WHY CHOOSE HENRY SCHEIN AS YOUR PARTNER IN OFFICE DESIGN?

Through the optimal use of space, equipment and design elements, the Henry Schein National Design Group will transform your practice into a well-organized business as well as an efficient public space that offers the ultimate in patient care. Our design experts offer state-of-the-art 3-dimensional office renderings to help ensure that your new office will be perfect!

A well-designed facility communicates the care and attention you have invested in your practice and in your patients. The professionals at the Henry Schein National Design Group know how to help you to achieve the perfect practice environment.

MAKE YOUR DREAM OFFICE A REALITY

Our designers specialize in coordinating ergonomics and design elements to help your practice function more efficiently. Our knowledge of healthcare design enables us to create your optimal working environment.

Working in tandem with our national team of Medical Consultants and Equipment Specialists, our designers create architectural space plans for office remodeling, expansion and new construction. Our plans contain a wealth of information designed to optimize the placement and installation of medical equipment. We work closely with architects, contractors and manufacturers to help physicians achieve their practice goals and maximize patient satisfaction.

Your Henry Schein Medical Consultant along with our design group will work with you throughout the entire process, from identifying your needs to delivering a customized solution. Once the design is finalized, our team will assist with equipment selection, ordering and delivery.

THE HENRY SCHEIN NATIONAL DESIGN GROUP WILL CREATE AN OFFICE DESIGN THAT WILL GIVE YOUR PRACTICE ALL THE ADVANTAGES:

- Improved patient care
- Increased efficiency
- Increased comfort for staff and patients

A SINGLE SOURCE FOR ALL YOUR HEALTHCARE NEEDS

Henry Schein is the largest global distributor of healthcare products and services to office-based practitioners. Our dedicated team of Medical Consultants and Equipment Specialists work with thousands of customers each day, across multiple practice specialties and organization types. We offer a comprehensive selection of pharmaceuticals, medical/surgery supplies and capital equipment to meet the needs of today's medical offices.

If your large practice is building, expanding or redesigning the office environment, let our National Design Group help make your dream office a reality.

Ask us about our Premiere and Premiere Select Office Design services:

- **Premiere Office Design** – Up to 10 hours of core design service that provides you with overall best-practices consultation, preliminary planning of your office space (plus modifications), 3D rendering, and a physical blueprint to document the layout of rooms, equipment and considerations for design
- **Premiere Select Office Design** – Up to 20 hours of design service that provides all the benefits of Premiere plus equipment and technology specifications added to the blueprints that clearly identify and highlight the power, cabling, computer networking and assorted technology needs for the office

"Our goals of exceptional patient experience and ideal working environment were achieved, thanks to Henry Schein".

—Dr. Kirk Davies

"I highly recommend the Henry Schein Design Group. They exceeded all my expectations and were extremely helpful throughout the entire project. They were wonderful to work with and made the entire process fun! If I had the chance to do it all over again—I wouldn't change a thing".

—Drs. Paul & Faith Tetting
