

COVID-19 SAFETY PRECAUTIONS

How dentists are taking action.

1 UPGRADED PPE

Team members have upgraded their personal protective equipment (PPE) for all appointments. Between patients, we will meticulously clean and disinfect surfaces and sterilize instruments.

2 VIRTUAL WAITING ROOM

You can check in via text message and wait somewhere outside the clinic, such as in your car.

3 SCREENING

Both patients and the team are screened for COVID-19 symptoms and risk factors before each appointment.

4 AIR PURIFICATION

To help make the air quality sanitary, many dentists have even invested in high-efficiency air purification systems.
