**Ultrasound Imaging Excellence
at the Point of Care**

Introducing **Versana Active**

Versana Active™ ultrasound system delivers the imaging capability of a console in a hand-carried, lightweight package that enables you to take your system to your patients, on premises or remote facilities. This reliable system brings the agility of a laptop unit with the capability of attaching to a cart, while being small enough to fit into tight spaces.

Designed with Efficiency in Mind:

Advanced Ultrasound Capabilities by Versana Active™

Let's reimagine the future of Ambulatory Surgery Centers (ASCs). As more clinical exams and procedures flow into ASCs, the demand for innovative, efficient, and high-quality equipment is imperative for the rebuilding journey.

Keep up with the increase in patient volume by investing in a first-class and competitively priced ultrasound imaging solution with GE's Versana Active, offered exclusively by Henry Schein Medical.

A Comprehensive Solution

The light, portable Versana Active makes exams comfortable for you and your patients. Perform abdominal, OB/GYN, cardiac, MSK and vascular exams, and more – plus needle-guidance procedures. This highly adaptable system lets you add a cart to create a full-featured console system and suit your practice needs. Fast boot-up lets you place the system in standby, then instantly scan the next patient who needs imaging. Advanced clinical applications and automated tools simplify exams, streamline workflow, and enable fast, high-volume scanning.

Dependable service and support for peace of mind

GE Healthcare delivers flexible, multi-year coverage to ensure long life, high uptime, efficient patient throughput, and strong return on investment.

Affordability and Dependability in a Compact System

Advanced capability in a compact system, the image quality on Versana Active™ ranks with the best in its class. ***High spatial and contrast resolution*** help you clearly visualize anatomical structures and physiological function and make confident decisions at the point of care.

Whizz one-touch dynamic image constantly optimizes image quality as you scan, even as you move from one organ or region to another. By migrating technology from across the ultrasound portfolio, you get advanced capabilities from our higher-end consoles in a world-class yet affordable compact.

Expert service engineers always close by

Simple maintenance, troubleshooting and repair

InSite™ service technology for fast remote diagnostics and streamlined clinical applications support

Five-year standard warranty

CrossXBeam™ and SRI-HD
to define structure borders
clearly of the gall bladder.

A Superior Partner. A Brand You Can Trust.

GE's Versana Active is offered by Henry Schein Medical, your trusted advisor for developing resources and offering products and solutions for your rebuilding journey.

We understand investing in your ASC requires adequate cash flow and an efficient workflow system. It's time to enjoy the convenience of high-quality equipment at a cost-effective price.

Improve your clinical outcomes and operational efficiency by ordering your equipment and supplies from a single platform. Streamline your ordering experience with Henry Schein Medical and our Surgical Solutions Specialist team of consultants.
