spin.

Features:

- All-metal containment
- Run-Silent™ operation
- Easy-Lift™/Safety-Lock™ lid
- 5-year warranty
- Rugged, versatile, indispensable benchtop
- Multifunctional, general-purpose centrifuge

CONTINUOUS INNOVATION FOR PATHOLOGY

CardinalHealth

Securline® Markers II

Our cytology/histology markers have virtually permanent ink that resists solvents, including alcohol and xylene. Markings are designed to withstand cryogenic temperatures when applied to frosted surfaces. Use for labeling Superfrost® slides and plastic-embedding cassettes. Test before using on actual specimens.

CardinalHealth Paraffin Wax Dispenser

This paraffin wax dispenser has a small, compact footprint with a capacity of 5 liters (approximately 1¼ gal). Heated valve helps ensure a consistent flow of molten wax, and the dispenser valve can be locked in the open position if desired. Aluminum inner reservoir provides excellent thermal transfer and temperature control, and also helps prevent large particulates from clogging the dispenser valve. Standard 2-year manufacturer's warranty.

Specifications:

Overall dimensions:
16"H x 8½"W (40.6 cm x 21.6 cm)
Temperature range:
104°F–167°F (40°C to 75°C, ± 2°C)
Approvals certified:
UL61010-1 and CSA C22.2 standards
Electrical: 115 VAC, 50/60 Hz, 250 W

Economy and Premium Microtome Blades

These high-grade steel blades are manufactured using advanced machinery with multiphased processes, and tested using composition analyses to ensure quality performance. Economy disposable microtome blades for routine sectioning are composed of high-quality stainless steel. Premium disposable microtome blades are used for routine specimens and biopsies; premium high-profile blades are chromium-plated. Chromium-plated enhanced durability blades are used for biopsies and dense tissues. 80 mm in length with blade angle of 35°.

Ameraffin® LP Tissue Embedding Medium

Used for embedding and infiltration. This blend of highly refined paraffin with a low concentration of polymers minimizes infiltration time while allowing thin sections to be cut. Ameraffin® LP Medium provides consistent morphology with minimal compression and cell disruption. Free-formed flakes melt uniformly from 131°F–134.6°F (55° to 57°C).

#M7347-1, 2-lb Bag
(582-3571)..... 10/case

CardinalHealth

Ameraffin® Tissue Embedding Medium

Combines highly refined paraffin that has narrow carbon-chain distribution with polymers to provide minimal compression and ultrathin sections. Quality ribbons of flat, thin sections highlight morphological detail. Ameraffin® medium can be used for both embedding and infiltrating. It can also be substituted for an existing embedding medium with little or no change in methodology. An antioxidant has been added to help prevent discoloration and inhibit stain fading. Melts uniformly from 131°F–134.6°F (55°C to 57°C).

Histological Freezing Spray

For use in histology laboratories, our moisture-free and nonflammable freezing spray is used to flash-freeze tissue specimens in the cryostat, or harden difficult-to-cut tissue on the microtome during sectioning. Helps lab technicians conduct their histology work the right way, each and every time.

GIVE YOURSELF AND YOUR PATIENTS WITH DIABETES THE COMPLETE PICTURE

iPro[®]2 Professional Continuous Glucose Monitoring

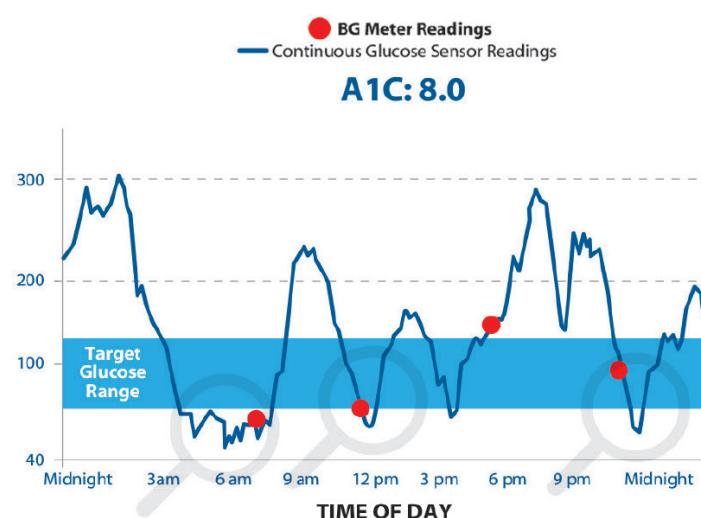

With iPro2 professional CGM,
you can:

- Quickly uncover hidden highs and lows that A1C and BG tests cannot capture
- Quick evaluation with insightful reports that make adjustments more effective¹
- Coach and educate your patients on the link between lifestyle and glucose levels

Your patients who may benefit
from iPro2:

- Are not at their target A1C
- Have recurrent hypoglycemia and/or hypoglycemic unawareness
- Experience highs after meals
- Are taking oral medications such as sulfonylureas
